प्राक्कथन

राष्ट्रीय प्रतिदर्श सर्वेक्षण कार्यालय (एनएसएसओ) द्वारा किए गए असमाविष्ट गैर-कृषि उद्यमों के सर्वेक्षण विनिर्माण, व्यापार तथा अन्य सेवा क्षेत्र (निर्माण को छोड़कर) में असमाविष्ट गैर-कृषि उद्यमों की आर्थिक और प्रचालनात्मक विशेषताओं के विभिन्न संकेतकों के बारे में राष्ट्रीय तथा राज्य स्तर पर आंकड़ों के बुनियादी स्रोत हैं। इन आंकड़ों का उपयोग नियोजन, नीतिनिर्माण, निर्णय में सहायता तथा विभिन्न सरकारी संगठनों, शिक्षाविदों, शोधकर्ताओं और विद्वानों द्वारा सांख्यिकीय प्रक्रियाओं में इनपुट के रूप में किया जाता है। 67वें दौर के दौरान (जुलाई 2010 से जून 2011), राष्ट्रीय प्रतिदर्श सर्वेक्षण कार्यालय (एनएसएसओ) ने विनिर्माण, व्यापार तथा अन्य सेवा क्षेत्र (निर्माण को छोड़कर) में असमाविष्ट गैर-कृषि उद्यमों की आर्थिक तथा प्रचालनात्मक विशेषताओं पर एक अखिल भारतीय उद्यम सर्वेक्षण किया था। इस सर्वेक्षण का क्षेत्र कार्य राष्ट्रीय प्रतिदर्श सर्वेक्षण कार्यालय (एनएसएसओ) के क्षेत्र संकार्य प्रभाग (एफओडी) द्वारा किया गया था जिसमें केन्द्रीय प्रतिदर्शों को सम्मिलित किया गया था। अधिकांश राज्य सरकारों ने भी समान प्रतिदर्श आकार के आधार पर इस सर्वेक्षण में सहभागिता की थी।

सर्वेक्षणों के परिणाम एनएसएसओ द्वारा कई रिपोर्टों में प्रकाशित किए जाते हैं जो केन्द्रीय प्रतिदर्श आंकड़ों पर आधारित होते हैं। एनएसएसओ का यह निरन्तर प्रयास रहा है कि वह अपने सर्वेक्षणों के परिणामों को शीघ्रतिशीघ्र प्रकाशित करे ताकि इसके प्रयोगकर्ताओं की आवश्यकताओं को समय पर पूरा किया जा सके। इस लक्ष्य को ध्यान में रखते हुए तथा सर्वेक्षण के मुख्य परिणामों की रिपोर्ट पहले ही उपलब्ध होने के मद्देनजर, एनएसएसओ ने जून 2012 में असमाविष्ट गैर-कृषि उद्यमों पर एनएसएस के 67वें दौर के मुख्य परिणामों को जारी कर दिया था तथा दूसरी असमाविष्ट गैर-कृषि उद्यमों के प्रचालन की विशेषताएं रिपोर्ट को नवम्बर 2012 में जारी किया। वर्तमान रिपोर्ट, श्रृंखला में अंतिम होते हुए, भारत तथा राज्यों में केन्द्रीय प्रतिदर्श पर आधारित असमाविष्ट गैर-कृषि उद्यमों की कुछ प्रचालनात्मक विशेषताओं के अनुमान प्रस्तुत करती है।

इस रिपोर्ट में तीन अध्याय और तीन अनुबंध हैं। पहले अध्याय में परिचय दिया गया है और सर्वेक्षण में प्रयुक्त संकल्पनाएं/परिभाषाएं अध्याय दो में दी गई हैं। रिपोर्ट के अध्याय तीन में मुख्य निष्कर्ष प्रस्तुत हैं। राज्य/संघ राज्यक्षेत्र और अखिल भारतीय स्तर से संबंधित विस्तृत सारणियां अनुबंध-क में इस रिपोर्ट के साथ संलग्न सीडी में दी गई हैं। अनुबंध-ख में प्रतिदर्श अभिकल्प और अनुमान प्रक्रिया व्याख्यायित की गई हैं। आंकड़ा संग्रहण के लिए प्रयोग की गई अनुसूचियों का एक प्रतिरूप अनुबंध-ग एवं घ में दिया गया है।

एनएसएसओ के अलग-अलग प्रभागों द्वारा विभिन्न कार्यकलापों के बेहतरीन नियोजन और निष्पादन तथा एनएसएस के सहायक अधिकारियों और स्टाफ की कड़ी मेहनत से यह प्रतिवेदन वर्तमान रूप में संभव हो सका है। मैं राष्ट्रीय सांख्यिकीय आयोग (एनएससी) के सदस्यों तथा एनएसएस के 67वें दौर के कार्यदल समूह के सदस्यों को उनके रचनात्मक सुझाव और मार्गदर्शन के लिए आभारी हूँ जिनसे रिपोर्ट में सुधार लाने में मदद मिली।

आशा है कि यह प्रतिवेदन योजनाकारों, नीतिनिर्माताओं, शिक्षाविदों तथा शोधकर्ताओं के लिए उपयोगी होगा। इसकी विषय-वस्तु एवं इसके दायरे में सुधार हेतु सुझावों का स्वागत है।

Preface

The unincorporated non-agricultural enterprise surveys conducted by NSSO are the primary source of data on various indicators of economic and operational characteristics of unincorporated non-agricultural enterprises in manufacturing, trade and other service sectors (excluding construction) at national and state levels. These are used for planning, policy formulation, decision support and as an input for further statistical exercises by various Government organizations, academicians, researchers and scholars. During 67th round (July 2010 to June 2011), NSSO carried out an all-India enterprise survey on economic and operational characteristics of unincorporated non-agricultural enterprises in manufacturing, trade and other service sectors (excluding construction). Field work of the survey was carried out by the Field Operations Division (FOD) of National Sample Survey Office (NSSO) in which the central samples are covered. Most of the State Governments also participated in the survey on matching sample size basis.

The results of the surveys are brought out by the NSSO in a number of reports, based on its central sample. It has been the persistent endeavour of NSSO to bring out its survey results at the earliest to meet the timely requirements of its users. With that aim in mind and with a view to making available the salient results of the survey, well in advance of the release of its reports, the NSSO had already published one report on Key Results of NSS 67th round on unincorporated non-agricultural enterprises in June 2012 and another report on Operational Characteristics of unincorporated non-agricultural enterprises in November 2012. The present report, being last in the series, presents the estimates of some economic characteristics of unincorporated non-agricultural enterprises in India and States based on central sample.

This report contains three Chapters and three Appendices. Chapter One gives the introduction while concepts / definitions used in the survey are given in Chapter Two. The main findings are presented in Chapter Three of the report. Detailed tables at State / UT and All India level are given in Appendix A in a CD attached with the report. Sampling Design and Estimation Procedure are explained in Appendix B. Facsimiles of schedules used for data collection are given in Appendices C & D.

This report in its present form has been possible because of the efforts made by the different Divisions of NSSO in meticulous planning and execution of various activities involved and the hard work done by the supporting officials and staff of NSSO. I am thankful to members of National Statistical Commission (NSC) and Working Group of NSS 67th round for their constructive suggestions and guidance which helped in improving the report.

It is hoped that the report will be found useful by planners, policy makers, academicians and researchers. Suggestions for improvement of its contents and coverage will be highly appreciated.

मुख्य बातें

67वें दौर के सर्वेक्षण में एक स्तरीकृत बहुचरणीय अभिकल्प का उपयोग किया गया था। प्रथम चरण इकाइयां (प्र.च.इ.) ग्रामीण क्षेत्र के लिए जनगणना ग्राम (केरल के मामले में पंचायत वार्ड) और नगरीय क्षेत्र में नगरीय ढांचा सर्वेक्षण (न.ढा.स.) खंड थे। दोनों क्षेत्रों में अंतिम चरण इकाइयां (यू.एस.यू.) उद्यम थे।

ग्रामीण क्षेत्रों के लिए जनगणना 2001 ग्रामों की सूची को प्रतिदर्श ढांचा के रूप में प्रयोग किया गया था। केरल में, जनगणना 2001 के अनुसार पंचायत वार्डों की सूची को ढांचे के रूप में प्रयोग किया गया, क्योंकि ऐसे वार्डों की सूची आर्थिक गणना (आ.ग.)-2005 के ढांचे के अनुसार उपलब्ध नहीं थे। नगरीय क्षेत्र में, जनगणना 2001 के अनुसार आ.ग.-2005 ढांचे का प्रयोग 10 लाख से अधिक जनसंख्या वाले 26 शहरों के लिए किया गया। यद्यपि मुम्बई 10 लाख से अधिक जनसंख्या वाला शहर था, आ.ग.-2005 ढांचा का प्रयोग पहचान की समस्या के कारण मुम्बई के लिए नहीं किया जा सका। अन्य शहरों/नगरों (मुम्बई सहित) के लिए न.ढा.स. ढांचा (2002-07 चरण या यदि यह उपलब्ध न हो तो 2002-07 से पूर्व अद्यतन उपलब्ध चरण) का प्रयोग किया गया।

जनगणना 2001 के अनुसार 647970 ग्रामों से चयनित 8380 ग्रामों के प्रतिदर्श आवंटन में से 8296 ग्रामों में सर्वेक्षण किया गया और न.ढा.स. ढांचा के अनुसार 441538 नगरीय खंडों से चयनित 7620 नगरीय खंडों के प्रतिदर्श आवंटन में से 7602 नगरीय खण्डों में सर्वेक्षण किया गया। पूरे देश में विनिर्माण ब्यापार, एवं अन्य सेवाओं, क्रियाकलापों में संलग्न करीब 3.34 लाख उद्यमों से सूचना एकत्रित किया गया। सभी असमाविष्ट गैर-कृषि उद्यमों, निर्माण को छोड़कर, को सूचीबद्ध किया गया, जिसमें से कुल 334474 आँकड़ा जुटाने के लिए चयनित हुआ। 334474 उद्यमों में से ग्रामीण क्षेत्रों में 162375 और नगरीय क्षेत्रों में 172099 थे। इन उद्यमों में से करीब 49 प्रतिशत ग्रामीण क्षेत्रों से सर्वेक्षित था। इसके अलावे कुल सर्वेक्षित उद्यमों का 66 प्रतिशत स्व कार्यरत उद्यमों (OAEs) का था।

- ✓ 2010-11 के दौरान अखिल भारतीय स्तर पर निर्माण को छोड़कर 5.77 करोड़¹ असमाविष्ट गैर-कृषि उद्यमों को प्राक्कलित किया गया। जिसमें से 30 प्रतिशत उद्यम विनिर्माण में थे, 36 प्रतिशत ब्यापार में एवं 34 प्रतिशत उद्यम सेवा क्षेत्र में थे।
- ✓ प्राक्कलित (अनुमानित) असमाविष्ट गैर-कृषि उद्यमों के कुल संख्या का करीब 54 प्रतिशत ग्रामीण क्षेत्रों में था और 46 प्रतिशत नगरीय क्षेत्रों में
- ✓ सर्वेक्षण सीमा क्षेत्र के तहत असमाविष्ट, गैर-कृषि उद्यमों का प्रमुख शेयर (85%) स.का.उ.(OAEs) के पास था। अखिल भारतीय स्तर पर स.का.उ.(OAEs) की सुस्थिति अधिक संख्या में सभी तीन विस्तृत क्रियाकलापों की श्रेणियों - जैसे - विनिर्माण में (84%), ब्यापार (86%) और अन्य सेवाएँ (84%) में थी।
- ✓ 4.9 करोड़ स.का.उ.(OAEs) में से नगरीय क्षेत्र के 42 प्रतिशत स.का.उ.(OAEs) की तुलना में 58 प्रतिशत स.का.उ.(OAEs) ग्रामीण क्षेत्र में थे। तो भी नगरीय क्षेत्र में स्थापना अधिक थी। सर्वेक्षण क्षेत्र के तहत 89 लाख स्थापना में, ग्रामीण क्षेत्र के 30 प्रतिशत स्थापना की तुलना में नगरीय क्षेत्र की हिस्सेदारी 70 प्रतिशत स्थापनाओं की है।

¹ (1 करोड़ = 10⁷)

- ✓ 'ब्यापार' में उद्यमों का प्रतिशत ग्रामीण एवं नगरीय दोनों क्षेत्रों में सबसे अधिक था, ग्रामीण (34%) एवं नगरीय (38%) और संयुक्त क्षेत्र के लिए भी (36%) था। 'अन्य सेवाओं' के उद्यमों का विस्तृत श्रेणी क्रियाकलापों में दूसरा सबसे अधिक शेयर (34%) विनिर्माण के (30%) के शेयर से आगे था।
- ✓ इस सर्वेक्षण से यह प्रकाशित हुआ कि उत्तर प्रदेश का शेयर असमाविष्ट गैर-कृषि उद्यमों के कुल संख्या में सबसे अधिक (14.5%) था, इसके बाद पश्चिम बंगाल का (12.6%), आंध्र प्रदेश (9.7%), महाराष्ट्र (8.9%) एवं तमिलनाडू (7.8%) था। अखिल भारतीय स्तर पर ये पाँचों राज्य में असमाविष्ट गैर-कृषि उद्यमों का प्रतिशत 53.6 पाया गया।
- ✓ 2010-11 के दौरान निर्माण को छोड़कर असमाविष्ट गैर-कृषि उद्यमों के क्रियाकलापों में करीब 10.8 करोड़ कामगार संलग्न थे। कुल अनुमानित कामगारों में से 51 प्रतिशत नगरीय क्षेत्र में एवं 49 प्रतिशत ग्रामीण क्षेत्र में देखे गए।
- ✓ स.का.उ.(OAEs) ग्रामीण भारत में सर्वेक्षण क्षेत्र के तहत कामगारों का प्रमुख शेयर रखता था। अखिल भारतीय स्तर पर संलग्न कामगारों में स.का.उ.(OAEs) की सुस्थिति, जो सभी तीन विस्तृत क्रियाकलापों-यथा, विनिर्माण (60%), ब्यापार (72%) और सेवा (63%), में संलग्न थे। तौ भी ओएडएस से उपर स्थापना में कामगारों का शेयर नगरीय क्षेत्रों में मामूली अधिक दर्ज हुआ, विनिर्माण में (53%) एवं अन्य सेवाओं में (51%)
- ✓ 'अन्य सेवा' क्षेत्र ग्रामीण, नगरीय क्षेत्रों के लिए सबसे अधिक कामगारों का प्रतिशत (36%) रखता था और ग्रामीण एवं नगरीय संयुक्त के लिए भी सबसे अधिक (36%) था। अखिल भारतीय स्तर, पर 'व्यापार' एवं 'विनिर्माण' के पास कामगारों का करीब बराबर शेय (32%) था।
- ✓ उत्तर प्रदेश का कुल कामगारों की संख्या में सबसे अधिक शेयर (15%) था, इसके बाद आंध्र प्रदेश (11%) पश्चिम बंगाल (11%), महाराष्ट्र (9%) एवं तमिलनाडू (8%)। ये पाँचों राज्य के लिए निर्माण को छोड़कर असमाविष्ट गैर-कृषि क्षेत्र के कुल कामगारों का 54 प्रतिशत था।
- ✓ अखिल भारतीय स्तर पर असमाविष्ट गैर-कृषि उद्यमों में 26.4% महिला कामगार लगे हुए थे। प्रमुख राज्यों में आंध्र प्रदेश के पास महिला कामगारों का प्रतिशत (46.8 %) सबसे अधिक था।
- ✓ असमाविष्ट गैर-कृषि उद्यमों द्वारा दिया गया वार्षिक कुल मूल्य योग 628356 करोड़ रु. प्राक्कलित था। विनिर्माण क्षेत्र 154720 करोड़ रुपये का अभिदान दिया, व्यापार क्षेत्र 243725 करोड़ रूपया, और अन्य सेवाओं में संलग्न उद्यमों ने 229911 करोड़ रु. का अभिदान किया। राज्य स्तरीय अभिदान में महाराष्ट्र का 76864 करोड़ रु., और इसके बाद उत्तर प्रदेश का (65841 करोड़ रु.) था।
- ✓ अखिल भारतीय स्तर पर असमाविष्ट गैर-कृषि-क्षेत्र में प्रति उद्यम दिया गया वार्षिक कुल मूल्य 108951 रु. था। यही ग्रामीण भारत के लिए 64114 रु. एवं नगरीय भारत के लिए 160667 रु. था।

- ✓ अखिल भारतीय स्तर पर असमाविष्ट गैर-कृषि-क्षेत्र में प्रति कामगार दिया गया वार्षिक कुल मूल्य 58193 रू. था । ग्रामीण भारत के लिए यही मूल्य 37241 रू. और नगरीय क्षेत्रों के लिए तदनु रूप प्राक्कलन 78527 रू. था । अखिल भारतीय स्तर पर, ब्यापार में संलग्न उद्यमों के लिए, प्रति कामगार दिया गया सबसे अधिक कुल वार्षिक मूल्य 71412 रू. प्राक्कलित था ।
- ✓ अखिल भारतीय स्तर पर भाड़े के मजदूर की वार्षिक परिलब्धियाँ 47016 रू. प्राक्कलित था । ग्रामीण क्षेत्रों में भाड़े के प्रति मजदूर वार्षिक परिलब्धियाँ 36354 रू. एवं यही नगरीय क्षेत्रों में 51602 रू. था ।
- ✓ अखिल भारतीय स्तर पर प्रति उद्यम स्व-निर्धारित परिसम्पत्ति का मूल्य 203364 रू. था । अन्य सेवाओं में संलग्न उद्यमों स्व निर्धारित परिसम्पत्ति का मूल्य प्रति उद्यम 281590 रू. दर्ज किया गया था जो कि विनिर्माण (144501 रू.) और ब्यापार (177872 रू.) से अधिक था ।
- ✓ सर्वेक्षण ने यह प्रकाशित किया कि प्रति उद्यम देय वार्षिक किराया 5821 रू. था । विनिर्माण, ब्यापार, एवं अन्य सेवाओं के उद्यमों के लिए प्रति उद्यम देय प्राक्कलित वार्षिक किराया क्रमशः 5486 रू., 3006 रू., और 9078 रू. था ।
- ✓ सर्वेक्षण ने यह प्रकाशित किया कि अखिल भारतीय स्तर पर 2010-11 के दौरान प्रति उद्यम बकाया कर्ज एवं ब्याज 17681 रू. था ।
- ✓ अखिल भारतीय स्तर पर प्रति उद्यम प्रचालन व्यय का वार्षिक मूल्य 379009 रू. था । ऐसा देखा गया है कि मूल व्यय, कुल प्रचालन व्ययों का 94% लेखित हुआ ।
- ✓ सर्वेक्षण ने यह प्रकाशित किया कि अखिल भारतीय स्तर पर प्रति उद्यम प्राप्त का वार्षिक मूल्य 489755 रू. था । मूल प्राप्त कुल प्राप्तियों का 91% लेखित हुआ ।
- ✓ अखिल भारतीय स्तर पर 2.45 लाख बिना लाभ वाली संस्थाएँ सर्वेक्षण अवधि के दौरान 13.61 लाख कामगारों को नियोजित किया ।

Highlights

A stratified multi-stage design had been used in 67th round survey. The first stage units (FSU) were the census villages (Panchayat wards in case of Kerala) in the rural sector and Urban Frame Survey (UFS) blocks in the urban sector. The ultimate stage units (USU) were enterprises in both the sectors.

Census 2001 list of villages had been used as the sampling frame for rural areas. In Kerala, list of panchayat wards as per Census 2001 was used as frame since list of such wards were not available as per Economic Census (EC) - 2005 frame. In the urban sector, EC-2005 frame was used for 26 cities with population more than a million as per census 2001. Although Mumbai was a million plus city, EC-2005 frame could not be used for Mumbai because of identification problem. For other cities/towns (including Mumbai), UFS frame (2002-07 phase or latest available phase prior to 2002-07 if it was not available) was used.

The survey was conducted in 8296 villages out of a sample allocation of 8380 villages selected from 647970 villages as per census 2001 and in 7602 urban blocks out of a sample allocation of 7620 urban blocks selected from 441538 urban blocks as per UFS frame. Information was collected from about 3.34 lakh enterprises engaged in the manufacturing, trade and other services activities throughout the country. All unincorporated non-agricultural enterprises, excluding construction, were listed; of which a total of 334474 were selected for data collection. Of those 334474 enterprises, 162375 were in rural areas and 172099 were in urban areas. About 49 per cent of these enterprises surveyed belonged to the rural sector. Moreover, 66 per cent of the total surveyed enterprises were Own Account Enterprises (OAEs).

- ✓ During 2010-11, 5.77 crore¹ unincorporated non-agricultural enterprises excluding construction were estimated at the all-India level. Out of them, 30 percent enterprises were engaged in manufacturing, 36 percent enterprises were in trading and 34 percent enterprises were in service sector.

- ✓ Of the total number of unincorporated non-agricultural enterprises estimated, about 54 per cent were located in rural areas and 46 per cent were located in urban areas

¹ (1 crore = 10⁷)

- ✓ OAEs had the dominant share (85%) of unincorporated non-agricultural enterprises under survey coverage. At all-India level, OAEs outnumber establishments in all the three broad activity categories namely 'Manufacturing' (84%), 'Trade' (86%) and 'Other Services' (84%).
- ✓ Out of 4.9 crore OAEs, 58 percent OAEs were in rural sector against 42 percent OAEs in urban area. However Establishments were higher in urban areas. Out of 89 lakh establishments under survey coverage, urban area has a share of 70 percent establishments against 30 percent in rural area.
- ✓ 'Trade' had the highest percentage of enterprises for both rural (34%) and urban (38%) sectors and also for combined sector (36%). 'Other Services' had next highest share (34%) of enterprises among broad activity categories followed by 'Manufacturing' (30%).
- ✓ The survey revealed that Uttar Pradesh had the highest share (14.5%) in total number of unincorporated non-agricultural enterprises followed by West Bengal (12.6%), Andhra Pradesh (9.7%), Maharashtra (8.9%) and Tamil Nadu (7.8%). These five states accounted for 53.6 percent of unincorporated non-agricultural enterprises at all-India level.
- ✓ About 10.8 crore workers were engaged in unincorporated non-agricultural enterprise activities excluding construction during 2010-11. Out of the total estimated number of workers, 51 percent were located in urban areas and 49 percent were located in rural areas.
- ✓ OAEs had dominant share of workers under survey coverage in rural India. At all-India level, workers engaged in OAEs outnumber those engaged in establishments in all the three broad activity categories namely, manufacturing (60%), trade (72%) and service (63%). However, urban areas recorded slightly higher share of workers in establishments over OAEs in 'Manufacturing' (53%) and 'Other Services' (51%).
- ✓ The sector 'Other Services' had the highest percentage of workers (36%) for rural, urban and also for rural & urban combined (36%) areas. At all India level 'Trade' and 'Manufacturing' had almost equal share (32%) of workers.
- ✓ Uttar Pradesh had the highest share in total number of workers (15%) followed by Andhra Pradesh (11%), West Bengal (11%), Maharashtra (9%), and Tamil Nadu (8%). These five states accounted for 54 percent of total workers of the unincorporated non-agricultural sector excluding construction.

- ✓ At All India level 26.4% female workers are engaged in un-incorporated non-agricultural enterprises. Among the major states Andhra Pradesh had highest (46.8 percentage) of female workers.
- ✓ Aggregated Annual Gross Value Added by the un-incorporated non-agricultural enterprises was estimated as Rs. 628356 crores. Manufacturing Sector contributed Rs. 154720 crores, Trading Sector contributed Rs. 243725 crores and enterprises engaged in other services contributed Rs. 229911 crores. At state level contribution of Maharashtra was Rs. 76864 crores followed by Uttar Pradesh (Rs. 65841 crores).
- ✓ At All India level Annual Gross Value Added per enterprise in un-incorporated non-agricultural sector was Rs. 108951. The same for rural India was Rs. 64114 and for urban Indian was Rs. 160667.
- ✓ At All India level Annual Gross Value Added per worker in un-incorporated non-agricultural sector was Rs. 58193. For rural India the same was Rs. 37241 and the corresponding estimate for urban areas was Rs. 78527. At all India level highest Annual Gross Value Added per worker for enterprise engaged in trading was estimated at Rs. 71412.
- ✓ Annual emoluments per hired worker at All India level was estimated at Rs. 47016. Annual emoluments per hired worker in rural areas was Rs. 36354 and the same in urban areas was Rs. 51602.
- ✓ Value of own fixed assets per enterprise at All India level was Rs. 203364. Enterprises engaged in other services had recorded the value of own fixed asset per enterprise as Rs. 281590 which was higher than manufacturing (Rs. 144501) and Trading (Rs. 177872).
- ✓ The survey revealed that the Annual Rent Payable per enterprise was Rs. 5821. For manufacturing, trading and other services enterprises, the Annual Rent Payable per enterprise were estimated at Rs. 5486, Rs. 3006, Rs. 9078 respectively.
- ✓ The survey revealed that outstanding loan and interest per enterprise at All India level during 2010-11 was Rs. 17681.

- ✓ The Annual Value of operating expenses per enterprise at All India level was Rs. 379009. It has been observed that principle expenses accounted for 94% of the total operating expenses.
- ✓ The survey revealed that the Annual Value of Receipt per enterprise at All India level was Rs. 489755. The principle Receipt accounted for 91% of total Receipts.
- ✓ There were 2.45 lakh non-profit institutions during the survey period employing 13.61 lakh workers at All India level.

Chapter One

Introduction

1.1.1 The National Sample Survey Office (NSSO), Ministry of Statistics and Programme Implementation (MOSPI), Government of India, since its inception in 1950 has been conducting nationwide integrated large scale sample surveys, employing scientific sampling methods, to generate data and statistical indicators on diverse socio-economic aspects. During the period 1st July 2010 to 30th June 2011, NSSO carried out an all-India enterprise survey on economic and operational characteristics of unincorporated non-agricultural enterprises in manufacturing, trade and other service sector (excluding construction).

1.1.2 The household-based non-agricultural activities, irrespective of their scale of operations, were covered in the surveys of NSSO in the early periods. The non-household based units in the unorganised sector thus remained outside the coverage, primarily due to non-availability of a comprehensive frame and background information needed for formulating an efficient sampling design. The need for auxiliary information on areas of concentration of enterprises for stratification purpose was strongly felt for developing more efficient sampling designs. This demand ultimately culminated in the conduct of periodic Economic Censuses (EC), which provided the frame for the follow-up surveys on non-agricultural enterprises including the non-household based units in the service sector.

1.1.3 With the launching of the first EC in 1977, the follow-up surveys of EC on unorganised manufacturing and service sector enterprises generally used the village and block level information on number of enterprises/workers as per the EC for selection of villages and urban blocks in the first stage. The approach of data collection from enterprises was also changed from the 'household approach' used earlier (i.e. prior to the launching of EC) to the 'site approach' wherever such sites existed.

1.1.4 Last surveys of enterprises on trade, unorganised manufacturing and service sectors (excluding trade and construction) were conducted during 53rd round (January – December 1997), 62nd round (July 2005 – June 2006) and 63rd round of NSS (July 2006 – June 2007) respectively. Other enterprise surveys carried out in between were 55th round (informal sector enterprises, 1999-2000), 56th round (unorganised manufacturing, 2000-2001) and 57th round (unorganised service sector excluding trade, finance and construction, 2001 –2002).

1.2 Objective of the unincorporated non-agricultural enterprises survey

1.2.1 The main objective of the unincorporated non-agricultural enterprise surveys conducted by NSSO was to get estimates of various economic and operational characteristics of unincorporated non-agricultural enterprises in manufacturing, trade and other service sector (excluding construction) at national and State level. The survey was designed to estimate value of key characteristics per enterprise like average no. of workers, fixed assets, outstanding loans, total receipts, total operating expenses and gross value added separately for ‘Own Account Enterprises (OAEs)’ and ‘establishments’. Information on various operational characteristics like ownership, nature of operation, location, status of registration etc., were also collected to have an insight into economic scenario of the unincorporated non-agricultural enterprises in the country. These economic and operational indicators are required for planning, policy and decision making at various levels, both within the government and outside. These aspects of the unorganised enterprise sector are captured in detail in the present NSS survey and estimates are generated.

1.2.2 The enterprises covered in NSS 67th round were divided into three broad industry groups, viz. (i) manufacturing, (ii) trade and (iii) other service sector enterprises. Under the above sectoral coverage, enterprises were categorised into two types, the first type being Own Account Enterprises (OAE) i.e. those enterprises that do not employ hired workers on a fairly regular basis in the reference year and the second type being Establishments employing at least one hired worker on a fairly regular basis in the reference year. The eligibility criteria for an enterprise to be covered in the survey was at least 30 days of operation (15 days of operation for seasonal enterprises / SHGs) in the reference year i.e. “last 365 days preceding the date of survey”.

1.3 Survey outline of unincorporated non-agricultural survey

1.3.1 Geographical coverage: The survey covers the whole of the Indian Union *except* (i) interior villages of Nagaland situated beyond five kilometres of the bus route and (ii) villages in Andaman and Nicobar Islands which remain inaccessible throughout the year. Leh (Ladakh) and Kargil districts of Jammu & Kashmir did not have any separate sample first-stage units (FSUs) for ‘central sample’. For these two districts, sample FSUs drawn as ‘state sample’ was considered as central sample.

1.3.2 Sub round: The survey period of one year was divided into four sub-rounds of three months’ duration each as follows:

sub-round 1 :	July - September 2010
sub-round 2 :	October - December 2010
sub-round 3 :	January - March 2011
sub-round 4 :	April - June 2011

In each of these four sub-rounds equal number of sample first stage units (FSUs) i.e. villages/blocks were allotted for survey with a view to ensuring uniform spread of sample FSUs over the entire survey period. Every attempt was made to survey each of the FSUs during the sub-round to which it was allotted. Because of the arduous field conditions, this restriction was not strictly enforced in Andaman and Nicobar Islands, Lakshadweep and rural areas of Arunachal Pradesh and Nagaland.

1.4 Subject Coverage:

1.4.1 The coverage of NSS 67th round (July 2010 – June 2011) was non-agricultural unincorporated enterprises belonging to three sectors viz., Manufacturing, Trade and Other Services. The survey considered the following broad categories of enterprises:

- (a) Manufacturing enterprises excluding those registered under Sections 2m (i) and 2m (ii) of the Factories Act, 1948.
- (b) Manufacturing enterprises registered under Section 85 of Factories Act, 1948.
- (c) Enterprises engaged in cotton ginning, cleaning and baling (code 01632 of National Industrial Classification (NIC) - 2008) excluding those registered under Factories Act.
- (d) Enterprises manufacturing bidi and cigar excluding those registered under bidi and cigar workers (condition of employment) Act, 1966.
- (e) Trading enterprises.
- (f) Other Service sector enterprises excluding construction.

The Ownership categories of enterprises under coverage in (a) to (f) above was

- (a) Proprietary and partnership enterprises.
- (b) Trusts, Self-help groups (SHGs), Non-Profit Institutions (NPIs), etc.

And the following ownership categories of enterprises were excluded from the coverage of the survey:

- (a) Enterprises which are incorporated i.e. registered under Companies Act, 1956.
- (b) Government and public sector enterprises.
- (c) Cooperatives.

1.4.2 *Outline of sample design:* A stratified multi-stage design had been adopted for the 67th round survey. The first stage units (FSU) were the census villages (Panchayat wards in case of Kerala) in the rural sector and Urban Frame Survey (UFS) blocks in the urban sector. The ultimate stage units (USU) were enterprises in both the sectors. In case of large FSUs, one

intermediate stage of sampling was done by the selection of three hamlet-groups (hgs)/ sub-blocks (sbs) from each large rural/ urban FSU.

1.4.3 Sampling frame: Census 2001 list of villages were used as the sampling frame for rural areas. Auxiliary information such as number of enterprises, number of workers, type of enterprises, activities of enterprises, etc. available from EC-2005 frame were used for stratification, sub-stratification and selection of enterprises. In Kerala, list of panchayat wards as per Census 2001 were used as frame since list of such wards is not available as per EC 2005 frame. In the urban sector, EC-2005 frame was used for 26 cities with population more than a million as per census 2001. Although Mumbai is a million plus city, EC-2005 frame was not used for Mumbai because of identification problem for IV unit/blocks in the EC for the city. For other cities/towns (including Mumbai), UFS frame (2002-07 phase or latest available phase prior to 2002-07 if it was not available) was used.

1.4.4 Schedules of enquiry: During this round, the following two schedules of enquiry were canvassed, viz. Schedule 0.0: list of households and non-agricultural enterprises and Schedule 2.34: unincorporated non-agricultural enterprises (excluding construction). The detail concepts and definition of the main schedule (i.e. Schedule 2.34) is discussed in Chapter Two while in Appendix C, the schedule is reproduced.

1.4.5 Out of the total number of 16000 FSUs (8380 villages and 7620 urban blocks) allotted for the central sample, 15898 FSUs (8296 villages and 7602 urban blocks) could be surveyed at the all-India level for canvassing Schedule 2.34. The total number of enterprises surveyed was 334474 (162375 in rural areas and 172099 in urban areas). The State-wise detailed allocation of FSU and corresponding numbers of surveyed FSU is given in Table A1. The sample design and estimation procedure used for the survey is given in Appendix B document.

1.5 NSS 67th round Reports on unincorporated non-agricultural enterprises

1.5.1 The results of NSS rounds are released in reports based on comprehensive tabulation of subject parameters and indicators in various cross classifications generated from the central sample data. Corresponding to NSS 67th round survey, NSS first published a Key Report in June 2012 covering key indicators of unincorporated non-agricultural enterprises (excluding construction). Besides this key report the results are planned for release in other two reports covering ‘operational characteristics’ and ‘economic characteristics’ of unincorporated non-agricultural enterprises (excluding construction) respectively. NSSO has already published a report named ‘Operational characteristics of unincorporated non-agricultural enterprises (excluding construction)’ in November 2012, which covers the operational characteristics of the

studied enterprises. The present report, the last in the sequel, discusses the ‘economic characteristics’ of unincorporated non-agricultural enterprises (excluding construction) in details.

1.6 Contents of the present report:

1.5.1 This report contains Three Chapters and Four Appendices. Following the present introductory chapter (Chapter One), Chapter Two outlines different concepts and definition that were used during the survey. Summary findings on economic characteristics of unincorporated non-agricultural enterprises (excluding construction) are presented in Chapter Three. The coverage of the survey in terms of NIC 2008 and notations of different activities covered in the survey are given in Table A2 and A3 respectively.

1.5.2 The detailed tables elaborating the results for all-India and States are given in Appendix A. An outline of the sample design and estimation procedure is presented in Appendix B while Appendix C and Appendix D give facsimile of the schedules canvassed in the survey.

1.5.3 The estimates of different indicators related to economic characteristics of unincorporated non-agricultural enterprises (excluding construction) have been presented for all the States and UTs. While using the estimates for the smaller States, it may be kept in mind that the sample sizes for them may not be adequate enough for getting sufficiently reliable estimates.

Chapter Two

Concepts and Definitions

2.1 Important concepts and definitions of some important terms used in the survey and relevant to this report are explained in the following paragraphs.

2.2 **Population coverage:** The following rules regarding the population/households covered were followed while visiting households for the purpose of listing of enterprises:

1. Under-trial prisoners in jails and indoor patients of hospitals, nursing homes etc., were excluded, but residential staff therein was included during listing. The persons of the first category were considered as normal members of their parent households. Convicted prisoners undergoing sentence were outside the coverage of the survey.
2. Floating population, i.e., persons without any normal residence were not considered. But households residing in open space, roadside shelter, under a bridge, etc., more or less regularly in the same place, were taken into account.
3. Foreign nationals were not considered, nor do their domestic servants, if by definition the latter belong to the foreign national's household. If, however, an enterprise was run by a member of such household located within the premises of the household or without any fixed premises, it was listed as an enterprise.
4. Persons residing in barracks of military and paramilitary forces (like police, BSF, etc.) was kept outside the survey coverage due to difficulty in conduct of survey therein. However, civilian population residing in their neighbourhood, including the family quarters of service personnel, were covered.
5. Orphanages, rescue homes, *ashrams* and vagrant houses were outside the survey coverage but enterprises run by them and located within the premises of those institutions were considered. However, persons staying in old age homes, students staying in *ashrams*/ hostels and the residential staff (other than monks/ nuns) of these ashrams were treated as forming households (as per the standing practice in NSS) for the purpose of identifying enterprises through such households. For orphanages, although orphans were not covered, the persons looking after them and staying there were considered as forming households.

2.3 **House:** Every structure, tent, shelter, etc. was considered as a house irrespective of its use. It might have been used for residential or non-residential purpose or both or even it might have been vacant.

2.4 Household: A group of persons who normally lived together and taking food from a common kitchen constituted a household. It included temporary stay-aways (those whose total period of absence from the household was expected to be less than 6 months) but excluded temporary visitors and guests (expected total period of stay less than 6 months). Even though the determination of the actual composition of a household was left to the judgment of the head of the household, the following procedures were adopted as guidelines.

(i) Each inmate (including residential staff) of a hostel, mess, hotel, boarding and lodging house, etc., constituted a single-member household. If, however, a group of persons among them normally pool their income for spending, they were together treated as forming a single household. For example, a family living in a hotel was treated as a single household.

(ii) In deciding the composition of a household, more emphasis was given on 'normally living together' than on 'ordinarily taking food from a common kitchen'. In case the place of residence of a person was different from the place of boarding, he or she was treated as a member of the household with whom he or she resided.

(iii) A resident employee, or domestic servant, or a paying guest (but not just a tenant in the household) was considered as a member of the household with whom he or she resided even though he or she was not a member of the same family.

(iv) When a person sleeps in one place (say, in a shop or in a room in another house because of space shortage) but usually took food with his or her family, he or she was treated not as a single member household but as a member of the household in which other members of his or her family stayed.

(v) If a member of a family (say, a son or a daughter of the head of the family) stayed elsewhere (say, in hostel for studies or for any other reason), he/ she was not considered as a member of his/ her parent's household. However, he/ she were considered as a single member household if the hostel is listed.

2.5 Public works: 'Public works' were those activities which were sponsored by Government or Local Bodies, and which covered local area development works like construction of roads, dams, bunds, digging of ponds, etc., as relief measures, or as an outcome of employment generation schemes under the poverty alleviation programme such as National Rural Employment Guarantee Act (NREG) programme, Sampoorna Grameen Rozgar Yojana (SGRY), National Food for Work Programme (NFFWP), etc.

2.6 National Rural Employment Guarantee Act (NREGA): The National Rural Employment Guarantee Act, 2005 (NREGA) is an important step towards the realization of the right to work and to enhance the livelihood security of the households in the rural areas of the country. The Scheme provides at least 100 days of guaranteed wage employment in every financial year to

every household whose adult members volunteer to do unskilled manual work. Adult means a person who has completed his/ her eighteen years of age. Unskilled manual work means any physical work which any adult person is capable of doing without any special skill/ training. The implementing agency of the scheme may be any Department of the Central Government or a State Government, a Zila Parishad, Panchayat/ Gram Panchayat or any local authority or Government undertaking or non-governmental organization authorized by the Central Government or the State Government. If an applicant for employment under the scheme is not provided employment within 15 days of receipt of his application seeking employment or from the date on which employment has been sought, the applicant will be entitled for getting daily unemployment allowances.

2.7 Enterprise: An enterprise is an undertaking which is engaged in the production and/ or distribution of some goods and/ or services meant mainly for the purpose of sale, whether fully or partly. An enterprise may be owned and operated by a single household or by several households jointly, or by an institutional body.

2.8 Non-agricultural enterprise: All enterprises covered under Sections ‘C’ to ‘S’ of NIC-2008 are "non-agricultural enterprises". All non-agricultural enterprises will be henceforth referred to as NAE for this survey.

2.9 Unincorporated non-agricultural enterprises: Non-agricultural enterprises which are not incorporated (i.e. registered under Companies Act, 1956) were covered in the survey. Further, the domain of ‘unincorporated enterprises’ excluded (a) enterprises registered under Sections 2m(i) and 2m(ii) of the Factories Act, 1948 or bidi and cigar manufacturing enterprises registered under bidi and cigar workers (condition of employment) Act, 1966, (b) government/public sector enterprises and (c) cooperatives. Thus the coverage was restricted primarily to all household proprietary and partnership enterprises. In addition, Self Help groups (SHGs), Private Non-Profit Institutions (NPIs) including Non-Profit Institutions Serving Households (NPISH) and Trusts were also covered.

2.10 Manufacturing Enterprise: A manufacturing enterprise was a unit engaged in the physical or chemical transformation of materials, substances or components into new products. It covers units working for other concerns on materials supplied by them. The units primarily engaged in maintenance and repair of industrial, commercial and similar machinery and equipment, which were, in general, classified in the same class of manufacturing as those specialising in manufacturing the goods were also included.

Thus all activities covered by NIC – 2008 divisions 10 to 33 of NIC- 2008 were considered as 'manufacturing' for the purpose of the survey. In addition, the activity of cotton ginning, cleaning

and baling (NIC - 2008 code 01632) was covered in the present survey. However the production of goods for the sole purpose of domestic consumption was not considered as manufacturing.

2.11 Trading Enterprise: A trading enterprise is an undertaking engaged in trade. Trade is defined to be an act of purchase of goods and their disposal by way of sale without any intermediate physical transformation of the goods. Thus all the trading activities, both wholesale and retail (perennial, casual or seasonal) listed under NIC-08 divisions 45 to 47 was treated as trade in this survey. The activities of intermediaries who do not actually purchase or sell goods but only arrange their purchase and sale and earn remuneration by way of brokerage and commission was also treated as trade. The purchase and sale agents, brokers listed under NIC-08 division and auctioneers listed under NIC group were also covered in this survey.

2.12 Servicing Enterprise: A servicing enterprise or service sector enterprise is engaged in activities carried out for the benefit of a consuming unit and typically consists of changes in the condition of consuming units realized by the activities of servicing unit at the demand of the consuming unit. It is possible for a unit to produce a service for its own consumption provided that the type of activity is such that it could have been carried out by another unit. Some examples of changes that a producer of service brings about in the condition of consumers of service are:

- a) Changes in the condition of consumer's goods: the producer works directly on goods owned by the consumer by transporting, cleaning, repairing or otherwise transforming them;
- b) Changes in the physical condition of persons: the producer transports the persons, provides them with accommodation, provides them with medical or surgical treatments, improves their appearance etc;
- c) Changes in the mental condition of persons: the producer provides education, information, advice, entertainment or similar services;
- d) Changes in the general economic state of the institutional unit itself: the producer provides insurance, financial intermediation, protection, guarantees, etc.

All activities under NIC – 2008 Sections D – U except section G (trade) are considered as service activities other than trade. However, sections D (Electricity, gas, steam and air conditioning supply), F (Construction), O (Public administration and defence; compulsory social security), T (Activities of households as employer; undifferentiated goods and services producing activities of households for own use) and U (Activities of extraterritorial organisations and bodies) were excluded from coverage of this survey. Only unincorporated enterprises in the service sector under coverage were surveyed. Among these also, activities under certain NIC - 2008 codes, viz. 36 (water collection, treatment and supply), 491 (transport via railways), 49212 (urban or suburban tramways), 49213 (urban or suburban underground or elevated railways), 493 (transport via pipeline), 51 (air transport), 641 (monetary intermediation), 642 (activities of

holding companies), 6611 (Administration of financial markets), 774 (Leasing of nonfinancial intangible assets), 942 (activities of trade unions), 9491 (activities of religious organisations [although activities of individuals are covered]), 9492 (activities of political organisations) were kept out of survey coverage.

2.13 Financial enterprise: A financial enterprise is a servicing enterprise that is principally engaged in financial intermediation or in auxiliary financial activities which are closely related to financial intermediation. Financial intermediation is a productive activity in which an institutional unit incurs liabilities on its own account for the purpose of acquiring financial assets by engaging in financial transactions on the market. The role of financial intermediaries is to channel funds from lenders to borrowers by intermediating between them.

2.14 Household Enterprise: A household enterprise is one which is run by one or more members of a household or run jointly by two or more households on partnership basis irrespective of whether the enterprise is located in the premises of the household(s) or not. In other words, all proprietary and partnership enterprises are household enterprises.

2.15 Non-household Enterprise: Non-household enterprises are those which are institutional i.e. owned and run by the public sector (Central or State Government, local self-governments, local bodies, government undertakings, etc.), corporate sector, co-operative societies, other type of societies, institutions, associations, trusts, etc. Non-household enterprises covered under public sector were not included in the current survey.

2.16 Own-account Enterprise: An enterprise, which is run without any hired worker employed on a fairly regular basis¹, is termed as an own account enterprise.

2.17 Establishment: An enterprise which is employing at least one hired worker on a fairly regular basis is termed as establishment. Paid or unpaid apprentices, paid household member/servant/resident worker in an enterprise are considered as hired workers.

2.18 Non-directory establishment (NDE): An establishment having one to five workers (household and hired taken together) is termed as a non-directory establishment.

2.19 Directory establishment (DE): A directory establishment is an establishment, which has got six or more workers (household and hired taken together).

¹ "fairly regular basis" means the major part of the period when operation(s) of an enterprise are carried out during a reference period.

2.20 Perennial enterprise: Enterprises that are run more or less regularly throughout the year are called perennial enterprises.

2.21 Seasonal enterprise: Seasonal enterprises are those, which are usually run in a particular season or fixed months of a year.

2.22 Casual enterprise: Enterprises that are run occasionally, for a total of at least 30 days in the last 365 days, are called 'casual enterprises'.

2.23 Classification of enterprises based on ownership:

(i) *Proprietary:* When an individual is the sole owner of an enterprise it is a proprietary enterprise. Own account production of fixed assets for own use, when produced by a single member, was classified as proprietary enterprise.

(ii) *Partnership:* Partnership is defined as the 'relation between persons who have agreed to share the profits of a business carried on by all or any one of them acting for all'. There may be two or more owners, belonging to the same or different households, on a partnership basis, with or without formal registration (where there is a tacit understanding about the distribution of profit among the so-called partners). Own account production of fixed assets, when produced by two or more members belonging to the same or different households will be classified as partnership enterprises. Thus, own account production of fixed assets by a group of households for community use was classified as partnership enterprise. The partnership enterprises registered under Limited Liability Partnership (LLP) Act, 2008 were excluded from coverage of the survey. Also, partnership enterprises registered under Factories Act, 1948 was outside the survey coverage.

(iii) *Government/public Sector Enterprise:* An enterprise, which is wholly owned/ run/managed by Central or State governments, quasi-government institutions, local bodies like Panchayat, Zilla Parisad, City Corporation, Municipal authorities, etc., autonomous bodies like Universities, Education boards, and institutions like schools, libraries etc. set up by the government, panchayat, etc., was considered as public sector enterprise. Enterprises owned/ managed by a single or a group of private persons with no participation of the Government, local body etc. in it, both in terms of management and shares, was considered as private sector enterprises. An enterprise was not considered as a public sector enterprise if it is run on a loan granted by government, local body, etc.

(iv) *Private Limited Company:* Private company means a company which by its articles:

(a) restricts the right to transfer its shares, if any,

- (b) limits the number of its members to fifty not including-
 - (i) persons who are in the employment of the company, and
 - (ii) persons who, having been formerly in the employment of the company, were members of the company while in that employment and have continued to be members after the employment ceased; and
- (c) prohibits any initiation to the public to subscribe for any share in, or debentures of, the company.

Where two or more persons hold jointly one or more shares in a company, they were considered as a single member in this survey.

(v) *Public Limited Company*: A public limited company is defined as a company that is not a private company. As such public companies can have an unlimited number of members and can invite the public to subscribe to its shares and debentures. The minimum number of members required to form a public company is seven.

(vi) *Co-operative Societies*: Co-operative society is one that is formed through the co-operation of a number of persons, recognised as members of the society to benefit themselves. In the process, the funds are raised by members' contributions/investments and the profits generated out of the society's activities are shared by the members. A government agency itself can also be a member or shareholder of a registered co-operative society but this fact cannot render the society into a public sector enterprise for the purpose of this survey.

(vii) *Trust*: An arrangement through which one set of people, the trustees, are the legal owners of property which is administered in the interest of another set, the beneficiaries. Trusts may be set up to provide support for individuals or families, to provide pensions, to run charities, to liquidate the property of the bankrupts for the benefit of their creditors, or for the safe keeping of securities bought by trusts with their investor's money. The assets, which trusts hold are regulated by law, must be administered in the interests of the beneficiaries, and not for the profit of the trustees.

(viii) *Non-Profit Institutions (NPI)*: Non-profit institutions are legal or social entities created for the purpose of producing goods and services whose status does not permit them to be a source of income, profit or other financial gain for the units that establish, control or finance them. In practice, their productive activities are bound to generate either surpluses or deficits but the units that establish, control or finance them cannot appropriate surpluses. The articles of association by which they are established are drawn up in such a way that the institutional units which control or manage them are not entitled to a share in any profits or other income which the NPI's receive and for this reason, they are frequently exempted from various kinds of taxes.

NPIs are principally market producers but they may engage in non-market production also. It is important to distinguish between NPI's engaged in market and non-market production as this affects the sector of the economy to which an NPI is allocated. Most market NPIs serving businesses are created by associations of the businesses whose interests they are designed to promote. They consist of chambers of commerce, agricultural, manufacturing or trade associations, employers' organisations, research or testing laboratories or other organisations or institutes which engage in activities which are of mutual interest or benefit to the group of businesses that control and finance them.

2.24 Self-help Groups: A self-help group (SHG) is a financial intermediary usually composed of between 10-20 local persons. Members of a SHG make small regular savings contributions over a few months until there is enough capital in the group to begin lending. Funds may then be lent back to the members or to others in the locality for any purpose. Also many SHGs are 'linked' to banks for the delivery of microcredit. The characteristic features of self-help groups may be summarised as follows:

- ♦ SHG is a small group generally comprising of people who are poor or economically weak, who have voluntarily come forward to form a group for improvement of the social and economic status of the members.
- ♦ It can be formal (registered) or informal.
- ♦ The concept underlines the principle of Thrift, Credit and Self Help.
- ♦ Members of SHG agree to save regularly and contribute to a common fund.
- ♦ The members agree to use this common fund and such other funds (like grants and loans from banks), which they may receive as a group, to give small loans to needy members as per the decision of the group.
- ♦ The ideal size of an SHG is 10 to 20 members. Also, legally it is required that an informal group should not be of more than 20 people). However, in difficult areas like deserts, hills and areas with scattered and sparse populations and in case of disabled persons, this number may be 5-20.
- ♦ The group need not be registered.
- ♦ From one family, only one person can become a member of an SHG. (More families can join SHGs this way).
- ♦ The group normally consists of either only men or only women.
- ♦ Members should be between the age group of 21-60 years.
- ♦ Members should be poor people [the term poor is in relation to the economic and living conditions and this has no relation to poverty line. People living above poverty line (APL) can also form SHG like people living below poverty line (BPL)].

2.25 Reference Period: *Last 30 days preceding the date of survey* or *last month* had been used as the reference period to collect most of the data. Various items of receipts and expenses as well as data on employment, emoluments, rent, interest, net surplus and value added for the enterprises were collected for the above reference period only. However, for seasonal enterprises the reference period was the last 30 days (preceding the date of survey), if they have worked continuously for last 30 days or more (including scheduled holidays) in the current season. For seasonal enterprises which had worked for less than 30 days in the current season, last month would refer to an average month in the last working season.

2.25.1 If some enterprise was unable to give information for the last 30 days and was able to give information for the latest calendar month from their books, figures for the latest calendar month were taken. Month would refer to a period of 30 days. For some of the items like value of fixed assets, amount of loan outstanding etc., the reference period was 'as on the date of survey'. For some other items like net additions to fixed assets, number of months operated, number of other economic activities taken up etc., the period of reference was the 'last 365 days preceding the date of survey'. For enterprises maintaining accounts and giving information from their books of accounts, reference year, 'last 30 days/ last month' and 'last date of the reference year' would respectively relate to 'last accounting year for which information is available', 'last month of the said accounting year' and 'last date of the accounting year'.

2.26 Subsidy: Subsidies are current unrequited payments that government units, including non-resident government units, make to enterprises on the basis of the levels of their production activities or the quantities or values of the goods and services which they produce, sell, import or export. Subsidies can also be received by an enterprise for achieving a particular type of efficiency in production (e.g., getting ISO certification, implementing pollution control measures, repaying interests in time, etc.). Subsidies are equivalent to negative taxes on production in so far as the impact on the operating surplus is in the opposite direction to that of taxes on production. Subsidies can be on production or on interest. Various types of subsidies are back-end subsidies on interest, export subsidies, duty drawback, etc. Subsidies do not include grants that governments may make to enterprises in order to finance their capital formation, or compensate them for damage to their capital assets, such grant being treated as capital transfers.

2.27 Taxes on Products: Taxes are compulsory, unrequited payments, in cash or in kind, made by institutional units to government units. *A tax on a product is a tax that is payable per unit of some good or service.* Tax on product may be a specific amount of money per unit of quantity of a good or service, the quantity being measured either in terms of discrete units or continuous physical variables such as volume, weight, strength, distance, time, etc. or it may be calculated *ad valorem* as a specified percentage of the price per unit or value of the goods and services transacted. Some examples of taxes on products are VAT, excise duties, general sales tax,

service tax, export duties, turnover tax, taxes on financial and capital transactions (mainly inheritances and gifts), etc.

2.28 Taxes on Production: *Taxes on production consist of all taxes that the enterprise incurs as a result of engaging in production.* It is payable irrespective of the profitability of the enterprise and consists of all taxes except those included under 'Taxes on Products'. Some examples of taxes on production are recurrent taxes on land, buildings or other structures, business or professional licence fees, road tax and registration fee of vehicles, taxes on pollution, taxes on international transactions such as travel abroad, foreign remittances, etc. Stamp taxes on sale of specified products, which relate to per unit of product sold (e.g., per unit of alcoholic beverages) will be considered as taxes on products, but other stamp taxes (e.g., stamps on legal documents or cheques) will be considered as taxes on production.

2.29 Worker: For this survey, a worker was defined as all persons working within the premises of the enterprise who were in the payroll of the enterprise as also the working owners and unpaid family workers. The worker may serve the enterprise in any capacity - primary or supervisory. He/she may or may not receive wages/salaries in return to his/her work incidental to or connected with the entrepreneurial activity. Salespersons appointed by an enterprise for selling its services and apprentices, paid or unpaid were also treated as workers.

2.30 Working owner. In the case of proprietary enterprises, if the owner himself/ herself works in the enterprise on a fairly regular basis, then he/she will be treated as working owner. In fact, in most of the own-account enterprises the owner himself/ herself manages all activities of the enterprise without help of anybody else (on fairly regular basis). In the case of partnership enterprises, if only one partner or some of the partners or all the partners work in the enterprise on a fairly regular basis then information for them shall be recorded.

2.31 Formal hired worker: A formal hired worker is one having continuity of job and eligible for paid annual leave and also eligible for social security benefits like provident fund or insurance provided by the employer.

2.32 Informal hired worker: An informal hired worker is not having continuity of job and/or not eligible for paid annual leave and/or not eligible for social security benefits like provident fund or insurance provided by the employer.

2.33 Other worker/ helper: This includes all persons belonging to the household of the proprietor or households of the partners who are working in or for the enterprise without regular salary or wages. Persons working as exchange labourer in the enterprise without salary or wages will also be covered in this category. All unpaid household workers / helpers who are associated with the activities of the enterprise during the reference month are considered in this category.

2.34 Working on Contract: The enterprises in the unorganised sector are mainly small units. In many cases, the enterprises are seen to be working as per orders from a bigger unit. In such cases, certain conditions are put on the servicing unit by the contractor or master unit. Conditions may pertain to sale of products, supply of raw materials, mode of payment etc. In many cases, the contractor specifies the design of the product to the servicing unit e.g. garment manufacturing, shoe manufacturing etc. If the surveyed enterprise had undertaken any work on contract during the reference year, it was considered as 'enterprises working on contract'.

2.35 Fixed Assets: Assets held for the purpose of producing or providing goods or services and not for resale in the normal course of entrepreneurial activities were classified as fixed assets. These cover all goods, new or used, that have a normal economic life of more than one year from the date of purchase.

2.36 Investments: An enterprise can purchase shares, debentures and other securities to earn interest and dividend. These shares, debentures and other securities are called investments. If securities are purchased and sold at regular intervals to make gains using market values of the securities, then these investments are called investments for trade. Otherwise, it is called investments (other than trade).

2.37 Financial liability: Financial liability is the total liability incurred by the enterprise as on a particular date (generally the last date of the accounting year). It includes capital deployed by the partners of an enterprise, share capital, reserve and surplus amount noted in the balance sheet, long-term loans and also all short-term commitments for payments like unpaid wages etc. With regard to loan, any borrowing in cash or kind to be repaid in cash or kind was treated as loan. Loans taken for the purpose of utilising the same in the entrepreneurial activities of an enterprise were considered even if such loans were used for other purposes. On the other hand, loans taken for other purposes but ultimately used in the enterprise were excluded.

2.38 Compensation of employees: Compensation of employees is the total remuneration, in cash or in kind, payable by an enterprise to an employee in return for work done by the employee during the accounting period. It is recorded on accrual basis, i.e. measured by the value of remuneration in cash or in kind which an employee becomes entitled to receive from an employer in respect of work done during the relevant period, whether paid in advance, simultaneously or in arrears. Self employed persons (like working owners or unpaid family workers) receive mixed income and not compensation of employees. However, the books of accounts of some enterprises show salary payment to one or two working owners. In such cases, these payments were recorded as compensation to employee. Compensation of employees has two main components, i) wages and salaries payable in cash or in kind and ii) value of social contributions payable by the employer. Wages and salaries also included goods or services

provided to employees as remuneration in kind instead of, or in addition to, remuneration in cash.

2.39 Transfers: A transfer is a transaction in which an institutional unit provides a good, service or asset to another unit without receiving from the later any good, service or asset in return. A cash transfer consists of the payment of currency or transferable deposit by one unit to another without any counterpart (or return). A transfer in kind consists either of the transfer of ownership of a good or asset, other than cash, or provision of a service, again without any counterpart (or return).

2.40 Operating Expenses: The total value of services purchased and other expenses incurred during the reference period by an enterprise on raw materials, electricity, fuel, lubricants and auxiliary materials consumed; cost of maintenance, etc was considered as ‘operating expenses’.

2.41 Receipts: The sale value of services produced together with the value of services rendered to other concerns and other receipts incidental to entrepreneurial activities including the value of products and by-products manufactured ,if any, by an enterprise during the reference period was considered as ‘total receipts’.

2.42 Gross Value Added: Gross value added is taken as additional value created by the process of production of an enterprise to the economy. Gross value added is calculated by deducting ‘total operating expenses’ and ‘distributive expenses’ from the value of ‘total receipts’ during the reference period. ‘Distributive expenses’ includes excise duties, sales tax, non-deductible vat, outward freight and transport charges, commission to selling agents etc.

Chapter Three

Summary of Findings

3.1 The present survey covers exclusively all the unincorporated non-agricultural enterprises in manufacturing, trade and other service sector (excluding construction). Data were collected on both economic and operational characteristics of the enterprises. The coverage excludes enterprises registered under Companies Act 1956, Government & Public Sector Services and Cooperatives. This report presents the estimates of some economic characteristics of unincorporated non-agricultural enterprises (*hereafter 'enterprises' would refer to 'enterprises under survey coverage'*), like GVA per enterprise, GVA per worker, outstanding loans and fixed assets per enterprises by activity category for each State/Union Territory. A summary of some of these results is presented and discussed in this section. Detailed tables provide estimates separately for rural, urban and for both sectors combined at the all-India and State/UT level by activity category. In addition, information for 'Own Account Enterprises (OAEs)' and 'establishments' have been presented separately. The marginal totals and the sum of the proportions presented in various detailed tables may, in some cases, differ slightly due to rounding off.

3.2 Wherever state wise results have been presented in this report, estimates have been given for all the states and UTs. However, because of small sample sizes for some of the North-eastern and smaller states, before using estimates, users may consult Relative Standard Error (RSE) given in detailed tables to determine their level of reliability.

3.3 The term 'enterprise' is used in general to represent OAEs and also establishments. In the statements, 'all' is used to denote all the enterprises taken together. A "-" has been used in the statements and tables if no enterprise was surveyed in that particular level of disaggregation. On the other hand, the figure "0" appears in some levels of disaggregation when the estimated figure is very low and has become "0" due to rounding off.

3.4 Sample number of enterprises: Information was collected from about 3.34 lakh enterprises engaged in the manufacturing, trade and other services activities throughout the country. About 49 per cent of these enterprises surveyed belonged to the rural sector (vide Table 2). Moreover, 66 per cent of the total surveyed enterprises were OAEs (vide Table 2).

3.5 Estimated number of enterprises: Before looking into various characteristics of the enterprises in the unincorporated non-agricultural sector (excluding construction), it may be worthwhile to know the extent of their presence in the economy as a whole as well as in different broad activities as revealed by the survey. During 2010-11, out of the estimated 5.77 crore¹

¹(1 crore = 10⁷)

unincorporated non-agricultural enterprises excluding construction, 30 percent enterprises were engaged in manufacturing, 36 percent enterprises were in trading and 34 percent enterprises were in service sector. While about 54 percent of such enterprises were located in rural areas, 46 percent were located in urban areas. Though in rural India, these enterprises were more or less equally (between 33 to 34 percent) distributed by broad activity category, enterprises engaged in trading sector had the dominant share (38%) of enterprises under survey coverage in urban area followed by service sector (35.5%) and manufacturing sector (26.5%). The break-up of these estimates is shown in **Statement 1** and their percentage distribution in **Statement 1.1**. The percentage distribution of enterprises in the unincorporated non-agricultural sector by broad activity category is also shown in **Chart C1** for rural and urban areas combined.

Statement 1: Estimated number of enterprises by enterprise types and sector for each broad activity category

all-India									
broad activity category	number of enterprises (in '000)								
	rural			urban			rural + urban		
	OAE	estt	all	OAE	estt	all	OAE	estt	all
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
manufacturing	9138	977	10115	5292	1803	7095	14430	2780	17210
trade	9954	611	10565	7870	2316	10186	17824	2926	20751
other services	9154	1057	10211	7402	2098	9501	16556	3156	19712
all	28246	2645	30891	20564	6218	26782	48810	8863	57673

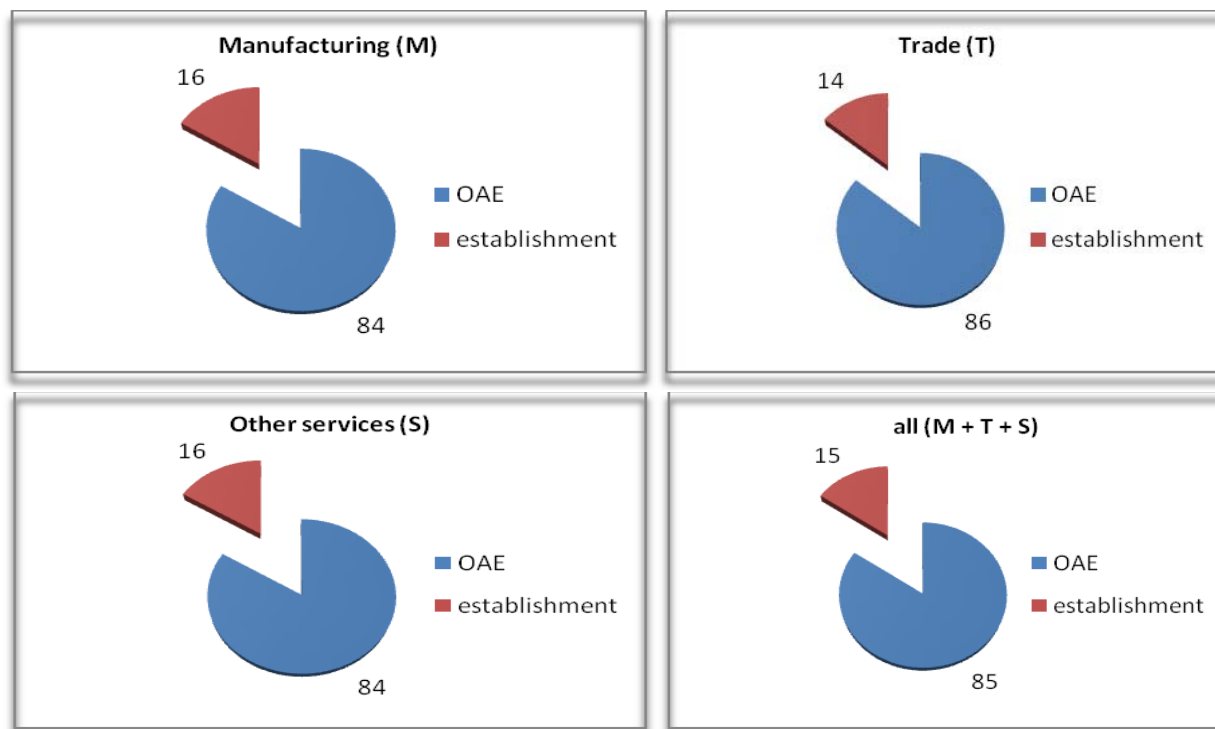

Statement 1.1: Percentage distribution of enterprises by broad activity category

all-India									
broad activity category	percentage of enterprises								
	rural			urban			rural + urban		
	OAE	estt	all	OAE	estt	all	OAE	estt	all
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
manufacturing	32.35	36.94	32.74	25.73	29.00	26.49	29.56	31.37	29.84
trade	35.24	23.10	34.20	38.27	37.25	38.03	36.52	33.01	35.98
other services	32.41	39.96	33.05	35.99	33.74	35.48	33.92	35.61	34.18
all	100.00	100.00	100.00	100.00	100.00	100.00	100.00	100.00	100.00

3.5.1 **Statement 1.1** reveals that the broad activity 'Trade' had the highest percentage of enterprises for both rural (34%) and urban (38%) sectors and also for combined sector (36%). 'Other Services' had next highest share (34%) of enterprises among broad activity category followed by 'Manufacturing' (30%).

3.5.2 **Statement 2** shows the estimated number of enterprises for each type of activities categorized by enterprise types and sectors. The corresponding percentage distribution of enterprises is shown at **Statement 2.1**. Out of the estimated 1.72 crore manufacturing enterprises, 25.10 percent enterprises were engaged in ‘Manufacture of wearing apparel’ (M6) followed by 15.35 percent enterprises engaged in ‘Manufacture of textiles’ (M5) and 13.06 percent engaged in ‘Manufacture of tobacco products’ (M4). About 59 percent of manufacturing enterprises were located in rural areas and 41 percent were located in urban areas.

C1: Percentage of enterprises by enterprise type for each broad activity category

3.5.3 Largest segment of non-agricultural enterprises were engaged in trading activities; about estimated 2.08 crore in numbers. Of these, about 88 percent of trading enterprises were engaged in ‘Other retail trade’ (T4), 7 percent in ‘Other wholesale trade’ (T3), 4 percent in ‘Trade and repair of motor vehicles and motor cycles’ (T1) and 1 percent in ‘Activities of commission agents’ (T2). Trading enterprises were marginally higher (about 51%) in rural areas than (49%) in urban areas.

3.5.4 Out of the estimated 1.97 crore service sector enterprises, 27 percent enterprises were engaged in ‘Other community, social and personal service activities’ (S15) followed by 26 percent enterprises engaged in ‘Land transport’ (S3) and 14 percent engaged in ‘Food service activities’ (S2). About 52 percent of service sector enterprises were located in rural areas and 48 percent were located in urban areas.

Statement 2: Estimated number of enterprises by enterprise types and sector for each activity category

3.5.5 Estimated number of enterprises by enterprise type: The survey result revealed that OAEs (85%) had the dominant share of enterprises under survey coverage. At all India level, OAEs outnumber establishments in all the three broad activity category namely 'Manufacturing' (84%), 'Trade' (86%) and 'Other Services' (84%). The same pattern of dominance can be observed in rural and urban areas also. Out of 4.9 crore OAEs, 58 percent OAEs were in rural sector against 42 percent OAEs in urban area. However urban area establishments outnumber

rural area establishments. Out of 89 lakh establishments under survey coverage, urban area has a share of 70 percent establishments against 30 percent in rural area.

3.5.6 In manufacturing sector, out of the estimated 1.44 crore OAEs, 38.3 lakh (27%) OAEs were engaged in 'Manufacture of wearing apparel' (M6) followed by 22.7 lakh (16%) OAEs engaged in 'Manufacture of textiles' (M5) and 22.2 lakh (15%) engaged in 'Manufacture of tobacco products' (M4). About 63 percent of manufacturing OAEs were located in rural areas and 37 percent were located in urban areas.

3.5.7 Out of estimated 27.8 lakh manufacturing establishments, 4.9 lakh (18%) establishments were engaged in 'Manufacture of wearing apparel' (M6) followed by 4.5 lakh (16%) establishments engaged in 'Manufacture of food products' (M2) and 3.7 lakh (13%) engaged in 'Manufacture of textiles' (M5). About 35 percent of manufacturing establishments were located in rural areas and 65 percent were located in urban areas.

3.5.8 In trading sector, out of the estimated 1.78 crore OAEs, 1.63 crore (91%) OAEs were engaged 'Other retail trade' (T4), 8.6 lakh (5%) OAEs in 'Other wholesale trade' (T3), 5.4 lakh (3%) OAEs engaged in 'Trade and repair of motor vehicles and motor cycles' (T1) and 1.7 lakh (1%) engaged in 'Activities of commission agents' (T2). About 33 percent of trading OAEs were located in rural areas and 67 percent were located in urban areas.

3.5.9 Out of estimated 29.3 lakh trading establishments, 19.5 lakh (67%) establishments were engaged 'Other retail trade' (T4), 5.3 lakh (18%) establishments in 'Other wholesale trade' (T3), 3.7 lakh (13%) establishments engaged in 'Trade and repair of motor vehicles and motor cycles' (T1) and 0.8 lakh (3%) engaged in 'Activities of commission agents' (T2). About 21 percent of trading establishments were located in rural areas and 79 percent were located in urban areas.

3.5.10 In service sector, out of the estimated 1.66 crore OAEs, 48.5 lakh (29%) OAEs were engaged in 'Other community, social and personal service activities' (S15) followed by 45.9 lakh (28%) OAEs engaged in 'Land transport' (S3) and 21.6 lakh (13%) engaged in 'Food service activities' (S2). About 55 percent of service sectors OAEs were located in rural areas and 45 percent were located in urban areas.

3.5.11 Out of estimated 31.6 lakh service sector establishments, 6.2 lakh (20%) establishments were engaged in 'Food service activities' (S2) followed by 5.3 lakh (17%) establishments in 'Land transport' (S3) and 5.2 lakh (17%) establishments engaged in 'Other community, social and personal service activities' (S15). About 34 percent of service sector establishments were located in rural areas and 66 percent were located in urban areas.

3.5.12 **Statement 3.0** presents estimated number of unincorporated non-agricultural enterprises in descending order in different States and UTs. The percentage share indicated in column 11 has been calculated for all enterprises in the combined sector and all the States/UTs have been

ranked on the basis of column 11. The survey revealed that Uttar Pradesh had the highest share (14.5%) in total number of enterprises followed by West Bengal (12.6%), Andhra Pradesh (9.7%), Maharashtra (8.9%) and Tamil Nadu (7.8%). Thus these five states accounted for 53.6 percent of enterprises at all-India level.

3.5.12.1 Similarly **Statement 3.1** shows the estimated number of manufacturing enterprises in descending orders in different States and UTs. As explained, the percentage share indicated in column 11 has been calculated for all manufacturing enterprises in the combined sector. It is seen that West Bengal had the highest share (16.1%) in total number of manufacturing enterprises followed by Uttar Pradesh (13.60%), Tamil Nadu (9.60%), Andhra Pradesh (9.4%) and Gujarat (8.2%). Thus these five states accounted for 56.9 percent of manufacturing enterprises at all-India level.

3.5.12.2 **Statement 3.2** presents estimated number of trading enterprises in descending order in different States and UTs. As earlier, the percentage share indicated in column 11 has been calculated for all trading enterprises in the combined sector and all the States/UTs have been ranked on the basis of column 11. The result shows that Uttar Pradesh had the highest share (16.5%) in total number of trading enterprises followed by West Bengal (10.9%), Maharashtra (9.0%), Andhra Pradesh (7.7%) and Tamil Nadu (6.1%). Thus these five states accounted for 50.2 percent of trading enterprises at all-India level.

3.5.12.3 **Statement 3.3** presents estimated number of 'other services' enterprises in descending order in different States and UTs. It has been observed that Uttar Pradesh had the highest share (13.3%) in total number of 'other services' enterprises followed by Andhra Pradesh (12.0%), West Bengal (11.4%), Maharashtra (9.6%) and Tamil Nadu (7.8%). Thus these five states accounted for 54.1 percent of 'other services' enterprises at all-India level.

3.5.13 Percentage distribution of unincorporated non-agricultural enterprises by States/UTs separately for each enterprise type and sector is presented in **Statement 4.0**. It has been observed that West Bengal and Uttar Pradesh were the top two states having almost equal share of enterprises as well as OAEs and establishments for rural India. However, significantly lower share of West Bengal in terms of percentage of OAEs, establishments as well as enterprises for urban India compared to Uttar Pradesh resulted in significant variation between the two states at combined sector level. For urban India, Uttar Pradesh (13.7%) topped the list followed by Maharashtra (12.1%) in terms of share of enterprises.

3.5.13.1 Percentage distribution of manufacturing enterprises by States/UTs separately for each enterprise type and sector is presented in **Statement 4.1**. It is observed that as per as estimated number of manufacturing enterprises is concerned, West Bengal (16.1%) has the highest number of manufacturing enterprises while Uttar Pradesh (13.6%) and Tamil Nadu (9.6%) are the ranked

second and third respectively. Taken together, these states cover almost 40 percent of manufacturing enterprises in India. The survey also revealed that while West Bengal has the maximum number of manufacturing enterprises as a whole, Tamil Nadu has more share if one considers manufacturing establishments only.

3.5.13.2 Percentage distribution of trading enterprises by States/UTs separately for each enterprise type and sector is presented in **Statement 4.2**. It is observed that as per as estimated number of trading enterprises is concerned, Uttar Pradesh (16.5%) topped the list followed by West Bengal (10.9%) and Maharashtra (9.0%). Taken together, these states cover almost 37 percent of manufacturing enterprises in India. West Bengal also has maximum number of trading establishments while Uttar Pradesh has maximum number of OAEs performing trading activities.

3.5.13.3 Percentage distribution of ‘other services’ enterprises by States/UTs separately for each enterprise type and sector are presented in **Statement 4.3**. For combined sector Uttar Pradesh (13.3) topped the list followed by Andhra Pradesh (12.1) and West Bengal (11.5) in terms of share of enterprises. It has been observed that Uttar Pradesh has maximum number of other services enterprises both for OAEs and establishments.

3.6 Estimated number of workers: Statement 5 reveals that during 2010-11, about 10.8 crore workers were engaged in unincorporated non-agricultural enterprise activities excluding construction. While about 51 percent of workers were located in urban areas, 49 per cent were located in rural areas. The survey result revealed that OAEs had dominant share of workers under survey coverage in rural India. At all India level, workers engaged in OAEs outnumber those engaged in establishments in all the three broad activity category namely ‘Manufacturing’ (60%), ‘Trade’ (72%) and ‘Other Services’ (63%). Though the same pattern of dominance can be observed in rural areas also, urban areas recorded slightly higher share of workers in establishments over OAEs in ‘Manufacturing’ (53%) and ‘Other Services’ (51%).

C2: Percentage distribution of workers by broad activity category for each enterprise type in India

3.6.1 **Statement 5.1** gives the percentage distribution of workers by broad activity category. The sector 'Other Services' had the highest percentage of workers (36%) for rural, urban and also for rural and urban combined (36%) areas. At all India level 'Trade' and 'Manufacturing' had almost equal share (32%) of workers. The distribution is also depicted in **Chart C2**.

3.6.2 **Statement 6** shows the estimated number of workers for each type of activities categorized by enterprise types and sectors. The corresponding percentage distribution of workers is shown at **Statement 6.1**. The survey revealed that out of the estimated 3.49 crore workers working in manufacturing enterprises, 18.73 percent were engaged in 'Manufacture of wearing apparel' (M6) followed by 16.80 percent workers engaged in 'Manufacture of textiles' (M5) and 12.67 percent engaged in 'Manufacture of food products' (M2). About 53 percent of workers working in the manufacturing enterprises were located in rural areas and 47 percent were located in urban areas.

3.6.3 Out of the estimated 3.41 crore workers working in the trading sector enterprises, 83.22 percent were engaged in 'Other retail trade' (T4) followed by 9.69 percent engaged in 'Other wholesale trade' (T3). About 55 percent of workers working in the trading sector enterprises were located in urban areas and the remaining 45 percent were located in rural areas.

3.6.4 Largest segment of non-agricultural enterprises workers were engaged in 'other services' activities; there were about 3.89 crore workers working in 'other services' enterprises. Out of them, about 20.28 percent workers were engaged in 'Other community, social and personal service activities' (S15), 16.44 percent were engaged in 'Land transport' (S3), 15.89 percent were engaged in 'Food service activities' (S2) and 14.69 percent were engaged in 'Financial services activities except insurance and pension funding' (S8). Workers working in the 'other services' enterprises were more or less equal (around 50 percent) in both rural and urban areas.

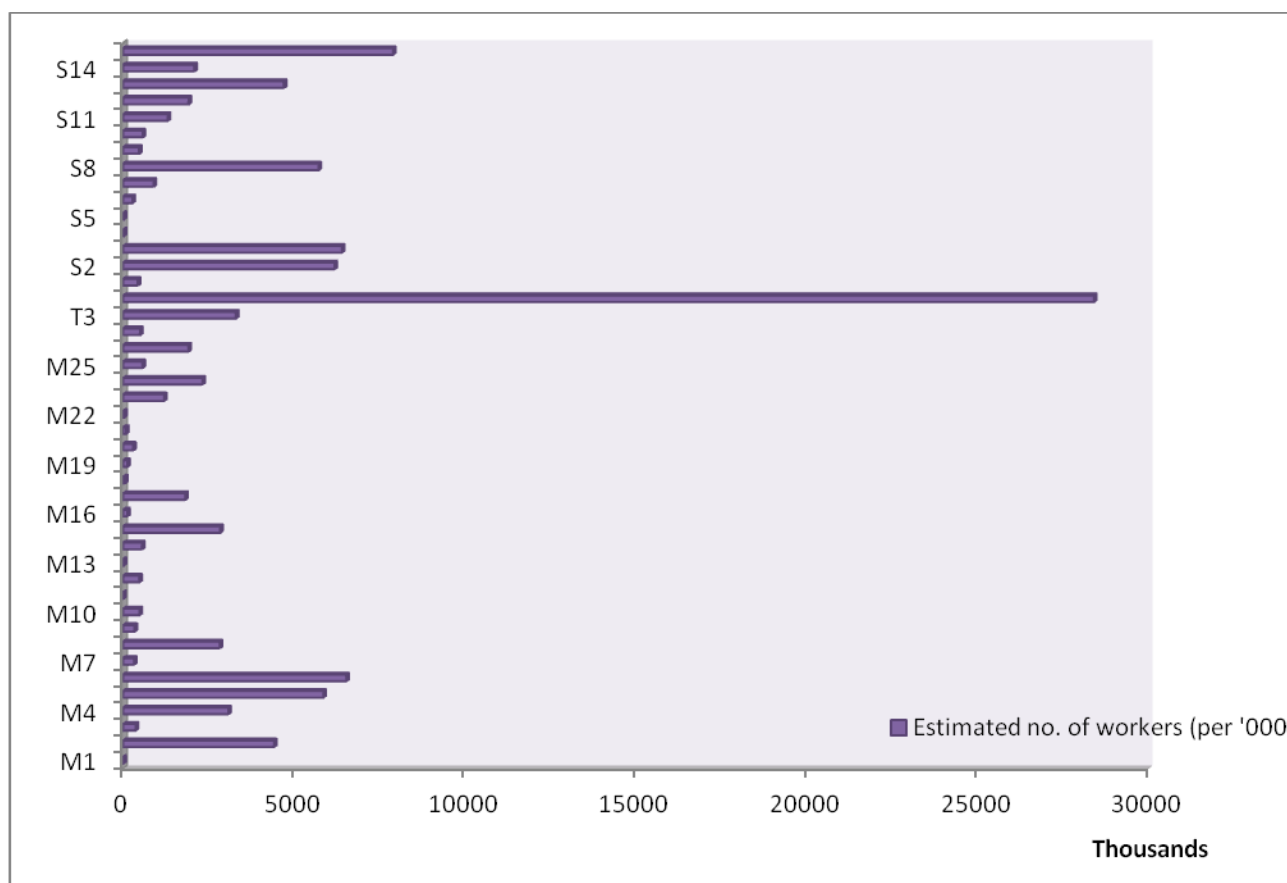

3.6.5 Out of the total 6.98 crore workers working in OAEs, 2.08 crore (30%) were worked in manufacturing sector while 2.45 crore (35%) and 2.44 crore (35%) were worked in trading and 'other services' enterprises respectively. 60 percent of OAE workers worked on those OAEs which were located in rural areas.

3.6.6 Among 2.08 crore workers worked in manufacturing OAEs, 21.87 percent were engaged in 'Manufacture of wearing apparel' (M6) followed by 18.07 percent in 'Manufacture of textiles' (M5) and 14.15 percent in 'Manufacture of tobacco products' (M4). Similarly, among 2.45 crore workers worked in trading OAEs, 91.12 percent were engaged in 'Other retail trade' (T4) followed by 5.17 percent engaged in 'Other wholesale trade' (T3). Among 'other services' OAEs workers, about 25.11 percent were engaged in 'Other community, social and personal service activities' (S15), 22.94 percent were engaged in 'Financial services activities except insurance and pension funding' (S8), 19.77 percent were engaged in 'Land transport' (S3) and 14.37 percent were engaged in 'Food service activities' (S2) .

3.6.7 The survey revealed that during 2010-11, about 3.82 crore workers were engaged in establishments of unincorporated non-agricultural enterprises in India. Out of them, 1.40 crores (37%) were engaged in manufacturing activities, 0.96 crores (25%) were engaged in trading activities and 1.45 crores (38%) were engaged in 'other services' activities. The survey also shows the dominance of urban workers over rural workers in case of establishments. It has been estimated that about 70 percent of workers who had worked in establishments were from urban areas.

3.6.8 Out of 1.40 crore workers worked in manufacturing establishments, 14.92 percent were engaged in 'Manufacture of textiles' (M5) followed by 14.08 percent in 'Manufacture of wearing apparel' (M6) and 13.45 percent in 'Manufacture of food products' (M2). Similarly, among 0.96 crore workers worked in trading establishments, 63.11 percent were engaged in 'Other retail trade' (T4) followed by 21.19 percent in 'Other wholesale trade' (T3) and 12.45 percent in 'Trade and repair of motor vehicles and motor cycles' (T1). Among 'other services' establishments workers, 26.87 percent were engaged in 'Education' (S13), 18.43 percent were engaged in 'Food service activities' (S2) and 12.17 percent were engaged in 'Other community, social and personal service activities' (S15).

3.6.10 **Statement 7.0** presents different States/UTs in descending order of estimated number of workers in unincorporated non-agricultural enterprises. It revealed that Uttar Pradesh had the highest share in total number of workers (15%) followed by Andhra Pradesh (11%), West Bengal (11%), Maharashtra (9%), and Tamil Nadu (8%). Thus these five states accounted for 54 percent of total workers of the unincorporated non-agricultural sector excluding construction.

Statement 7.0: Estimated number of workers (in descending order) for each States/UTs by sector and enterprise type

3.6.10.1 **Statement 7.1** presents different States/UTs in descending order of estimated number of workers in manufacturing sector. It revealed that Uttar Pradesh had the highest share in total number of workers (15%) followed by West Bengal (14.3%), Tamil Nadu (10%), Maharashtra (9.2%), and Gujarat (9.2%). Thus these five states accounted for 57.7 percent of total workers of the unincorporated non-agricultural sector excluding construction.

3.6.10.2 **Statement 7.2** presents different States/UTs in descending order of estimated number of workers in trading sector. The survey revealed that Uttar Pradesh had the highest share in total number of workers (16.1%) followed by West Bengal (9.9%), Maharashtra (9.6%), Andhra Pradesh (8.5%), and Tamil Nadu (6.7%). Thus these five states accounted for 50.8 percent of total workers of the unincorporated non-agricultural sector excluding construction.

3.6.10.3 **Statement 7.3** presents different States/UTs in descending order of estimated number of workers in 'other services' sector. It revealed that Andhra Pradesh had the highest share in total number of workers (15.9%) followed by Uttar Pradesh (13%), Maharashtra (9.4%), West Bengal (8.9%), and Tamil Nadu (8.4%). Thus these five states accounted for 55.6 percent of total workers of the unincorporated non-agricultural sector excluding construction.

3.6.11 **Proportion of Female Workers:** In order to study the gender differential in employment in unincorporated non-agricultural enterprises in manufacturing, trade and other service sector (excluding construction) enterprises, the particulars of employment was collected by gender of the workers **Statement 7.4** gives the proportions of female workers in different activities separately for rural, urban and both sectors combined. Female workers constituted roughly 26.4% of total workers in unincorporated non-agricultural enterprises. The share of female worker was highest in manufacturing (35.9%) followed by other service sector enterprise (28.3%) and enterprises engaged in trade (14.6%). The share of female workers was comparatively very low in certain activities, e.g. Land transport (0.5%), Trade and repair of motor vehicles and motor cycles (0.9%), Manufacture of furniture (1.4%), Water transport (2.2%), Activities of commission agents (2.7%), Repair and installation of machinery and equipment (3.0%). The share of female workers was noticeably higher in activities such as Manufacture of tobacco products (80.9%), Manufacture of chemicals and chemical products (67.0%), Manufacture of textiles (45.8%), Manufacture of wearing apparel (45.4%) etc., **Chart C 3.1** shows the percentage of female workers for each broad activity category.

3.6.11.1 The proportion of female workers in different activities categorized by type of enterprise showed mixed pattern. In general, proportion of female workers employed in OAEs was higher than establishments except few activities such as Human Health and Social work (S14), Cotton ginning, cleaning and bailing (M1) where proportion of female worker was significantly higher than that of OAEs. The percentage of female workers was higher in rural areas (32.2%) than the same in urban areas (20.8%).

3.6.12 The percentage of female workers in different States/UTs for all enterprises by enterprise type is presented in **Statement 7.5** separately for rural, urban and both sectors combined. The top five States in terms of proportion of female workers were Manipur (53.4%), Andhra Pradesh (46.8%), Puducherry (41.1%), Odisha (40.1%) and Meghalaya (37.4%). For most of the States, the proportion of female workers was more in rural areas than urban areas. Rural-urban

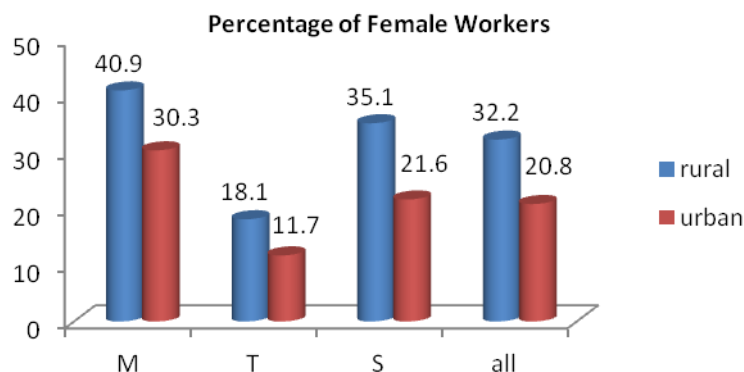

differential was very significant for certain States, e.g. Andhra Pradesh (rural: 57.4%; urban: 30.9%), Odisha (rural: 44.5%; urban:20.5%), West Bengal (rural: 35.4%; urban:14.7%).

3.6.12.1 **Statement 7.6** presents proportion of female workers in different States/UTs for all manufacturing sector enterprises by enterprise type separately for rural, urban and both sectors combined. The top five major States in terms of share of female workers in manufacturing sector enterprises were West Bengal (47.3%), Kerala (46.6%), Karnataka (44.4%), Andhra Pradesh (44.1%) and Tamil Nadu (43.4%). For most of the States, the proportion of female workers was more in rural areas than urban areas. Rural-urban differential was very significant for certain States, e.g. Andhra Pradesh (rural: 48.7%; urban: 62.6%), Odisha (rural: 36.4%; urban:72.4%), West Bengal (rural: 54.6%; urban:73.3%). Lowest participation of female workers observed in Delhi (5.2%) followed by Uttaranchal (10.7%) and Bihar (11.5%).

3.6.12.2 **Statement 7.7** presents proportion of female workers in enterprises engaged in trading for different States/UTs by enterprise type separately for rural, urban and both sectors combined. Most of the North Eastern States recorded higher proportion of female workers in this sector; Manipur being the highest (52.6%) followed by Meghalaya (41.4%) and Sikkim (38.7%). However the trend was reversed in Tripura and Assam. Tripura recorded lowest participation (3.1%) of female workers followed by Delhi (4.6%). Proportion of female workers in trading sector observed in Assam was only 7.6%.

3.6.12.3 **Statement 7.8** presents proportion of female workers in enterprises engaged in other services for different States/UTs by enterprise type separately for rural, urban and both sectors combined. Andhra Pradesh recorded highest proportion (56.7%) of female workers in this sector followed by Odisha (51.8%). Tripura recorded lowest participation (7.6%) of female workers in enterprises engaged in other services followed by Bihar (8.0%).

C 3.1: Percentage of Female Workers in each broad activity category

3.7 Gross value added (GVA): Estimates of aggregate annual GVA have been derived and aggregate gross value added (in Rs. crores) by enterprise type and sector is shown in **Statement 8**. Aggregates shown against col.(4), col.(7), col.(10) and the last row may differ from the total of value figures shown against each enterprise type for each sector due to rounding off. Aggregate annual gross value added by unincorporated non-agricultural enterprises was estimated as Rs.628,356 crores².

3.7.1 There was a differentiated distribution of annual GVA by enterprise types in rural and urban areas. Share of OAEs in aggregate GVA was much higher in rural areas (63%) than for urban areas (37%). At all-India level, Establishments contributed 55% to aggregate GVA. The overall GVA contribution of urban enterprises (69%) was much higher than rural enterprises (31%). Enterprises engaged in 'Trade' (39%) had contributed maximum to overall GVA followed by 'Other Services' (36%) and 'Manufacturing' (25%).

Statement 8: Estimated GVA of enterprises by enterprise types and sector for each broad activity category

All India

3.7.2 **Statement 9** presents the estimated GVA of enterprises for each activity category. In the manufacturing sector, it is observed that the activity 'Manufacture of wearing apparel' (M6) had the highest GVA (Rs. 25092 crores) and 'Manufacture of textiles' (M5) had the second highest GVA (Rs. 22445 crores) among all manufacturing activity categories. Among all trading activity categories, the activity 'Other retail trade' (T4) had the highest GVA (Rs. 180801 crores). 'Land transport' (S4) had the highest GVA (Rs. 44763 crores) and 'Education' (S13) had the second highest GVA (Rs. 36184 crores) among all other services activities.

² 1 crore = 10⁷

3.7.3 **Statement 10.0** gives state-wise aggregate annual GVA in descending order and also percentage shares of major States in aggregate GVA in the descending order of their share. It is seen that Maharashtra had the highest GVA with a share of 12.2% followed by Uttar Pradesh (10.5%), Tamil Nadu (10.4%), Andhra Pradesh (8.7%) and West Bengal (7.8%). There is a high spatial polarization of economic contribution in the unincorporated non-agricultural sector. The share of top five states in terms of aggregated GVA remained nearly 50%.

3.7.4 **Statement 10.1** gives state-wise aggregate annual GVA of manufacturing enterprises in descending order and also percentage shares of major States in aggregate GVA in the descending order of their share. It has been observed that Maharashtra had the highest GVA with a share of 13.1% followed by Tamil Nadu (12.5%), Gujarat (12.0%), Uttar Pradesh (9.8%) and West Bengal (8.9%). The share of top five states in terms of aggregated GVA in manufacturing enterprises was 56.4%.

3.7.5 **Statement 10.2** gives state-wise aggregate annual GVA of trading enterprises in descending order and also percentage shares of major States in aggregate GVA in the descending order of their share. It is seen that Maharashtra had the highest GVA with a share of 11.97% followed by Uttar Pradesh (10.50%), Tamil Nadu (8.56%), Andhra Pradesh (8.23%) and West Bengal (8.20%). The share of top five states in terms of aggregated GVA in trading enterprises remained nearly 48%.

3.7.6 **Statement 10.3** gives state-wise aggregate annual GVA of 'other services' enterprises in descending order and also percentage shares of major States in aggregate GVA in the descending order of their share. It is seen that Maharashtra had the highest GVA with a share of 11.9% followed by Tamil Nadu (10.95%), Uttar Pradesh (10.91%), Andhra Pradesh (9.79%) and Karnataka (8.12%). The share of top five states in terms of aggregated GVA in other services enterprises was 51.7%.

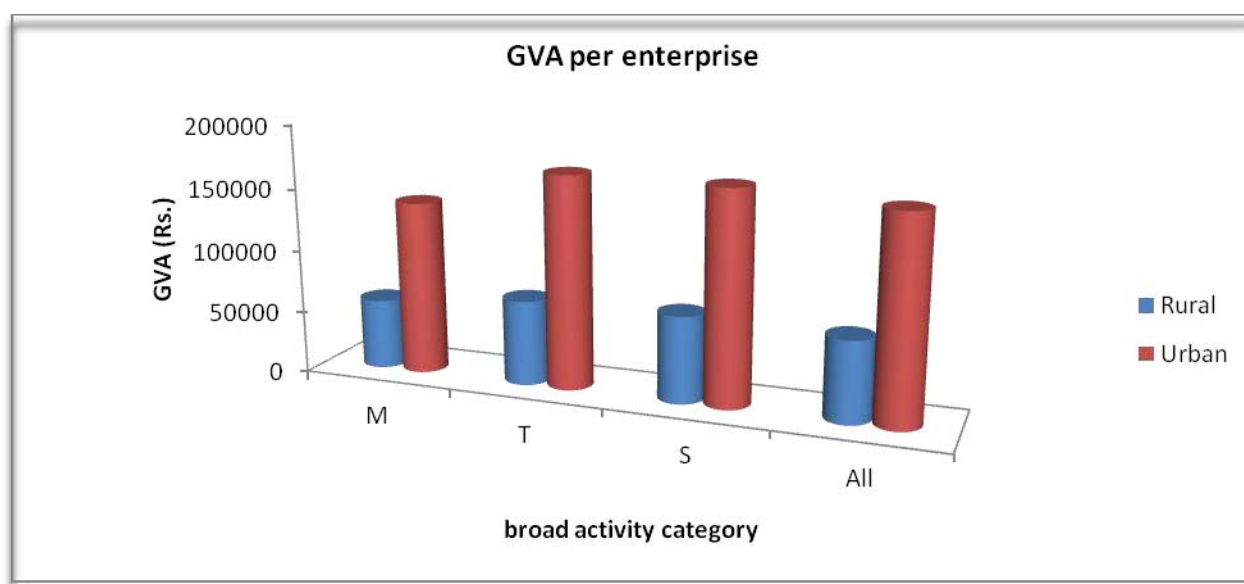

3.7.7 **GVA per enterprise: Statement 11** gives the estimated annual gross value added per enterprise (GVAPE) categorised by type of enterprise separately for rural, urban and combined sector. As expected, GVAPE was substantially high for Establishments for all sectors. At all-India level, annual GVAPE in the unincorporated non-agricultural sector was estimated at Rs. 1,08,951. For rural India, annual GVAPE for OAEs and Establishments were estimated as Rs. 44,101 and Rs. 2,77,829 respectively. The corresponding estimates for urban areas were Rs. 76,813 and Rs. 4,38,003 respectively. At all-India level highest GVAPE was for enterprise engaged in 'Trading' estimated as Rs.1,17,454 followed by 'Other Services' at Rs.1,16,633 and 'Manufacturing' at Rs.89,900. GVAPE for enterprise engaged in 'Manufacturing' was significantly low compared to 'Trading' and 'Other Services' at every level of dis-aggregation.

C4: GVA (in Rs.) per enterprise by broad activity category

3.7.8 **Statement 12** gives the estimated GVA per enterprise for each activity category. Among manufacturing activities, considering the combined sector, the estimated Gross Value Added per enterprise (GVAPE) was highest (Rs. 625894/-) in ‘Manufacture of motor vehicles, trailers and semitrailer (M21)’ and lowest (Rs.18105/-) in ‘Manufacture of tobacco products (M4)’. In the trading sector considering both rural and urban trading enterprises, GVAPE was highest (Rs.291656/-) in ‘Other wholesale trade (T3)’ and lowest (Rs. 99312/-) in ‘Other retail trade (T4)’. Taking rural and urban ‘other services’ enterprises together, among all ‘other services’ activities the GVAPE was highest (Rs. 581337/-) in ‘Accommodation (S1)’ and lowest (Rs. 30678/-) in ‘Financial service activities except insurance and pension funding (S8)’. The establishments had greater annual GVAPE in comparison to the OAEs in all the sectors across all the activities.

NSS Report No. 549: Economic Characteristics of Unincorporated Non-agricultural Enterprises (Excluding Construction) in India

3.7.9 State level estimates of GVA per enterprise (GVAPE): Statement 13.0 gives State wise estimates of annual GVAPE by type of enterprise (OAEs and Establishments) for rural, urban and combined sector. As expected, estimated annual GVAPE for each state was higher for Establishments for all sectors. Again, GVAPE across all States/UTs was higher in urban areas than rural areas except for Delhi where GVAPE in rural areas was more than that of urban areas. For Delhi, GVAPE of establishments in rural areas was significantly higher than GVAPE of establishments in urban areas. Among all the states/UT, Delhi had the highest GVAPE and Odisha had the lowest GVA per enterprise. It is interesting to observe that for the states in North-east region and states smaller in area, GVAPE was significantly higher than rest of the country.

3.7.10 Statement 13.1 shows the estimated GVAPE in different States/UTs by type of manufacturing enterprises (OAEs and Establishments) for rural, urban and combined sector. The survey revealed that estimated annual GVAPE was higher for Establishments in all the sectors. Also, GVAPE in all the States/UTs was higher in urban areas than rural areas except for some States/UTs like Sikkim, Chandigarh, Dadra & Nagar Haveli, Daman & Diu, Lakshadweep and Puducherry. Considering all the manufacturing enterprises among all the States/UTs, Sikkim had the maximum estimated GVAPE (Rs. 424025/-) while Madhya Pradesh has the lowest GVAPE (Rs. 42714/-) in the combined sector. It may be noticed that some States, viz. Arunachal Pradesh, Delhi, Goa and Sikkim had much higher estimated annual GVAPE as compared to others.

3.7.11 Statement 13.2 shows the State wise estimated GVAPE by type of trading enterprises (OAEs and Establishments) for rural, urban and combined sector. Considering all the trading enterprise types and sectors, the estimated annual GVAPE was higher in urban areas than that in rural sectors, except for Delhi where the rural GVAPE was Rs. 696435/- as compared to Rs. 286253/- in urban areas. Among all the States/UTs, Arunachal Pradesh had the highest (Rs. 297783 /-) GVAPE while Odisha has the lowest (Rs. 53417/-) GVAPE.

3.7.12 Statement 13.3 shows the estimated GVAPE for all 'other services' enterprises in different States/UTs. The survey revealed that estimated GVAPE was higher in urban areas than rural areas, except for Nagaland and Puducherry where the rural GVAPE was higher. Among all the States/UTs, Mizoram had the highest GVAPE of Rs. 405852/- while Tripura had the lowest with Rs. 56720/- in the combined sector. Delhi, Jammu & Kashmir, Andaman & Nicobar Islands were three other States/UTs which also had relatively higher estimated GVAPE.

Statement 13.1: Estimated GVA (Rs) per enterprise for all manufacturing enterprises in different States/UTs

3.7.13 GVA per worker (GVAPW) and Emoluments per hired worker (EPHW): Statement 14 gives the estimated annual gross value added per worker (GVAPW) and emoluments per hired worker (EPHW) separately for rural, urban and combined sector for each broad activity category. As expected, both GVAPW and EPHW were substantially high in urban areas for each broad activity category. At all-India level, annual GVAPW in unincorporated non-agricultural sector was estimated at Rs. 58,193/-. For rural India, annual GVAPW was estimated as Rs. 37,241/- and the corresponding estimate for urban areas was Rs. 78,527/- which was more than twice that of rural areas. **Chart C5** shows GVA per worker by broad activity category. At all-India level highest GVAPW was for enterprise engaged in ‘Trading’ estimated as Rs.71,412/- followed by ‘Other Services’ at Rs.59,010/- and ‘Manufacturing’ at Rs.44,347/-. GVAPW for enterprise engaged in ‘Manufacturing’ was significantly low compared to ‘Trading’ and ‘Other Services’ at every level of dis-aggregation.

Statement 14: Estimated GVA (Rs.) per worker and emoluments per hired worker by enterprise types and sector for each broad activity category

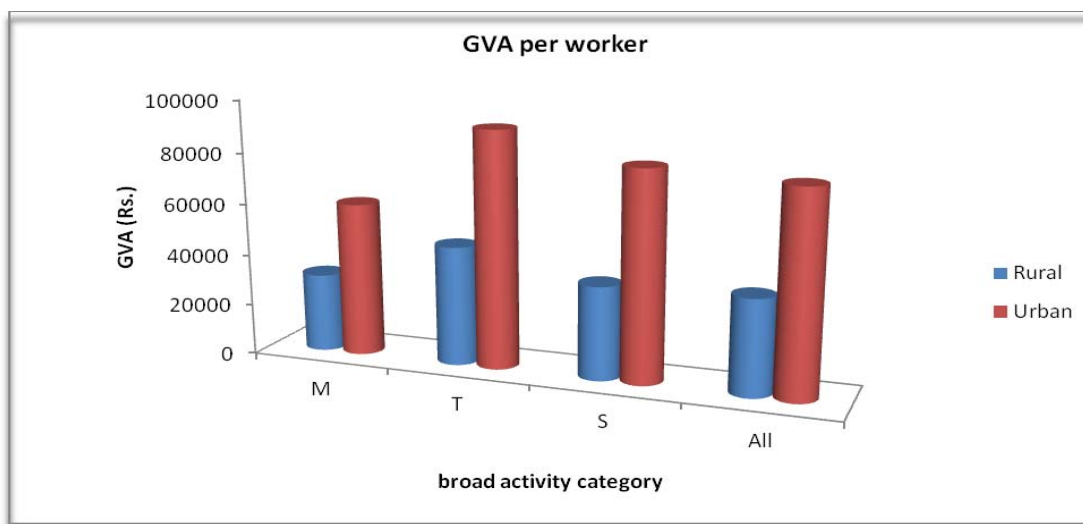

all-India						
broad activity category	GVA per worker and emoluments per hired worker* (Rs.)					
	rural		urban		rural + urban	
	GVA per worker (Rs.)	emoluments per hired worker* (Rs.)	GVA per worker (Rs.)	emoluments per hired worker* (Rs.)	GVA per worker (Rs.)	emoluments per hired worker* (Rs.)
(1)	(2)	(3)	(4)	(5)	(6)	(7)
manufacturing	30569	32156	59919	48767	44347	42439
trade	46424	38885	91907	47057	71412	45654
other services	36322	40889	81267	57053	59010	52277
all	37241	36354	78527	51602	58193	47016

*: Based on only those enterprises where at least one hired worker was reported

Similarly the annual EPHW in unincorporated non-agricultural sector for rural, urban and combined sector were estimated to be Rs. 36,354/-, Rs. 51,602/- and Rs. 47,016/- respectively. It may be noted that in comparison to the earlier report ‘Key Results of Survey on Unincorporated Non-agricultural Enterprises (Excluding Construction) in India’, in this report the annual EPHW has been calculated only for those enterprises where at least one hired worker was reported. Though GVAPW was highest for enterprises engaged in ‘Trading’, enterprises engaged in ‘Other

Services' offered highest EPHW estimated as Rs. 40,889/-, Rs. 57,053/- and Rs. 52,277/- in rural, urban and combined sector respectively.

C5: GVA (in Rs.) per worker by broad activity category

3.7.14 State level estimates of GVA per worker and emoluments per hired worker:

Statement 15.0 gives State wise estimates of annual GVA per worker (Rs.) and annual emoluments per hired worker (Rs.) for rural, urban and combined sector. Among all states, Arunachal Pradesh had the highest GVAPW (Rs. 1,60,910/-) followed by Delhi (Rs. 1,28,732/-) while the lowest annual GVAPW (Rs.27,378/-) was recorded for Odisha followed by West Bengal (Rs.41,200/-). GVAPW was higher in urban areas than rural areas across all States except for Delhi, Chandigarh and Daman & Diu. Similarly for EPHW among all states, Mizoram had the highest annual EPHW (Rs. 88,587/-) while the lowest annual EPHW (Rs.28,622/-) was recorded for Jharkhand. For majority of States annual EPHW was higher in urban areas than rural areas.

3.7.15 **Statement 15.1** gives State wise estimates of annual GVA per worker (Rs.) and annual emoluments per worker (Rs.) in manufacturing enterprises for all sectors. Among all the states, Goa had the highest annual GVAPW (Rs. 1,87,955/-) followed by Arunachal Pradesh (Rs. 1,47,500/-) while the lowest annual GVAPW was recorded for Odisha (Rs.21,762/-) followed by Madhya Pradesh (Rs.24,603/-). It has been observed that the GVAPW was higher in urban areas than rural areas across all States/UTs except for Sikkim, Chandigarh, Daman & Diu, Lakshadweep and Puducherry. Among all states, Andaman & N. Islands had the highest EPHW (Rs. 83,416/-) while the lowest annual EPHW (Rs.25,277) was recorded for Jharkhand. For majority of States EPHW was higher in urban areas than rural areas.

Statement 15.0: GVA per worker (in Rs.) and emoluments (in Rs.) per hired worker in all types of enterprises for each States/UTs and sector

*: Based on only those enterprises where at least one hired worker was reported

3.7.16 **Statement 15.2** gives State wise estimates of annual GVA per worker (Rs.) and annual emoluments per worker (Rs.) in trading enterprises for all the sectors. Among all the States/UTs, Arunachal Pradesh had the highest annual GVAPW (Rs. 1,85,991/-) followed by Delhi (Rs. 1,41,604/-) while the lowest annual GVAPW was recorded for Odisha (Rs.34,146/-) followed by Uttar Pradesh (Rs.46,509/-). The survey shows that the GVAPW was higher in urban areas than rural areas across all States except for Delhi and Chandigarh. Among all states, Chandigarh had the highest EPHW (Rs. 80,424/-) while the lowest annual EPHW (Rs.25, 680/-) was recorded for Tripura. Here also, for majority of States EPHW was higher in urban areas than rural areas.

3.7.17 **Statement 15.3** gives State wise estimates of annual GVA per worker (Rs.) and annual emoluments per worker (Rs.) in ‘other services’ enterprises for all the sectors. Among all the States/UTs, Delhi had the highest annual GVAPW (Rs. 1,41,079/-) followed by Mizoram (Rs. 1,32,078/-) while the lowest annual GVAPW was recorded for Odisha (Rs.25,234/-) followed by Andhra Pradesh (Rs.36,199). It has been observed that for all ‘other services’ enterprises, the GVAPW was higher in urban areas as compared to rural areas across all States except for Nagaland and Puducherry. Among all states, Mizoram had the highest EPHW (Rs. 1,11,988/-) while the lowest annual EPHW (Rs.26,683/-) was recorded for Assam. For majority of States EPHW was higher in urban areas than rural areas.

3.7.18 **GVA per enterprise by location: Statement 16** represents the annual GVA per enterprise (GVAPE) by location of enterprise for each activity category. It has been observed that the annual GVAPE for enterprises located ‘outside household premises’ were higher as compared to those enterprises located ‘within household premises’. Considering the combined sector, the survey revealed that the manufacturing enterprises operating ‘outside household premises’ had the maximum GVAPE (Rs. 206873/-) with respect to location, followed by ‘other services’ (Rs. 145058/-) and trading (Rs. 137917/-) enterprises respectively.

3.7.18.1 Among manufacturing enterprises operated ‘outside household premises’, ‘Manufacture of motor vehicles, trailers and semi-trailers’ (M21) had the highest (Rs. 662466/-) annual GVAPE and ‘Manufacture of tobacco products’ (M4) had the lowest (Rs. 79728/-) annual GVAPE in the combined sector.

3.7.18.2 Similarly, among trading enterprises which had operated from ‘outside household premises’, the ‘Other wholesale trade’ (T3) and ‘Other retail trade’ (T4) had maximum (Rs. 333481/-) and minimum (Rs. 117021/-) annual GVAPE in the combined sector.

3.7.18.3 Finally, among different ‘other services’ activities which were operated from ‘outside household premises’, the activity ‘Education’ (S13) had the highest (Rs. 679472/-) annual GVAPE and ‘Water transport’ (S4) had the lowest (Rs. 45566/-) annual GVAPE.

3.7.19 **State/UT wise GVA per enterprise by location: Statement 17.0** gives State wise estimates of annual GVA per enterprise (in Rs.) by location and sector. The survey revealed that at all India level, the annual GVAPE for enterprises located ‘outside household premises’ are higher as compared to ‘within household premises’ both in rural and urban areas. It has been observed that annual GVAPE for enterprises located ‘outside household premises’ in rural areas was highest in Delhi (Rs. 548630/-) and lowest in Odisha (Rs. 50931/-). Similarly, for urban enterprises located ‘outside household premises’, the annual GVAPE was highest in Arunachal Pradesh (Rs. 465874/-) and lowest in Tripura (Rs. 73467/-).

3.7.20 **Statement 17.1** gives State wise estimates of annual GVA per manufacturing enterprise (in Rs.) by location and sector. The survey revealed that at all India level, the annual GVAPE for manufacturing enterprises located ‘outside household premises’ are higher as compared to ‘within household premises’ both in rural and urban areas. It has been observed that annual GVAPE for manufacturing enterprises located ‘outside household premises’ in rural areas was highest in Sikkim (Rs. 1069669/-) and lowest in Manipur (Rs. 57896/-). Similarly, for urban manufacturing enterprises located ‘outside household premises’, the annual GVAPE was highest in Goa (Rs. 966688/-) and lowest in Daman and Diu (Rs. 96905/-).

3.7.21 The State wise estimates of annual GVA per trading enterprise (in Rs.) by location and sector is given in **Statement 17.2**. The survey revealed that at all India level, the annual GVAPE for trading enterprises located ‘outside household premises’ are higher as compared to ‘within household premises’ both in rural and urban areas. It has been observed that annual GVAPE for trading enterprises located ‘outside household premises’ in rural areas was highest in Delhi (Rs. 971787/-) and lowest in Odisha (Rs. 44604/-). Similarly, for urban enterprises located ‘outside household premises’, the annual GVAPE was highest in Arunachal Pradesh (Rs. 502700/-) and lowest in Manipur (Rs. 62868/-).

3.7.22 **Statement 17.3** gives State wise estimates of annual GVA per ‘other services’ enterprise (in Rs.) by location and sector. The survey revealed that at all India level, the annual GVAPE for trading enterprises located ‘outside household premises’ are higher as compared to ‘within household premises’ both in rural and urban areas. It has been observed that annual GVAPE for trading enterprises located ‘outside household premises’ in rural areas was highest in Puducherry (Rs. 556301/-) and lowest in West Bengal (Rs. 44145/-). Similarly, for urban enterprises located ‘outside household premises’, the annual GVAPE was highest in Mizoram (Rs. 692807/-) and lowest in Tripura (Rs. 70952/-).

3.8.3 The annual GVA per worker by number of working hours of all ‘other services’ enterprises in a normal day separately by sector and type of ‘other services’ enterprise is presented in **Statement 18.3**. The survey revealed that at all India level the annual GVA per worker in ‘other services’ enterprises was estimated at Rs. 59010/-. It was estimated at Rs. 36322/- and Rs. 81267/- for rural and urban areas respectively. At all India level it has been observed that ‘other services’ enterprises who had worked more than 8 hours in a normal day had higher annual GVA per worker for rural, urban and combined sector. Also the survey revealed that annual GVA per worker in ‘other services’ enterprises was higher for establishments as compared to OAEs for different working hours in a normal day during reference month.

3.8.4 **Statement 18.4** shows that annual GVA per worker by number of normal working hours of enterprises in a normal day for each broad activity category and type of enterprise. It has been observed that across all broad activity categories of enterprises, the annual GVA per worker was higher in establishment as compared to OAEs. Among all broad activity categories of enterprises, the survey shows that the annual GVA per worker was higher for trading (Rs. 71412/-) followed by ‘other services’ (Rs. 59010/-) and manufacturing (Rs. 44347/-). As expected, the survey revealed that annual GVA per worker was higher for that enterprise which had worked more than 8 hours in a normal day during reference month and it was true for all broad activity categories.

3.9 Total fixed assets, utilization of fixed assets and annual rent on hired assets: The net book value or market value of owned fixed assets (depending on whether the data were collected from balance sheet or through oral enquiry) was collected in the survey. These covered all old and new goods that had a normal economic life of more than one year from the date of purchase. For obtaining the value of fixed assets, the net book value or the market value of owned fixed assets as on the last date of the reference year was considered.

Statement 19: Estimated Value (Rs.) of owned fixed assets per enterprises by enterprise types and sector for each broad activity category

all-India

3.9.1 **Statement 19** presents the estimated value of total fixed assets owned per enterprise by broad activity category for different enterprise types. At all India level, the estimated market value of owned fixed assets per enterprise was estimated as Rs. 2,03,364. The market value of owned fixed assets per enterprise in urban areas was about 3 times the corresponding value in rural areas. Per enterprise value of owned fixed assets for Establishments was about 8 times the same for OAEs. The activity 'Other Services' had the highest fixed assets owned per enterprise followed by the activities 'Trade' and 'Manufacturing'.

3.9.2 **Statement 20** presents the estimated value of owned fixed assets per enterprise for different enterprise types and sectors by each activity category. The survey reveals that among different manufacturing activities in the combined sector, 'Manufacture of motor vehicles, trailers and semi-trailers' (M21) has the highest (Rs. 1375923) and 'Manufacture of tobacco products' (M4) has the lowest (Rs. 29413) owned fixed assets per enterprise respectively. Similarly among different trading activities in the combined sector, 'Other wholesale trade' (T3) has the highest (Rs. 385651) and 'Other retail trade' (T4) has the lowest (Rs.158002) owned fixed assets per enterprise respectively. If one considers the different 'other services' activities in the combined sector, then the survey shows that 'Accommodation' (S1) has the highest (Rs.6358863) and 'financial service activities except insurance and pension funding' (S8) has the lowest (Rs. 21550) owned fixed assets per enterprise respectively.

3.9.3 **Statement 21.0** presents the estimated value of total fixed assets owned per enterprise for different States. Among all States, Delhi (Rs. 798977/-) and Assam (Rs. 68302/-) had respectively the highest and the lowest fixed assets owned per enterprise. As expected, estimated value of total fixed assets owned per enterprise for each state was higher for Establishments for all sectors.

3.9.4 **Statement 21.1** presents the estimated value of total fixed assets owned per manufacturing enterprises for different States. Considering the combined sector, it has been observed that among all States, Delhi (Rs. 703777/-) and Jharkhand (Rs. 40210/-) had respectively the highest and the lowest fixed assets owned per manufacturing enterprise. Also the estimated value of total fixed assets owned per manufacturing enterprise for each state was higher for Establishments for all sectors.

3.9.5 **Statement 21.2** presents the estimated value of total fixed assets owned per trading enterprises for different States. Among all States in the combined sector Chandigarh (Rs. 1019245/-) and Odisha (Rs. 40001/-) had respectively the highest and the lowest fixed assets owned per trading enterprise. The estimated value of total fixed assets owned per trading enterprise for each state was higher for Establishments for all sectors.

3.9.6 **Statement 21.3** presents the estimated value of total fixed assets owned per 'other services' enterprises for different States. Among all States, in the combined sector, Mizoram (Rs. 1600646/-) and Tripura (Rs. 72093/-) had respectively the highest and the lowest fixed assets owned per enterprise. As similar to all other broad activities in case of 'other services' also the estimated value of total fixed assets owned per 'other services' enterprise for each state was higher for Establishments for all sectors.

3.9.7 **Utilisation of fixed assets:** Gross value added to fixed assets ratio is a measure of income generated per unit of fixed capital and also measures the extent of utilisation of fixed assets in the business. Generally speaking, the higher the ratio, the better, because a high ratio indicates the business has less money tied up in fixed assets. A lower ratio may indicate that the business is over-invested in plant, equipment, or other fixed assets.

3.9.7.1 **Statement 21.4** presents ratio of GVA per enterprise to fixed asset (taking together owned and hired) per enterprise expressed as percentage for different activity category by enterprise type separately for rural, urban and combined sector. Results reveal that OAEs utilised fixed asset slightly better than establishments at all India level only because of higher performance of rural OAEs (54.5%) over rural establishments (37.3%). Performance of establishments (29.4%) was better than OAEs (27.1%) in urban area.

3.9.7.2 Utilisation ratio for both OAE and establishments in manufacturing sector at all India level were similar and around 39%. OAEs performed much better (59.2%) than establishments (49.4%) in rural manufacturing sector. Performance of establishments (36.8%) recorded higher over OAEs (28.6%) in urban manufacturing sector.

3.9.7.3 In all India trading sector, utilisation ratio for OAEs (34.0%) was higher than establishments (32.1%). Better performance of rural OAEs (56.3%) over establishments (45.5%) and urban establishments (30.4%) over OAEs (26.5%) can be observed in trading sector also.

3.9.7.4 However, in service sector utilisation ratios of OAEs (rural 49.6% and urban 27.3%) were much higher than those of establishments (rural 27.8% and urban 25.2%) both in rural and urban sector. At all India level, OAEs (33.9%) in 'other services' sector performed better than the establishments (25.7%).

3.9.7.5 Corresponding utilisation ratios computed for each States/UTs by enterprise type separately for Rural, Urban and combined sector for all activity together and for each broad activity category are presented in **Statement 21.5, 21.6, 21.7 and 21.8**. It can be observed that in general utilisation ratios of smaller States/UTs are much better than larger States/UTs for each broad activity category.

3.9.7.6 Among the top five States with about 50% share of aggregate GVA in all India, namely Maharashtra, Uttar Pradesh, Tamil Nadu, Andhra Pradesh and West Bengal, highest utilisation ratio (55.1%) was recorded in West Bengal with corresponding ratios for OAEs and establishments recorded at 57.2% and 53.1% respectively. The lowest utilisation ratio among these top five States was observed in Uttar Pradesh (28.4%) with corresponding ratios for OAEs and establishments recorded at 30.7% and 26.1% respectively.

3.9.7.7 In manufacturing sector, highest utilisation ratio (67.5%) was recorded in West Bengal with corresponding ratios for OAEs and establishments recorded at 62.3% and 71.4% respectively. The lowest utilisation ratio among these top five States was observed in Maharashtra (35.9%) with corresponding ratios for OAEs and establishments recorded at 33.4% and 36.9% respectively.

3.9.7.8 In trading sector, highest utilisation ratio (47.5%) was recorded in West Bengal with corresponding ratios for OAEs and establishments recorded at 52.9% and 41.7% respectively. The lowest utilisation ratio among these top five States was observed in Maharashtra (27.8%) with corresponding ratios for OAEs and establishments recorded at 29.6% and 26.0% respectively.

3.9.8 Annual rent payable on hired assets per enterprise: Statement 22 presents the estimated value of total fixed assets owned per enterprise and annual rent payable on hired assets per enterprise for different activity categories. The survey revealed that the annual rent payable per enterprise was Rs. 5821/- and it was Rs. 5486/-, Rs. 3006/- and Rs. 9078/- per manufacturing, trading and other services enterprise respectively. The annual rent per enterprise was estimated at a much higher level as compare to OAEs. Considering all establishments together, the annual rent payable on hired assets was estimated at Rs. 28723/- which was seventeen times greater than OAEs (Rs. 1663/-). Also the annual rent for establishments was estimated at Rs. 27811/- for manufacturing sector, Rs. 8199/- for trading sector and Rs. 48559/- for all 'other services' activities respectively.

3.9.8.1 Among different manufacturing activities, the annual rent payable on hired assets were highest (Rs. 58238/-) for those enterprises which were engaged in 'Manufacture of pharmaceuticals, medicinal chemical and botanical products' (M13) and it was estimated lowest (Rs. 92/-) in 'Manufacture of tobacco products' (M4). The annual rent was much higher for establishments as compared to OAEs for all manufacturing activities. It has been observed that for OAEs in the manufacturing activity 'Manufacture of coke and refined petroleum products' (M11), the annual rent payable on hired assets per enterprise was zero.

3.9.8.2 Among different trading activities, the annual rent payable on hired assets were highest (Rs. 4371/-) for those enterprises which were engaged in 'Other wholesale trade' (T3) and it was estimated lowest (Rs. 952/-) in 'Activities of commission agents' (T2). Here also the annual rent payable on hired assets was higher for establishment as compared to OAEs.

3.9.8.3 Among different activities engaged in 'other services', the annual rent payable on hired assets were highest (Rs. 342410/-) for those enterprises which were engaged in 'Accommodation' (S1) and it was estimated lowest (Rs. 18/-) in 'Water transport' (S4). The annual rent was much higher for establishments as compared to OAEs for all 'other services' activities. It has been observed that for OAEs in 'other services' activity 'Warehousing and storage' (S5), the annual rent payable on hired assets per enterprise was zero.

3.9.8.4 **Statement 23** shows the annual rent payable on hired assets per enterprise for all States/UTs along with estimated value of owned fixed assets. Among different States/UTs the annual rent payable on hired assets per enterprise was lowest in Tripura (Rs. 155/-) and highest in Lakshadweep (Rs. 21183/-). The annual rent payable on hired assets was much higher for establishments as compared to OAEs in all States/UTs.

3.10 Net additions to owned fixed assets: Statement 24.0 shows the net additions to owned fixed assets per enterprise during last 365 days/last year by type of assets. The survey revealed that during 2010-11, at all India level the net additions to owned fixed assets per enterprise was Rs. 6239/-. Among different states and UTs, Lakshadweep has the highest (Rs. 26919/-) and Kerala has the second highest (Rs. 22456/-) net additions to owned fixed assets per enterprise respectively. It has also been observed that during the survey period, on an average an enterprise has the maximum net additions to the asset 'land and building' as compared to other studied assets at all India level. This trend is also same for all other States and UTs. The survey shows that for Goa, the net additions to 'plant and machinery' per enterprise is negative.

3.10.1 The net additions to owned fixed assets per manufacturing enterprise during last 365 days/last year by type of assets is presented in **Statement 24.1**. The survey revealed that at all India level the net additions to owned fixed assets per manufacturing enterprise was Rs. 4014/-. Among different States and UTs, Delhi has the highest (Rs. 34616/-) and Andaman & N. Islands has the second highest (Rs. 15122/-) net additions to owned fixed assets per manufacturing enterprise respectively. It has also been observed that during the survey period, on an average a manufacturing enterprise has the maximum net additions to the assets 'land and building' and 'plant and machinery' as compared to other studied assets at all India level. This trend is also same for all other States and UTs. The result shows that in some states like Goa, Arunachal Pradesh, Jammu and Kashmir; the net additions to owned fixed assets like 'plant and machinery', 'tools and other fixed assets' per manufacturing enterprise was negative.

3.10.2 **Statement 24.2** shows the net additions to owned fixed assets per trading enterprise during last 365 days/last year by type of assets. It has been observed that at all India level the net additions to owned fixed assets per trading enterprise was Rs. 3456/-. Among different States and UTs, Lakshadweep has the highest (Rs. 31975/-) and Delhi has the second highest (Rs. 14072/-) net additions to owned fixed assets per trading enterprise respectively. It has also been observed that during the survey period, on an average a trading enterprise has the maximum net additions to the assets 'land and building' as compared to other studied assets at all India level. This trend is also same for all other States and UTs.

3.10.3 **Statement 24.3** shows the net additions to owned fixed assets per 'other services' enterprise during last 365 days/last year by type of assets. It has been observed that at all India level the net additions to owned fixed assets per 'other services' enterprise was Rs. 11112/-. Among different States and UTs, Kerala has the highest (Rs. 39437/-) and Himachal Pradesh has the second highest (Rs. 37992/-) net additions to owned fixed assets per 'other services' enterprise respectively. It has also been observed that during the survey period, on an average an 'other services' enterprise has the maximum net additions to the assets 'land and building' as compared to other studied assets at all India level. In some smaller States/UTs 'tools and other fixed assets' has the maximum share.

Statement 24.0 : Net additions to owned fixed assets per enterprise (in Rs.) during last 365 days/last year by type of assets for each States/UTs

State/UT	net additions (in Rs.) to owned fixed assets during last 365 days/last year

3.13.3 **Statement 29.3** shows the annual value of receipts per 'other services' enterprises by type of receipts in India for different enterprise types and sectors. It has been observed that principal receipts accounts for 77 percent of total receipts per 'other services' enterprise in the combined sector. In case of establishments, the principal receipts accounts for 79 percent of total receipts and it accounts for 76 percent of total receipts in OAEs. The trend is similar in both rural and urban areas. Among 'other than principal receipts', 'service provided' accounts for maximum receipts per enterprise engaged in 'other services' in the combined sector and it is true for both OAEs and establishments.

NSS Report No. 549: Economic Characteristics of Unincorporated Non-agricultural Enterprises (Excluding Construction) in India

3.14 Private Non Profit Institutions: Non-profit institutions are legal or social entities created for the purpose of producing goods and services whose status does not permit them to be a source of income, profit or other financial gain for the units that establish, control or finance them. In practice, their productive activities are bound to generate either surpluses or deficits but the units that establish, control or finance them cannot appropriate surpluses. **Statement 30** shows some key characteristics of private NPIs by enterprise types and sectors. At all India level the survey estimates 2.45 lakh enterprises which has the characteristics of private NPIs and about 13.61 lakh workers were working in those estimated private NPIs during the survey period. The number of private NPIs was estimated at 1.55 lakh and 0.90 lakh in rural and urban areas respectively. Similarly the number of workers working in private NPIs was estimated at 7.82 lakh and 5.79 lakh in rural and urban areas respectively. At all India level, the NPIs belonging to ‘other services’ accounts for the maximum number of workers. The survey revealed that at all India level, the annual value added by private NPIs was in tune of Rs. 6326 crores and ‘other service’ sectors had the highest contribution. In rural area the total annual GVA of private NPIs was estimated about Rs 1460 crores and in urban sector, it was estimated about Rs. 4867 crores.

3.15 Growth status of enterprises: Growth status of an enterprise represents the overall performance and sustainability of that enterprise over a period of time. **Statement 31.0** shows the percentage distribution of enterprises by growth status for each type of enterprises and sectors. The growth status of an enterprise was calculated on basis of its performance over last three years of operations. The survey reveals that at all India level, 43 percent enterprises were stagnating over last three years whereas around 31.9 percent enterprises were expanding. It has been observed that OAEs were more stagnating as compared to establishments in rural, urban and combined sector. In rural areas, 44.8 percent of enterprises were stagnating during last three years of operation while in urban areas 41 percent of enterprises were stagnating. 32.2 percent

and 31.5 percent of enterprises were reported to be expanding during their last three years of operations in rural and urban areas respectively.

3.15.1 **Statement 31.1** shows the percentage distribution of manufacturing enterprises by growth status for each type of enterprises and sectors where the growth status of a manufacturing enterprise was calculated on basis of its performance over last three years of operations. The survey shows that at all India level, 44.5 percent manufacturing enterprises were stagnating over last three years whereas 29 percent of them were expanding. It has been observed that OAEs were more stagnating as compared to establishments in rural, urban and combined sector. In rural areas, 47.6 percent of manufacturing enterprises were stagnating during last 3 years of operations while in urban areas 40.2 percent of manufacturing enterprises were stagnating. 30.2 percent and 27.3 percent of manufacturing enterprises were reported to be expanding during their last three years of operations in rural and urban areas respectively.

3.15.2 The percentage distribution of trading enterprises by growth status for each type of enterprises and sectors where the growth status of trading enterprise was calculated on basis of its performance over last three years of operations is shown in **Statement 31.2**. The survey shows that at all India level, 42.1 percent trading enterprises were stagnating over last 3 years whereas 33.5 percent of them were expanding. It has been observed that OAEs were more stagnating as compared to establishments in rural, urban and combined sector. In rural areas, 43.1 percent of trading enterprises were stagnating during last three years of operations while in urban areas 40.9 percent of trading enterprises were stagnating. 33.8 percent and 33.2 percent of trading enterprises were reported to be expanding during their last three years of operations in rural and urban areas respectively.

3.15.3 **Statement 31.3** shows the percentage distribution of ‘other services’ enterprises by growth status for each type of enterprises and sectors where the growth status of ‘other services’ enterprise was calculated on basis of its performance over last three years of operations. It has been observed that at all India level, 42.7 percent ‘other services’ enterprises were stagnating over last three years whereas 32.6 percent of them were expanding. Like manufacturing and trading sectors, here also the OAEs were more stagnating as compared to establishments in rural, urban and combined sector. In rural areas, 43.8 percent of ‘other services’ enterprises were stagnating during last 3 years of operations while in urban areas 41.6 percent of ‘other services’ enterprises were stagnating. 32.5 percent and 32.7 percent of ‘other services’ enterprises were reported to be expanding during their last three years of operations in rural and urban areas respectively.

3.16 GVA by factor income approach: In this survey four types of factor incomes were considered viz. emoluments, rent payable, interest payable and net surplus and then GVA of each enterprise was calculated using factor income approach along with product approach. **Statement 32.0** shows the percentage distribution of GVA by type of factor income for each type of all enterprises across all sectors. It has been observed that for OAEs in rural, urban and combined sector, ‘net surplus’ had major share of GVA as compared to other types of factor income. However, in case of establishments, both ‘net surplus’ and ‘emoluments’ had considerably significant share in total GVA at rural, urban and combined sector. For OAEs at all India level, ‘net surplus’ was 94.22 percent of GVA while in establishments, ‘net surplus’ and ‘emoluments’ were 55.08 percent and 37.43 percent respectively.

Statement 32.0: Percentage distribution of GVA by type of factor income for each type of enterprises and sectors

3.16.1 **Statement 32.1** shows the percentage distribution of GVA by type of factor income for each type of manufacturing enterprises across all sectors. It has been observed that for OAEs engaged in manufacturing activities in rural, urban and combined sector, 'net surplus' had major share of GVA as compared to other types of factor income. But in case of establishments in manufacturing sector, both 'net surplus' and 'emoluments' had considerably significant share in total GVA at rural, urban and combined sector. For OAEs at all India level, 'net surplus' was 95.72 percent of GVA while for establishments, 'net surplus' and 'emoluments' were 47.89 percent and 45.57 percent respectively.

3.16.2 The percentage distribution of GVA by type of factor income for each type of trading enterprises across all sectors is shown in **Statement 32.2**. The survey revealed that for OAEs engaged in trading activities in rural, urban and combined sector, 'net surplus' had major share of GVA as compared to other types of factor income. But in case of establishments of trading sector, both 'net surplus' and 'emoluments' had considerably significant share in total GVA at rural, urban and combined sector. For OAEs at all India level, 'net surplus' was 90.05 percent of GVA while for establishments, 'net surplus' and 'emoluments' were 54.31 percent and 33.71 percent respectively.

3.16.3 The percentage distribution of GVA by type of factor income for each type of 'other services' enterprise across all sectors is shown in **Statement 32.3**. The survey revealed that for OAEs engaged in 'other services' activities in rural, urban and combined sector, 'net surplus' had major share of GVA as compared to other types of factor income. But in case of establishments of 'other services' sector, both 'net surplus' and 'emoluments' had considerably significant share in total GVA at rural, urban and combined sector. For OAEs at all India level, 'net surplus' was 93.68 percent of GVA while for establishments, 'net surplus' and 'emoluments' were 50.67 percent and 42.02 percent respectively.

3.16.4 The GVA can be calculated using product approach and income approach. Although theoretically GVA calculated by these two approaches should converge, but practically it has been observed that the GVAs calculated by these two approaches had some difference. **Statement 33** shows the difference of the GVA calculated by two methods as percentage of GVA calculated by income approach by enterprise types and sectors. The survey revealed that for most of the activities in each of the broad activity categories, the GVA calculated by factor income approach was lower as compared to GVA calculated by product approach and it was true across all types of enterprises and sectors. It has also been observed that for urban OAEs engaged in 'Manufacture of coke and refined petroleum products' (M11) and rural OAEs engaged in 'Manufacture of electrical equipment' (M19), the divergence is in tune of 25 percent. Also for OAEs in combined sector which were engaged in 'Manufacture of coke and refined petroleum products' (M11), the divergence is around 11 percent. The survey shows that among

T1: Trade and repair of motor vehicles and motor cycles, **T2:** Activities of commission agents, **T3:** Other wholesale trade, **T4:** Other retail trade, **T:** Trading activities (Total)

S1: Accommodation, **S2:** Food service activities, **S3:** Land transport, **S4:** Water transport, **S5:** Warehousing and storage, **S6:** Support activities for transportation, postal and courier activities, **S7:** Information and Communication, **S8:** Financial service activities except insurance and pension funding, **S9:** Other financial activities, **S10:** Real estate activities, **S11:** Professional, Scientific and Technical activities, **S12:** Administrative and support service activities, **S13:** Education, **S14:** Human Health and Social work, **S15:** Other community, social and personal service activities, **S:** Other services (Total); **M+T+S:** all

different trading activities and sectors, the maximum divergence was around 7 percent for rural OAEs which were engaged in ‘Activities of commission agents’ (T2). In case of ‘other services’ enterprises, the maximum divergence of around 11 percent were observed for activities like ‘Accommodation’ (S1) for OAEs in rural areas and ‘Water transport’ (S4) for establishments in urban areas.

3.17 Precision of estimates: Relative Standard Errors (RSEs) of estimated number of unincorporated non-agricultural enterprises and estimated number of workers categorized by broad activity/sector at all-India level are given in **Statement 34** to show the reliability of estimates. It may be seen that barring RSEs for estimated number of workers for rural and urban establishments engaged in ‘manufacturing’ (5.31% and 6.50% respectively) and urban establishments engaged in ‘other services’ (5.14%), RSEs are less than 5 percent at all-India level both for estimated number of enterprises and estimated number of workers for all other activity categories, indicating that estimates are fairly reliable. Corresponding State wise RSEs are available in detailed tables. The data users are advised to use the estimates with caution particularly in cases where RSEs of estimates are high (say, more than 15% or so).

Statement 34: RSEs of some parameters of enterprises by broad activity category and sector

all-India

3.18 Comparison of estimates: The present survey covers the unincorporated non-agricultural enterprises (excluding construction) in manufacturing, trade and other service sectors. This is first time that an integrated survey was attempted during NSS 67th round. The last survey on ‘unorganized manufacturing’ was conducted during NSS 62nd round (2005-2006). In 62nd round survey, NSS covered all manufacturing enterprises, which were not under the coverage of Annual Survey of Industries (ASI). All government and public sector undertakings were also outside the survey coverage. In the following round (NSS 63rd round, 2006-2007), the last survey on ‘service sector enterprises’ was conducted. The 63rd round covered broadly service sector enterprises engaged in the activities of hotels and restaurants (Section H of NIC 2004); transport, storage and communication (I); financial intermediation (J); real estate, renting and business activities (K); education (M); health and social work (N) and other community, social and personal service activities (O). The ‘unorganized trade’ sector was last covered during NSS 53rd

round (1997) of survey. The coverage of the 53rd round of NSS was restricted to all non-directory trading establishments (NDTEs) and own-account trading enterprises (OATEs) except the public sector trading enterprises / establishments. Because of differences in coverage with the earlier rounds, comparison of estimates generated in 67th round with those of earlier round have been avoided in this report.

Appendix A

Detailed Tables

Notes on Tables

1. The estimates of different indicators related to economic characteristics of unincorporated non-agricultural enterprises (excluding construction) have been presented for all the States and UTs. While using the estimates for the smaller States, it may be kept in mind that the sample sizes for them may not be adequate enough for getting sufficiently reliable estimates.
2. In Table 11 and 12, while calculating 'annual emoluments per hired worker' only those enterprises were considered where at least one hired worker was reported.
