FOREWORD

The Economic Census provides the count of establishments including those in the unorganized sector, which have a huge contribution in Indian economy in terms of employment generation.

The Sixth Economic Census conducted recently is A data source which provides data on the number of establishments in the country and the number of persons employed therein along with their distribution by geographical location, type of ownership, etc. The database would undoubtedly be a valuable input for planning and policy formulation. I hope the data would provide insight in the developments taken place since 2005, when the Fifth Economic Census was conducted.

I congratulate the officers of Central Statistics Office, Ministry of Statistics and Programme Implementation and also officers of Directorates of Economic and Statistics of various States and Union Territories in completing the herculean task of conducting the Sixth Economic Census and bringing the results in the shortest possible time.

Preface

The Sixth Economic Census (EC) has been a joint effort of CSO and DESs in States/UTs and was conducted on All India basis covering all the States and UTs in the country during January, 2013 to April, 2014. It was one of the most complex and massive administrative exercises which inter-alia required training an army of enumerators, conducting a considerable publicity campaign and collecting information from all establishments (excluding crop production, plantation, public administration, defense and compulsory social security) - big or small, in the Private or Public sector.

2. The Sixth EC had several salient features including use of Enumeration Blocks (EBs) of Population Census 2011, both in rural and urban areas, so that results of Sixth EC can be synchronized with those of Population Census 2011. Further, for the first time, Handicraft/handloom establishments, proprietary establishments owned by women and their source of finance etc. were identified separately and the information on number of persons working therein was also collected. To seek the co-operation from respondents, the Collection of Statistics Act 2008, was invoked for the conduct of Sixth Economic Census.

3. The present report is based on the information tabulated from the data contained in the 'House and Establishment Listing Schedule 6A', which would be useful for all concerned stakeholders.

4. Directors, State/UT DESs were the overall in-charge for the conduct of Sixth EC in the State/UT, who worked under the guidance and directions of the Chief Secretary/Planning Secretary or Senior Officer nominated by the Chief Secretary and completed the fieldwork, its supervision, scrutiny and coding of data. The services of the senior officers and other officials involved at the State/UT level are highly appreciated.

5. I further place on record the tireless efforts of the Economic Census Unit, ESD, CSO under the adept guidance of Dr G.C. Manna, ADG and Shri Sunil Jain, DDG in successful conduct of Sixth EC and also in bringing out this report.

CHAPTER-I

INTRODUCTION

1.1 GENESIS

A reliable and robust database is the foundation of organized and proper planning. The Central Statistics Office (CSO), since its inception, has been instrumental in creation of database for various sectors of the economy and its periodic updation so as to meet the requirements of the planners for sound and systematic planning both at the macro as well as micro levels. While data requirements may be enormous in various sectors, the judicious collection and maintenance of data for various sectors within the available resource is a challenge. Our economy can broadly be classified into two sectors, namely, Agricultural and Non-Agricultural sectors. Fairly reasonable database exists for Agricultural Sector whereas such data base for Non-Agricultural sector is much desired. Keeping in view the importance of the non-agricultural sector in the economy and non-availability of basic frame for adoption in various sampling techniques for collection of data and estimation of various parameters, conducting Economic Census was felt necessary. With this background, the CSO started Economic Census for preparing frame of establishments, particularly the 'area frame' which could be used for various surveys for collection of detailed data, mainly on non-agricultural sector of the economy.

1.2 EARLIER ATTEMPTS

Broadly the entire planning period may be divided into two: prior to conduct of the First Economic Census i.e. prior to 1977 and thereafter i.e. after the economic census was carried out periodically. Efforts to fill up the data gaps for the non-agricultural sector were made right from the beginning of the First Five Year Plan. The first National Sample Survey (NSS) round (1950-51) covered non-agricultural household establishments as one of its subject themes. Such establishments were covered regularly up to the tenth NSS round (1955-56). Subsequently, selected activities were taken up for survey intermittently in different rounds (14th, 23rd & 29th rounds). Establishment schedules were canvassed in 1971 population census. The census of unorganized industrial units was carried out during 1971-73. Census of the units falling within the purview of Development Commissioner, Small Scale Industries, was carried out during 1973-74 and a survey on distributive trade was conducted by some of the States during the Fourth Five-Year Plan period (1969-74). All such efforts made prior to 1977 to collect data on non-agricultural establishments have been partial and sporadic. Area sampling with probability proportional to population were mostly used even to capture establishments. For a survey of establishments such sample design is not only inefficient but also results in under coverage of desired number of establishments and low reliability of the estimates derived. The prolonged efforts of statisticians and planners in finding a way out for collection of information on amorphous areas of activity resulted in a decisive breakthrough with the advent of conduct of Economic Census.

1.3 ECONOMIC CENSUSES CONDUCTED IN THE PAST

The Economic Enquiry Committee set up in 1925 under the Chairmanship of Dr. Visweswarayya and more importantly the Bowley-Robertson Committee set up later in 1934, were mainly responsible for the government's decision to set up an Inter-Departmental Committee with the Economic Adviser to the Government of India as the chairman. The Inter-Departmental Committee recommended the formation of a Central Statistical Office for coordination, institution of a statistical cadre, establishment of State Bureaus at State Head Quarters and maintenance of important statistics for the entire country. Bowley and Robertson Committee also commissioned a study to explore the possibility of conducting economic censuses in India. The first coordinated approach was made by the erstwhile Central Statistical Organisation (CSO), Government of India, by launching a plan scheme 'Economic Census and Surveys' in 1976. The scheme envisaged organising countrywide census of all economic activities (excluding those engaged in crop production and plantation) followed by detailed sample surveys of unorganised segments of different sectors of non-agricultural economy in a phased manner during the intervening period of two successive economic censuses.

The basic purpose of conducting the economic census (EC) was to prepare a frame for follow up surveys intended to collect more detailed sector specific information between two economic censuses. In view of the rapid changes that occur in the unorganised sectors of non-agricultural economy due to high mobility or morbidity of smaller units and also on account of births of new units, the scheme envisaged conducting the economic census periodically in order to update the frame from time to time.

1.3.1 First Economic Census (EC -1977) and Follow Up Surveys

The First Economic Census was conducted throughout the country, except Lakshadweep, during 1977 in collaboration with the Directorate of Economics & Statistics (DES) in the States/Union Territories (UT). The coverage was restricted to only non-agricultural establishments employing at least one hired worker on a fairly regular basis. Data on items such as description of activity, number of persons usually working, type of ownership, etc. were collected.

Reports based on the data of EC-1977 at State/UT level and at all India level were published. Tables giving the activity group-wise distribution of establishments with selected characteristics and with rural and urban break up were generated. State-wise details for major activities and size-class of employment in different establishments, inter-alia, were also presented in tables.

Based on the frame provided by the First Economic Census, detailed sample surveys were carried out during 1978-79 and 1979-80 covering the establishments engaged in manufacturing, trade, hotels & restaurants, transport, storage & warehousing and services. While the smaller establishments (employing less than six workers) and own account establishments were covered by National Sample Survey Organisation (NSSO) as a part of its 33rd and 34th rounds, the larger establishments were

covered through separate surveys by the CSO. Detailed information on employment, emoluments, capital structure, quantity & value of input, output, etc. were collected and reports giving all important characteristics on each of the concerned subjects were published.

1.3.2 Second Economic Census (EC-1980) and Follow Up Surveys

The Second Economic Census was conducted in 1980 along with the house-listing operations of Population Census 1981. This was done with a view to economizing resources, manpower, time and money. The scope and coverage were enlarged. This time all establishments engaged in economic activities - both agricultural and non-agricultural whether employing any hired worker or not were covered, except those engaged in crop production and plantation. All States/UTs were covered with the sole exception of Assam, where Population Census 1981 was not conducted.

The information on location of establishment, description of economic activity carried out, nature of operation, type of ownership, social group of owner, use of power/fuel, total number of workers usually engaged with its hired component and break-up of male and female workers were collected. The items on which information were collected in Second Economic Census were more or less the same as those collected in the First Economic Census. However, based on experience gained in the First Economic Census certain items viz. years of operation, value of annual output/turnover/receipt, mixed activity or not, registered/ licensed/recognised and act or authority, if registered were dropped.

The field work was done by the field staff consisting of enumerators and supervisors employed in the Directorate of Census Operations of each State/UT. The State Directorates of Economics & Statistics (DES) were also associated in the supervision of fieldwork. Data processing and preparation of State level reports of economic census and their publication were carried out by the DES.

Based on the frame thrown up by EC-1980, three follow-up surveys were carried out, one in 1983-84 on hotels & restaurants, transport, storage & warehousing and services, second in 1984-85 on unorganised manufacturing and third in 1985- 86 on wholesale and retail trade.

The economic census scheduled for 1986 could not be carried out due to resource constraints. However, the EC- 1980 frame was updated during 1987-88 in 64 cities (12 cities having more than 10 lakh population and 52 other class-I cities) which had problems of identification of enumeration blocks and changes due to rapid urbanization. On the basis of the updated frame, four follow-up surveys were conducted during 1988-89, 1989-90, 1990-91 and 1991-92 covering the subjects of hotels & restaurants and transport, unorganized manufacturing, wholesale & retail trade and medical, educational, cultural & other services respectively.

1.3.3 Third Economic Census (EC-1990) and Follow Up Surveys

The Third Economic Census was synchronized with the house listing operations of the

Population Census 1991 on the same pattern as EC- 1980. The coverage was similar to that of EC-1980. All States/UTs except Jammu & Kashmir, where Population Census 1991 was not undertaken, were covered.

Based on the frame thrown up by EC-1990 four follow up surveys were carried out:

- (i) Establishment Survey covering sectors of mining & quarrying, storage & warehousing in 1992-93;
- (ii) Establishment Survey covering sectors of hotels & restaurants and transport in 1993-94;
- (iii) NSS 51st round covering directory, non-directory and own account establishments in unregistered manufacturing sector in 1994-95; and
- (iv) Directory Trade Establishments Survey in 1996-97. NSS 53rd round covered the residual part of the unorganised trade sector in 1997.

1.3.4 Fourth Economic Census (EC-1998) and Follow up Surveys

With a view to meeting the demand of various user departments for the data on unorganized sectors of the economy and considering the nature of large number of small units which are subjected to high rates of mobility and mortality, it was felt that the economic census must be brought back to quinquennial nature so that an up-to-date frame can be made available once in five years for conducting the follow up surveys. Fourth economic census was planned during 1996. But due to various reasons, the scheme could be launched only in 1998.

The overall responsibility for organisation and conduct of the economic census rested with the CSO. The DESs of States/UTs were made responsible for conducting the field work and preparing the report for their respective State/UTs.

Based on the frame thrown up by Economic Census 1998, the following follow-up surveys were carried out:-

- (i) Special establishment survey in unorganized sector 1998-99.
- (ii) Survey on Unorganized Manufacturing sector: 2000-01 (NSS 56th round)
- (iii) Survey on Unorganized establishments in services sector (excluding trade and finance): 2001-02 (NSS 57th round)
- (v) Survey on Unorganized Manufacturing sector: 2005-06 (NSS 62nd round)
- (vi) Survey on Unorganized establishments in services sector excluding trade: 2006-07 (NSS 63rd round)

1.3.5 Fifth Economic Census (EC-2005) and Follow up Surveys

The Fifth Economic Census was conducted in 2005. The overall responsibility for organisation and conduct of Economic Census rested with the CSO. The DESs of respective States and UTs were made responsible for conducting the field work and preparing the report concerning their States/UTs.

Based on the frame thrown up by Fifth Economic Census, the following follow-up surveys were carried out:-

- (i) NSS 67th round during 2010-11 (Survey on Unincorporated Non-Agricultural Enterprises excluding Construction);
- (ii) NSS 73rd round during 2015-16 with the coverage similar to that of NSS 67th round.

1.4 SIXTH ECONOMIC CENSUS

Economic Census (EC) is the complete count of all establishments (i.e. units engaged in production and/or distribution of goods and services not for the purpose of sole consumption) located within the geographical boundaries of the country. The Sixth EC was conducted during January, 2013 to April, 2014 (see **Annexure V for details**) in all the States and Union Territories of the country in collaboration with State/UT Governments. Overall guidance was provided by Economic Census Unit of the Economic Statistics Division, Central Statistics Office (CSO), Ministry of Statistics and Programme Implementation (MOSPI), Government of India.

1.4.1 Brief Objective of Sixth EC

The Sixth EC proposes to provide up to date information on number of establishments and number of persons employed therein, activity wise, of all the sectors (excluding crop production, plantation, public administration, defence and compulsory social security) of the country including their distribution at all-India, State, district, and at village/ward levels for comprehensive analysis of the structure of the economy (micro, macro and regional levels).

1.4.2 Scope and Coverage

The Sixth EC was conducted in all the States/UTs. All economic activities (agricultural and non-agricultural), except those involved in crop production and plantation, public administration, defense and compulsory social security, related to production and/or distribution of goods and/or services other than for the sole purpose of own consumption were covered. However, as were done in earlier censuses, the following activities were kept out of the purview of the Sixth EC:

- (i) Establishments of shelter-less and nomadic population, which keep on moving from place to place and camp either without shelter or with makeshift shelter.
- (ii) Establishments engaged in some illegal activities like smuggling, gambling,

beggary, prostitution, etc.

- (iii) Domestic servants, whether they work in one household or in a number of households, drivers, etc. who undertake jobs for others on wages.
- (iv) All wage-paid employees of casual nature.
- (v) Household members engaged in household chores.
- (vi) Persons doing different types of jobs depending on the availability of work e.g. loading, unloading, helping a mason or a carpenter, doing earthwork for a contractor.
- (vii) Household members working for other households and earning some money which is insignificant.
- (viii) Households in which none of the members is engaged in any gainful activity i.e. Households depending on remittance, rent, interest, pension etc.

1.4.3 Committees and Working Groups at Central Level

A Standing Committee was constituted under the Chairmanship of Chief Statistician of India & Secretary, MOSPI, to look into various aspects of conduct of Sixth Economic Census. The members of the Committee for the Sixth Economic Census inter-alia include Registrar General and Census Commissioner of India (RGI & CC), Adviser (Financial Resources) and Adviser (Perspective Planning) both from the Planning Commission (now NITI Aayog), Chief Economic Adviser, Ministry of Finance and other officers of the level of Additional Secretary/ Joint Secretary of the Central Ministries/Departments concerned like Micro, Small and Medium Enterprises, Commerce and Industry, Women & Child Development, Panchayati Raj, Rural Development and Labour & Employment as well as DG (CSO), DG & CEO (NSSO), Additional DGs heading National Accounts Division, Social Statistics Division & Training Division of CSO and Field Operations Division, Survey Design and Research Division, Data Processing Division of NSSO as well as Deputy Director Generals of Computer Centre, CSO and CSO Industrial Statistics Wing. Six State Governments namely, Jammu & Kashmir, Assam, Maharashtra, Tamil Nadu, Uttar Pradesh and West Bengal were represented by their respective Director General/Director, Directorate of Economics & Statistics. The Standing Committee also included other experts from esteemed educational institutions in the field of statistics and economics and Ex-DGs of CSO.

The Committee was assisted by a Working Group headed by Prof. S. P. Mukherjee, Retired Professor and Head, Department of Statistics, Calcutta University for development of concepts & definitions, strategy for conduct of field work, tabulation of data and dissemination of results. All the secretarial assistance to the Standing Committees and Working Group was provided by the Economic Census Unit of Economic Statistics Division, CSO.

1.4.4 Co-ordination Committee at State/District Level

State Level Co-ordination Committees (SLCC) under the chairmanship of Chief Secretaries/ Development Commissioners and District Level Coordination Committees (DLCC) under the chairmanship of District Collectors were constituted to review the progress of work and take appropriate measures for smooth conduct of the Census within the prescribed time frame.

1.4.5 New Initiatives

During the Sixth EC, several seminal steps and modifications were undertaken to increase the coverage of information besides making the process simpler and data more reliable. These include:

i) Coverage

- The practice followed since the Second EC to cover all agricultural activities excluding crop production and plantation was continued in the Sixth EC as the information on crop production plantation is being covered under quinquennial Agricultural Census since 1970-71.
- In case of non-agricultural activities, establishments engaged in public administration, defence and compulsory social security activities were excluded during Sixth EC, as such information is already available with the Government and also due to the difficulties faced in collecting information from such establishments during the Fifth EC.

ii) Changes made in the Schedules

In Sixth EC, two schedules were canvassed, viz., i) House and Establishment Listing Schedule (6A) (**Annexure-I**) and ii) Directory of Establishment Schedule (6C) (**Annexure-III**) in place of three schedules canvassed during Fifth EC. House and Establishment Listing Schedule of Sixth EC were formed by merging '**House List**' and '**Enterprise Schedule**' of the Fifth EC. Further, the '**Address Slip**' Schedule of Fifth EC was modified and renamed as **Directory of Establishment Schedule** in Sixth EC for developing Business Register.

The third schedule 'Establishment Abstract' (Schedule 6B) (**Annexure -II**) was a derived schedule of summary information based on the information contained in House and Establishment Listing Schedule, which was required to be prepared by each enumerator. This summary information was used to generate provisional results, which were released on 30/7/2014.

iii) Inclusion of New Items/Changes made in Main Schedule i.e., House and Establishment Listing Schedule

- a. Number of members in the household (HH);
- b. Number of only wage earners/salaried employees in the HH;
- c. Number of establishments outside HH with fixed structure owned by HH members;
- d. Number of establishments outside HH without fixed structure owned by HH members;
- e. Number of establishments inside HH owned by HH members;
(Items under ‘a’ to ‘e’ above were included at the household level to guard against possible under-listing of establishments located within the household or those without fixed structure)
- f. Broad Activity Code (all activities divided into two-digit 24 broad activity codes);
- g. Three-digit National Industrial Classification(NIC)-2008 Codes recorded in place of four-digit NIC-2004 codes earlier, to minimize wrong reporting of NIC codes;
- h. Collection of data for handicraft/handloom establishments for the first time;
- i. Information on ownership of proprietary establishments collected for under Sex Code “Others” i.e. transgender for the first time;
- j. Religion of the owner of proprietary establishments;
- k. Nature of operation: ‘Non perennial’ was divided into casual and seasonal; and
- l. Use of Bar Codes along with Form Number for the first time to facilitate proper accounting of canvassed schedules.

iv) Items Excluded from the Main Schedule i.e., House and Establishment Listing Schedule:

- a. Information on subsidiary activity (only information on major activity collected);
- b. Power used in entrepreneurial activity (confined to Directory of Establishment schedule);
- c. Registration code (confined to Directory of Establishment schedule); and
- d. Number of children (male/female) usually working.

v) New Items Added in Directory of Establishment Schedule:

- a. Does a computer and/or internet facility exist in the establishment?

1.4.6 Other Important Changes Made/ Decisions

- i) Enumeration Blocks (EBs) of Population Census 2011 were used as primary geographical units for both urban and rural areas for the purpose of listing of establishments. In most of the earlier ECs, UFS (Urban Frame Survey) Blocks of NSSO were taken as the primary geographical units for urban areas. Use of EBs would facilitate the linking of Census 2011 database with that of Sixth EC at the lower geographical levels like EBs and wards. It is likely to enhance the utility of Sixth EC data.
- ii) Reference period for counting number of persons employed: In Fifth EC, last year / season was taken. For Sixth EC, number of persons employed on the last working day has been considered, to minimize the error due to recall lapse.
- iii) Minimum qualifications for enumerators and supervisors were prescribed for the first time for better understanding of the terms used in schedules and ensuring proper collection of data. The minimum qualifications were as under:
 - Qualification of Enumerators: Higher Secondary
 - Qualification of Supervisors: Graduation
- iv) Schedules in 15 languages were designed through National Institute of Design (NID), Ahmedabad. Further, a visual identity for the Sixth EC was created by the National Institute of Design (NID), Ahmedabad, in the form of a LOGO consisting of four elements viz. factory, gears, writing hand and common people in green and blue colours. The factory symbolized large scale industry, the gears symbolized the work and functionality with reference to the economy and the Common People represented small scale industries while the writing hand represented recording of census data. The green colour represented ecology and the blue colour was a representative of industrial functioning.
- v) Nearly five crore schedules were got printed centrally by CSO and requisite number of schedules supplied to District Statistical Offices (DSO)/Head Quarters of DESs of all the States/UTs for maintaining uniformity in the schedules to facilitate proper data processing.

- vi) A Census Kit containing plastic folders for each of the three schedules and nine (09) items, i.e. board, pencils, ball pens, sharpener, eraser, markers, chalk box, clips and calculator, was provided to each enumerator and supervisor for safe keeping and facilitating proper collection of information.
- vii) The NIC coding in Column 13 of the House and Establishment Listing Schedule-6A has been done by trained staff of DESs at their respective DSOs, to improve the quality of coding.
- viii) Information contained in Directory of Establishment Schedule is entered by trained officials of DSO for ensuring correct and complete addresses. Software was developed and trainings for its use were provided to officials of DES of States/UTs by Computer Centre, MOSPI.
- ix) Abridged House List (AHL) and Layout Maps (LMs) of Census 2011 EBs were procured from office of RGI & CC and provided to the Enumerators to facilitate proper coverage.
- x) Wide publicity was made through print, audio and video media to generate awareness among masses about the importance of Sixth EC and soliciting their co-operation in data collection.
- xi) Data collected was inspected at all levels and the same was cross validated by using information available with alternative sources such as number of industrial and commercial electricity connections at State/District level and Registrations in District Industries Centers and results based on NSS Reports in order to increase credibility of the information collected in the Census.
- xii) M/s HCL Info system was assigned the work of scanning and data capturing. As per arrangements entire scanning was undertaken at HCL's Storage and Scanning Centre (SSC) created at Faridabad (Haryana), whereas, the data capturing was decentralized. It was undertaken at seven Data Processing Centers of Office of RGI& CC, which also provided technical support and guidance, located at Delhi, Lucknow, Bhopal, Mumbai, Chennai, Kolkata and Gandhinagar.
- xiii) Computer Centre, CSO, MOSPI undertook validation and tabulation of data of Sixth EC. A SAS based BI tool is being procured by Computer Centre, CSO, MOSPI. It will provide connectivity/access to unit level data available with Computer Centre which would facilitate generation of all State/UT Specific and All India tables of Sixth EC using drag and drop operations.

1.4.7 Inter- Ministerial Consultations/ Appraisal

A representative from Craft Council of India also participated in all the training programmes and provided instructions/clarifications regarding handicraft/handloom items for proper identification and listing of handicraft/handloom activities in the Census. One officer from CSO/NSSO and two officers from State/UT Governments imparted training to the State and district officials, who in turn provided training to the field functionaries like Charge officers, enumerators and supervisors. A 40 minutes' documentary for imparting training to enumerators and supervisors was developed through Directorate of Audio and Visual Publicity (DAVP) in Hindi and thereafter dubbed in 13 regional languages and also in English, with a message of Hon'ble Minister (IC), MOSPI. The CDs of the Documentary were distributed at District level. This was found very useful in communicating uniform instructions to the field staff.

Besides, an **Instruction Manual** in Hindi/English was printed and provided to all the State/Central Government Officials to facilitate training. **Guide for Enumerators and Supervisors**, consisting of all details regarding filling up of the schedules, concepts and definitions, illustration of filled in schedule and some frequently asked questions, was provided to the 1.17 million field staff (**Annexure VI**). The Guide was translated from English and printed in the regional languages by the respective State/UT DESs for better understanding of the field staff.

1.4.10 Creation of Cell for Economic Census (EC)

With the approval of Ministry of Finance, Government of India, 235 posts were created for creation of EC cell at each State/UT Head Quarter. The detail of posts created by State/UT Governments is at (**Annexure VI**). Further 30 posts were also created for creation of Cell in CSO, MoS&PI. All the posts were created for a period of 30 months.

1.4.11 Publicity

In order to convey and spread information regarding the economic census and especially to ensure that all corporate units, establishments and self-employed persons in the primary (excluding crop production and plantation), secondary and tertiary sectors are fully aware of its importance, participate actively in it and cooperate well with the enumerators, the economic census agencies and departments, advertisements were made by the CSO and all the States/ UTs using the media like newspapers, radio and TV channels to provide impetus to the census operation and spread knowledge about it.

1.4.12 Audio-Visual Media

To have proper impact on the masses 60 second video and audio clippings were prepared. Thereafter audio clippings were dubbed in all regional languages. This apart, 4 video clippings were developed separately in 4 regions and later on dubbed in the regional languages spoken in those areas.

1.4.13 Print Media

Advertisement (appeal) with request for seeking public cooperation was issued in newspapers throughout the country through the Directorate of Audio and Visual Publicity (DAVP), Ministry of Information and Broadcasting. In addition to this, publicity measures were also undertaken by the State/UT Governments, so as to provide wide publicity of the census operation and spread knowledge about its utility and ensuring cooperation.

1.4.14 Field Operation

The fieldwork of Sixth EC started in November, 2012 on pilot basis in some blocks of Assam and Puducherry. Thereafter, it was conducted in the entire country during January, 2013 - April, 2014. The Population Census 2011 frame of 2.48 million EBs including about 43,000 uninhabited EBs was used for the geographical coverage during Sixth EC. 2.45 million EBs including about 18,765 uninhabited EBs was covered during the field work of Sixth EC. This included some smaller EBs of Population Census being merged to save cost while some bigger EBs were split to ensure proper coverage of industrial/market areas. 87,700 such merged/split EBs were covered. Further, some industrial pockets not covered during Population Census 2011 were covered under Sixth EC. Accordingly, 99,892 additional EBs, those not covered in the Population EBs frame were also covered during Sixth EC.

About 8.5 lakh enumerators and 3.2 lakh supervisors were deployed to collect information from the entire country. These enumerators and supervisors were provided comprehensive training. About 20,000 training programmes, each of two days (including field visit) were organised. For

listing purposes, all houses/ households/establishments were visited. Establishments with fixed structures were listed at the place of their operation. On the other hand, economic activities that are carried out without any fixed structures were covered/ listed at the place of the residence of the owner.

All types of establishments (perennial, seasonal and casual), existing on the date of census, although may not be in operation on the day due to certain reasons, were covered in the census. The data were collected from all the entrepreneurs and usual households. The work of the enumerators was supervised by high level officers. Further inspection of field work in all EBs by supervisors was also put in place and 200 officers of NSS were imparted training for conducting surprise inspection to ensure coverage & quality of enumeration work. For collection of information on number of workers employed, information as on last working day was collected during visit by the enumerator. For information on major source of finance, the outstanding loan against the agency on the day of visit was considered.

1.4.15 Data Validation

The quality of Census results hinges upon seriousness, dedication and honesty of enumerators and supervisors. To ensure the quality of work carried out by the enumerators, particularly regarding the complete coverage of all establishments, attempts were made to cross-validate the data of Sixth EC with those available from the following sources:-

- a) Estimated number of establishments/workers as per 67th round of NSS, 2011-12 (Survey on Unincorporated Non-agricultural Enterprises excluding Construction);
- b) Number of industrial and commercial connections given by the Electricity Department; and
- c) Number of units registered with District Industries Centre.

Further, to strengthen concurrent data validation, sample inspections by CSO, NSSO and State DES Officials were also put in place at the time of fieldwork.

1.4.16 Release of Provisional Results

The Provisional Results were based on information compiled using Schedule 6B i.e., 'Establishment Abstract' of Sixth Economic Census. Dr. Pronab Sen, the then Chairman, National Statistical Commission and Dr. T.C.A. Anant, Chief Statistician of India and Secretary, Ministry of Statistics and Programme Implementation, Government of India, jointly released the provisional results of Sixth Economic Census, consisting of information on State/UT wise number of establishments along with the total number of persons employed by type of structure of establishment and employment (hired/not-hired) with the rural and urban breakup in New Delhi at a function attended by officers from Central Ministries/Departments and State and UT Governments on 30/7/2014.

1.4.17 Release of Directory of Establishments

Directory of establishments with 10 or more workers covering all the States and UTs based on the data collected through Directory of Establishment Schedule 6C is planned to be released after the release of All India Report of Sixth EC based on data collected through main schedule i.e. House and Establishment Listing Schedule 6A.

1.4.18 Tabulation Plan

The Tabulation Plan for All India Report and State/UT level reports to be brought out by State/UT Governments was approved by the Standing Committee. The Computer Centre, MOSPI undertook the activity of generation of tables. Efforts are being made for using the relevant software for generating the required tables by drag and drop method. The access of the software would be made available at 50 locations. This apart, to enhance the utility of Sixth EC data, it is proposed to synchronize it with Population Census, 2011 data at the lowest geographical area and thereafter it would be displayed on the map.

1.4.19 Classification of Activities

Economic activities are assigned 3-digit codes as per National Industrial Classification (NIC) 2008. The State/UT Governments are given the responsibility to ensure proper reporting of NIC codes at district level by training their personnel.

1.4.20 Uses of Sixth EC Database

- (i) The area frame based on Sixth EC has been used for the 73rd round of National Sample Survey (NSS) and the list frame as per Sixth EC comprising establishments with 10 or more workers is proposed to be used for the next 74th round of NSS to be devoted on service sector;
- (ii) The data of Sixth EC is used in the development of National Business Register;
- (iii) The data is proposed to be used by Ministry of Labour & Employment for development of National Career Centres; and
- (iv) The Sixth EC data would also be useful for subsequent follow-up surveys by NSSO and survey /census of MSME and also for identifying the focus areas in the National Skill Development Programme.

1.4.21 Limitations of Sixth EC

- (i) It was planned to complete Sixth EC in each State/UT during a period of two months and the entire EC during a period of six months. But due to stretching of fieldwork of Socio Economic and Caste Census (SECC) from June, 2011 to December, 2012, the fieldwork of Sixth EC could not be started before January, 2013. Further, because of certain genuine administrative difficulties in some States/UTs, the fieldwork for the entire country could not be completed in the stipulated period of six months.
- (ii) Collection of information is not generally record-based but based on oral information. The factors like recall lapse and casual approach on part of informant may lead to some non- sampling errors.
- (iii) The fieldwork was assigned to persons like Aanganwaadi workers, Gram sevaks, Panchayat secretaries, Unemployed Youth, NGO Workers, etc. who were new to statistical data collection work.
- (iv) Information on proprietary establishments owned by 'Others' i.e. transgenders, being collected for the first time, was difficult to collect. In the past, such information was compiled under male category. Therefore, there is some possibility of its contamination with data, pertaining to males.
- (v) Although certain improvements were made in the schedule to guard against under-listing of establishments (particularly the home-based units or those operating without fixed structure), data may be subject to some error on account of such under-listing, which is difficult to eliminate totally in a massive census operation.

In rural areas about 21.06 million persons, constituting 31.01% of the total rural employment, worked in agricultural establishments and the rest 46.83 million workers (68.99%) worked in non-agricultural establishments. About 92.02% of the total employment of agricultural sector was in rural areas. About 57.85 % of the rural employment was in own account establishments. In urban areas 61.57 million persons, constituting 97.12% of the total urban employment, worked in non-agricultural establishments. 60.88% of the total hired workers constituting about 44.53 million were found in the urban areas.

About 103.06 million persons, constituting 78.50% of the total persons, worked under private proprietary ownership establishments. Around 93.71% of the total persons, constituting 123.03 million worked perennial activities. The share of females in total employment of 131.29 million was 33.04 million which is around 25.17% of total employment. 61.90% of the female employment was in rural areas. The corresponding percentage in urban areas was 38.10% numbering 12.59 million. Among the hired workers, 13.73 million (24.02 %) were females.

2.3 ESTABLISHMENTS BY MAJOR ACTIVITY GROUPS

Activities pursued by various establishments, were grouped into 23 major activity groups: 4 for agricultural activities and 19 for non-agricultural activities. Among the agricultural establishments, livestock dominated with its total share of 86.74% (11.39 million). Further, 92.43% of the total establishments involved in livestock were found in the rural areas.

Distribution of total number of establishments and number of persons employed by broad activity groups, with break-up for each type of establishment (i.e. without hired worker and with at least one hired worker), is given in **Table 2.3**. 'Retail trade', 'Manufacturing' and 'Other service activities not elsewhere classified (including membership organization, repair of computers and personnel household goods)' were the three most important activity groups in terms of number of establishments in the non-agricultural sector. These three activity groups together shared about 67% of the total establishments. Again 'retail trade' alone with a share of 35.41% and numbering a total of around 16.06 million establishments dominated all other groups. This was followed by 'manufacturing' and 'other service activities not elsewhere classified (including membership organization, repair of computers and personnel household goods)' with 22.77% (10.33 million) and 9.18 % (4.16 million) respectively.

The sector differentiation with respect to number of establishments under non-agricultural activities was not visible. In rural areas, the number of such establishments was 22.71 million (50.06%) and 22.65 million (49.94%) in the urban areas. However, dominance of the three activities namely 'retail trade', 'manufacturing' and 'other service activities not elsewhere classified (including membership organization, repair of computers and personnel household goods)' has been observed both in rural and in urban areas. Their contribution

(groups together) was 68.08% and 66.64% respectively in rural and urban areas in non-agricultural activities. Among all major activity groups 'retail trade' claimed highest percentage share of establishments both in rural (34.09%) as well as in urban areas (36.74%). This was followed by 'manufacturing' having share of 23.97% in rural and 21.57% in urban areas. The 'other service activities not elsewhere classified (including membership organization, repair of computers and personnel household goods)' accounted for 10.03% of the establishments in the rural and 8.32% in urban areas.

Amongst own account establishments, the activity group 'retail trade' had the highest share of 39.84%. It was followed by 'manufacturing' with 23.96% and 'other service activities not elsewhere classified (including membership organization, repair of computers and personnel household goods)' with 9.07%. While in the rural areas 'retail trade' had a share of 39.54% in all own account establishments, in urban areas it was 40.21%.

Amongst establishments with at least one hired worker also, the activity group 'retail trade' had the highest share with 26.65%. 'Manufacturing' accounted for 20.43 % of the total establishments. Contrary to overall establishments in the non-agricultural sector in all India, amongst the establishments with at least one hired worker, the activity 'education' appeared at third position with its percentage share at 11.04%.

2.4 EMPLOYMENT IN ESTABLISHMENTS BY MAJOR ACTIVITY GROUPS

Among the agricultural activities, the maximum employment was found under the activity group 'livestock' with 19.42 million workers constituting 84.86% of the total employment in the agricultural sector.

In non-agricultural activities, the maximum number of workers was found engaged in 'manufacturing' with 30.36 million workers (28%) followed by 'retail trade' with 27.19 million (25.08%) and 'education' with 10.60 million (9.77%). These three activity groups, taken together accounted for about 63% of the total employment in non-agricultural sector. Considering sector-wise, a similar trend of employment was also observed in rural establishments. The percentage share of employment in these three activity groups viz 'manufacturing', 'retail trade' and 'education' in rural area was 29.13%, 23.92 % and 14.14% respectively. In urban areas, activity group 'manufacturing' employed the maximum number of persons (27.15% of total urban employment), followed by 'retail trade' (25.98%) and 'education' (6.45%).

Amongst the own account establishments, the total employment in the non-agricultural activities was dominated by 'retail trade' with 38.18 % (14.99 million) share. However, in case of establishments with at least one hired worker, it is 'manufacturing' which dominated with 28.93% (20.00 million) of total employment.

It was observed that majority of the establishments (55.86 million) had less than 6 workers. In percentage terms, it is 95.50% of total establishments. About 1.83 million (3.13%) establishments fell within the size-class employment of 6-9 workers. Number of establishment with 10 or more workers were only 0.80 million (1.37%).

Sector-wise proportion of establishments belonging to employment size class of less than 6 workers follow the same trend as of all establishments. In rural areas, it was 96.90% while in urban areas, it was 93.43%. About 2.10% of total rural establishments were in the employment size class of 6-9 workers whereas 1% had employment size of 10 or more. In the urban areas, percentage of establishments falling in these employment size classes were 4.64% and 1.93% respectively.

More than 55% of the larger establishments (employment size 10 or more) were concentrated in Tamil Nadu, West Bengal, Maharashtra, Karnataka, Kerala, Uttar Pradesh and Gujarat. The maximum number of larger establishments was found in Tamil Nadu (13.81% of total establishments employing 10 or more workers), followed by West Bengal (11.07%), Maharashtra (10.02%), Karnataka (6.86%), Kerala (6.27%), Uttar Pradesh (5.49%) and Gujarat (5.15%).

2.6 OTHER SELECTED CHARACTERISTICS

It is observed that out of total 58.50 million establishments in the country, 2.10 million establishments (3.59%) were under Government ownership, 52.29 million (89.39%) under private proprietorship, 0.43 million (0.74%) under private partnership, 0.19 million (0.33%) under private company, 0.24 million (0.41%) under private self-help groups, 0.10 million (0.18%) under private cooperative, 1.01 million (1.72%) under private non-profit institutions and 2.13 million (3.64%) under private others. This indicates that majority of the

establishments were under 'private proprietorship'.

The establishments in 'private proprietorship' were distributed in rural and urban areas in the proportion of 58.97% and 41.03% respectively. About 44.08 million (84.29%), 8.05 million (15.40%) and 0.16 million (0.31%) proprietary establishments were owned by male, female and others respectively. The 'private proprietorship' establishments were further classified according to social group of the owner viz. scheduled caste, scheduled tribe, other backward class and others. It revealed that 11.4% of the establishments falling in the category of 'private proprietorship' were owned by scheduled castes, 5.4% by scheduled tribes, 40.8% by other backward classes and 42.4% by others. The private proprietorship establishments classified according to the religion of the owner revealed that 38.55 million (73.70%), 7.22 million (13.80%), 1.37 million (2.60%), 0.85 million (1.60%), 0.20 million (0.40%), 0.38 million (0.70%) and 3.71 million (7.10%) were owned by Hindu, Muslim, Christian, Sikh, Buddhist, Jain and Others (including Zoroastrian) proprietors respectively.

CHAPTER III

AGRICULTURAL ESTABLISHMENTS

3.1 GENERAL

Agricultural Establishments including agriculture, livestock, forestry and fishery play a vital role in the Indian economy. As per estimates of the Central Statistics Office (CSO), its share was 13.3 per cent of the Gross Value Added (GVA) during 2013–14 at 2011–12 base at current prices. An agricultural establishment for the purpose of the Sixth Economic Census (EC) was the one, engaged in production of agriculture goods (other than crop production & plantation by the farmers or a group of farmers or any agency), agricultural services, hunting, trapping & related activities, where at least some part of the production or services was sold out. Establishments engaged in activities pertaining to crop production and plantations though in the agriculture establishments were not covered as these are being covered regularly under Agricultural Census since 1970-71. Thus, primarily cultivators were excluded from the census. However, services incidental to crop production or plantation provided/ undertaken by any one individual or a firm or a company by charging fee or rent/compensation e.g. machinery & equipment for tilling/cultivation, preparation of field or sowing harvesting/chaffing, transportation of agriculture goods/produce charging for irrigation facilities etc. as their principal activity were included and the establishments engaged in such activities were enumerated. Further, the agricultural establishments for the purpose of Sixth EC comprised establishments engaged in Livestock (Animal production, Support activities for animal production and Hunting, trapping and related service activities), Forestry and logging and Fishing and aquaculture (marine fishing, fresh water fishing, marine and fresh water aquaculture).

Different features of agricultural establishments revealed by the results of the Sixth Economic Census are discussed in this chapter. For the purpose of economic census, the agricultural establishments comprised establishments covered under NIC 2008 3_digit codes 013, 014, 016, 017, 021, 022, 023, 024, 031 and 032 for Broad Activity Codes 01 to 04 in the filled in Schedules 6A.

3.2 ESTABLISHMENTS

According to Sixth Economic Census (EC) there were 13.13 million agricultural establishments accounting to 22.45% of total establishments in the country. It is seen that out of 13.13 million agricultural establishments, 11.83 million establishments, constituting 90.0% of total agricultural establishments, were own account establishments. The rest were establishments with at least one hired worker.

This chapter discusses significant findings concerning non-agricultural establishments as emerging from the results of the Sixth Economic Census. A non-agricultural establishment for the purpose of Sixth Economic Census has been defined as an establishment which was engaged in Mining and quarrying; Manufacturing (including repair & installation of machinery and equipment); Electricity, gas, steam and air conditioning supply; Water supply, sewerage, waste management and remediation activities; Construction; Wholesale trade, Retail trade & repair of motor vehicles and motorcycles; Other wholesale trade; Other retail trade; Transport and storage (including postal and courier activities); Accommodation and food service activities; Information and communication (including computer programming, consultancy and related services); Financial and insurance activities; Real estate activities; Professional, scientific and technical activities (including advertisement, market research and veterinary activities); Administrative and support service activities (including travel agency, employment activities, security services, activities of call centers and organization of conventions and trade shows); Education; Human health and social work activity (including residential and non-residential care centres); Arts, entertainment, sports and amusement and recreation (excluding illegal gambling and betting activities), Other service activities not elsewhere classified (including membership organization, repair of computers and personnel household goods). In short establishments other than the agricultural establishments are non-agricultural establishments.

Note

- (i) Figures in single brackets indicate average number of persons per establishment
- (ii) Figures in double brackets indicate percentage of female/hired worker to total employment
- (iii) Percentage total may not tally due to rounding off

There were 45.36 million non-agricultural establishments (22.71 million in rural areas and 22.65 million in urban areas) in the country, which accounted for 77.55% of the total establishments. Out of these, 30.13 million (66.43%) were own account establishments and the remaining about 15.23 million (33.57%) were establishments with at least one hired worker.

Out of 45.36 million non-agricultural establishments, about 16.06 million establishments (35.41%) were engaged in retail trade. The next major activity was manufacturing, comprising about 10.33 million (22.77%) establishments.

4.4.1 NON-AGRICULTURAL OWN ACCOUNT ESTABLISHMENTS BY MAJOR ACTIVITY GROUPS

There were 30.13 million own account establishments, constituting 66.43% of the non-agricultural establishments. Amongst own account establishments, the activity group ‘retail trade’ (39.84%) had the highest share, followed by ‘manufacturing’ (23.96%) and ‘other service activities not elsewhere classified(including membership organization, repair of computers and personnel household goods)’ (9.06%). In the rural areas, ‘retail trade’ alone accounted for 39.54% of the total non-agricultural own account establishments, followed by ‘manufacturing’ and ‘other service activities not elsewhere classified(including membership organization, repair of computers and personnel household goods)’ sharing 26.39% and 9.35% of the establishments respectively.

In urban areas the activity group ‘retail trade’ had the largest share with 41.21% of the establishments. Activity group ‘manufacturing’ had the second position with 20.96% share of the establishments and activity group ‘other service activities not elsewhere classified(including membership organization, repair of computers and personnel household goods)’ was third with 8.72 % of the total non-agricultural own account establishments. In both the sectors i.e. rural and urban areas, own account establishments followed the all India pattern. The above three activity groups showed the same ranking.

4.4.2 NON-AGRICULTURAL ESTABLISHMENTS WITH AT LEAST ONE HIRED WORKER BY MAJOR ACTIVITY GROUPS

There were 15.23 million non-agricultural establishments with at least one hired worker in the country, which constituted 33.57% of the total non-agricultural establishments. It is revealed that 'retail trade', 'manufacturing' and 'education' were the three most significant major activities that shared 58.12% of the total non-agricultural establishments. Amongst establishments with at least one hired worker also, the activity group 'retail trade' had the highest share with 26.65% (4.06 million). 'Manufacturing' accounted for 20.43% (3.11 million) of the total establishments. Amongst the establishments with at least one hired worker, the activity 'education' came out in third position as far as its percentage share is concerned, with 11.04% share and numbering 1.68 million.

In the rural areas, 'education' alone accounted for 21.51% of the total number of establishments having at least one hired worker, followed by 'retail trade' and 'manufacturing' with share of 19.26% and 17.36% respectively. Analysis by location of the establishments with at least one hired worker reveals that urban pattern was nearly the same as all - India pattern. In urban areas activity group 'retail trade' was at the top sharing 31.59%, followed by 'manufacturing' sector with 22.48%. The 'other service activities not elsewhere classified (including membership organization, repair of computers and personnel household goods)' came in the third position with 7.74% share.

CHAPTER V

HANDICRAFT/HANDLOOM ESTABLISHMENTS

5.1 GENERAL

Due to paucity of data on Handicraft/handloom sector, it was decided to capture the information regarding Handicraft & Handloom establishments during Sixth Economic Census. In the main schedule an item regarding the major activity of the establishment was added i.e, 'Is it a handloom/handicraft activity?' The enquiry was restricted to manufacturing activity only. The decision was taken after due consultation with erstwhile Planning Commission, Development Commissioner (Handicraft), Development Commissioner (Handloom), Craft Council of India and other stakeholders. The purpose of including this item in the Economic Census was to assess the number of handicraft and handloom establishments in the country and persons employed therein, so that the handicraft and handloom clusters could be identified in respect of each State/UT for undertaking further surveys for development of Satellite accounts for assessing the contribution of this important sector.

5.2 DEFINITION OF HANDICRAFT/HANDLOOM ACTIVITY

Handicraft/Handloom describes a craft or occupation requiring skilled use of hands. Handicrafts are items made by hand, often using simple tools. These items can be functional, artistic and/ or traditional in nature. The need to enumerate crafts in the Sixth Economic Census is to understand and reflect the huge contribution artisan communities make to India's economy. Thus, to summarise, skill of worker and use of hand are two prerequisites for handicraft. It must be predominantly made by hand. It does not matter if some machinery is also used in the process. Handicrafts range from the very simple (dijas, kulhars) to the very complex (stone temples, enamel jewellery) work. Certain products like baskets, brooms, pots, dijas, mats and chiks could range from very simple to quite complex, but are traditionally considered as handicrafts even in their simplest forms. At the same time, certain handmade articles are not usually categorized as handicrafts. Activities involving human labour without skill are usually not included.

Handicraft/Handloom establishments are those which involved predominant role of human skills and performed by hands using traditional knowledge and simple tools.

Two broad categories for exclusion comprised of the following activities:

- All food items like papads, pickles, etc which may be handmade.
- Items like bricks, bidis, agarbattis, match sticks, firecrackers etc. which are made by hand but not distinguished by distinctive skills.

For the purpose of Sixth Economic Census, the word handicraft includes handlooms, so all manner of hand weaving activities was considered under the same.

5.3 ESTABLISHMENT

During the census, information was collected from each of the manufacturing unit where hand as well as skill is being used in the manufacturing activity. In the census large number of activities, involving hands but not artistry/skill, stated above, has been excluded despite generating huge employment and turn over, with a purpose to capture pure handicraft/handloom activities. It is observed that the total number of handicraft/handloom establishments in India is 18,73,624, out of which 59.6% are located in rural area. Further, 14,77,380 (78.9%) establishments were run without hired workers. Moreover 88.7% of these establishments were perennial, 9.0% were seasonal and rests 2.3% were casual in nature.

The top 5 States, in terms of number of handicraft/handloom establishments are West Bengal (17.6%), Uttar Pradesh (16.5%), Odisha (7.8%), Andhra Pradesh (7.5%) and Tamil Nadu (6.8 %). The details are given in **Tables 5.1**.

WOMEN ENTREPRENEURS

6.1 INTRODUCTION

Women's equal access and control over economic and financial resources is critical for the achievement of gender equality and empowerment of women as well as equitable and sustainable economic growth and development.

In India female headed households were 11.5 % in rural areas whereas this was 12.4% in urban areas as per 68th round of NSS, 2011-12. Female literacy rate was 65.46 % as per Population Census 2011. Further, work force participation rate for female was 25.51 as per Population Census 2011. Women have started playing important roles in decision making at all levels.

Although data on women labour force, literacy, health aspects etc., are being generated regularly through regular Censuses and Surveys but data on women entrepreneurialship at national level is rather scanty. Therefore, during Sixth Economic Census, questions related to women entrepreneurship in proprietary ownership were added. It covers sex, religion, social group, economic activity, number of workers employed (hired and not hired) and source of finance.

It has been observed that 8.05 million out of the total 58.5 million establishments were run by women entrepreneurs in India which is around 13.76 % of the total number of establishments. Total workers engaged in women owned & run establishments were 13.48 million persons, which is 10.24% of the total number of workers engaged in India under different economic activities.

6.2 ESTABLISHMENTS

The total number of establishments owned by women entrepreneurs was 8,050,819 out of which 5,243,044 constituting about 65.12 % of the total establishments were located in rural areas and the remaining 2,807,775 (34.88%) were located in urban areas. Further, about 6,697,354 establishments i.e., 83.19% operated without hired workers and 1,353,465 (16.31%) operated with hired workers. The percentage of establishments without hired workers in rural areas was 86.85% whereas, in urban areas, it was 76.33%. The number of women establishments involved in agricultural activities was 2,761,767 constituting 34.3 % of the total number of establishments owned by women.

Comparison of results of ECs: 2005 and 2013

There were positive growth rates in all the States/UTs in terms of number of establishments. Similar trend was observed in employment except for Delhi where it dipped by 11.20% compared to Fifth EC. This was primarily due to the fact that average employment size per establishment in Fifth EC for Delhi was much higher (4.69) as compared to the corresponding average employment size of 3.45 in Sixth EC for the NCT of Delhi. Moreover, number of employed persons as per Sixth EC for Delhi was found to be consistent with the estimate based on NSS 67th round Survey (2010-11).

Among the States, three States from the North-East grew by more than double in terms of number of establishments with the highest growth rate observed in Manipur (121.07%), followed by Assam (107.99%) and Sikkim (100.07%). Nagaland (78.66%) and Telangana (77.94%) were the other two States among the top five States with higher growth in the number of establishments. As far as UTs are concerned, A&N Islands with a growth rate of 83.64% in establishments was at the top followed by D& N Haveli (35.04%) and Chandigarh (30.53%). Similar trend for the top two States was observed for employment growth rates between Fifth and Sixth ECs with Manipur (93.57%) and Assam (89.32%) at the top. Uttar Pradesh (79.94%), Sikkim (73.62%) and Himachal Pradesh (71.54%) completed the list of top five States in terms of employment growth. Among the UTs, A&N Islands showed the highest growth rate in terms of employment with a combined growth of 74.33%. D&N Haveli (45.54%) and Daman& Diu (35.86%) were the other two UTs reporting high growth in employment. Similar trends were observed in CAGR of establishments and employment between fifth and sixth ECs and the State/UT wise figures can be seen in **Table 7.3**.

Concepts & Definitions of Important Terms

Concepts and definitions of some of the important terms used in the Sixth Economic Census are given below:

Establishment

The establishment is a unit situated in a single location in which predominantly one kind of economic activity is carried out such that at least a part of the goods and/or services produced by the unit goes for sale (i.e. entire produce is not for sole consumption).

Agricultural Establishment

An agricultural establishment for the purpose of Economic Census is one, which is engaged in production of agricultural goods (other than crop production & plantation by the farmers or a group of farmers or any agency), agricultural services, hunting, trapping & game propagation, where at least some part of the production or services is sold out. Establishments engaged in activities pertaining to crop production and plantations though in the agriculture sector are excluded from the coverage. Thus primarily cultivators themselves are excluded from the coverage of Sixth Economic Census.

Non-Agricultural Establishment

Establishments engaged in activities other than agricultural activities (like crop production & plantation, growing of tea, coffee, rubber, tobacco etc.) are termed as non-agricultural establishments.

Household

A household is a group of persons usually living together and taking their meals from a common kitchen. It includes temporary stay-aways (those whose total period of absence from household is expected to be less than six months) but excludes temporary visitors and guests (with expected total stay of less than 6 months). A group of persons, who are unrelated to each other, live in a census house but do not take their meals from a common kitchen would not constitute an institutional household.

Census Towns

Census towns are those villages having a population of 5000 and above, at least 75% of male working population are employed in non-agricultural activities and density of population is at least 400 per sq. km., covered as urban areas during Population Census 2011 by RGI.

Census House

A census house is a building or a part of a building having a separate main entrance from the road or common courtyard or staircase, etc., used, or recognized as a separate unit. It may be occupied or vacant. It may be used for residential, commercial or for both purposes.

Enumeration Block

The ultimate area unit of enumeration in the Sixth EC is Population Census (2011) Enumeration Block (EB). An EB broadly covers about 120 households or a population of nearly 600 or so.

Handicraft/Handloom Activity

Handicraft describes a craft or occupation requiring skilled use of hands. Handicrafts are items made by hand, often using simple tools. These items can be functional, artistic and/ or traditional in nature.

Nature of Operation

If the entrepreneurial activity is carried on or likely to be carried on throughout the year more or less regularly, it is treated as perennial activity. If the activity of the establishment is confined to a particular season i.e. fixed months of a year, the same is called the seasonal activity. The economic activity of the establishment which is neither perennial nor seasonal is termed as casual.

Worker (Person Employed)

All persons (including children under 15 years of age) working on the last working day prior to the date of fieldwork in the establishment, either as owners, members of the household, co-owner or partner or family members helping the owner in running the establishment including other persons engaged by the establishment, whether hired or not, besides regular and salaried employees, casual/daily wage labourers are considered as workers for the establishment.
