Chapter One

Coverage, Concepts, Design and Definitions

1.0. OBJECTIVE OF THE SURVEY

The objective of the Comprehensive Modular Survey (CMS) on education is to generate information on education-related indicators, primarily focusing on households' expenditure on education. This survey is designed to fill existing data gaps that cannot be met by data available from other sources, such as administrative records, other surveys etc.

1.1. OUTLINE OF THE SURVEY

1.1.1. GEOGRAPHICAL COVERAGE OF THE SURVEY:

The survey will cover the whole of the Indian Union *except* the villages in Andaman and Nicobar Islands which remain extremely difficult to access.

1.1.2. SURVEY PERIOD

The survey will be conducted in the second quarter (*i.e.*, April 2025 – June 2025) of the calendar year 2025. It may be noted that the CMS: Education survey, along with the Health Survey, will be conducted in the FSUs selected for the second sub-round of the NSS 80th round.

1.1.3. SCHEDULES OF ENQUIRY:

The survey will be conducted using Computer-assisted personal interviewing (CAPI) software, developed on the basis of the following schedules of enquiry

Schedule 0.0	: List of households
Schedule CMS-E	: Comprehensive Modular Survey-Education

1.2. CONTENT OF VOLUME I

This volume of instruction contains three chapters. Chapter One gives an overview of the survey operation and discusses the concepts and definitions of important technical terms to be used in the survey. It also describes the sample design and procedure of selection of households. Chapter Two contains instructions for collection of information relating to Schedule 0.0 while detailed

guidelines for collection of information in Schedule CMS-E are discussed in Chapter Three. A list of frequently asked questions (FAQs) has been provided at the end of both Chapter Two and Three.

1.3. SAMPLING DESIGN

1.5.01. OUTLINE OF SAMPLING DESIGN:

The sampling design (including stratification criteria, Sub-unit and Sub-division formation rule etc.) will be the same as adopted for on-going health survey under 80th round of NSS.

1.5.02. SAMPLE SIZE

CMS: Education module will be canvassed in the 4409 FSUs covered in the second sub-round of 80th round during April – June, 2025. The state-wise allocation of sample FSUs to be surveyed for the CMS: Education is provided in Table 1.

1.5.03. FORMATION OF SECOND STAGE STRATA (SSS)

The criteria for determining the Second Stage Strata (SSS) for ‘CMS: Education’ and number of households to be surveyed for different SSS will be as follows:

SSS	composition of SSS	number of households to be surveyed
SSS 1	any member of the household ages 3 years and above, is currently enrolled in school education and UMPCE > A	4
SSS 2	any member of the household ages 3 years and above, is currently enrolled in school education and UMPCE ≤ A	4
SSS 3	no member of the household ages 3 years and above, is currently enrolled in school education and UMPCE > A	2
SSS 4	no member of the household ages 3 years and above, is currently enrolled in school education and UMPCE ≤ A	2
Total =		12

The cutoff value (A) for each State × Sector level will be based on the 60th percentile of the corresponding distribution of MPCE, derived from the latest HCES, i.e., HCES:2023-24, with inflation adjustments made using the Consumer Price Index (CPI) – General Index.

1.5.04. SELECTION OF HOUSEHOLDS

Sample households from each SSS are selected using the Simple Random Sampling without Replacement (SRSWOR) method. If a household is selected for multiple surveys (e.g., both the health and CMS: Education), and there is an adequate number of households in the sampling

frame for that SSS, only one survey (i.e., the health survey) will be conducted in the selected household. For the other surveys (e.g., CMS: Education), the selected household will be replaced by the next eligible household within that SSS. However, if the number of households in the frame of an SSS is inadequate, one or more sample households may be common for different schedules. In such cases more than one schedule will be canvassed in the same household.

1.4. CONCEPT AND DEFINATION

Important concepts and definitions used in different schedules of this survey are explained below.

1.5.01. POPULATION COVERAGE

The following rules regarding the population to be covered are to be remembered in listing of households and persons:

- (i) Under-trial prisoners in jails and indoor patients of hospitals, nursing homes etc., are to be excluded, but residential staff therein will be listed while listing is done in such institutions. The persons of the first category will be considered as members of their parent households and will be counted there. Convicted prisoners undergoing sentence will be outside the coverage of the survey.
- (ii) Floating population, i.e., persons without any normal residence will not be listed. But households residing in open space, roadside shelter, under a bridge, etc., more or less regularly in the same place, will be listed.
- (iii) Neither the foreign nationals nor their domestic servants will be listed, if by definition the latter belong to the foreign national's household. If, however, a foreign national becomes an Indian citizen for all practical purposes, he or she will be covered.
- (iv) Persons residing in barracks of military and paramilitary forces (like police, BSF, etc.) will be kept outside the survey coverage due to difficulty in conduct of survey therein. However, civilian population residing in their neighbourhood, including the family quarters of service personnel, are to be covered. Permission for this may have to be obtained from the appropriate authorities.
- (v) Orphanages, rescue homes, ashrams and vagrant houses are outside the survey coverage. However, the residential staff of these institutions may be listed. People staying in old age homes will be covered in the survey.

1.5.02. HOUSE:

Every structure, tent, shelter, etc. is a house irrespective of its use. It may be used for residential or non-residential purpose or both or even may be vacant.

1.5.03. HOUSEHOLD:

A group of persons normally living together and taking food from a common kitchen will constitute a household. It will include temporary stay-aways (those whose total period of absence from the household is expected to be less than 6 months during the survey period) but exclude temporary visitors and guests (expected total period of stay less than 6 months during the survey period). Even though the determination of the actual composition of a household will be left to

the judgment of the head of the household, the following procedures will be adopted as guidelines.

- (i) Each inmate (including residential staff) of a hostel, mess, hotel, boarding and lodging house, etc., will constitute a single-member household. If, however, a group of persons among them normally pool their income for spending, they will together be treated as forming a single household. For example, a family living in a hotel will be treated as a single household.
- (ii) In deciding the composition of a household, more emphasis is to be placed on 'normally living together' than on 'ordinarily taking food from a common kitchen'. In case the place of residence of a person is different from the place of boarding, he or she will be treated as a member of the household with whom he or she resides.
- (iii) A resident employee, or domestic servant, or a paying guest (but not just a tenant in the household) will be considered as a member of the household with whom he or she resides even though he or she is not a member of the same family.
- (iv) When a person sleeps in one place (say, in a shop or in a room in another house because of space shortage) but usually takes food with his or her family, he or she should be treated not as a single member household but as a member of the household in which other members of his or her family stay.
- (v) If a member of a family (say, a son or a daughter of the head of the family) stays elsewhere (say, in hostel for studies or for any other reason), he/ she will not be considered as a member of his/ her parent's household. However, he/ she will be listed as a single member household if the hostel is listed.

1.5.04. HOUSEHOLD SIZE:

The number of members of a household is its size.

1.5.05. HOUSEHOLD'S USUAL MONTHLY CONSUMPTION EXPENDITURE (RS.):

This information is collected to classify the households into different UMPCE (Usual Monthly Per Capita Consumption Expenditure) classes. Household consumption expenditure (HCE) is the sum of monetary values of all goods and services consumed (out of purchase or procured otherwise) by the household on domestic account (i.e., all expenditures excluding those for entrepreneurial purposes) during a reference period. Procedure for deciding consumption of goods and services by a household is same as that followed in consumption Expenditure Survey of NSS. Unusual expenditures, such as expenditure on social ceremonies, capitation fee, hospitalization, etc., are to be excluded for deriving usual monthly consumption expenditure of the household. Further, all types of transfer payments made such as gifts given to beggar, income tax paid, if any, will not be covered under consumption expenditure. However, expenditure on household durable goods is to be included. The details of the process of computing UMPCE are described in Chapter 3.

Table 1: Allocation of Sample FSUs in CMS: Education			
State Name	Rural	Urban	Total
Andhra Pradesh	93	60	153
Arunachal Pradesh	45	40	85

ALL India	2420	1989	4409

*A special rural stratum at all-India level has been formed comprising all uninhabited villages.

Chapter Two

Schedule 0.0: List of Households

2.0.0 Introduction:

Schedule 0.0 is meant for listing of all the houses and households residing in the sample first stage unit (FSU). In this schedule some information on household size and other household particulars like *whether or not household have any member of age 3 year or more and that member is enrolled in school education; Usual Monthly Consumption Expenditure (UMCE)* will be collected. Collection of information on these two items will be in addition to the data already being collected for the health survey. The additional auxiliary information will be used for grouping the households into different second-stage-strata (SSS) for Education Survey. The sampling frame for selection of households will be prepared and details of the selection of sample households will be recorded in this schedule. Whenever Sub-Units (SUs) are required to be formed, particulars relating to the formation of SUs and identification of the selected SU are also to be recorded in this schedule.

2.0.1 Structure of the schedule:

Schedule 0.0 contains the following blocks:

Block 0:	descriptive identification of sample FSU
Block 1:	identification of sample FSU
Block 2:	particulars of field operations
Block 3:	sketch map for sub-units (SU) formation
Block 3.1:	sketch map of sub-division formation
Block 4.1:	list of hamlets (only for rural samples with SU formation)
Block 4.2:	list of sub-units (SU) and identification of selected SU
Block 4.2A:	identification of selected sub-unit and formation of sub-division
Block 4.3:	list of sub-divisions of selected SU with population equal to or more than 1500 (750 for special cases) and selection and identification of selected sub-division
Block 5:	list of households and record and selection of households for Schedule on Health
Block 5A:	selection of households for Schedule CMS
Block 6:	particulars of sampling of households
Block 7:	remarks by field enumerators (FE) / junior statistical officer (JSO)
Block 8:	remarks by field supervisor (FS) / senior statistical officer (SSO)

2.0.2. For Block 0, Block 1 (expect item 18 in Block 1), Block 2, Block 3, Block 3.1, Block 4.1, Block 4.2, Block 4.2A, Block 4.3, Block 7, and Block 8; the instructions provided in Chapter 2 of the 'Instructions to Field Staff, Vol. I: NSS 80th Round' will be followed. Additionally, the procedures for sub-unit and sub-division formation, as well as the process for listing households, are also detailed in the 'Instructions to Field Staff, Vol. I: NSS 80th Round'.

2.0.3. Item 18 in Block 1: Is there any school within the village in which this FSU belongs to? (yes – 1, no – 2)

The information will be collected exclusively for Rural FSUs. If there is a school within the village where the selected FSU is located, code 1 will be assigned; otherwise, code 2 will be recorded.

In this context, a village refers to the Census village (or panchayat wards in Kerala), which has identification details such as the district, sub-district, village name, and code, as mentioned in the sample list. All types of schools, including pre-schools and Anganwadi will be considered for recording entry against this item.

2.1 Block 5: list of households and record of selection of households for Schedules Household Surveys

2.1.0.1 In this block, various information is to be recorded for selected SU/Sub-divisions of SU.

2.1.0.2 Listing of all the houses and households along with collection of a few particulars for identification, preparation of sampling frame for Schedule Health Survey 2025 and CMS 2025 and formation of second stage strata for Schedule Health Survey 2025 is to be carried out in this block.

2.1.0.3 It is essential to ensure that there is no omission or duplication of any house or household. A house-to-house enquiry will be made to list all the houses and households. *Households, which are found to be locked at the time of listing (including such households which are absent in the present place for a period of less than six months during last one year) are also to be listed and included in the frame of households before sample selection.* After obtaining from the neighbours as much details as possible about the absentee households, attempt should be made to contact the households at the appropriate hours (even outside the normal working hours of the JSO/SE) and if required, by revisiting the households during the survey period in the sample FSU. While listing a house the JSO/SE shall find out how many households (including locked households) reside there and list all of them. After this, the JSO/SE will proceed to list the next house. In order to ensure complete listing of houses/ households, it is better to follow some definite order for listing. The order followed in 2011 Population Census may be adopted, wherever possible, taking care that any house that has come up later is not omitted; otherwise, listing may be done in serpentine manner starting from the north-west corner and moving southwards.

2.1.0.4. In the case of a locked household, efforts should be made to contact a member of the household during appropriate hours, including outside the normal working hours of the JSO/SE, to obtain the required information. If the SE is unable to reach the household, it is suggested to consult the neighbouring households or other individuals in the locality who may have the information. If, despite these efforts, the SE is still unable to obtain information related to the Usual Monthly Consumption Expenditure (UMCE) of the household, it is recommended that the SE/JSO use their discretion to determine whether the household should be classified as a ‘relatively higher expenditure’ household or ‘lower expenditure’ household. This assessment can be made based on available supplementary information, such as structure and condition of the house or locality in which the household resides or possession of assets like a car or land etc. SE may consult with the neighbour to obtain relevant supplementary information.

Working Rule – If, based on the SE’s judgment, the locked household is classified as part of the ‘relatively higher income’ group, the value ‘9999999’ (Seven Nine) should be entered. Otherwise, the value ‘9’ should be recorded in the Usual Monthly Consumption Expenditure (column 8 of Block 5). In these cases, it is mandatory to include remarks in Block 5. Also, the name of the head of the household (column 3 of block 5) may be written in following way –

‘UTTAM ROY (Locked HH)’ – if the name of the locked household member is known to the SE or write ‘Locked HH’.

Various columns of Block 5 are described below:

2.1.1 Column (0): serial number of row: The serial numbers of rows are printed in column (0) of Block 5, for each page of the block. This is to facilitate transfer some entries from block 5 to block 5A.

2.1.2 Column (1): house number: All houses including vacant ones shall be listed by giving a house number. The 2011 Population Census house number or the number given by the local panchayat, municipality or other local bodies, may be used if available. The houses without such numbers will be given a separate running serial number starting from 1 within brackets. Wherever house numbers are available, even if not for all the houses, the actual house numbers shall be recorded without any bracket. After listing all the households associated with a house, the next house shall be listed. If the house is used solely for non-residential purposes or is vacant, the purpose to which it is put will be written across the line, e.g. temple, vacant structure, etc. For family living under a tree or bridge etc. (i.e. without any house), a ‘–’ may be put in this column.

2.1.3 Column (2): household serial number: The household(s) normally residing in the house or in a fixed location (e.g. under a tree/ bridge/ open space etc.) listed in column (1) will be numbered in column (2). All households (including those found temporarily absent) will be given a running serial number in this column starting from 1. In case of persons staying in, say, hostels and forming single member households, each of them will be listed in separate lines giving a household serial number. Continuous serial number starting from 1 will be given in column (2) for

the households in the FSU. This column will be left blank for the lines meant for vacant houses, non-residential buildings, etc.

For identification of residential houses, a question is placed in the questionnaire (Column 2.1), in which if the household respond that the house is not used only for non-residential purpose, (for each value '2' corresponding to Column 2.1), distinct household serial number will be given.

2.1.4 Column (3): name of head of the household: For a household having serial number in column (2), the name of head of the household shall be recorded here.

2.1.5 Column (4): household size: The size of each household will be recorded in this column. Two small box spaces are provided against this column at the end of each page to record the current page total for this column and the cumulative total for the pages.

2.1.6 Column (7): whether any member of the household ages 3 years or above, and is currently enrolled in school education (yes-1, no-2). If any member of household has age of 3 years or more and the member is currently enrolled in school education, then code 1 will be given else code 2 will be recorded here. For locked household, investigator will try to collect this information telephonically or from neighbour and if information is not available with neighbour, then code 2 will be given.

2.1.7 Column (8): Usual Monthly Consumption expenditure of the household: The investigator has to record the usual monthly consumption expenditure of the household in the column. The value will be recorded in INR.

2.1.8 Column (8.1): UMPCE: It is a derived column. The UMPCE value of household will be Usual Monthly Consumption Expenditure (recorded in Column 8 of Block 5) divided by the household size (recorded in Column 4 of Block 5).

2.1.9 Column (8.2): UMPCE Code (1 or 2): The column 8.2 is also a derived column in which code 1 will be given if the UMPCE value of the household is greater than 'A', else code 2 will be recorded. Here, the value of 'A' will be determined based on the 60th percentile of the corresponding distribution of MPCE, derived from the HCES:2023-24, with inflation adjustments made using the Consumer Price Index (CPI) – General Index.

Note: *The instructions for Columns 5, 6, and 9-15 is provided in the Instruction Manual concerning the health survey.*

2.2 Block 5A: selection of households for Schedule CMS: Education module

2.2.0 In this block, some information will be copied from Block 5. Formation of SSS and record of selection of households will be done for Schedule CMS 2025. For the columns of Block 5A entries may be copied only for those households which have running serial numbers in column (2) of Block 5.

Various columns of Block 5A are described below:

2.2.1 Columns (0), (2), (4), (7), (8), (8.1) and (8.2): Entries for these columns will be auto populated from Block 5 for every page. Copying may be started from first household serial number in the relevant page of Block 5 and continuing without omission or duplication in the corresponding page of Block 5A. Care must be taken to copy the entries correctly.

2.2.2 Column (16): SSS no. for Schedule CMS - Education: The SSS formation for CMS Education will be based on the entry in column (7) and column (8.2) of Block 5A for both rural and urban samples. The following table needs to be followed while allotting SSS no. to a particular household

Criteria	SSS no. in col. (16)
Entry in col. (7) is '1' and Entry in col. (8.2) is '1'	1
Entry in col. (7) is '1' and Entry in col. (8.2) is '2'	2
Entry in col. (7) is '2' and Entry in col. (8.2) is '1'	3
Entry in col. (7) is '2' and Entry in col. (8.2) is '2'	4

2.2.3 Column (17-20): sampling serial no (CMS Education): For Schedule CMS-Education Survey, four Second Stage Strata (SSS) will be formed. Columns (17), (18), (19) and (20) will provide the sampling frame of households for SSS 1, 2, 3 and 4 respectively. Column 17, 18, 19 and 20 will be automatically generated in CAPI as per entry in Column 16 of block 5A for central sample. The households with code 1, 2, 3 and 4 in column (16) will be tick-marked in column (17), column (18), column (19) and column (20) respectively. Then all the tick-marks will be given a running serial number from the top starting with 1 in each column independently. Columns (17), (18), (19) and (20) will provide the sampling serial numbers for SSS1, SSS2, SSS3 and SSS4 respectively. The highest serial number in each of these columns will be the value of 'H' for the respective SSS for the schedule. This value will be recorded against 'H' in the space provided in the column heading.

In the CAPI module, sampling serial number will be assigned in each and every residential household as per SSS number of the household entered in column 16 of Block 5A.

2.2.4 Column (21-24): sample household number (CMS - Education) for SSS1/SSS2/SSS3/SSS4: The number of households to be selected from each SSS of CMS Education is given under sample design in Chapter One. Four households will be selected from

SSS 1, four households will be selected from SSS 2, two households will be selected from SSS 3 and two households will be selected from SSS 4 from each selected FSU. However, it may be necessary to modify this number if there is a shortfall in the number of households in any SSS. In such scenario, the final number of sample households, will be the value of 'h' for respective SSS. These values will be recorded against 'h' in the space provided in the column headings.

Sample households are to be selected by SRSWOR from each SSS. **For central sample, required number of households needs to be surveyed in each second stage strata (SSS) of CMS Education will be selected automatically in CAPI.**

If the sample household is found to have been already selected for Schedule Health Survey, it will be *replaced* by the next non-selected household within that SSS in the frame. The household selected after replacement will be treated as an originally selected household. The sampling serial number of this household will be encircled twice. However, if the number of households is inadequate and *replacement* is not possible, same households may be selected for both the schedules. In such cases both schedules will be canvassed in the same household.

2.3 Shortfall and compensation for Schedules CMS Education:

Four SSS have been formed for CMS Education. Allocation of sample households for each SSS has been discussed in Chapter One. However, there may be a situation where number of households in the frame of an SSS is less than the required allocation leading to a shortfall.

The procedure of compensation is to be implemented by following the steps described below:

Step 1: Allocate the required number of households to each SSS wherever possible and identify the SSS having shortfall.

Step 2: Find the SSS where additional households are available following the priority order given as follows and compensate.

SSS having shortfall		priority order of SSS for compensation
Schedule: CMS - Education		
SSS Description	SSS Number	
households having at least member of age 3 years or above is currently enrolled in school and $UMPCE > A$	1	2, 3, 4
households having at least member of age 3 years or above is currently enrolled in school and $UMPCE \leq A$	2	1, 4, 3
households having no member of age 3 years or above is currently enrolled in school and $UMPCE > A$	3	4, 1, 2
households having no member of age 3 years or above is currently enrolled in school and $UMPCE \leq A$	4	3, 2, 1

Find the SSS where additional households are available as per the above priority order of SSS and compensate. The step may be repeated for all SSS having shortfall after Step 1.

The resulting number of households (h) for each SSS will be entered at the top of relevant column(s) of Block 5A and also in column (5) against the relevant SSS number of Block 6 of Schedule 0.0.

2.4 Block 6: particulars of sampling of households

2.4.0 Particulars of sampling of households will be recorded in this block for selected FSU for different schedules.

All the requisite information pertaining to this block will be auto populated in CAPI for central sample.

2.4.1 Column (2): population: Population as obtained by summing up the page totals of household sizes in column (4) of Block 5 over all the listed households may be auto populated in this column against Schedule Health Survey for both rural and urban samples.

2.4.2 Columns (4) – (10): number of households: Total number of households listed in the each SSS for schedule Health Survey and CMS will be recorded in the corresponding cells of column (4). Number of selected households will be copied in column (5) for Schedules Health Survey and CMS – Education from the relevant columns of Blocks of 5 and 5A.

Columns (6), (7) and (9) of Block 6 may be filled up on the basis of survey codes given in Block 1 of both Schedules Health Survey and CMS - Education. The entries in columns (6), (7) & (9) will be the number of filled-in schedules with the survey codes 1, 2 & 3 for respective schedule and SSS. Total number households surveyed will be entered in column (8). It may be seen that -

$$\text{column (8)} = \text{column (6)} + \text{column (7)} \text{ and (ii) } \text{column (9)} = \text{column (5)} - \text{column (8)}.$$

Entry against 'all (9)' will be sum of entries in SSS 1 – 3 for Schedule Health Survey and sum of entries in SSS 1-4 for Schedule CMS Education.

2.4.3 Column (10): number of households replaced: Total number of households replaced for Schedule CMS (being already selected for Schedule Health Survey) will be reported against the rows for Schedule CMS. Entries will be the number of double circles in columns (21), (22), (23) and (24) of Block 5A. Entry against 'all (9)' will be sum of entries of all SSS of Schedule CMS - Education.

2.5 Substitution of sample households for CMS Education:

If a sampled household for the education schedule cannot be surveyed for any reason, it will be substituted with the next non-selected household - that is, a household that has not been selected for both education and health survey schedule; and has the next higher sampling serial number within the same SSS. This substitution process will proceed in a circular manner; for example, if the household with the last sampling serial number within an SSS cannot be surveyed, the substitution will begin with the non-selected household having the smallest sampling serial number within the same SSS. If the substituted household cannot be surveyed, it will be replaced by another household in the same manner. It may also be noted that if the number of households in the frame of an SSS is inadequate, sample households selected for health survey may also be considered for substitution. This process will continue until the required number of sample households is canvassed within an SSS or the SSS become exhausted.

It is to be noted that in the case of a substitution of a household, the word “SUBSTITUTED” should be written at the top of the front page of schedule.

2.6 Substitution of sample FSU:

(a) If a sample FSU cannot be surveyed due to say, it being not uniquely identifiable or traceable, not accessible or for any other reason, it will be substituted. All such cases will be referred to:

The Deputy Director General (Co-ordination), Household Survey Division,
NSO, Ministry of Statistics and Programme Implementation
Mahalanobis Bhawan, 164, Gopal Lal Tagore Road,
Kolkata- 700108
e-mail address: tc.sdrd-mospi@gov.in
fax: 033-25776439

If the substituted FSU has same problem as the original, correspondences may be made immediately so that another substitute can be provided to prevent stratum/sub-stratum from being void. In case no substitute FSU could be surveyed even with best efforts [i.e. code 7 in item 16, Block 1], a blank Schedule 0.0 will be submitted with only Blocks 0, 1, 2, 7 and 8 filled in. The word ‘CASUALTY’ is to be written at the top of the front page of the schedule in such cases.

All efforts must be made to ensure that at least one FSU is always surveyed from each stratum/sub-stratum so as to prevent occurrences of void strata.

(b) If a sample FSU is found to be depopulated at the time of survey, or its population has shifted elsewhere due to some natural calamity, or it is treated as a “zero-case”, it will not be substituted.

It will be treated as a valid sample and blank Schedule 0.0 with only Blocks 0, 1, 2, 7 and 8 filled in will be submitted in such cases. The word 'UNINHABITED' or 'ZERO CASE', as appropriate will be written on the top of the front page of the schedule in such cases. However, in Arunachal Pradesh and possibly elsewhere also in the hill tracts of Northeastern States where, for example, jhum cultivation is prevalent, whole village may shift from place to place. In such cases the sample village will be surveyed in the place where it is currently located and not treated as uninhabited if found absent in its original location.

(c) If a village in which the sample FSU is situated is found to have been declared as urban (as a town by itself or as merged in another town) either by State Govt. notification or by census authorities after Census 2011 and if it is covered in the urban frame used for selection of FSUs, it will be treated as a zero case and the procedure given in the previous para will be followed in this case. However, if it is not included in the urban frame, it is to be surveyed as per the rural programme. If the boundaries of the original village are not identifiable, it may be substituted. If only a part of the village has been merged in the town, the remaining part will be surveyed as per rural programme even in this situation. *It is suggested* to write to the Technical Coordination, HSD before treating any sample as a zero case.

(d) *It is important* to note that a listing schedule has to be submitted for every sample FSU irrespective of whether it is surveyed/ substituted (including uninhabited and zero cases) or a casualty.

FREQUENTLY ASKED QUESTIONS AND THEIR REPLIES

Schedule 0.0: List of Households

Sl.	block	Item	col.	query	Reply
(1)	(2)	(3)	(4)	(5)	(6)
1.	Concepts, Definitions			How to treat a census village for this survey, if the village is urbanized after census 2011?	If the urbanised village is not yet included in the urban frame survey (UFS), it should be surveyed as a rural FSU.
2.	Concepts, Definitions			A whole village is to be listed, and census 2011 listing order is unavailable. In this situation, if it is difficult to find out the starting house for listing, can the listing be started from northwest corner of the village?	Yes, first we will try our best to follow census 2011 listing order. If the census order is not available, listing may be done in serpentine manner starting from north-west corner and moving southwards.
3.	Concepts, Definitions			When a sample FSU needs to be substituted?	If a sample FSU cannot be surveyed because of not being uniquely identifiable or traceable or not accessible or for any other reason, it will be substituted.
4.	Concepts, Definitions			What are the criteria of paying guest?	A person will be considered as a paying guest only when he/she stays with the household, takes breakfast and major meals from the household. He/she should also pay a lump sum amount for the expenses.
5.	Concepts, Definitions			If some students living in a hostel and pool their income for expenditure on food and other consumable items, will they constitute a single household?	No, the students will be treated as single member households.
6.	5		4	Will the deceased member of a family be counted in the household size?	No.
7.	5	all	1	A household is living under a tent. Whether house number is to be assigned to this household structure?	A '-' may be put.
8.	5	-	2	A truck driver stays away from home for more than six months continuously or otherwise during the reference year. Will he be listed as a normal household member?	No, he will not be listed.

Sl.	block	Item	col.	query	Reply
(1)	(2)	(3)	(4)	(5)	(6)
9.	5	-	4	A family member is a student and has been residing in a students' hostel for the past one year. While recording the household size, whether this member is to be considered?	No. The student will be listed as single member household in the students' hostel where he is presently residing.
10.	5	-	4	Five single-member households are staying with a family which provides them with food and accommodation. Whether the five members will be listed as single-member household, or will they be clubbed with the family as paying guest?	They will be treated as paying guests of the family and will be listed as members of the household with which they are staying as paying guests. However, if the situation is more like a mess or hostel, then each member may be treated as single member household. It may be noted that a person will not be considered as a paying guest unless he/she takes breakfast and major meals from the household.
11.	5	-	4	What entry will be provided in household size in case of locked households?	Information may be collected from the member of the household vide phone call or from the neighbors or any other person in the locality.
12.	5	-	4	Will a new-born baby be considered for determining household size?	Yes. The new-born baby will be considered as a member of that household in which the mother is a usual member.

Chapter Three

CMS-E: Comprehensive Modular Survey - Education

3.0.1 Introduction

The National Statistics Office (NSO) will conduct Comprehensive Modular Survey-Education (CMS-E) from April, 2025 to June, 2025 as a part of NSS 80th round. The information collected in this survey will essentially be used for generating indicators related to household expenditure on school education and private coaching/ tuition classes. The survey will cover only education related expenditures incurred/to be incurred for the household members, including erstwhile household members, who are currently enrolled in school education. Both formal and non-formal enrollment will be considered for collection of data. Further, paid as well as payable approaches will be adopted for recording education related expenditure. The indicators generated based on the CMS-E schedule will serve the requirement placed by the D/o School Education and Literacy.

Summary description of the schedule

3.0.2 The CMS-E schedule has eight main blocks. A brief description of these blocks is given below.

Block Number	Description
1	Identification of sample household
2	Particulars of field operations
3	Demographic & other particulars of household members and household characteristics
4	Details of erstwhile household members of aged 3 years and above who are currently attending school education
5	Information on expenditure on education and private coaching for household members age 3 years and above who are currently enrolled in school education
6	Household consumption expenditure
7	General Remarks by Junior Statistical Officer (JSO)/ Survey Enumerator (SE)
8	General Comments by Senior Statistical Officer (SSO)/ Survey Supervisor (SS)

The schedule also contains Block 3.1, 4.1, 5.1 and 6.1 to record remarks/ observations by JSO/SE in respect of a specific block.

3.1.0 BLOCK 1: IDENTIFICATION OF SAMPLE HOUSEHOLD

This Block contains identification particulars of the sample households. Information relating to **Question 1 to 8 and 11** will be available from the sample list. Information on **Question 12, 12.1 and 13** will be available from the schedule used for listing households (Schedule 0.0). In Computer Assisted Personal Interview (CAPI), except for question 14 and 15, all the question will be auto-populated.

Block 1, Question 14: Survey code:

3.1.1 Select the survey code from the following codes:

Description	Code
household, surveyed: original	1
household, surveyed: substitute	2
household, casualty	3

3.1.2 If the originally selected sample household has been surveyed, code 1 will be selected. However, if the originally selected household could not be surveyed, a substituted household will be surveyed and, in such a case, code 2 will be selected. If neither the originally selected household nor the substituted household could be surveyed, i.e., if the sample household is a casualty, code '3' will be selected. For 'casualty' schedules, only Blocks 1, 2, 7 and 8 will be filled in.

A substitution of an original household or an already substituted household can be obtained by selecting 'Get a substitution – 9' from dropdown menu in CAPI. Further, there is no casualty code (Code 3) for selection by the enumerator from the dropdown menu of CAPI. Casualty code will be auto filled if there is no household available for further substitution within the stratum.

Block 1, Question 15: Reason for substitution/ casualty of original household:

3.1.3 This question is applicable if the entry in question 14, block 1 is either 2 or 3. If the originally selected sample household could not be surveyed, the reason for not surveying the original household should be given by selecting a relevant code, irrespective of whether or not a substituted household could be surveyed.

3.1.4 The codes for this question are as follows:

Description	Code
informant busy	1
members away from home	2
informant non-cooperative	3
others	9

Note: 1

- i) If code 9 is given against this question, a suitable remark must be recorded in Block 7 or Block 8.
- ii) Question 15 i.e. reason for substitution/ casualty of original household is to be answered if code 2 or 3 is recorded in Question 14.
- iii) For casualty, only Block 1, 2, 7 and 8 will be filled in.

3.2.0 BLOCK 2: PARTICULARS OF FIELD OPERATIONS

In this Block, particulars of field operations will be recorded along with some particulars of the informant of the selected household. This block should be canvassed at the end of canvassing the schedule.

Block 2, Question 1(a) and Question 1(b): Details of Field Official

3.2.1 Details of field officials like name, code etc. will be recorded in questions 1(a) and 1(b), of block 2. Details of the Junior Statistical Officer (JSO)/ Survey Enumerator (SE) will be recorded in Column 3 and in column 4, particulars of the Senior Statistical Officer (SSO)/ Survey Supervisor (SS) will be recorded. In CAPI, code will be used for login and the name is to be recorded in Block 2. Name should be written in block letters.

Block 2, Question 2: Date(s) of survey / inspection

3.2.2 In question 2(i), column 3, block 2 date of survey is to be reported by the Junior Statistical Officer (JSO)/ Survey Enumerator (SE). Date of survey is the date on which the canvassing of the CMS-E schedule will be started in respect of the selected household.

In question 2, column 4, block 2 dates of inspection, receipt, scrutiny and despatch are to be reported by the Senior Statistical Officer (SSO)/ Survey Supervisor (SS). In CAPI the date of survey will appear by default.

Block 2, Question 3: Total time taken to canvass the Schedule by the team of enumerators

3.2.3 Entry in Question 3, block 2 will be made in whole number and in minutes. The time required to canvass the schedule should be the actual time taken by the enumerator(s) to canvass the schedule and will not include the time needed by the enumerator(s) to finalize the schedule.

Block 2, Question 4: Number of enumerators (JSO/SE) in the team who canvassed the Schedule

3.2.4 Number of enumerators (JSO/SE) in the team who canvassed the schedule will be recorded in question 4, block 2.

Block 2, Question 5: Whether any remark has been entered by JSO/SE/SSO/SS
--

3.2.5 In this question, information will be recorded on whether remarks are either recorded in Block 7/8 or in Block 3.1, 4.1, 5.1 and 6.1. The response will be recorded in terms of yes -1 or no -2.

Block 2, Question 6: Name of the informant

3.2.6 Informant is the person from whom the **bulk** of the information of the schedule has been collected. It is always desirable to collect information from a household member. In extreme cases, where this cannot be done, information may be collected from a non-household member who is supposed to know the requisite information.

In CAPI, number and name of the household member as listed in Col.1 and Col.2 of Block 3 will appear along with an option 'not a household member' against 'Serial No. of the household member ('99') for selecting the informant. The enumerator should select the 'informant' from the list as given below.

Serial no. of the household member	Name	Select the informant
		O
99	not a household member	O

Block 2, Question 7: Response code of the informant as assessed by JSO/SE

3.2.7 Question 7, block 2 is meant to categorize the informant according to the degree of his/her cooperation as well as his/her capability to provide the required information in the schedule. Information on the type of informant will be collected in terms of the following codes:

Description	Code
informant co-operative and capable	1
informant co-operative but not capable	2
informant busy	3
informant reluctant	4
Others	9

3.3.0 BLOCK 3: DEMOGRAPHIC & OTHER PARTICULARS OF HOUSEHOLD MEMBERS AND HOUSEHOLD CHARACTERISTICS

In this Block information on basic demographic particulars of the household members like relation to head of the household, gender, age along with status of current enrollment in school education of the household members aged 3 years and above will be collected. Other information of household-level characteristics viz. household size, household type, household religion, household social group etc. for each sample household will also be collected in this Block.

Note: 2

- i) Block 3 will be filled for each sampled household.
- ii) Information in Columns 1 to 5 of Question1 is to be collected for all household members.
- iii) Information in Column 6 of Question1 is to be collected for all household members of age 3 years and above (i.e., for entry in Col. 5 \geq 3)

Block 3, Question 1, Col. 1: Serial number of the household member

3.3.1 The serial number of the household member will be recorded in Col. 1 starting with 1 and proceeding continuously. In CAPI, the serial number will be auto-populated.

Block 3, Question 1, Col. 2: Name of the household member
--

3.3.2 The name of the household member will be recorded in Col. 2 starting with the name of the head of the household followed by spouse of the head and their children and so on. If the household has any non-relative member, his/her name will be listed at the end.

Note: 3

While listing the members of the household in CAPI, following may be considered:

- i) All the members of the sample household will be listed and a continuous serial number starting with 01 will be automatically generated.
- ii) The head of the household will appear first followed by head's spouse, their first son, first son's wife and their children, second son, second son's wife and their children and so on.
- iii) After the sons of the Head of household are enumerated, the daughters will be listed followed by father/mother/ father-in-law/mother-in-law and then by other relatives, dependents, servants, etc.
- iv) Paying guests, domestic servants, other relatives and non-relatives who are normally living together for six months or more or they are expected to stay for six months or more and taking food from a common kitchen will be considered as members of the selected household and they will be listed at the end.
- v) Temporary stay-aways (i.e., persons whose total period of absence from the household is expected to be less than 6 months) will be considered as a member of the selected household.
- vi) Temporary visitors and guests (expected total period of stay in the household is less than 6 months) will **not** be considered as a member of the selected household.

Block 3, Question 1, Col. 3: Relation to head
--

3.3.3 This is for recording the relationship of the household member with the head of the household. For the head of the household, code 1 will be automatically generated. The list of codes for relation to the head of the household is as follows:

Relation to head	Code
self (i.e., head of the household)	1
spouse of head	2

married child	3
spouse of married child	4
unmarried child	5
Grandchild	6
father/mother/father-in-law/mother-in-law	7
brother/ sister/ brother-in-law/ sister-in-law/ other relatives	8
servant/ employees /other nonrelatives	9

Block 3, Question 1, Col. 4: Gender

3.3.4 The gender code of each member is to be recorded with code 1 for male and code 2 for female. For transgenders (including hijara, enuch etc.), code 3 will be recorded.

Block 3, Question 1, Col. 5: Age [completed number of years of age]

3.3.5 Age, in completed years, of the household member will be ascertained and will be recorded in whole number of years. For infants below one year of age, '0' will be entered. Example: Age of two members of the household who are 3 years & 4 months and 3 years & 11 months respectively, will be recorded as 3 years (completed no. of years of age).

Block 3, Question 1, Col. 6: Whether currently enrolled in school education?

3.3.6 This item is applicable for persons with age 3 years or more. The response will be recorded in terms of yes -1 or no -2.

3.3.7 If the household member reports that he/she is currently enrolled in school education, code 1 is to be recorded otherwise code 2 is to be recorded. Enrollment in school education includes enrollment at pre-primary, primary, middle, secondary and higher secondary levels. Government school, semi government school, government aided schools, private schools etc. will be considered for enrollment in school education.

Block 3, Question 2: Household size

3.3.8 The size of the sample household i.e., the total number of persons normally residing together and taking food from the same kitchen (including temporary stay-away and excluding temporary visitors) will be recorded against this item. This number will be the same as the last serial number recorded in column 1 of Question 1, block 3. In CAPI, the household size will be auto populated.

Note: 4

The size of the sampled household should be the same as per information available in the listing schedule. In case of any difference in the size, proper remark should be recorded in Block 7 or Block 8. In CAPI, a soft warning will come for difference in household size which needs to be verified by the field official with suitable remark.

Block 3, Question 3: Household type

3.3.9 The household type, based on the means of livelihood of a household, is decided on the basis of the sources of the household's income during the 365 days preceding the date of survey. For this purpose, only the household's income (net income) from economic activities is to be considered. Incomes of servants and paying guests are not to be taken into account.

In **rural areas** a household may belong to any one of the following seven household types

Description	Code	Description	Code
self-employed in agriculture	1	casual labour in agriculture	5
self-employed in non-agriculture	2	casual labour in non-agriculture	6
regular wage/salary earning in agriculture	3	others	9
regular wage/salary earning in non-agriculture	4		

For **urban areas**, the codes for household types are:

Household types	Code	Household types	Code
self-employed	1	casual labour	3
regular wage/salary earning	2	others	9

3.3.9.1 Procedure for determining household type in rural areas:

The broad household types in rural areas to be used in this schedule are self-employed, regular wage/salary earning, casual labour and others.

Firstly, the households, which do not have any income from economic activities, shall be classified in "others" category.

Out of the remaining households, the household's income from economic activities will be considered to determine the type of the household. A household will be first categorized as 'self-employed', regular wage/salary earning' or 'casual labour' depending on the single major source of its income during the last 365 days from self-employment, regular wage/ salaried employment or casual labour employment, respectively. A household having major income from self-employment (i.e., income from self employment is more than the earning from of each regular wage/salary employment and casual labour employment), the broad household type will be "self-employed". Similarly, a household having major income from regular wage/salary will be categorized as "regular wage/salary earning". For a household, which has a major income from casual labour, the broad household type will be "casual labour".

Each of the broad categories i.e. self-employed, regular wage/salary earning and casual labour households will further be distinguished into two specific household types, viz. 'in agriculture' and 'in non-agriculture', depending on their major income from agricultural activities (Section A of NIC-2008) and non-agricultural activities (rest of the NIC-2008 sections, excluding Section A) during last 365 days. However, working in fisheries is excluded from the purview of agricultural activities.

Accordingly, the specific household type category for the households whose major source of income during last 365 days is from self-employment will either be "self-employed in agriculture" or "self-employed in non-agriculture". Similarly, the specific household type category for the households whose major source of income during last 365 days is from regular wage/salary earning will either be "regular wage/salary earning in agriculture" or "regular wage/salary earning in non-agriculture". For the households whose major source of income during last 365 days is from casual labour employment, the specific household type category will be either "casual labour in agriculture" or "casual labour in non-agriculture".

3.3.9.2 Procedure for determining household type in urban areas:

In urban areas, the different household types correspond to four sources of household income, unlike the rural sector, where seven sources are considered. An urban household will be assigned the type self-employed, regular wage/salary earning, casual labour or others according to the major source of its income from economic activities during the last 365 days. A household which does not have any income from economic activities will be classified under the category 'others'.

Block 3, Question 4: Household Religion

3.3.10 The religion of the household will be recorded against this item in terms of the following codes:

Household religion	Code
Hinduism	1
Islam	2
Christianity	3
Sikhism	4
Jainism	5
Buddhism	6
Zoroastrianism	7
Others	9

Note: 5

If religion of the household is not covered by any of the codes 1 to 7, then code 9 will be recorded to cover all other categories. In case, different members of the household claim to belong to different religions, the religion of the head of the household will be considered as the 'religion' of the household.

Block 3, Question 5: Household social group

3.3.11 The social group of the household will be recorded against this item in terms of the following codes:

Household social group	Code
scheduled tribe (ST)	1
scheduled caste (SC)	2
other backward class (OBC)	3
others	9

Note: 6

If social group of the household is not covered by any of the codes 1 to 3, then code 9 will be recorded here to cover all other categories. In case, different members belong to different social groups, the social group in which the head of the household belongs will be considered as the 'social group' of the household.

Block 3, Question 6: Whether staying in students' hostel

3.3.12 **Students' hostel:** Student's hostel is a hostel which is meant for providing accommodation to students, irrespective of whether, they are run by any school or not. A hostel, as distinct from a mess, is not managed by the students on a cooperative basis.

All Students' Hostels run by Government, Private organisations, NGOs and the schools in which they are enrolled will come under coverage.

3.3.13 If the household member (single member household) of age 3 years and above who is currently enrolled in school education is staying in a student's hostel then code 1 may be recorded. Otherwise, code 2 may be recorded.

Question 6 is applicable for those households for which the household size is 1 and the household member of age 3 years and above is currently enrolled in school education. [i.e., code 1 in Question 2 and code 1 in Col. 6 of Question 1]

Block 3, Question 7: Whether any erstwhile household member of age 3 years and above is currently attending school education

3.3.14 **Erstwhile members:** Erstwhile members for this survey will be students who were members of the selected household anytime in the past and are likely to return to the selected household during vacations/ holidays and/ or on completion of the course. Paying guests will not be treated as erstwhile members for a selected household if they have moved from the selected household as on the date of survey. In most cases, households will have familial relation with the erstwhile members of the household. However erstwhile members studying abroad will not be considered for this survey.

Example: A student was the member of a household at the time of departure to the student hostel. Later his father and uncle separated their kitchen etc. and now constitute two separate households. The student will now be treated as an erstwhile member of his father's household.

From the selected households it may be ascertained whether any erstwhile member of the household of age 3 years and above is currently attending school education. The response will be recorded in terms of yes -1 or no -2.

Block 3, Question 8: Number of erstwhile household members of age 3 years and above currently attending school education

3.3.15 Record the total number of erstwhile members of age 3 years and above of the household currently attending school education.

Question 8 is applicable for households which have reported that erstwhile member of the household aged 3 years and above is currently attending school education. [i.e., code 1 in Question 7]

3.4.0 BLOCK 4: DETAILS OF ERSTWHILE HOUSEHOLD MEMBERS OF AGE 3 YEARS AND ABOVE WHO ARE CURRENTLY ATTENDING SCHOOL EDUCATION (FOR ENTRY 1 IN Q. NO. 6, BLOCK 3)

Person-wise details of erstwhile household members of age 3 years and above who are currently attending school education will be recorded in this block. The essence is to capture demographic details, other particulars like type and present place of residence, level of current enrolment and education related expenditure including school fees, boarding and lodging and private tuition borne by the household for erstwhile household members staying in a students' hostel, mess, relative's house, friend's house etc.

Student: For the purpose of this survey, a household member is considered as student if he/she is of age 3 years and above and is currently attending school education from pre-primary to class XII and/ or Diploma/ certificate courses upto the level of Secondary Education or Diploma/certificate course equivalent to Higher Secondary level.

Students' hostel: See 3.3.12

Private tuition/ coaching: For the purpose of this survey private tuition/ coaching will include academic support for preparation for school education, preparation for competitive exams and preparation for higher or additional studies related to school curriculum etc.

However, private tuition/ coaching will exclude coaching for skill development (e.g. coding, foreign language classes.), extracurricular activities (e.g art, dance, music classes etc.) and coaching for games (e.g cricket, football, yoga etc.) etc. For further details refer to Section 3.5.16.

Block 4, Question1: Serial number

3.4.1. This will be auto populated based on entry in Question 8 of BL 3.

Block 4, Question2: Name

3.4.2 Name of the erstwhile members to be reported here.

Block 4, Question 3: Gender

(male-1, female-2, transgender-3)

3.4.3 The gender of each erstwhile member of the household is to be recorded here in codes as mentioned below.

Description	Code
Male	1
female	2
transgender	3

Block 4, Question 4: Age (years)

[completed number of years of age]

3.4.4 The age as on date of survey in completed years of the erstwhile member is to be recorded here.

Note: 7

Entries will be ≥ 3 in this item

Block 4, Question 5: Type of residence

(students' hostel -1, paying guest/mess- 2, others-3)

3.4.5 Information about current place of residence of the erstwhile household member will be enquired from the household/informant in this question.

For all erstwhile members residing in Students' Hostel Code 1 is to be given. For all erstwhile student members residing in a Mess or as a paying guest Code 2 is to be given and for erstwhile members residing in a relative's/friend's household etc. Code 3 is to be given.

Block 4, Question 6: Present place of residence

(rural -1, urban -2)

3.4.6 If the erstwhile member is residing in rural area, then the code will be 1 and for urban area the code will be 2.

Block 4, Question 7: Level of current enrolment (code)

3.4.7 The level of current enrolment in school education of the erstwhile member will be recorded in this item.

Enrolment	Code	Enrolment	Code
Class -I	1	Class IX	9
Class-II	2	Class X	10
Class III	3	Class XI	11
Class IV	4	Class XII	12
Class V	5	Diploma / Certificate course upto secondary	13
Class VI	6	Diploma Certificate course (Higher Secondary course equivalent)	14
Class VII	7	Below Class I	15
Class VIII	8		

Block 4, Question 8: Whether any expenditure incurred/ to be incurred by the household during the current academic year for the member

(yes-1, no-2)

3.4.8 If expenditure on education is incurred/ to be incurred by the household during the current academic year in respect of the erstwhile student member listed in this block, entry will be 1 against that person, otherwise entry will be 2.

Note: 8

If for an erstwhile member, entry in Question 8 is 1, total expenditure incurred/to be incurred by the household for the erstwhile member during the current academic year will be recorded in Question 9 in whole number of rupees.

Total amount of expenditure incurred/to be incurred by the household for the erstwhile member will be recorded irrespective of the source of funding for the expenditure.

Block 4, Question 9: For entry 1 in Q8, expenditure incurred/ to be incurred during the current academic year for the member

(i)	on education-related expenditure including boarding/ lodging charges etc. (lump sum expenditure)
(ii)	on school education only { out of the expenditure reported in Q9(i) }
(iii)	on private coaching/ tuition classes only { out of the expenditure reported in Q9(i) }
(iv)	on boarding and lodging out of the expenditure reported in Q9(i) }

3.4.9 For Q9(i), if entry is 1 in Q8 for any erstwhile student members listed in this block, total expenditure incurred/to be incurred by the household for that erstwhile student member during the current academic year will be recorded in this column in whole number of rupees.

The information regarding expenditure on school education to be made (i.e the payable part) may not be readily available with the informant. So, the field enumerator needs to collect this information with deep probing.

Note: 9

Education – related expenditure to be reported in 9(i) will include:

- i) Course fee (including tuition fee, examination fee, admission fee, development fee and other compulsory payments):
- ii) Education related transport
- iii) Uniform
- iv) Books, stationary
- v) Other expenditure: This may include expenses for study tours, school project, etc. However, expenses for social gathering, picnics, etc., are not to be included. Interest paid on educational loan is to be included in this column.
- vi) Private tuition.
- vii) Boarding and Lodging charges in Student's Hostel / Paying guest charges etc.

3.4.10 The education related expenditure made for the erstwhile student member as reported in Block 4, Question9(i) may be further divided into:

- (a) Expenditure on school education
- (b) Expenditure on Private Tuition.
- (c) Expenditure on Boarding and Lodging.

Example: Suppose one household is making an expenditure of Rs. 10,000/- [Entry in Block 4, Question9(i)] to the erstwhile member of the household who is now residing in a Students' Hostel.

Out of Rs. 10,000/-, if Rs. 6,000/- is being spent on school education in the heads of course Fee, Books etc. then entry in Block 4, Question9(ii) will be 6,000/-.

Further, out of Rs. 10,000/-, if Rs. 1,500/- is spent on private tuition then entry in Block 4, Question9(iii) will be 1500. The rest i.e. Rs. 2,500/- is then spent on boarding and lodging and the same may be recoded in item Block 4, Question9(iv).

Note: 10

The enumerator may encounter various situations while reporting expenditure in Q9(ii) to Q9(iv). To facilitate data entry, dropdown options have been provided in CAPI for these questions. Based on the situation, the appropriate option may be selected from the dropdown menu to record the response in question 9(ii) to 9(iv). The dropdown options are:

- (a) for Q9(ii): (I) Amount of expenditure and (II) Not known;
- (b) for Q9(iii): (I) Amount of expenditure, (II) Not known, (III) Free tuition and (IV) No tuition;
- (c) for Q9(iv): (I) Amount of expenditure, (II) Not known and (III) Free boarding/lodging.

If amount of expenditure (I) is chosen in either of Q9(ii) to Q9(iv) then the expenditure incurred/ to be incurred during the academic year must be recorded against the question in whole number of rupees. The other dropdown codes are self-explanatory. For further clarification refer to 3.5.16, Note 15 and Note 16.

If the expenditure is not known to the informant, or there if the specific service was not availed or was availed free of cost, then corresponding option from the dropdown menu may be chosen. However, selecting 'Not known' in Question 9(ii) to 9(iv) may

only be resorted to in extreme cases as an exception, rather than as a rule. Making it a general practice will defeat the objective of the survey to record the breakdown of household expenditure on erstwhile members. For all such cases suitable remarks may be given.

Block 4, Question 10: Whether the sampled household is funding the majority of the education-related expenditure (incurred/ to be incurred) during the current academic year

(yes-1, no-2)

3.4.11 The erstwhile household member may have multiple sources of funding for their education example: funding from parents, government aid, self-earnings by running tuition, coaching classes etc., help from friends, relatives etc.

If the selected household is funding majority of the expenditure mentioned in Q9(i) then Code-1 is to be given; if not then Code-2 is to be given. Examples of code 2: maybe funded by the erstwhile member's grandparent who is not a member of the selected household.

3.5.0 BLOCK 5: INFORMATION ON EXPENDITURE ON EDUCATION AND PRIVATE COACHING FOR HOUSEHOLD MEMBERS AGE 3 YEARS AND ABOVE WHO ARE CURRENTLY ENROLLED IN SCHOOL EDUCATION [i.e. ENTRY 1 IN (COL. 6) OF Q. NO. 1 OF BLOCK3]

Person-wise information on education of household members of age 3 years and above currently enrolled in school education and expenditure on education including that for private tuition and boarding and lodging will be recorded in this block.

Note: 11

To be canvassed for all households reporting students of age 3 years and above currently enrolled in school education.

Block 5, Question 1: Srl. No. of household member (as in col. 1, bl. 3)

3.5.1 To be copied or auto-populated from Col-1 of BLOCK 3 for code yes- 1 in column 6 of BLOCK 3 i.e. for students of age 3 years and above currently enrolled in school education.

Block 5, Question 2: Name of the household member (as in col. 2, bl. 3)

3.5.2 To be copied or auto-populated from Col-2 of BLOCK 3 for code yes- 1 in column 6 of BLOCK 3 i.e. for students of age 3 years and above currently enrolled in school education.

Block 5, Question 3: Relation to head (code) (as in col. 3, bl. 3)

3.5.3 To be copied or auto-populated from Col-3 of BLOCK 3 for code yes- 1 in column 6 of BLOCK 3 i.e. for students of age 3 years and above currently enrolled in school education.

Block 5, Question 4: Gender of household member (as in col. 4, bl. 3)

3.5.4 To be copied or auto-populated from Col.4 of Block 3 for code yes- 1 in column 6 of BLOCK 3 i.e. for students of age 3 years and above currently enrolled in school education.

Block 5, Question 5: Age (years) of household member (as in col. 5, bl. 3)

3.5.5 To be copied or auto-populated from Col.5 of BLOCK 3 for code yes- 1 in column 6 of BLOCK 3 i.e. for students of age 3 years and above currently enrolled in school education.

Block 5, Question 6: Level of current enrolment

(class I-01, class II-02, class III-03, class IV-04, class V-05, class VI-06, class VII-07, class VIII -08, class IX-09, class X-10, class XI-11, class XII-12, diploma /certificate course (upto secondary) - 13, diploma/certificate (higher secondary equivalent) - 14, below class I – 15)

3.5.6 The level of current enrolment of household members of age 3 years and above and currently enrolled in school education will be recorded in this item

Enrolment	Code	Enrolment	Code
Class -I	1	Class IX	9
Class-II	2	Class X	10
Class III	3	Class XI	11

Class IV	4	Class XII	12
Class V	5	Diploma / Certificate course upto secondary	13
Class VI	6	Diploma Certificate course (Higher Secondary course equivalent)	14
Class VII	7	Below Class I	15
Class VIII	8		

Block 5, Question 7: Type of school currently enrolled

(government - 1, government aided school (private school aided by government) - 2, private unaided (recognized) - 3, unrecognized - 4 and others - 5)

3.5.7 Type of schools: The type of school refers to the type of management by which the school is run. Code for recording information on type of school are as follows:

Type of schools	Code
government	1
government aided school (private school aided by government)	2
private un-aided(recognized)	3
unrecognized	4
Others	5

3.5.7.1 Government school: All schools run and fully funded by central and state governments, public sector undertakings, autonomous organisations, municipal corporations, municipal committees, notified area committees, zilla parishads, panchayat samitis, cantonment boards, etc., are treated as government school. **It may be noted that a government school may be run either by the government directly or through a governing body/managing committee, etc., set-up by the government.**

3.5.7.2 Government Aided School (Private schools aided by the Government): A Government aided school is one, which is run by an individual or a private entity and receives maintenance grant / dearness allowance etc. for teachers and staff from the Government. The school is recognised by the State or Central Government as per State/RTE specified recognition rules.

3.5.7.3 Private unaided (recognized) school: A private un-aided school is one, which is managed by an individual or a private entity and is not receiving maintenance grant, or any other benefits from the Government i.e. all expenses are financed from

their own sources etc. The school is recognized by the State or Central government as per State/RTE specified recognition rules.

3.5.7.4 Unrecognised school: As per Right to Education (RTE) Act, schools should meet certain minimum requirements like having minimum number of teachers, building, classrooms, furniture, toilet facilities, drinking water, library etc. subject to meeting minimum set norms to get recognition from the government. Thus, schools which do not have recognition certificate from appropriate authority viz., Government, District, Panchayat, Local Bodies etc. are considered as Unrecognised school. This does not include coaching centres.

3.5.7.5 Others: Schools not coming under the purview of the above four categories maybe reported here. This may include 'Not Known' cases also.

Block 5, Question 8: Whether any expenditure incurred/ to be incurred on school education during the current academic year

(yes-1, no-2)

3.5.8 If any expenditure is incurred /to be incurred by the household for school education of a household member (student)of age 3 years and above, Code 1 maybe recorded; otherwise, code 2 maybe recorded.

Block 5, Question 9: For entry 1 in Q8

Person-wise details of expenditure (Rs.) incurred / to be incurred on school education (excluding expenditure on private coaching/tuition class) during the current academic year

(i)	Course fee (including admission fee, tuition charges, examination fee, development fee and other compulsory payments)
(ii)	Transport
(iii)	Uniform
(iv)	Textbooks, stationery
(v)	Other expenditure
(vi)	Total [9(i)+9(ii)+9(iii)+9(iv)+9(v)]

3.5.8.1 Academic Year: Information in this block will be collected for the current academic year. Academic Year for school education is likely to be one year only. However, for Diploma courses with semester system, short courses etc. may have course duration different than one year.

For a student who has completed one academic year (say Class V) and awaiting results; or the new session (Class VI in this case) has not yet commenced then the

current academic year for that student will be taken as the recently completed year (Class V) in this case. However, such cases maybe clearly mentioned in the Remarks Block.

The treatment of academic year for this survey, in relation to the duration of the course, will be done in the following manner:

- a. If duration of the course is less than one year, the academic year will cover full duration of the course.
- b. If duration of the course is equal to or more than one year, then, academic year will cover a period of 12 months.
- c. For the school with semester system (e.g. three to six months semester system), academic year will be taken as 12 months if the duration of the course is equal to or more than one year.

3.5.8.2 In this question, expenditure on school education from pre-primary to Higher Secondary level incurred/to be incurred for any household member currently enrolled will be collected, separately, on the following broad heads of expenditure:

Note: 12

- i) Expenditure on ‘Course Fee’, ‘Transport’, ‘Uniform’, ‘Textbooks, stationery’ and ‘Others’ incurred/to be incurred either by selected household itself or by other households, government schools, organizations other than government etc. When expenditure is incurred by other households or by any organizations other than government, the amount of such expenditures will be ascertained/imputed. However, if such expenditures are incurred by the Government (in the form of free books/free tuition fee/uniform, etc.), no imputation will be made and value will be considered as zero (0) for recording.
- ii) Expenditure to be recorded for the current academic year consists of two parts: actual expenditure already incurred till the date of survey and the expenditure likely to be incurred for the remaining part of the academic year.
- iii) It is understood that in some situations the expenditure ‘to be incurred’ for the remaining part of the academic year is difficult to ascertain properly.

Following guidelines may be adopted to derive the expenditure to be incurred:

- (a) Certain expenditures like tuition fee, computer fee, game fee, fee for extra-curricular activities, examination fee, private tuition, uniform, festive fee, cost of books, etc., are either to be paid regularly or the amount to be paid is already known. There will not generally be much difficulty in deriving the amount of expenditure ‘to be incurred’ on these items, if any.

- (b) For some items like, stationery, transport, other miscellaneous requirements, expenditure incurred till the date of survey as well as information from past year, if available, may be used to impute the expenditure 'to be incurred' on the remaining part of the academic year proportionately.
- (c) For transport necessary adjustment may be made for the period of vacation.
- iv) When a student gets scholarship from Government or by any organizations and the student/household spends it for financing the expenditure on education, it will be considered as expenditure incurred by the household.
- v) When the student gets free books/stationary/uniform from Government, these will not be included in expenditure on education for recording in this block, but if these are given to the student by other households/charitable organizations, etc., these will be included in expenditure on education for recording in this block.
- vi) Amount of expenditure incurred/to be incurred will be reported in whole number of rupees.
- vii) For each of the student, information on at most two sources of funding of the expenditure will be recorded.

3.5.9 Block 5, Question 9(i): course fee: Total amount paid/payable as tuition fee, examination fee, development fee and other compulsory payments for the current academic year of the course will be recorded in this item. Compulsory payments include session charge, library fees, games fees, laboratory fees and other similar payments. Donation or any other such payments including capitation fee charged by the school will be considered if it is a compulsory payment against a valid receipt.

Note: 13

- i) **For School Education Academic Year is likely to be one year.** However, for Diploma Courses the Academic Year maybe different than one year period.
- ii) If the lump sum payment of tuition fee is made in the beginning for the entire duration of the course and no tuition fee is paid in the current academic year, the tuition fee for the current academic year will be apportioned and recorded.
- iii) Compulsory donation will be reported only if paid in the current academic year and no apportionment of compulsory donation paid in past academic years will be made for the current academic year.
- iv) Entire amount of admission fee paid in the current academic year will only be reported and no apportionment of admission fee paid in past academic year will be made for the current academic year.

- v) Entire amount of development fee paid in the current academic year will only be reported and no apportionment of development fee paid in past academic year will be made for the current academic year.

3.5.10 Block 5, Question 9(ii): transport: In this item expenditure on transport incurred/to be incurred during the current academic year will be recorded. The cost incurred on purchasing bicycle, motorcycle, car, e-rickshaws etc., even if used predominantly for commuting to schools, should not be covered under this item. However, the expenditure for running these vehicles such as petrol, diesel, electricity, driver's cost, minor repair and maintenance, etc. should be included. If the vehicle is used for other purposes also then, the entries should be made by apportioning the expenses for education purpose.

Note: 14

For reporting transport expenditure in respect of the household member accompanying the student to school/tuition class the leading purpose of travel to be considered. For example if the parents of the students drop them to the school on their way to the office and the school is more or less in the same route then such expenditure need not be taken as in this case the leading purpose is travelling to the office.

However, if the parents have to make a detour to drop their children to school or if they are simply escorting their children to school by public conveyance then such expenditure to be taken.

3.5.11 Block 5, Question 9(iii): uniform: In this item total expenditure incurred/to be incurred on uniform during the current academic year will be recorded. The expenditure incurred/ to be incurred on school dresses, aprons, P.T. dresses, specific uniforms, footwear, etc., required during the current academic year will be considered.

3.5.12 Block 5, Question 9(iv): textbooks, stationery: In this item total expenditure incurred/to be incurred on books, stationery, on the course during the current academic year will be recorded.

- (i) Books will include textbooks, reference books, journals, periodicals, etc., required for the purpose of school education.
- (ii) Stationery will include appliances, instruments, tools, equipment, notebook, pen, pencil, eraser, geometry box, etc.

3.5.13 Block 5, Question 9(v): other expenditure: This item will cover other expenses relating to the education of the household member for the current academic year, which are not covered in items 9(i) to 9(iv). This may include expenses for study tours, school project, etc. However, expenses for social gathering, picnic, etc., are not to be included. Interest paid on educational loan is to be included in this item.

3.5.14 Block 5, Question 9(vi): total: Total of the expenditures in items 9(i) to 9(v) will be recorded in item 6. In CAPI this will be auto calculated.

Block 5, Question 10: Whether received private coaching/ tuition classes during the current academic year?

(yes-1, no-2)

3.5.15 If any student aged 3 years and above currently enrolled in school education receives private coaching/ tuition classes during the current academic year then Code 1 may be given. Otherwise, code 2 may be given.

3.5.16 Private tuition/ coaching: For the purpose of this survey private tuition will include academic support for preparation for school education, preparation for competitive exams and preparation for higher or additional studies related to school curriculum etc.

However, private tuition will exclude coaching for skill development (e.g. coding, foreign language classes), extracurricular activities (e.g. art, dance, music classes etc.), coaching for games (e.g. cricket, football, yoga etc.) etc.

Expenditure incurred/to be incurred during the current academic year for private coaching relating to school education will cover those for taking lesson at home or at any other place by a single tutor/tuition class or through correspondence. Private coaching may be attended individually or by a group of students. If two students of a household are coached by same tutor, the payment made should be halved and shown against each student. This will also include online classes.

Note: 15

Private tuition/coaching will include:

- i) Home Tutors i.e. tutors offering tuition at the residence of the student.
- ii) Private coaching centres for school education/ competitive exams.
- iii) Tuition given at the residence/ hired premises by a particular tutor.
- iv) Tuition arranged by the school i.e. school in which the student is enrolled.
- v) Example of competitive course centre: ALLEN, FIITJEE, AAKASH etc.

Block 5, Question 11: For entry 1 in Q10:

Whether any expenditure incurred/ to be incurred on private coaching/ tuition classes during the current academic year?

(yes-1, no-2)

3.5.17 If any expenditure incurred /to be incurred by the household on private tuition of any student aged 3 years and above during the current academic year then Code 1 maybe given, otherwise, code 2 may be given. There may be cases where private tuition is taken but there is no expenditure. In such a case Code 'No-2' may be given. Some examples of Free Tuition are given below in Note 16.

Note: 16

Examples of free tuition:

- i) Some students may get free tuition from their relatives/ family friends etc.
- ii) Some students may get tuition fee waiver as they are from economically weaker sections.
- iii) There may be community based free tuition centers.
- iv) Some institutions arrange for Scholarship tests and Tuition fee is subsidised and sometimes waived for meritorious students.

Block 5, Question 12: For entry 1 in Q11:

Person-wise details of expenditure incurred / to be incurred during the current academic year on private coaching/tuition class

(i)	Tuition/ coaching fee (including registration fee, admission fee, tuition charges, examination fee and other compulsory payments)
(ii)	Transport
(iii)	Uniform
(iv)	Textbooks and study material
(v)	Other expenses
(vi)	Total [12(i)+12(ii)+12(iii)+12(iv)+12(v)]

This is to be canvassed for the household members reporting Yes (code 1) in Q11 of Block 5.

The broad heads of expenditure and definitions are the same as that of expenditure related to School Education. Refer to Section 3.5.9 to3.5.14 for details and explanations.

Note: 17

For home tutors and small coaching centers, it is likely that only tuition fee is applicable. However, for competitive coaching center like Allen, Aakash Institute etc. there may be examination fee, admission fee etc.

Similarly for private tuitions there may or may not be a rule for wearing uniforms.

Deep probing is required for all questions so that no private tuition related expenditure is missed.

Block 5, Question 13: For entry 1 in Q6 of block 3 (i.e. single member household staying in hostel)

Expenditure incurred / to be incurred on hostel fees (lodging/ boarding and other associated fees)

3.5.18 This is to be canvassed for households reporting yes-1 in Q6 of Block 3 i.e. for students residing in students' hostel.

Refer to Section 3.3.12 for definition of Students' Hostel.

[Total expenditure incurred/ to be incurred on hostel fees including boarding, lodging and other associated fees to be reported here]. However, expenditure on entertainment etc. will not be considered.

Block 5, Question 14.1: First major source of funding of the expenditure incurred/ to be incurred during the current academic year (code)

Block 5, Question 14.2: Second major source of funding of the expenditure incurred/ to be incurred during the current academic year, if any (code)

3.5.19 Source of funding the expenditure during the current academic year: Items 14.1 and 14.2 are for recording the first major source and second major source (if any) of funding the total expenditure of the course during the current academic year. The codes to be used for recording entries in these items are as follows:

Major source of funding	Code
funded from the earning of the student	01
funded by other members of the household	02
funded by erstwhile household members	03

received as gifts from friends/relatives	04
scholarships from school	05
scholarships from government	06
scholarships from charitable and other organisations	07
educational loan	08
other loan	10
Others	19
if no second source of funding	99*
* Code 99 applicable only for Q14.2	

Note: 18

- i) If the expenditure during the current academic year is funded by **only one source** identified by codes 01 to 08, or through 'other loan' (code 10), entry in Q 14.1 will be the corresponding code, i.e., codes 01 to 08 or 10 as the case may be and (code 99) will be given in Q 14.2.
- ii) If the expenditure during the current academic year is funded by source(s) other than those identified by (codes 01 to 08) or (code 10), but by some **other singular source** then entry in Q14.1 will be (code 19) and entry in Q14.2 will be (code 99).
- iii) If the expenditure is funded by more than one source identified by (codes 01 to 08) or (code 10) or source(s) classified as 'others' (code 19), entry in Q14.1 will be the corresponding code which shares the **highest expenditure** and in Q 14.2 entry will be the code corresponding to the source with the **second highest expenditure**.
- iv) Entry in Q14.1 and Q14.2 will be different.

3.6.0 BLOCK 6: HOUSEHOLD CONSUMPTION EXPENDITURE

This information is collected to classify the households into different UMPCE (Usual Monthly Per Capita Consumption Expenditure) classes. Household consumer expenditure (HCE) is the sum of monetary values of all goods and services consumed (out of purchase or procured otherwise) by the household on domestic account (i.e., all expenditures excluding those for entrepreneurial purposes) during a reference period. Procedure for deciding consumption of goods and services by a household is same as that followed in Household Consumption Expenditure Survey of NSS. Unusual

expenditures, such as expenditure on social ceremonies, capitation fee, hospitalization, etc., are to be excluded for deriving usual monthly Consumption expenditure of the household. Further, all types of transfer payments made such as gifts given to beggar, income tax paid, if any, will not be covered under Consumption expenditure. However, expenditure on household durable goods is to be included.

Note: 19

Block 6 will be filled-in for each sampled household.

Block 6, Question 1: Usual consumption expenditure in a month for household purposes out of purchase (including online purchase) of goods and services excluding items like clothing, footwear (A)

3.6.1 Regular monthly expenditure incurred by the household for purchase (including online purchase) of goods and services for household purposes will be included here whereas expenses on items like clothing, footwear and purchase of durable goods will be excluded from the coverage of this item. Further, cash remittances should not be reported under this item.

Block 6, Question 2: Imputed value of usual consumption in a month from home grown stock like cereals, pulses, vegetables, milk, firewood, chips, cow dung, etc. (B)

3.6.2 There are some households, especially in rural areas, who use (i.e., consume) items of household consumption goods like cereals, pulses, vegetables, milk, firewood & chips, cow dung etc., from home grown stock on a regular basis. For households who use items of household consumption goods from home grown stock on regular basis, the imputed value of such usual consumption in a month at ex farm/ ex-factory price will be recorded here.

Block 6, Question 3: Imputed value of usual consumption in a month from wages in kind, free collection, gifts, etc. (C)

3.6.3 There are some households who regularly consume goods and services that are received in exchange of goods and services provided by them. For wage salaried employees, such services received could be perquisites like free electricity, free

telephone services, free medical services, etc. For agricultural labourers, such goods and services received could be food-grains, vegetables, meals etc., as payment for wages in kind. In some cases, it may also happen that household regularly consumes goods and services received as gifts or obtained through free collection. For households who regularly consume goods and services received as (1) wages in kind, (2) in exchange of goods provided by them, (3) as gifts or (4) obtained through free collection, etc., the imputed value of such usual consumption in a month at local retail prices will be recorded here. Mid-day meals received by household members also will be considered for making entries against this item.

Note: 20

- i) For households who regularly consume goods and services received as wages in kind, in exchange of goods provided by them, as gifts or obtained through free collection etc.; the imputed value of such usual consumption in a month at local retail prices is to be recorded.
- ii) Goods and services received as gifts or obtained through free collection or allotted by Government which are regular in nature are only to be considered for reporting. If goods and services received at subsidised rates, local retail price is to be imputed.
- iii) Rent of leased out land received in kind (for example rice/wheat from leased out agricultural land), and consumed by the household, is to be considered and imputed value of the goods received is to be recorded.

Block 6, Question 4: Expenditure on purchase (including online purchase) of items like clothing, footwear etc. during last 365 days (D)

3.6.4 Expenditure on purchase of items like clothing footwear, etc., which generally are not purchased on a regular basis during the last 365 days will be recorded in here.

Block 6, Question 5: Expenditure on purchase (including online purchase) of household durables during last 365 days (E)

3.6.5 Expenditure incurred by the household during the last 365 days for purchase (including online purchase) of household durable goods like, bedstead, furniture, vehicles, TV sets, fridge, fans, cooler, AC, mobile phones, computers, kitchen equipment, etc., will be recorded here. Expenditure for construction of household durable goods will be considered for reporting in this item.

Note: 21

- i) If a household purchases a car or any other durable goods on hire purchase basis, the actual amount paid, which may include down payment and/or payment of instalments, during the reference period is to be recorded irrespective of whether such durable goods was purchased during the reference period.
- ii) If a car or any other durable goods is purchased during last 365 days by taking loan from bank and instalments are being paid to the bank as repayment of loan, the full purchase amount of such durable goods is to be considered and reported instead of the amount of instalments paid during the last 365 days.
- iii) Cost of repair/ servicing of vehicle will be considered for reporting in this item.
- iv) Major repair/construction of durable goods which intends to increase the life of the durable goods will be considered for reporting in this item.
- v) Minor repair of the durable goods or minor repair made for the purpose of beautification of house/flat which will be considered for reporting in this item.
- vi) Special procedure for expense on tuition fees, hostel room charges and hostel mess charges: If these expenses are incurred with a monthly periodicity, they will naturally come under 'A'. But if they are incurred semester-wise, or quarterly or annually, the average expenditure per month is to be calculated and included in 'A'.
- vii) However, that in case of hostel students, these expenditures should be accounted in the student's household and not in the 'parent' household. This is because rent and tuition fees regularly paid by a household (parent household) for a member of another household (usually a hostel student) are covered by the Use Approach.
- viii) For simplicity, the above procedure will be followed for tuition fees paid for non-hostel students as well. That is, if tuition fees are not paid monthly and therefore not reported in 'A', the monthly average over a year will be included in 'A'.
- ix) Amount spent for purchase of flats/houses will not be considered for calculating UMPCE excluded as it is treated as an investment/capital expenditure.

- x) Expenditure incurred for regular medical treatment or diagnosis (e.g., dialysis for kidney impairment, chemotherapy/radiology for cancer) will be considered for calculating UMPCE. However, any expenditure on hospitalisation, which is not of regular nature, will be excluded.
- xi) Expenditure incurred for payment of insurance premium, will be excluded as it is essentially a transfer payment, and all types of transfer payments are outside the purview of consumer expenditure.

Block 6, Question 6: Usual monthly consumption expenditure [A + B + C + ((D+E)/12)]
(make entry in rounded to the nearest rupee)

Block 6, Question 6: Total: Total of the expenditures in Q1 to Q5 will be recorded in item 6. In CAPI this will be auto calculated.

3.7.0 BLOCK 7: GENERAL REMARKS BY JUNIOR STATISTICAL OFFICER (JSO)/ SURVEY ENUMERATOR (SE)

Any relevant remarks relating to the problems encountered in collecting the data, attitude of respondents, etc. will be recorded in this block by the enumerator. If the enumerator feels that certain information given by the informant is of doubtful nature, this may also be indicated in the remarks. Any other comment, which may help to make proper assessment of the entries made in this schedule, should also be recorded here.

3.8.0 BLOCK 8: GENERAL COMMENTS BY SENIOR STATISTICAL OFFICER (SSO)/ SURVEY SUPERVISOR (SS)

This block will be used by the Supervisory Officer(s) to record their comments and suggestions. They should particularly point out the data which may seem doubtful but which has been investigated by them and found to be correct and having a plausible explanation, should also be record here.

FREQUENTLY ASKED QUESTIONS (FAQs)

Sl. No.	Block	Question	Col.	Query	Reply
(1)	(2)	(3)	(4)	(5)	(6)
1	1	15	-	If the household is substituted more than once for separate reasons what code should be given here?	The code for substitution of the original household should be given. No provision for giving codes for second or subsequent substitutions.
2	3	1	4	A person in the family was born male but reports to be a transgender. What code to be given here?	The informant's decision is final.
3	3	1	6	A household member of age limit 23 years is still in school as she had started schooling very late due to ailment. Whether she will be considered as a school student?	Yes, she will be considered as a student but a remark should be given.
4	3	1	6	A 4-year-old boy is enrolled in Anganwadi School. Whether he should be considered to be enrolled in school education?	Yes
5	3	1	6	A 4-year-old girl is enrolled in a playschool which has classes upto nursery and kindergarten. Whether she should be considered to be enrolled in school education?	Yes
6	3	1	6	A student is enrolled in a school affiliated to an International Board. Whether he or she will be considered for this survey?	Yes
7	3	3	-	A housemaid residing in a city is working in four households and is getting a fixed amount from each household at the beginning of every month. Whether she should be treated as a casual labourer or a	The housemaid should be treated as a regular wage earner.

Sl. No.	Block	Question	Col.	Query	Reply
(1)	(2)	(3)	(4)	(5)	(6)
				regular wage earner?	
8	3	7	-	An erstwhile member is availing school education in a foreign country. Whether he or she will be considered for this survey.	No only students studying within India will be considered.
9	3	7	-	A paying guest of the selected household has taken admission in a Boarding school in class XI. Whether he should be treated as an erstwhile member?	No, he will be an erstwhile member for his parents' household.
10	4	9(i)	-	An erstwhile member of a household stays in a relative's house. In the current academic year, the household incurred Rs. 20,000/- and the relative's household incurred Rs. 5,000/- . What should be the entry in Q9(i), Rs. 20,000/- or Rs. 25,000/-?	Expenditure incurred by the parent's household and the relative's household to be consider together and recorded in Q9(i) of B1 4 i.e. Rs. 25000/-. Accordingly, in Q10 Yes - 1 code to be recorded, as the household is incurring majority of the expenditure.
11	4	9(i)-9(iv)	-	A household sends Rs. 40,000/- every month to the erstwhile member by account transfer. But the informant is not conversant about the break ups in the various heads of expenditure. Should 'Not known' codes be given in 9(ii) – 9(iv)?	The household should be requested to collect the information from the erstwhile member and report. 'Not known' codes should be given only when all efforts to get breakups fail and not as a routine procedure.
12	5	8	-	In a Government school no Course fee is charged and uniform is also distributed	If there is expenditure on any of the items of 9(i)

Sl. No.	Block	Question	Col.	Query	Reply
(1)	(2)	(3)	(4)	(5)	(6)
				free. However, there is some expenditure on transport and books, stationary. Whether entry should be Yes (code 1) in this case?	to 9(v) then entry in Q8 will be Yes (code 1).
13	5	9(i)	-	The Course Fee paid by the household is subsequently reimbursed by the employer of the mother. Whether this expenditure will be recorded here?	Yes, the expenditure incurred will be recorded. Reimbursements made by the employer or received from any other sources have not been considered in this survey.
14	5	9(i)-(v)	-	A student of class 8 has studied abroad for 5 months and later when his father got transferred to India he is pursuing the rest of the academic year in India. Whether the expenditure incurred abroad will be considered?	No expenditure incurred abroad will not be considered. However, expenditure on education made in India will be recorded.
15	5	9(i)	-	For hostel students whether Boarding and lodging charges will be included here?	No, Boarding and Lodging charges to be given in Q13.
16	5	9(v)		Whether commission charges for Demand draft made for paying school fees will be included here?	Yes
17	5	9/12	-	If parents have purchased a laptop/tablet/mobile solely for their child's education, should we include this expense as well and under what category?	The expenditure incurred on digital devices may considered either in Q9(iv) or Q12(iv), with suitable remarks.
18	5	10	-	Father tutors his children along with other children. Can the child be considered to have taken free tuition in such cases	Education received from parents will not be classified as private tuition

Sl. No.	Block	Question	Col.	Query	Reply
(1)	(2)	(3)	(4)	(5)	(6)
				and report Code 1 in Q10 of block 5.	received by a student for the purpose of this survey.
19	5	11	-	A student of class XI has enrolled in Coaching Institute for preparation in NEET(UG) i.e. Medical Entrance examination. Whether this expenditure will be considered as expenditure for Private tuition?	Yes, all such Tuitions/ Coaching will be considered as this study is related to the preparation for higher studies alongside preparation for Board Examination.
20	5	11	-	A student of class XI has enrolled in German Classes as she hopes to pursue higher studies in Germany. Whether this expenditure will be considered as expenditure for Private tuition?	No, this study has no relation to the school curriculum and will not be considered.
21	5	11	-	A student of class XI has enrolled in Music Tuitions. Case 1: She has Music as a subject in school. Case 2: She is taking Tuitions as Music is her passion. Whether this expenditure will be considered as expenditure for Private tuition?	Case 1: This expenditure will be considered as this is part of the school curriculum. Case 2: This expenditure will not be considered as this is not part of the school curriculum.
22	General	-	-	If a student has enrolled in some foreign online courses, and he is doing this course while staying in India (and will also take the final examination in India), should we consider the student as an enrolled student?	Expenditure made towards foreign online courses is out of coverage of the survey.
