## ***PREFACE***

National Sample Survey Organisation (NSSO) conducted an integrated survey of households and service sector enterprises in the 63<sup>rd</sup> round of NSS during July 2006 - June 2007. The subjects covered were service sector enterprises (excluding trade) and household consumer expenditure. One distinctive feature of survey on service sector enterprises was inclusion of financial enterprises under survey coverage for the first time. The present report is the second and the last report based on the survey on service sector enterprises. The first report contained information on various operational characteristics of the enterprises like location of enterprise, maintenance of accounts, number of working hours, nature of operation etc. in detail. The present report gives details of economic characteristics of enterprises like input, output, value added, wages to workers, fixed assets etc. at all India level for different industrial activity groups and at the level of States / UTs for all the industries taken together.

Chapter One of the report is introductory. Chapter Two deals with concepts and definitions. Chapter Three of the report gives the summary of the findings. Detailed tables based on the survey are given in Appendix A. The sample design and estimation procedure are given in Appendix B. Facsimile of schedule canvassed during the survey is given in Appendix C.

Survey Design and Research Division of NSSO developed the sample design and survey instruments and also prepared the report. The Field Operations Division of NSSO carried out the fieldwork and the Data Processing Division of NSSO handled the data processing and tabulation work. The Coordination and Publication Division of NSSO coordinated various activities pertaining to the survey.

I am grateful to the Chairman and Members of the Steering Committee of NSS and those of the Working Group for the NSS 63<sup>rd</sup> round for their technical guidance at various stages of survey work. I am thankful to all Officers and Staff Members of this Ministry who were associated with the survey for their contribution. Special thanks are also due to the informants who provided the requisite information during data collection in the survey.

The report, I hope, will be useful to planners, policy makers and researchers. Comments and suggestions for improvement are most welcome and the same may be addressed to the undersigned.

(S.C.Seddey)

Director General & Chief Executive Officer  
National Sample Survey Organisation

### Appendix A

Table no	Table description	Page
1	Percentage distribution of surveyed enterprises by type of response	A1-A9
2	Estimated number of workers engaged in enterprises by nature of employment, sex and by activity category	A10-A18
3	Estimated number of workers engaged in enterprises by nature of employment, sex and by State/ UT	A19-A27
4	Average number of workers per enterprises by nature of employment, sex and by activity category	A28-A36
5	Average number of workers per enterprises by nature of employment, sex and by state/UT	A37-A45
6	Estimated number of workers by type of worker, sex and by activity category	A46-A54
7	Estimated number of workers by type of worker, sex and by state/ UT	A55-A63
8	Annual emoluments (in Rs.) per worker by activity category and by type of enterprise	A64-A66
9	Annual emoluments (in Rs.) per worker by state/UT and by type of enterprise	A67-A72
10	Per 1000 distribution of enterprises by number of workers and by activity category	A73-A81
11	Per 1000 distribution of enterprises by number of workers and by state/ UT	A82-A90
12	Annual GVA per enterprise and GVA per worker by type of frame used by activity category	A91-A93
13	Annual GVA per enterprise and GVA per worker by type of frame used and by state/UT	A94-A96
14	Annual gross value added (in Rs.) per enterprise by activity category and by state/UT	A97-A114
15	Annual gross value added (in Rs.) per worker by activity category and by state/UT	A115-A132

16	Average gross value added (Rs.) per financial enterprise by activity category	A133
17	Average gross value added (Rs.) per financial enterprise by state/UT	A134-A151
18	Fixed assets and financial liability per enterprise as on last date of reference year by activity category	A152-A160
19	Fixed assets and financial liability per enterprise as on last date of reference year by State/UT	A161-A169
20	Estimated value (Rs.) of owned fixed assets as on last date of reference year and annual rent on hired assets (Rs.) per enterprise by activity category	A170-A178
21	Estimated value (Rs.) of owned fixed assets as on last date of reference year and annual rent on hired assets (Rs.) per enterprise by State/UT	A179-A196
22	Estimated value (Rs) of investments & current assets, loans and advances as on last date of reference year and annual capital gain / loss (Rs.), interest receivable (Rs.) per enterprise by activity category	A197-A205
23	Estimated value (Rs) of investments & curent assets, loan & advances as on last date of reference year and annual capital gain / loss (Rs.), interest receivable (Rs.) per enterprise by State/ UT	A206-A214
24	Financial liability as on last date of reference year, annual interest payable (Rs.) and authorized share capital per enterprise by activity category	A215-A223
25	Financial liability as on last date of reference year, annual interest payable (Rs.) and authorized share capital per enterprise by State/ UT	A224-A241
26	Estimated annual value (Rs.) of key characteristics per enterprise by activity category for non-financial enterprises	A242-A250
27	Estimated annual value (Rs.) of key characteristics per enterprise by State/UT for non-financial enterprises	A251-A268
28	Percentage share of selected / listed operating expenses/ receipts in total expenses/ receipts of the non- financial enterprises	A269-A271
29	Estimates of key characteristics by NIC code X enterprise type for non-financial enterprises	A272-A280
30	Other receipts and expenditure (non-entrepreneurial) for non-financial enterprises	A281-A283
31	A few structural ratios at all India level by activity category	A284-A292
32	A few structural ratios at all India level by State/ UT	A293-A301
33	Estimates of key characteristics by NIC code (2 – digit) X enterprise type	A302-A310
34	Key characteristics of Private NPIs by activity category	A311-A313
35	Details of owned vehicles operated by enterprises engaged in land transport	A314-A316
36	Estimated number of owned vehicles operated by activity category (other than land transport enterprises)	A317-A319

सेवा-क्षेत्र उद्यमों की आर्थिक विश्लेषण (व्यापार को छोड़कर)  
(जुलाई 2006 - जून 2007)

मुख्य परिणाम

यह सर्वेक्षण 5573 ग्रामों में एवं 7698 नगरीय खंडों में संचालित किया गया। कुल 1,90,282 उद्यमों (438 सूची बांका उद्यमों सहित) का अंततः सर्वेक्षण किया गया।

- भारत में 2006-07 के दौरान अनुमानतः करीब 1.65 करोड़<sup>1</sup> सेवा क्षेत्र उद्यम कार्यरत थे।
- कुल अनुमानित उद्यमों की संख्या का 60% ग्रामीण भारत में एवं 40% नगरीय भारत में था।
- कुल उद्यमों का 85% स्व-कार्यरत उद्यम थे एवं शेष 15% अधिष्ठान थे।
- सेवा क्षेत्र उद्यमों में कुल कामगारों की संख्या लगभग 3.35 करोड़ थी। ग्रामीण और नगरीय क्षेत्रों में कुल सेवा क्षेत्र कार्यबल का क्रमशः 76% और 90% पूर्णकालिक कामगारों का था और क्रमशः 24% और 10% अंशकालिक कामगारों का था।
- सेवा क्षेत्र उद्यमों के कुल कामगारों का मोटे तौर पर 29% महिला कामगारों का था।
- सेवा क्षेत्र उद्यमों द्वारा कुल वार्षिक सकल वर्धित मूल्य (GVA) ₹ 2,44,792 होने का अनुमान है, जिसमें से ग्रामीण भारत और नगरीय भारत का हिस्सा क्रमशः 15% एवं 85% था।
- सकल वर्धित मूल्य का मुख्य योगदान ग्रामीण क्षेत्रों में स्व-कार्यरत उद्यमों (61%) से था एवं नगरीय क्षेत्रों में अधिष्ठानों द्वारा (89%) था।
- प्रति उद्यम सकल वर्धित मूल्य ₹ 1,48,247 आकलित किया गया जबकि प्रति कामगार सकल वर्धित मूल्य ₹ 73,038 था।
- प्रति उद्यम स.व. मूल्य उच्चतम था उन उद्यमों में जो "होटल (H1)" (₹ 15,48,047) में लगे हुए थे, उसके बाद "बीमा और पेंशन निधिकरण एवं सहायक कार्यकलापों (J2)" (₹ 13,26,820) में और "भंडारण और गोदाम संचालन (I1)" (₹ 5,71,529) में लगे उद्यमों का था।
- मुख्य राज्यों में से कर्नाटक का स.व. मूल्य प्रति उद्यम सबसे अधिक (₹ 2,21,559) था। उसके बाद महाराष्ट्र का (₹ 1,89,680) एवं गुजरात का (₹ 1,89,062) था, जबकि बिहार का प्रति उद्यम स.व. मूल्य सबसे कम (₹ 33,079) था।
- औसतन वार्षिक स.व. मूल्य प्रति कामगार क्रियाकलाप कोटि '0' (अन्य समुदायिक, सामाजिक एवं वैयक्तिक सेवा क्रियाकलाप) के लिए सबसे कम (₹ 27,485) था और यह क्रियाकलाप कोटि 'J2' (बीमा एवं पेंशन निधिकरण एवं सहायक क्रियाकलापों) के लिए सर्वोच्च (₹ 6,93,142) था।
- मुख्य राज्यों में से कर्नाटक का प्रति कामगार स.व. मूल्य सर्वोच्च (₹ 1,12,097) उसके बाद गुजरात का (₹ 99,506) एवं महाराष्ट्र का (₹ 89,400) था, जबकि न्यूनतम वार्षिक प्रति कामगार स.व. मूल्य (₹ 11,678) उडिसा के लिए दर्ज किया गया।

<sup>1</sup> (1 करोड़ = 10<sup>7</sup>)

- सम्पूर्ण भारत के स्तर पर, प्रति उद्यम स्वामित्वाधीन अचल परिसम्पत्ति का मूल्य रु 1,78,102 आकलित किया गया। किराये की परिसंपत्तियों के लिए प्रति उद्यम वार्षिक देय किराया रु 7,226 आकलित किया गया।
- प्रति उद्यम स्वामित्वाधीन अचल परिसम्पत्ति "होटल (H1)" कार्यकलाप की सर्वोच्च (रु 61,48,540) थी, उसके बाद यह कार्यकलाप "I1 (भंडारण एवं गोदाम संचालन)" की (रु 23,97,870) एवं "K (स्थावर सम्पदा, किरायेदारी एवं व्यवसाय क्रियाकलापों)" की (रु 3,77,043) थी।
- मुख्य राज्यों में से, गुजरात (रु 3,61,630) एवं बिहार (रु 34,732) की प्रति उद्यम स्वामित्वाधीन अचल परिसम्पत्ति क्रमशः उच्चतम और निम्नतम थी।
- प्रति उद्यम वित्तीय देयता का लेखा रु 4,41,133 के करीब था जबकि प्रति उद्यम का वार्षिक ब्याज/लाभांश देयता रु 19,235 थी। प्रति उद्यम वित्तीय देयता स्वकार्यरत उद्यमों के लिए रु 21,430 थी जबकि अर्धितानों के लिए यह रु 28,84,961 थी।
- क्रियाकलाप 'बीमा एवं पेंशन निधिकरण और सहायक गतिविधियों (J2)' (रु 47,80,681) की प्रति उद्यम वित्तीय देयता सबसे अधिक थी, जिसके बाद "होटल (H1)" (रु 43,88,544) एवं 'गैर-बैंकिंग वित्तीय मध्यवर्तीता बीमा एवं पेंशन निधिकरण को छोड़कर (J1)' (रु 27,28,340) की थी।
- मुख्य राज्यों में से, महाराष्ट्र (रु 6,14,974) की प्रति उद्यम वित्तीय देयता सबसे अधिक थी, जिसके पश्चात् कर्नाटक (रु 5,07,153), गुजरात (रु 2,72,567), तमिलनाडू (रु 1,77,513) एवं केरल (रु 1,62,397) का स्थान था। निम्नतम वित्तीय देयता (रु 908) बिहार से रिपोर्ट की गई है।

**Service Sector in India, 2006-07: Economic Characteristics of Enterprises**  
**(July 2006-June 2007)**  
**Highlights**

The survey was conducted in 5573 villages and 7698 urban blocks. A total of 1,90,282 enterprises (including 438 list frame enterprises) were ultimately surveyed.

- About 1.65 crore<sup>1</sup> service sector enterprises were estimated to be working in India during 2006-07.
- Of the total number of enterprises estimated, 60% was in rural India and 40% in urban India.
- OAEs constituted 85% of all enterprises and the remaining 15% were establishments.
- Total number of workers in service sector enterprises is approximately 3.35 crore. In the total service sector workforce in rural and urban sector, 76% and 90% respectively were full-time workers and 24% and 10% respectively were part-time workers.
- Female workers constituted roughly 29% of total workers in service sector enterprises.
- Aggregate annual gross value added by service sector enterprises was estimated as Rs. 2, 44,792 crore out of which rural India and urban India had shares of 15% and 85% respectively.
- Major contribution to GVA had come from OAEs (61%) in rural areas and from Establishments (89%) in urban areas.
- GVA per enterprise is estimated to be Rs. 1,48,247 whereas GVA per worker is Rs. 73,038.
- GVA per enterprise was highest in enterprises engaged in 'Hotels (H1)' (Rs. 15,48,047) followed by 'Insurance and pension funding and auxiliary activities (J2)' (Rs. 13,26,820) and 'Storage and warehousing (I1)' (Rs. 5,71,529).
- Among the major states, Karnataka (Rs. 2,21,559) had the highest GVA per enterprise followed by Maharashtra (Rs. 1,89,680) and Gujarat (Rs. 1, 89, 062) whereas Bihar (Rs. 33,079) had the lowest GVA per enterprise.
- Average annual GVA per worker (GVAPW) was the lowest (Rs. 27,485) for activity category 'O (Other community, social and personal service activities)' and the highest

---

<sup>1</sup> (1 crore = 10<sup>7</sup>)

(Rs.6,93,142) for activity category 'J2 (Insurance, Pension funding and auxiliary activities)'.

- Among the major states, Karnataka had the highest GVAPW (Rs. 1, 12,097) followed by Gujarat (Rs. 99,506) and Maharashtra (Rs. 89,400) while the lowest annual GVAPW (Rs. 11,678) was recorded for Orissa.
- At all India level, the estimated value of owned fixed assets per enterprise was estimated as Rs. 1,78,102. Annual rent payable per enterprise for hired asset is estimated to be Rs. 7,226.
- The activity 'Hotels (H1)' had the highest fixed assets owned per enterprise (Rs. 61,48,540) followed by the activities 'I1 (Storage and warehousing)' (Rs. 23,97,870) and 'K (real estate, renting and business activities)' (Rs. 3,77,043).
- Among the major States, Gujarat (Rs. 3,61,630) and Bihar (Rs. 34,732) had respectively the highest and the lowest fixed assets owned per enterprise.
- The financial liability of an enterprise amounted to Rs. 4,41,133 while the annual interest/dividend payable per enterprise amounted to Rs.19,235. The financial liability per enterprise for OAEs was Rs.21,430 against Rs.28,84,961 for Establishments.
- The activity 'Insurance and pension funding and auxiliary activities (J2)' (Rs. 47,80,681) has highest financial liability per enterprise followed by 'Hotels (H1)' (Rs. 43,88,544) and 'Non-banking financial intermediation except insurance and pension funding (J1)' (Rs. 27,28,340).
- Among the major states, Maharashtra (Rs. 6,14,974) had the highest financial liability per enterprise followed by Karnataka (Rs. 5,07,153), Gujarat (Rs. 2,72,567), Tamil Nadu (Rs. 1,77,513) and Kerala (Rs. 1,62,397). Lowest financial liability is reported from Bihar (Rs. 908).

## Chapter One

### Introduction

#### 1.1 General

1.1.1 An all-India survey on service sector enterprises (excluding trade) was carried out by the National Sample Survey Organisation (NSSO) as a part of the 63<sup>rd</sup> round of National Sample Survey (NSS) during July 2006 – June 2007. The other subject of enquiry, which formed part of this round, was annual survey on household consumer expenditure.

1.1.2 Service sector is the most important segment of economy in terms of its contribution to the overall GDP. As per the latest available National Accounts Statistics, during 2008-09, the service sector had a share of about 57% in the GDP at factor cost<sup>1</sup>. It is a diverse domain of economic activities, sizes and operational characteristics of units. The entire range of units in the service sector consist of very big corporate entities accounting for bulk of output as well as large number of very small and tiny enterprises with substantial share in employment. It is second only to agriculture in employment generation. Further, the service sector has been recognized universally as the prime driver of accelerated and diversified growth of the economy. However, major data gaps exist in all the segments of this sector because of their impressive growth and spread in the geographical domain. To give a few examples, data on private non-financial services are not available regularly. Also, major data gaps exist with regard to private non-banking financial sectors (NBFCs), Self-Help Groups (SHGs), Co-operative credit societies, Micro-finance institutions etc. This survey was primarily designed to fill these gaps. Additional data on transport sector was collected to help understand the pattern of use of commercial vehicles in the country. Last survey of service sector enterprises was conducted during July 2001-June 2002, as part of NSS 57<sup>th</sup> round.

1.1.3 The household-based non-agricultural activities, irrespective of their scale of operations, were covered in the surveys of NSSO in the early periods. The non-household based units in the unorganised sector thus remained outside the coverage, primarily due to non-availability of a comprehensive frame and background information needed for formulating an efficient sampling design. The need for auxiliary information on areas of concentration of enterprises for stratification purpose was strongly felt for developing more efficient sampling designs. This demand ultimately culminated in the conduct of periodic Economic Censuses (EC), which provided the frame for the follow-up surveys on non-agricultural enterprises including the non-household based units in the service sector.

1.1.4 With the launching of the first EC in 1977 (five ECs have been conducted so far), the follow-up surveys of EC on unorganised manufacturing and service sector enterprises generally used the village and block level information on number of enterprises/workers as per the EC for selection of villages and urban blocks in the first stage. The approach of data collection from enterprises was also changed from the ‘household approach’ used earlier (i.e. prior to the launching of EC) to the ‘site approach’ wherever such sites existed.

---

<sup>1</sup> CSO Press Release dated 29<sup>th</sup> May, 2009.

## 1.2 The Survey in Brief

1.2.1 As stated already, NSSO conducted an integrated survey of enterprises and households in its 63rd round during July 2006 - June 2007. The main focus of the survey was on enterprises belonging to the service sector excluding trade and the information was collected through Schedule 2.345 designed for the purpose. A copy of the schedule is given in **Appendix C**. In addition, survey on household consumer expenditure was carried out during this period.

1.2.2 **Coverage of Services Sector:** The 63rd round covered broadly service sector enterprises engaged in the activities of hotels and restaurants (Section H of NIC 04); transport, storage and communication (I); financial intermediation (J); real estate, renting and business activities (K); education (M); health and social work (N) and other community, social and personal service activities (O). A striking feature of the current survey was inclusion of financial intermediation (J) not covered in earlier surveys on unorganised services sector.

1.2.2.1 However, under the broad activities noted above, the survey did not cover the following industries/activities:

- i) Transport via railways, air transport, transport via pipeline (groups 601, 603 and division 62 of NIC '04),
- ii) Operating of real estate of self owned residential buildings (sub-class 70103 of NIC '04),
- iii) Monetary intermediation (group 651 of NIC 2004) - the obtaining of funds in the form of transferable deposits i.e. funds that are fixed in money terms and obtained on a day-to-day basis and this includes activities of central banks and monetary institutions other than central banks viz. commercial banks, discount houses, savings banks etc. It may be mentioned that data for this sector are covered through regular surveys of RBI.
- iv) Activities of trade unions (sub-class 91200), religious organizations (sub-class 91910) & political organizations (sub-class 91920). Note that a part of sub-class 91910 relating to activities of individuals who provided services directly to worshippers like priests etc was covered.

1.2.2.2 Among the industries under coverage of survey, the following units were excluded from the coverage of the survey:

- i) All Government and Public Sector Enterprises.
- ii) All government and government aided educational institutions (A government-aided educational institution meant an institution where entire salary of all the teaching and non-teaching staff was borne by the government).

iii) Among the service sector units registered under the Factories Act, 1948, units appearing in the latest Annual Survey of Industries (ASI) frame (i.e., ASI frame 2004-05).

iv) Enterprises which operated for less than 30 days (less than 15 days for seasonal enterprises) during last 365 days preceding the date of survey.

1.2.2.3 The survey also did not cover the service sector enterprises engaged in the activities of wholesale and retail trade, repair of motor vehicles, motorcycles and personal and household goods (G); public administration and defence (L); production activities of private households and activities of private households as employers (P) and extra-territorial organisations and bodies (Q) (*hereafter 'service sector enterprises' would mean 'service sector enterprises under coverage of the survey'*).

1.2.2.4 The different Industry Sections mentioned above were further sub-divided to form relatively uniform groups/sub-groups. The coverage of the different activities in the present round has been given in **Table 0** at the end of this chapter.

1.2.3 **Difference in coverage of industries with the previous survey:** Coverage in the current survey differed with the previous one (i.e. NSS 57<sup>th</sup> round) only in respect of the following industries:

- Financial intermediation (NIC Section J) and industry code 9199 (activities of other membership organization not elsewhere classified) covered in 63<sup>rd</sup> round but excluded from coverage in 57<sup>th</sup> round.
- Industry code 601(only non-mechanised transport activities related to transport via railways) and 911 (activities of business, employers and professional organizations) covered in 57<sup>th</sup> round but excluded from coverage in 63<sup>rd</sup> round.

1.2.3.1 Apart from the differences noted above, the other industries covered in the current round (**vide Table 0**) are identical with the coverage of industries in 57<sup>th</sup> round.

1.2.4 **Geographical Coverage:** The survey covered the whole of the Indian Union except (i) Leh (Ladakh), Kargil, Punch and Rajauri districts of Jammu & Kashmir, (ii) interior villages situated beyond 5 km of a bus route in Nagaland, (iii) villages of Andaman and Nicobar Islands, which remain inaccessible throughout the year. Thus the corresponding State/UT level estimates and the all-India results presented in this report related to the areas covered under survey.

1.2.5 **Sub round:** The entire survey period (1st July 2006 to 30th June 2007) was divided into four sub-rounds of three months' duration each (Sub-round 1: July-September 2006, Sub-round 2: October-December 2006, Sub-round 3: January-March 2007, Sub-round 4: April-June 2007) and equal numbers of sample villages and blocks were allocated to each sub-round. Each sample village/block was surveyed during the sub-round period to which it was allocated. This restriction

was not strictly enforced in only certain areas with poor accessibility. Within a particular sub-round, the field work was spread out evenly over different months to the extent possible.

**1.2.6 Outline of Sample Design:** For the survey on the service sector, two frames were used in 63<sup>rd</sup> round survey viz. **List frame** and **Area frame**.

**1.2.6.1 List Frame:** Enterprise surveys using only area frame for sampling had been conducted periodically by NSSO in the past. But the size distributions ( by number of workers or gross value added) of the enterprises being highly skewed for many of the service sector activities, representations of few large units having very high share of GVA in the industry had most often been inadequate. Thus, it was felt essential to adopt a strategy ensuring proper representation of larger units so that efficiency of estimates of GVA is improved. Use of list frame comprising *relatively large units* was accordingly envisaged in this regard. Bearing constraints of resources in mind, a list of 998 big service sector companies distributed all over India was used as list frame. The list frame covered both financial and non-financial service sector enterprises. These big units belonging to private corporate sector were meant for survey on complete enumeration basis. However, among these 998 list frame units, only 438 units could ultimately be identified/surveyed because the remaining units were either not found to be eligible for survey (for example, being government or public sector enterprises) or were not identifiable in the field due to incomplete address in frame or change of locations. If the surveyed list frame unit had branches, then a combined Schedule 2.345 covering all branches was filled up. However, these companies and their branches were excluded from the coverage of area frame survey to avoid duplication.

**1.2.6.2 Area Frame:** In the area frame, a stratified multi-stage sampling design was adopted in 63<sup>rd</sup> round. First-stage units (FSUs) were villages (Panchayat wards in Kerala) in rural areas and Urban Frame Survey (UFS) blocks in urban areas. For a few towns where UFS was not conducted, towns were treated as FSUs. The ultimate stage units were service sector enterprises in both the sectors. Relatively larger FSUs were sub-divided into smaller parts called hamlet-groups (hg) in the rural areas and sub-blocks in the urban areas. In case of large FSUs requiring hamlet-group (hg) / sub-block (sb) formation, one intermediate stage in the sampling involved the selection of three hg's / sb's from each FSU out of a minimum of four hg's/sb's formed in the FSU. One hg/sb with maximum number of enterprises of a specific type was selected with probability '1' and called segment 1 (details given in **Appendix B**) and two more hg's/sb's selected at random from the list of remaining hamlet groups of the FSU constituted segment 2. Within the segments as noted above, eight Second Stage Strata (SSS) classified by type of industries x enterprise types were formed. The ultimate stage units (USUs) i.e. the service sector enterprises were selected from the eligible enterprises of the respective SSS of each segment by SRSWOR. However, within the whole FSU relatively bigger service sector enterprises having 50 or more workers that were eligible for survey (i.e. having operated for at least 30/15 days during the reference year respectively for non-seasonal/seasonal enterprises) were separately listed (segment 9) and the schedule was canvassed in all these listed enterprises of segment 9. In other words, no sampling was done in segment 9 unlike other two segments. As regards the first stage stratification, two basic strata were formed within each district of a State/UT: rural stratum comprising all rural areas of the district and urban stratum

consisting of all urban areas of the district. However, each city with a population of one million or more as per Census 2001 was invariably treated as a separate stratum by itself. For details of stratification, sub-stratification and selection of sample FSUs, reference may be made to **Appendix B** of this Report.

1.2.6.3 Design-based estimates of aggregates for any selected survey characteristic were obtained separately for list frame and area frame. Finally these two sets of estimates were added to get the pooled aggregate estimate for the combined frame. In this report, discussion will be mainly focused on the pooled estimate for all-India activity category-wise parameters whereas only area frame estimates are given for state-wise parameters.

**1.2.7 Items of information and method of data collection:** Schedule 2.345 was designed for collection of data from the service sector enterprises. The schedule was organized into 19 blocks. The format of the schedule is placed as **Appendix C** of the report. The items of information collected through different blocks of the schedule included the following:

- Particulars of operation and background information of the enterprise
- Principal operating expenses
- Other operating expenses
- Principal receipts
- Other receipts
- Other receipts/expenditures (non-entrepreneurial) for non-financial enterprises
- Gross value added
- Employment particulars
- Compensation to workers
- Fixed assets owned and rent payable on hired assets
- Financial liabilities

1.2.7.1 The above items of information from any enterprise were collected either from books of accounts of the sample enterprises or through oral enquiry depending upon whether the enterprises maintained books of accounts and also provided data from it or not. Reference periods used for various items of information are discussed in **Chapter Two**.

**1.2.8 Sample Size and its limitation:** A total of 13,322 first stage units (of which sample villages were 5,601 in number) were selected for this survey. However, only 13,271 first stage units could ultimately be surveyed. The number of sample FSUs allotted for survey and actually surveyed are given in **Table 0.1** and the number of enterprises surveyed in **Table 0.2** for different states. The number of enterprises surveyed for various NIC sections/activities is given in **Table 0.3** for all-India only.

1.2.8.1 In the area frame, 1,89,844 enterprises (83,184 from rural India and 1,06,660 from urban India) spread over 5573 villages and 7698 urban blocks across the country were surveyed. From the list frame as already mentioned, data could be collected from only 438 enterprises (for state/UT wise distribution of allotted and surveyed numbers of enterprises as per the list frame, reference

may be made to **Table 0.2**). Thus a large percentage (56%) of list frame enterprises became casualties primarily on account of being non-traceable or non-operative/closed during the reference year (**vide Appendix Table 2 of Report 528**). Similarly, Out of 378 enterprises in segment 9 of area frame, only 266 enterprises could be surveyed (**vide Appendix Table 3 of Report 528**). Thus, about 30% of big enterprises (having 50 or more workers) constituting segment 9 of area frame, were casualties. About 36 % of such casualty enterprises were due to either informant being non-cooperative or enterprise being found to be outside survey coverage at the detailed enquiry stage. It is important to mention here that even though a very significant percentage of enterprises belonging to list frame and segment 9 of area frame became casualty, theoretically the pooled estimate based on the list frame and area frame pertains to the universe of the service sector under coverage. The estimation procedure developed for the purpose (**see Appendix B**) also ensured this.

1.2.8.2 Thus, altogether a total of 1, 90,282 service sector enterprises considering both list frame and area frame were surveyed. In the appendix tables, although estimates are presented at disaggregated level i.e. sector (rural/urban/combined) x enterprise type (OAE/Establishment/All) by NIC sections/activity code (for all-India) or by State/UT, sample size at the ultimate level of disaggregating may sometimes be very small, which may have bearing on the precision of estimates. The users of this report are ,therefore, advised to look at the related sample size while using the survey results particularly at the disaggregated level.

### 1.3 Major findings of the earlier report:

1.3.1 Although the present report (Chapter three) discusses details of employment, input, output and value added of the enterprises, major findings of the recently released first report are summarized below in order to facilitate appreciation of the material presented here and also make the current report self-contained. The findings pertaining to all-India estimates only are presented. For state level findings, the readers may refer to the report (Report No. 528).

- About 1.65 crore<sup>2</sup> service sector enterprises were estimated to be working in India during 2006-07.
- Of the total number of enterprises estimated, 60% was in rural India and 40% in urban India.
- OAEs constituted 85% of all enterprises and the remaining 15% were establishments.
- Uttar Pradesh had the highest share in total number of enterprises (14%) followed by West Bengal (13%), Andhra Pradesh (10%), Maharashtra (9%) and Tamil Nadu (7%). These five states accounted for 53% of enterprises at all-India level.
- About 3.35 crore persons were estimated to be working in service sector enterprises during 2006-07.

---

<sup>2</sup> (1 crore = 10<sup>7</sup>)

- The number of workers per enterprise was about 2.03.
- About 90% of enterprises were proprietary enterprises and 7% were cooperative societies and self-help groups.
- About 59% of enterprises were not registered with any agency.
- About 74% of enterprises were having fixed premises of operation of business, out of which 32% were located in the household premises and 42% were located outside household premises. The remaining 26% of enterprises had no fixed premises of operation.
- While about 98% of all enterprises were perennial in nature, 91% of enterprises operated more than 9 months during the reference year.
- About 81% of working owners or managing partners of proprietary and partnership enterprises were literate with some formal education.
- About 86% of enterprises did not receive any assistance from any government or non-government agencies.
- About 2% of enterprises had undertaken at least some work on contract basis.
- Nearly 32 % of enterprises had also undertaken some other economic activity.
- About 5% of enterprises were pursuing mixed activity.
- About 10% of enterprises were maintaining accounts.

**1.4 Layout of the present report:** The report contains three Chapters (including the present introductory one) and three Appendices. **Chapter Two** deals with the concepts and definitions of various terms used in the survey. **Chapter Three** discusses the main findings of the survey based on the data collected through central sample i.e. data collected by the field staff of NSSO. Detailed tables are presented in **Appendix A**. The sample design and estimation procedure is given in **Appendix B**. A facsimile of the schedule of enquiry used in the survey is given in **Appendix C**.

**Table 0: List of Industries (NIC'04) covered under the survey**

NIC-2004		Description
Code	Activity	
55	HOTELS AND RESTAURANTS	<p><b>A hotel is an enterprise that provides lodging services with or without arrangements for meals, other prepared food and refreshments.</b> Dharamshala type lodging places, private guest/rest houses, tourist lodges etc. which provide short-stay accommodation were covered under hotels <i>provided they were run by private individuals/organszations.</i></p> <p><i>However similar facilities if provided by Govt./PSU/Local body/Statutory bodies (e.g. ISI, IIT, Universities etc.) were excluded from the purview of the coverage of this survey.</i></p> <p><b>A restaurant generally provides eating and drinking services where prepared meals, food and refreshments and other snacks are sold for immediate consumption without any provision for lodging.</b></p> <p>Such enterprises are variously known as restaurants, cafes, cafeteria, snack bars, lunch counters, refreshment stands, milk bar canteens, etc. Bars and other drinking places were also treated as restaurants. Canteens located in offices, factories, etc. were treated as restaurants if they were operated by private contractors. <i>But departmental canteens run by government were excluded.</i></p>
602	OTHER LAND TRANSPORT	All types of passenger transport by land (excluding railway) and freight/goods transport by road were covered.
61	WATER TRANSPORT	All kinds of water transport were covered.
63	SUPPORTING AND AUXILLIARY TRANSPORT ACTIVITIES;  ACTIVITIES OF TRAVEL AGENCIES	Activity of cargo handling, storage and warehousing, supporting services to land transport like operation of railway stations, bus stations, highway bridges, toll roads, vehicular tunnels; parking lots and left luggage facilities at the railway stations, bus stations, traffic control activities, supporting services to water transport such as operation and maintenance of piers, docks, pilotage, loading and unloading of vessels, supporting services to water transport such as operation and maintenance of piers, docks, pilotage, and loading and unloading of vessels, activity of travel agency and tour operators, activities of other transport agency, supporting services incidental to transport such as packing, freighting, travel agency etc. were covered.
64	POST AND TELECOMMUNICATIONS	<p><b>All enterprises providing communication services, not owned by government, Public Sector undertakings and local bodies were covered.</b></p> <p>This included courier services, ISD/STD/ PCO booths, voice mail services through computer networking, video/fax services, phone plus services, voiced and non-voiced leased circuits, telex/FAX/data services through computer</p>

NIC-2004		
Code	Activity	Description
		network, radio paging, e-mail, video conferencing, internet, audio services and activity of cable operators etc.
659	OTHER FINANCIAL INTERMEDIATION. [This group includes financial intermediation other than that conducted by monetary institutions.]	<p><b>Monetary intermediation e.g. banking etc. were excluded from coverage.</b></p> <p>Activities of hire - purchase financing, housing finance companies, commercial loan companies, other credit activities including pawn shops, other financial intermediation, Mutual Funds, Chit fund/Kuri companies, Investment Companies,</p> <p>Money lending from own source were considered as an enterprise with separate NIC code (65925). Self-help groups and co-operative credit societies were also given separate NIC codes 65994 and 65995 respectively.</p>
66	INSURANCE AND PENSION FUNDING, EXCEPT COMPULSORY SOCIAL SECURITY	Life insurance [this class includes life insurance (including reinsurance) and other long-term insurance, with or without a substantial saving element, including the collection and investment of funds], pension funding [this class includes the provision of retirement incomes, including activities involving the collection and investment of funds (Funding and administration of compulsory social security programmes are classified in class 7530)], and non-life insurance were covered.
67	ACTIVITIES AUXILIARY TO FINANCIAL INTERMEDIATION	Administration of financial markets, security dealing activities, activities auxiliary to financial intermediation, activities of financial advisers, mortgage advisers and brokers, foreign exchange services, activities auxiliary to insurance and pension funding, activities of insurance agents, average and loss adjusters, actuaries and salvage administrators etc were covered.
70	REAL ESTATE ACTIVITIES	<p>It included activities like: (i) purchase, sale, letting and operating of real estate i.e. residential/non-residential buildings, (ii) developing and subdividing real estate into lots, (iii) lessors of real property and (iv) real estate agents, brokers and managers engaged in renting, buying and selling, managing and appraising real estate on a contract or fee basis. Renting of marriage halls, etc. was considered as an enterprise.</p> <p>Operating of real estate of self owned residential buildings (NIC code 70103) were not included.</p>
71	RENTING OF MACHINERY AND EQUIPMENT WITHOUT OPERATOR AND	<p>Renting of transport equipment, other machinery and equipment [like agricultural machinery and equipment, construction and civil engineering machinery and equipment, office machinery and equipment (including computers)], personal and household goods</p> <p>(like tents, electrical appliances, furniture, video cassettes, CDs, audio</p>

NIC-2004		
Code	Activity	Description
	OF PERSONAL AND HOUSEHOLD GOODS	cassettes and records etc., books, journals and magazines, musical instruments, bicycle, footwear etc.) were covered.
72	COMPUTER AND RELATED ACTIVITIES	Hardware consultancy, software publishing; software consultancy, supply and maintenance; data processing, maintenance and repair of office, accounting and computing machinery, other computer related activities [for example maintenance of websites of other firms/ creation of multimedia presentations for other firms etc.] were covered.
73	RESEARCH AND DEVELOPMENT	Research and experimental development on natural sciences and engineering, social sciences and humanities were covered
74	OTHER BUSINESS ACTIVITIES	Legal, accounting, book-keeping and auditing activities; tax consultancy; market research and public opinion polling; business and management consultancy, architectural, engineering and other technical activities, advertising, labour recruitment and provision of personnel, investigation and security activities, building-cleaning and industrial cleaning activities, photographic activities, packaging activities, photostat, blue-printing, xeroxing, copying of documents, ammonia printing, fashion design related to textiles, wearing apparel, shoes, jewelry, furniture, Interior decoration, secretarial activities such as telephone answering, stenographic, duplicating & mailing etc. were covered
80	EDUCATION	<p><b>All Govt. or Govt.- aided educational institutions were outside the survey coverage. Educational institutions where salaries of the teachers/ staffs are funded fully by the Government were considered as Govt. aided educational institution.</b></p> <p>All private educational institutions were covered whether or not recognised. This included management training institutes, computer training centres, nursing schools, schools of music, drama, dance, fine arts, modelling, fashion designing, yoga and physical education and general coaching centres (e.g. for various competitive examinations) etc. are to be covered. This also included adult education centers.</p>
85	HEALTH AND SOCIAL WORK	<p><b>All enterprises engaged in health and medical services other than those owned by government, public sector undertakings, local bodies were covered, irrespective of the system of medicine.</b></p> <p>Hospital activities including those of general and specialized hospitals, sanatoria, asylums, rehabilitation centres, dental centres, nursing homes and other health institutions having accommodation facilities, nurses, physiotherapist etc., independent diagnostic/pathological laboratories, independent blood banks, ambulance services etc. were covered.</p> <p>All private dispensaries, clinics and consultation chambers run by doctors were covered. An employed doctor and para-medical person (such as midwife, dai etc.) doing private practice was covered and his/her private practice alone was considered as an enterprise. The survey also covered activities of</p>

<i>NIC-2004</i>		<b>Description</b>
<b>Code</b>	<i>Activity</i>	
		<p>veterinary activities including bird hospitals under NIC code 852.</p> <p>Social work with accommodation such as activities of orphanages, children boarding homes and hostels, residential nurseries, homes for aged, physically or mentally handicapped persons were covered under NIC code 8531. Social work without accommodation involving variety of social counseling, welfare, refugee, referral and similar services to individuals and families in their homes or elsewhere (e.g. day care centres for children, handicapped etc.) were covered under NIC code 8532</p>
90	SEWAGE AND REFUSE DISPOSAL, SANITATION AND SIMILAR ACTIVITIES	Garbage collection, transportation and disposal, removal of human wastes and their treatment and disposal, including maintenance of sewers and drains, outdoor sweeping and watering of streets etc. were covered.
9191	ACTIVITIES OF RELIGIOUS ORGANISATIONS	Individuals who provide services directly to worshippers were only covered.
9199	ACTIVITIES OF OTHER MEMBERSHIP ORGANISATIONS N.E.C.	Included rotary clubs, student associations, war veterans' associations, book clubs, philatelic clubs, associations of minority groups, and the activities of other similar associations / organisations.
92	RECREATIONAL, CULTURAL AND SPORTING ACTIVITIES	Motion picture, radio, television and other entertainment activities; news agency activities; library, archives, museums and other cultural activities; sporting and other recreational activities were covered.
93	OTHER SERVICE ACTIVITIES	Persons providing services to the households, for example cooks, tutors, etc., by visiting the houses of the employer (service consuming households) were not considered as self-employed. However, if some persons provided legal, accounting or similar services to different enterprises on a fee basis, they were treated as running own account enterprise.

*Description of NIC activity categories:*

*Hotels - H1, restaurants – H2, Hotels & restaurants - H; Storage and warehousing – I1, Mechanised road transport – I2, Non-mechanised motor transport, water transport and other related activities –I3, communication – I4, Transport, storage & communication – I; Non-banking financial intermediation except insurance and pension funding – J1, Insurance and pension funding and auxiliary activities – J2, Financial intermediation – J; Real estate, renting and business activities – K, Education – M, Health and social work – N, Other community, social and personal service activities – O.*

See Appendix Table 1 for more detail.

## Chapter Two

### Concepts and Definitions

2.1 Concepts and definitions of certain terms used in the survey are discussed below.

2.2 **Enterprise:** An enterprise is an undertaking engaged in the production and/or distribution of some goods and/or services meant mainly for the purpose of sale, whether fully or partly. An enterprise may be owned and operated by a single household or by several households jointly, or by an institutional body.

2.3 **Household Enterprise:** A household enterprise is one which is run by one or more members of a household or run jointly by two or more households on partnership basis irrespective of whether the enterprise is located in the premises of the household(s) or not. In other words, all proprietary and partnership enterprises are household enterprises.

2.4 **Non-household Enterprise:** Non-household enterprises are those which are institutional i.e. owned and run by the public sector (Central or State Government, local self-governments, local bodies, government undertakings, etc.), corporate sector, co-operative societies, other type of societies, institutions, associations, trusts, etc. Non-household enterprises covered under public sector were not included in the current survey.

2.5 **Own-account Enterprise:** An enterprise, which is run without any hired worker employed on a fairly regular basis<sup>3</sup>, is termed as own account enterprise.

2.6 **Establishment:** An enterprise which employs at least one hired worker on a fairly regular basis is termed as establishment. Paid or unpaid apprentices, paid household member/servant/resident worker in an enterprise are considered hired workers.

2.7 **Perennial Enterprise:** Enterprises, which usually operate more or less regularly throughout the year, are called perennial enterprises.

2.8 **Seasonal Enterprise:** Seasonal enterprises are those which are usually run during a particular season or fixed months of a year.

2.9 **Casual Enterprise:** Casual enterprises are those which operate occasionally (may be disjoint periods of time throughout the year) but total number of days operated in the last 365 days is 30 days or more.

---

<sup>3</sup> “fairly regular basis” means the major part of the period during which operation(s) of an enterprise are carried out during a reference period.

**2.10 Servicing Enterprise:** A servicing enterprise or service sector enterprise is engaged in activities carried out for the benefit of a consuming unit and typically consists of changes in the condition of consuming units realized by the activities of servicing unit at the demand of the consuming unit. It is possible for a unit to produce a service for its own consumption provided that the type of activity is such that it could have been carried out by another unit. Some examples<sup>4</sup> of changes that a producer of service brings about in the condition of consumers of service are:

- a) Changes in the condition of consumer's goods: the producer works directly on goods owned by the consumer by transporting, cleaning, repairing or otherwise transforming them;
- b) Changes in the physical condition of persons: the producer transports the persons, provides them with accommodation, provides them with medical or surgical treatments, improves their appearance etc;
- c) Changes in the mental condition of persons: the producer provides education, information, advice, entertainment or similar services;
- d) Changes in the general economic state of the institutional unit itself: the producer provides insurance, financial intermediation, protection, guarantees, etc.

**2.11 Financial enterprise:** A Financial Enterprise is an enterprise that is principally engaged in financial intermediation or in auxiliary financial activities which are closely related to financial intermediation. Financial intermediation is a productive activity in which an institutional unit incurs liabilities on its own account for the purpose of acquiring financial assets by engaging in financial transactions on the market. The role of financial intermediaries is to channel funds from lenders to borrowers by intermediating between them.

**2.12 Reference Period:** The reference period for recording details of various items depended primarily on whether the enterprise under survey could provide information from their books of accounts, or they could provide information orally.

### **Case 1: Enterprises that provided information by recollection**

2.12.1 Here, three kinds of reference periods were used to collect data in different blocks of the schedule viz. reference month, reference year and last date of the reference month.

2.12.2 **Reference Month:** This reference period was used to collect data on various receipts and expenses as well as value added, employment, emoluments, rent and interest payments for the enterprises providing oral information.

For perennial and casual enterprises, 'Reference Month' referred to the last 30 days (preceding the date of survey) irrespective of the number of days of operation.

For seasonal enterprises, consider the following two cases-

- **Case 1:** Working continuously for 30 days or more (including scheduled holidays) in the current season: - 'Reference Month' referred to the last 30 days (preceding the date of survey).

---

<sup>4</sup> Vide 1993 SNA, para 6.10, page 123

- **Case 2:** Worked for less than 30 days in the current season: - 'Reference Month' referred to an average month in the last working season.

If an enterprise was unable to provide information for the last 30 days, but could provide it for the latest completed calendar month, this calendar month was considered as 'Reference Month'.

**2.12.3 Reference Year:** For items like net additions to fixed assets owned, number of months operated, number of other economic activities pursued etc., data were collected for the entire 'Reference Year'. It was last 365 days preceding the date of survey, if 'reference month' of that enterprise was 'last 30 days'. For the enterprises where 'reference month' was 'last calendar month', 'reference year' was last 12 calendar months taken together. For seasonal enterprises of case 2 above (i.e., seasonal enterprises which had operated for less than 30 days during the current season), 'Reference Year' was a continuous period of 365 days starting from the first day of the corresponding working season.

**2.12.4 Last date of the reference month:** For some of the items like value of fixed assets, amount of loan outstanding, etc., the reference period used was as follows:

It was last date of the 'Reference Month', which was the same as the last date of the 'Reference Year'. However, opening stock of semi-finished goods manufactured, opening stock of goods traded were collected for the beginning of the first day of the 'Reference Month'.

### **Case 2: Enterprises that provided data from their books of accounts**

**2.12.5** In this case, two kinds of reference periods were used to collect data in different blocks of the schedule, 'Reference Year' and 'last date of the reference year'.

**2.12.6 Reference Year:** This was the last completed accounting year of the enterprise under survey, which in most cases was the accounting year 2005-06. If books of accounts for 2005-06 were not finalised, data were collected for 2004-05. However, during fourth sub-round (April, 2007 –June, 2007), if the books of accounts for 2006-07 were available for any enterprise, data were collected for the accounting year 2005-06. Various receipts, expenses, value added as well as employment, emoluments, rent, interest, net additions to fixed assets owned, for the enterprises were recorded for the last completed accounting year.

**2.12.7 First/ last date of reference year:** For some of the items like value of fixed assets, amount of loan outstanding, etc., this reference period was used. It was last date of the 'Reference Year'. For items like opening stock of semi-finished goods manufactured, opening stock of goods traded, the beginning of the first date of the reference year was the point of reference.

**2.13 Worker:** A worker is defined as one who participates either full time or part time in the activity of the enterprise. The worker may serve the enterprise in any capacity - primary or supervisory. He/she may or may not receive wages / salaries in return to his / her work incidental to or connected with the enterprise activity. A worker need not mean that the same person is working continuously; it only refers to a position. Persons working for less than or equal to half of the

normal working hours of the enterprise on a fairly regular basis are considered as **part time workers**. Those who work for more than half of the period of normal working hours of the enterprise on a fairly regular basis are considered as **full time workers**. Two part-time workers in an enterprise are counted as 2 and not 1.

**2.14 Working Owner:** The owner who personally works in the proprietary or partnership enterprises on a fairly regular basis is called working owner. In fact, in most of the own-account enterprises the owner himself/ herself manages all activities of the enterprise without the help of anyone (on a fairly regular basis). In the case of partnership enterprises, if only one partner or some of the partners or all the partners work in the enterprise on a fairly regular basis then they are considered as ‘working owners’.

**2.15 Hired Worker:** A hired worker is a person employed directly or through any agency on payment of regular wage / salary in cash or kind. Apprentices, paid or unpaid, are to be treated as hired workers. Paid household workers, servants and resident workers of the enterprise are also considered as hired workers.

**2.16 Other Worker / Helper:** This includes all persons belonging to the household of the proprietor or households of the partners who are working in or for the enterprise without regular salary or wages. Persons working as exchange labourer in the enterprise without salary or wages will also be covered in this category. All unpaid household workers / helpers who are associated with the activities of the enterprise during the reference month are considered in this category.

**2.17 Mixed Activity:** There are enterprises that carry out a number of activities simultaneously. For example, a bakery may also sell cold drinks, a rice mill may sell sugar, a factory may run a hospital in its premises, etc. Each such activity was treated as a separate enterprise if information for them was separately available. If the accounts were not separable then the data pertained to the enterprise as a whole and the enterprise was classified as having mixed activities and the activities of such enterprises are a mixture of NIC’s. The activities may be mixed at any level of NIC, but for the present survey an enterprise was considered to have mixed activities if its activities were different at 2-digit level of NIC-2004. The appropriate NIC in such cases was determined on the basis of major activity. Major activity refers to the activity which yielded maximum income/turnover/employment. The above criteria were applied in the given order, i.e., income first, then turnover and then employment, to determine the major activity.

**2.18 Multiple Activity:** Since many of the entrepreneurs belonging to the unorganised sector operate at small or marginal levels, the phenomenon of carrying out more than one activity simultaneously or at different points of time is quite prevalent. If the activities were carried out at one point of time at the same location and the information was not separately available, then it was taken as “mixed activity”. Carrying out of more than one economic activity by the entrepreneur during the reference year is called multiple activities. It differs from mixed activities in the sense that former is with respect to the entrepreneur whereas the latter is with respect to the enterprise. However, an entrepreneur of a manufacturing enterprise manufacturing woollen garments before winter and cotton clothes before summer will not be considered as carrying out multiple activities.

Some examples of multiple activities are: i) a person providing computer services during day-time as an own account worker and also providing tuition in the evening, ii) A household servant is making paper envelopes in free time iii) a person carrying out agricultural activity at sowing / harvesting season and doing carpentry at the same time or at other times, etc.

**2.19 Working on Contract:** The enterprises in the unorganised sector are mainly small units. In many cases, the enterprises are seen to be working as per orders from a bigger unit. In such cases, certain conditions are put on the servicing unit by the contractor or master unit. Conditions may pertain to sale of products, supply of raw materials, mode of payment etc. In many cases, the contractor specifies the design of the product to the servicing unit e.g. garment manufacturing, shoe manufacturing etc. If the surveyed enterprise had undertaken any work on contract during the reference year, it was considered as 'enterprises working on contract'.

**2.20 Fixed Assets:** Assets held for the purpose of producing or providing goods or services and not for resale in the normal course of entrepreneurial activities are classified as fixed assets. These cover all goods, new or used, that have a normal economic life of more than one year from the date of purchase.

**2.21 Land and Building:** Land means the land on which the enterprise is accommodated together with the surrounding area, which is used for the enterprise. This also includes improvement to land. However, if only a portion of the land belonging to the residence of a household is utilised for the enterprise, only that portion of the land is considered as capital assets for the enterprise. Land owned with permanent heritable possession with or without right to transfer the title comes under this category. Land held on long-term lease, say, 30 years or more, is also treated as land owned. Building is the structure, where activities of the enterprise are undertaken. This also includes all other structures like shed, house, portions of a house or other structure, building under construction and other conveniences in which the activities of the enterprise are carried out. This also includes other constructions such as passage, wall, water tank, sewerage, tube-well, etc.

**2.22 Plant and Machinery:** Plant generally means an assembly of machinery / equipment / devices installed for the operation of entrepreneurial activities. Machinery means an implement or mechanical device used in the entrepreneurial activities. These are assets of durable nature and can be easily identified.

**2.23 Transport Equipment:** All vehicles, power-driven or man / animal-driven, used for transporting persons, goods and materials by the enterprise in connection with its activity are covered in this category. Animals, if used for drawing vehicles or carrying loads, will be treated as part of transport equipment.

**2.24 Tools and Other Fixed Assets:** Tools refer to small loose implements, generally held in hand for operation and having normal life of more than one year. Other fixed assets refer to other durable equipment which are used for the entrepreneurial activity either directly or indirectly. These include furniture, fixtures, laboratory equipment, office equipment etc. Livestock used in oil-mill is also covered under this category.

**2.25 Net additions to fixed assets during the last 365 days:** Net addition to fixed assets was obtained by subtracting depletion of assets from the additions made during the last 365 days. Addition to the fixed assets could be made through purchase (new or used) or through own construction. Improvements on land, new construction of building, shed, structure, as well as assets produced on own account during the last 365 days were considered as additions to the fixed assets. Depletion of assets was obtained by considering the assets sold and discarded during the last 365 days. The value of assets disposed of in any manner other than sale, were treated as value of assets discarded. Besides obsolescence (gone out of use) of an asset, this included loss due to theft, damage, accident etc.

**2.26 Investments:** An enterprise can purchase shares, debentures and other securities to earn interest and dividend. These shares, debentures and other securities are called investments. If securities are purchased and sold at regular intervals to make gains using market values of the securities, then these investments are called investments for trade. Otherwise, it is called investments (other than trade).

**2.27 Financial liability:** Financial liability is the total liability incurred by the enterprise as on a particular date (generally the last date of the accounting year). It includes capital deployed by the partners of an enterprise, share capital, reserve and surplus amount noted in the balance sheet, long-term loans and also all short-term commitments for payments like unpaid wages etc. With regard to loan, any borrowing in cash or kind to be repaid in cash or kind was treated as loan. Loans taken for the purpose of utilising the same in the entrepreneurial activities of an enterprise were considered even if such loans were used for other purposes. On the other hand, loans taken for other purposes but ultimately used in the enterprise were excluded.

**2.28 Merchant banking:** A Merchant bank is a bank which works as a financial intermediary, offering such services as takeover and merger assistance and placing of new share and bond issues. Merchant bank is an agency retained by a company to advise and assist in capital structuring/restructuring and its mobilisation within the prescribed and regulatory framework. Thus the role of merchant bank can be institutional in loan syndication, institutional placements, and advisory services including merger/acquisitions/alliance and primary market.

**2.28.1 Merchant Banks** mainly offer financial advice and services for a fee, while commercial banks accept deposits and lend money. When merchant banks do function as commercial banks, they function essentially as whole-sale banker rather than retail banker. It means they deal with selective large industrial clients and not with general public in their fund based activities. Basic function of a merchant bank is marketing corporate and other securities, i.e guaranteeing sales and distribution of securities.

**2.29 Underwriting:** Underwriting is the process by which investment bankers raise investment capital from investors on behalf of corporations and governments that are issuing securities (both equity and debt).

2.29.1 If new issues of capital made by companies are not successful, expenditure plan and reputation of issuing companies gets adversely affected. The financial practice in all countries to ensure the success of new issues is known as 'underwriting'. The need for and the nature of underwriting transactions depends upon the state of the capital market, the response of investors to new issues, the reputation of promoters, and the nature of the project.

2.29.2 Thus underwriting is a process by which an underwriter brings a new security issue to the investing public in an offering. In such a case, the underwriter will guarantee a certain price for a certain number of securities to the party that is issuing the security (in exchange for a fee). Thus the issuer is secure that he will raise a certain minimum amount from the issue, while the underwriter bears the risk of the issue.

2.29.3 The word "underwriter" is said to have come from the practice of having each risk-taker write his or her name under the total amount of risk that he or she is willing to accept at a specified premium. In a way, this is still true today as new issues are usually brought to market by an underwriting syndicate in which each firm takes the responsibility (and risk) of selling its specific allotment.

2.29.4 Underwriting is an undertaking by a party/institution to take up the shares specified in the agreement of underwriting if the public or other person fails to subscribe for them. The part of public issue which is not subscribed by the general public is taken up by underwriters. The agencies from which the underwriting services are available are brokers, private insurance and investment companies, commercial banks and term lending institutions. The underwriting of issues by prestigious institutions is supposed to generate confidence among investors and improve their response to those issues. An underwriter commits its own capital to purchase the shares from the issuer and resell them to the public. An issue is underwritten by a single investment-banking firm or by a group of them referred to as a syndicate. The underwriter may receive a fee from the issuer in return for arranging the issue and marketing it to potential investors.

**2.30 Bill Discounting:** Bills of exchange are similar to cheques and promissory notes. They can be drawn by individuals or banks and are generally transferable by endorsements. It is a non-interest-bearing written order used primarily in international trade that binds one party to pay a fixed sum of money to another party at a predetermined future date. The future date may be either fixed or negotiable.

2.30.1 As per Negotiable Instrument Act 1981, Bill of exchange is an instrument in writing containing an unconditional order signed by the maker directing a certain person to pay a certain sum of money only to, or to the order of, a certain person or to the bearer of the instrument. The difference between a promissory note and a bill of exchange is that this product is transferable and can bind one party to pay a third party that was not involved in its creation. If these bills are issued by a bank, they can be referred to as bank drafts. If they are issued by individuals, they can be referred to as trade drafts. A bill of exchange must be in writing and signed and dated.

2.30.2 Bill discounting is a major activity with the banks. Under this type of lending, Bank takes the bill drawn by borrower on his (borrower's) customer and pays him immediately deducting some amount as discount/commission. The bank then presents the bill to the borrower's customer on the due date of the bill and collects the total amount. If the bill is delayed, the borrower or his customer pays the bank a pre-determined interest depending upon the terms of transaction. The transaction is practically an advance against the security of the bill and the discount represents the interest on the advance from the date of purchase of the bill until it is due for payment.

**2.31 Financial Lease:** A lease is the right to use or occupy personal property or real property given by a lessor (i.e owner of the property) to another person (usually called the lessee) for a fixed or indefinite period of time, whereby the lessee obtains exclusive possession of the property in return for paying the lessor a fixed or determinable payment.

2.31.1 A Financial Lease is a means of financing capital equipments. It is a contract between the lessor and the lessee for the hire of a specific asset selected from a manufacturer / supplier of lessee's choice in keeping with the lessee's requirements. The lessee has possession of the asset and uses the same on payment of installments comprising a capital repayment component plus interest calculated on the basis of the anticipated terms of the agreement, while the lessor retains ownership of the asset. All the risks (major or minor) and rewards of ownership are normally transferred to the lessee and the obligations are non-cancellable. The lessee is to bear the costs of insurance, maintenance and other related costs and expenses for the leased equipment. A Financial Lease also known as capital lease or full pay-out lease. The leased asset remains the property of the leasing company/lessor for the duration of the lease agreement. A financial lease is usually non-cancellable and must be fully paid out over its term

2.31.2 On expiration of the lease, the lessee may renew the lease, exercise an option to buy the leased property or return it to the lessor. The "leased property" is defined as any real property and movable durable property (including the accessory technologies) other than natural resources. Examples include (i) equipment, machinery and instruments; and (ii) vehicle, vessels, aircraft and space shuttles. The financial lease rent shall be determined by the cost of the leased property plus the reasonable profit of the lessor, unless otherwise agreed by the parties. When the lessee possesses the leased property, any damages, losses and risks to the leased property shall be the sole responsibility of the lessee, unless otherwise agreed upon by the parties.

**2.32 Self-Help Group:** A Self-help Group (SHG) is a voluntary gathering of people who share a common problem, condition or history. By coming together, members share and support ideas on how to cope and live a more productive and fulfilling life. Membership is usually free, on-going and open to new members. These groups are formed at local level mostly by under-privileged persons with the idea of developing financial stability and money management capacity through internal loaning of their own savings. SHGs also play an important role in health care system. Members take responsibility for each other in self-help groups.

2.32.1 SHG's are generally formed with 10 to 20 members. All the members contribute equally (say 1 or 2 rupees each day) to form a monthly corpus. SHG's with some proven track record of

stability can also approach banks or other financial institutions for loans in the name of the group, which can also be used as corpus of the SHG. This corpus is lent to one or two members (many-a-times by rotation) who pay back this loan amount with a certain amount of interest. The interest component can be divided by the members among themselves. The member/members who contract the loan can use the amount for any purpose, household or enterprise. It may be noted that in these cases, the activity of the SHG is confined to providing loans to the members and the members can pursue any activity of their choice. Such SHG's were considered as engaged in financial intermediation. If such a SHG was registered as a cooperative credit society, then it was treated as a cooperative credit society and not a SHG. Thus all such SHG's and co-operative credit societies were considered as financial enterprises and data were recorded in the same manner as for other financial enterprises.

**2.33 Non-profit Institutions (NPIs):** Non-profit institutions are legal or social entities created for the purpose of producing goods and services whose status does not permit them to be a source of income, profit or other financial gain for the units that establish, control or finance them. In practice, their productive activities are bound to generate either surpluses or deficits but any surpluses they happen to make cannot be appropriated by other institutional units. The articles of association by which they are established are drawn up in such a way that the institutional units which control or manage them are not entitled to a share in any profits or other income which they receive. For this reason, they are frequently exempted from various kinds of taxes. The objectives of NPIs created by other institutional units - whether persons, corporations, or government - are varied. For example, NPIs may be created to provide services for the benefit of the persons or corporations who control or finance them; or they may be created for charitable, philanthropic or welfare reasons to provide goods or services to other persons in need; or they may be intended to provide health or education services for a fee, but not for profit; or they may be intended to promote the interests of pressure groups in business or politics; etc. Although they may provide services to groups of persons or institutional units, they are, by convention, deemed to produce only individual services and not collective services.

2.33.1 NPIs may be financed and controlled by government agencies or non-governmental agencies. An NPI which is mainly financed and controlled by non-governmental agencies is called a Private NPI.

**2.34 Compensation of employees:** Compensation of employees is the total remuneration, in cash or in kind, payable by an enterprise to an employee in return for work done by the employee during the accounting period. It is recorded on accrual basis, i.e. measured by the value of remuneration in cash or in kind which an employee becomes entitled to receive from an employer in respect of work done during the relevant period, whether paid in advance, simultaneously or in arrears. Self employed persons (like working owners or unpaid family workers) receive mixed income and not compensation of employees. However, the books of accounts of some enterprises show salary payment to one or two working owners. In such cases, these payments were recorded as compensation to employee. Compensation of employees has two main components, i) wages and salaries payable in cash or in kind and ii) value of social contributions payable by the employer.

Wages and salaries also included goods or services provided to employees as remuneration in kind instead of, or in addition to, remuneration in cash.

**2.35 Taxes on Products:** Taxes are compulsory, unrequited payments, in cash or in kind, made by institutional units to government units. *A tax on a product is a tax that is payable per unit of some good or service.* Tax on product may be a specific amount of money per unit of quantity of a good or service, the quantity being measured either in terms of discrete units or continuous physical variables such as volume, weight, strength, distance, time, etc. or it may be calculated *ad valorem* as a specified percentage of the price per unit or value of the goods and services transacted. Some examples of taxes on products are VAT, excise duties, general sales tax, service tax, export duties, turnover tax, taxes on financial and capital transactions (mainly inheritances and gifts), etc.

**2.36 Taxes on Production:** *Taxes on production consist of all taxes that the enterprise incurs as a result of engaging in production.* It is payable irrespective of the profitability of the enterprise and consists of all taxes except those included under 'Taxes on Products'. Some examples of taxes on production are recurrent taxes on land, buildings or other structures, business or professional licence fees, road tax and registration fee of vehicles, taxes on pollution, taxes on international transactions such as travel abroad, foreign remittances, etc. Stamp taxes on sale of specified products, which relate to per unit of product sold (e.g., per unit of alcoholic beverages) will be considered as taxes on products, but other stamp taxes (e.g., stamps on legal documents or cheques) will be considered as taxes on production.

**2.37 Subsidies:** Subsidies are current unrequited payments that government units, including non-resident government units, make to enterprises on the basis of the levels of their production activities or the quantities or values of the goods and services which they produce, sell, import or export. Subsidies can also be received by an enterprise for achieving a particular type of efficiency in production (e.g., getting ISO certification, implementing pollution control measures, repaying interests in time, etc.). Subsidies are equivalent to negative taxes on production in so far as the impact on the operating surplus is in the opposite direction to that of taxes on production. Subsidies can be on production or on interest. Various types of subsidies are back-end subsidies on interest, export subsidies, duty drawback, etc. Subsidies do not include grants that governments may make to enterprises in order to finance their capital formation, or compensate them for damage to their capital assets, such grant being treated as capital transfers.

**2.38 Transfers:** A transfer is a transaction in which an institutional unit provides a good, service or asset to another unit without receiving from the later any good, service or asset in return. A cash transfer consists of the payment of currency or transferable deposit by one unit to another without any counterpart (or return). A transfer in kind consists either of the transfer of ownership of a good or asset, other than cash, or provision of a service, again without any counterpart (or return).

**2.38.1** Transfers may be either current or capital. A transfer in kind is capital when it consists of the transfer of ownership of an asset, other than inventories. A transfer in cash is capital when it is linked to, or conditional on, the acquisition or disposal of an asset (other than inventories) by one or both parties to the transaction. Current transfers consist of all transfers that are not transfers of

capital. Capital transfers tend to be comparatively large, infrequent and irregular, whereas current transfers tend to be comparatively small and often made frequently and regularly. Three main types of current transfers are a) current taxes on income, wealth etc. b) social contributions and benefits ) other current transfers.

**2.39 Operating Expenses:** The total value of services purchased and other expenses incurred during the reference period by an enterprise on raw materials, electricity, fuel, lubricants and auxiliary materials consumed; cost of maintenance, etc was considered as 'operating expenses'.

**2.40 Receipts:** The sale value of services produced together with the value of services rendered to other concerns and other receipts incidental to entrepreneurial activities including the value of products and by-products manufactured ,if any, by an enterprise during the reference period was considered as 'total receipts'.

**2.41 Gross Value Added:** Gross value added is taken as additional value created by the process of production of an enterprise to the economy. Gross value added is calculated by deducting 'total operating expenses' from the value of 'total receipts' during the reference period.

## Chapter Three

### Summary of Findings

3.1 The results of survey on service sector (excluding trade) in India (2006-07) are brought out in two reports. As already mentioned in Chapter one, the first report (Report no. 528) dealt with operational characteristics of enterprises. The present report provides the estimates of key parameters of service sector enterprises like number of enterprises, number of workers (with detailed break-up), emoluments, gross value addition, fixed capital, financial assets, financial liability etc. A summary of these results is presented and discussed in this chapter. Detailed tables, given in **Appendix A**, provide estimates separately for rural, urban and for both sectors combined at all-India and State/UT level. In addition, information for 'Own Account Enterprises (OAEs)' and 'establishments' have been presented separately.<sup>5</sup> The term 'enterprise' is used in general to represent OAEs and also establishments (*hereafter 'enterprises' would refer to 'enterprises under survey coverage'*).

3.2 Estimates for certain major economic characteristics have been discussed in respect of 21 major states. These major States have been identified on the basis of estimated number of enterprises (exceeding 1 lakh<sup>6</sup>). The 'major states' (names in abbreviated form are given in brackets) are: Andhra Pradesh (AP), Assam (ASM), Bihar (BHR), Chhattisgarh (CTG), Del (DEL), Gujarat (GUJ), Haryana (HAR), Himachal Pradesh (HP), , Jammu & Kashmir (JK), Jharkhand (JRK), Karnataka (KTK), Kerala (KER), Madhya Pradesh (MP), Maharashtra (MAH), Orissa (ORS), Punjab (PUN), Rajasthan (RAJ), Tamil Nadu (TN), Uttarakhand (UTK), Uttar Pradesh (UP) and West Bengal (WB). The totals and the sum of the proportions presented in various detailed tables may, in some cases, differ slightly due to rounding off.

3.3 During 2006-07, about 1.65 crore enterprises were engaged in the service sector (excluding trade) in the country. **Statement 1** gives the estimated number of OAEs and Establishments separately for rural, urban and combined sectors of the country. The OAEs accounted for 85% of the enterprises, remaining 15% being establishments.

**Statement 1: Estimated number of enterprises by enterprise types and sector**

Sector	all-India number of enterprises (in '000)		
	OAE	Establishments	all
(1)	(2)	(3)	(4)
Rural	9004	897	9901
Urban	5088	1524	6612
<b>all</b>	<b>14092</b>	<b>2420</b>	<b>16512</b>

See Appendix Table 2 for more detail.

<sup>5</sup> In the statements, 'all' is used to denote all the enterprises taken together. A "-" has been used in the statements and tables if no enterprise was surveyed in that particular level of disaggregation.

<sup>6</sup> (1 lakh = 10<sup>5</sup>)

3.3.1 **Statement 2** gives the estimated number of enterprises by activity types. The activity category 'transport, storage & communication (I)' had the highest percentage of enterprises for both rural & urban sectors and also for combined sector (38%). 'Other community, social & personal services (O)' had next highest share (19%) of enterprises followed by 'hotel & restaurants (H)' (12%) and 'financial intermediation (J)' (9%). The enterprises categorised as 'hotels (H1)' or 'storage and warehouse (II)' were very few – whose share was less than 1 per cent of the total enterprises.

3.3.2 **Statement 3** presents state-wise estimated number of enterprises categorized by sector/enterprise type. It is seen that Uttar Pradesh had the highest share (14%) in total number of enterprises followed by West Bengal (13%), Andhra Pradesh (10%), Maharashtra (9%) and Tamil Nadu (7%). Thus these five states accounted for 53% of enterprises at all-India level. Uttar Pradesh had the highest number of OAEs while Maharashtra had the highest number of establishments.

**Statement 2: Estimated number of enterprises by enterprise type, sector and activity category (combined frame)**

activity category	rural			urban			all		
	OAE	estt.	all	OAE	estt.	all	OAE	estt.	all
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)

3.4. The economic characteristics of service sector enterprises were analysed separately for the enterprises covered under list frame and area frame. List frame enterprises, by definition, were big enterprises and had dominant share in various economic characteristics. Several of the list frame units had number of branches spread across the states. The disaggregation of their characteristics needed apportionment using some auxiliary information such as number of workers in the branches located in different states. However, such break-up was not available for a number of list frame units surveyed. **Keeping in view this limitation of the survey, the state-wise break-up of various characteristics is given only in respect of area frame enterprises.**

3.4.1 **Workers (full-time and part-time):** The information on whether a person was engaged in the enterprise in a full-time or part-time basis was collected in the survey for each worker and this had been used for generating estimates of full-time and part-time workers (*For definition of full-time and part-time workers please see para 2.13*). The total number of workers in the service sector (full-time and part time) were estimated at 3.35 crores, 54% of which were in rural areas (**vide Statement 4**). Estimated number of workers by States/UTs categorized by enterprise type/sector is presented in **Statement 5**. Uttar Pradesh had the highest share in total number of workers (12%) followed by Andhra Pradesh (11%), West Bengal (10%), Maharashtra (10%), and Tamil Nadu (9%). Thus these five states accounted for 52% of total workers of the service sector.

3.4.2 Distribution of workforce in major activity categories in rural and urban areas is given in **Statement 6**. There is significant rural-urban differential in distribution of workers (**Chart 1**). About 76 per cent of workers were engaged on full-time basis in rural enterprises and 90 per cent in urban enterprises. The percentage of male full-time workers was considerably higher than female full-time workers in both rural and urban areas. Out of the total workforce in rural sector, 76% were full-time workers (male; 58%, female; 18%) and 24% were part-time workers (male; 7%, female; 17%). Correspondingly, 90% of total workers in urban sector were full-time (male; 72%, female; 18%) and rest 10% were part-time workers (male; 5%, female; 5%). More or less similar patterns were observed for all categories of activities in both rural and urban segments. Among the broad activities, highest percentage (96%) of full-time workers was employed in 'non-mechanised motor transport, water transport and other related activities (I3)' in rural areas while in urban areas full-time employment was the highest (98%) in 'mechanized road transport (I2)'. The part-time involvement of workers was most prominent in activities related to financial intermediation (J). Almost 53% of workers engaged in this activity in rural sector were part-time workers whereas in urban sector this was 26%.

3.5 **Proportion of Female Workers:** In order to study the gender differential in employment in service sector enterprises, the particulars of employment was collected by gender of the workers. **Statement 7** gives the proportions of female workers in different activities separately for rural, urban and both sectors combined. Though female workers constituted roughly 29% of total workers in service sector enterprises, the share of female workers was very low in certain activities, e.g. only six percent of workers were females in 'transport, storage & communication (I)'. The share of female workers was noticeably higher in activities such as 'financial intermediation (J) (79%) and

'education (M), (44%). The proportion of female workers in different activities categorized by type of enterprise showed mixed pattern. The percentage of female workers employed in establishments was higher in broad activities such as 'education (M)', 'Health and social work (N)' etc. In other activities such as 'financial intermediation (J)', 'hotels & restaurants (H)', 'other community, social and personal service activities (O)', OAEs had higher share of female workers. The percentage of female workers was higher in rural areas (35%) than the same in urban areas (22%).

3.5.1 The percentage of female workers in different States/UTs **for area frame** is presented in **Statement 8** separately for rural, urban and both sectors combined. The top five major States in terms of proportion of female workers were Orissa (58.1%), Kerala(45.0%), Andhra Pradesh(45%), Tamil Nadu (44 %) and Chattisgarh(38.4%). For most of the States, the proportion of female workers was more in rural areas than urban areas. Rural-urban differential was very significant for certain States, e.g. Orissa (rural: 64.2%; urban:16.2%), Andhra Pradesh (rural: 56.1%; urban: 27.5%), Chattisgarh (rural: 51.4%; urban:19.8%).

See Appendix Table 3 for more detail.

**3.6 Gross value added (GVA):** Table 14 (Appendix A) gives estimates of annual gross value added (GVA) per enterprise by activity category x enterprise type. Utilising the above information, estimates of aggregate annual GVA have been derived and aggregate gross value added (Rs. in crores) by enterprise type and sector is shown in **Statement 9**. Aggregates shown against the last row may differ from the total of value figures shown against each enterprise type for each sector due to rounding. Aggregate annual gross value added by enterprises was estimated as Rs.2,44,792 crores<sup>7</sup>.

**Statement 9: Aggregate gross value added (Rs. in crores) by enterprise type and sector during 2006-07. (based on combined frame)**

enterprise type	aggregate gross value added (Rs. in crores)		
	rural	urban	all
(1)	(2)	(3)	(4)
OAE	22759	22901	45660
Establishments	14660	184472	199131
<b>all</b>	<b>37419</b>	<b>207373</b>	<b>244792</b>

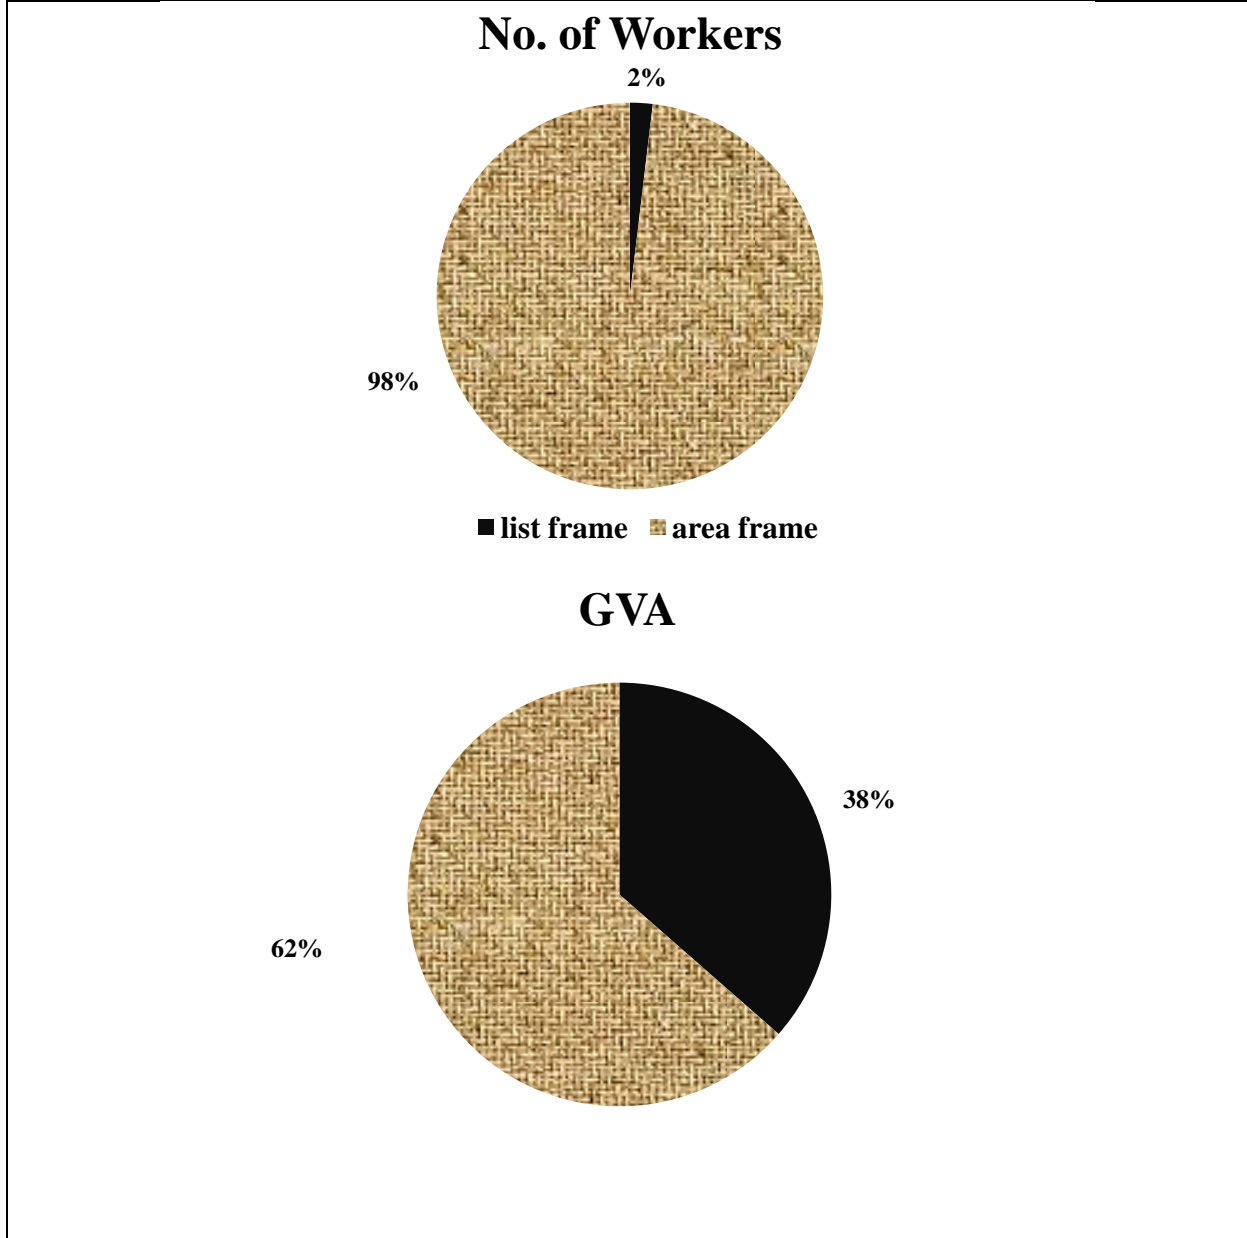

See Appendix Table 13 & 14 for more detail.

3.6.1 There is a very high degree of concentration of economic characteristics in the service sector, as is strikingly evident on comparison of aggregate GVA by list frame enterprises and that by area frame enterprises. In the estimated universe of service sector enterprises (1.65 crore) the list frame enterprises (there were 626 list frame enterprises, for which estimates are presented by imputing also contribution of eligible non-responding units) is an insignificant proportion with only 2% share in total workers. However, the GVA contribution of list frame enterprises is about 38% of estimated aggregated GVA of all such enterprises in the country (**vide chart 2**).

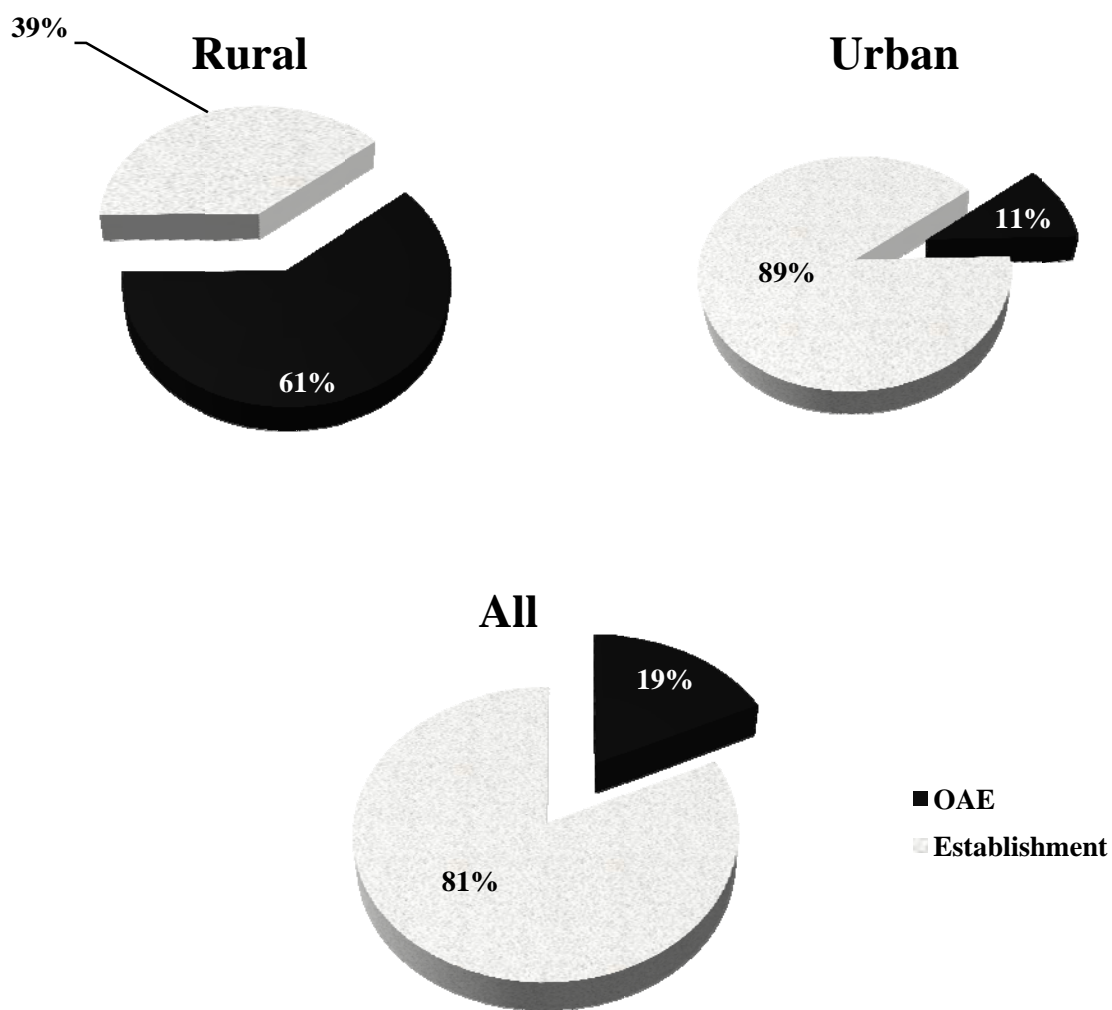

3.6.1.2 There was a differentiated distribution of annual GVA by enterprise types in rural and urban areas (**Chart 3**). Share of OAEs in aggregate GVA was much higher in rural areas (61%) than for urban areas (11%). Major contribution to GVA had come from OAEs (61%) in rural areas and from Establishments (89%) in urban areas. At all-India level, Establishments contributed 81% to aggregate GVA. The overall GVA contribution of urban enterprises (85%) was much higher than rural enterprises (15%) (**vide Chart 4**).

<sup>7</sup> 1 crore = 10<sup>7</sup>

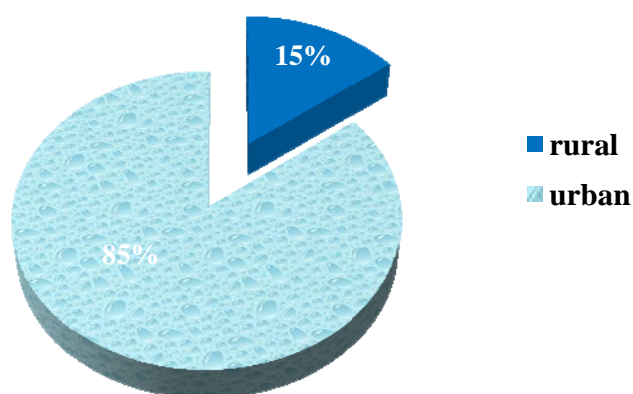

**Chart 2: Contribution of list frame in total no. of workers and aggregated GVA**

**Chart 3: Percentage distribution of gross value added by enterprise type**

**Chart 4: Percentage distribution of gross value added by sector**

3.6.2 **Statement 10** gives aggregate GVA (in Rs. crores) categorised by enterprise type for the last two survey periods. It is seen that aggregate GVAs were roughly Rs. 74,782 crores & Rs. 1,95,209 crores at current prices during 2001- 02 & 2006-07 respectively.

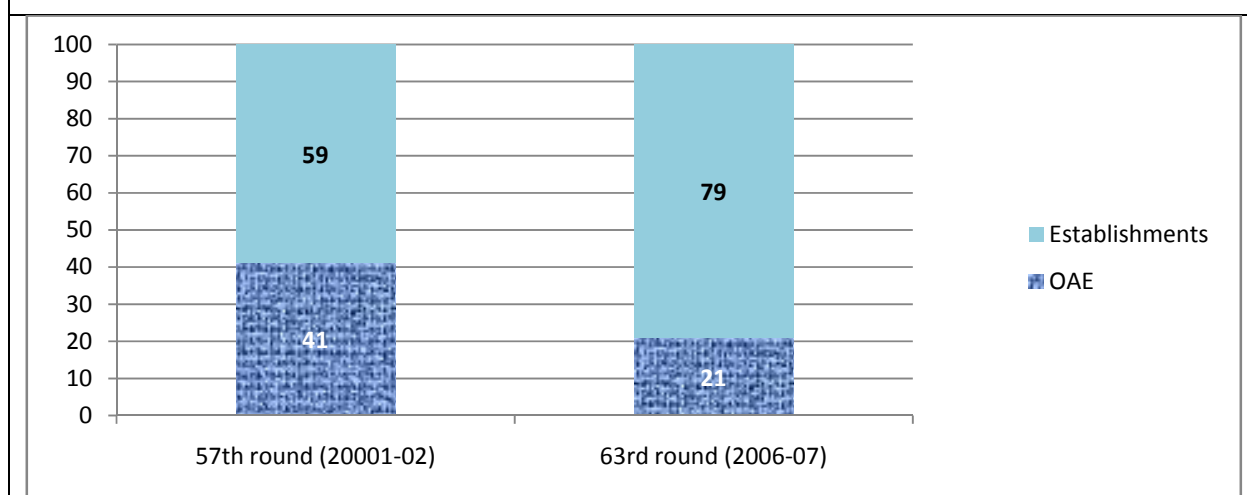

**Statement 10: Aggregate gross value added (Rs. in crores) by enterprise type during the last two survey periods. (combined frame)**

enterprise type	aggregate gross value added(Rs. in crores)	
	57 <sup>th</sup> round (2001-02)	63rd round* (2006-07)
(1)	(2)	(3)
OAE	30743	40813
Establishments	44039	154395
<b>all</b>	<b>74782</b>	<b>195209</b>

Source: NSS report 482 and Appendix Table 26 of this report. \* excludes financial intermediation (J) for comparability.

3.6.3 **Chart 5** gives the percentage distribution of GVA by enterprise type for the last two survey periods. It may be seen that contribution of OAEs had decreased from 41% in 2001-02 to 21% in 2006-07. and the corresponding contribution of Establishments had increased from 59% in 2001-02 to 79% in 2006-07.

**Chart 5: Percentage distribution of GVA by enterprise type over the last two survey periods**

Source: NSS Report No. 482 and appendix table 26 of this report (Chart excludes financial enterprises from 63<sup>rd</sup> round)

3.6.4 **Statement 11 (based on area frame only)** gives state-wise aggregate annual GVA in descending order and also percentage shares of major States in aggregate GVA in the descending order of their share for the last two survey periods. It is seen that Maharashtra had the highest GVA during 2006-07 and 2001-02. There is a high spatial polarization of economic contribution in the service sector. The share of top five states in terms of aggregated GVA remains nearly 50% in 2001-02 as well as in 2006-07. Maharashtra continues to lead the states with its share marginally improving from 15.08% in 2001-02 to 16.75% in 2006-07. Karnataka has moved up to second place from third place it occupied in 2001-02, increasing its share to 9.69% in 2006-07 from 7.85%

in 2001-02. Kerala has entered into top five slot, improving its share in aggregate GVA to 7.98% in 2006-07 displacing Uttar Pradesh from the top five states in 2001-02.

**Statement 11: State-wise (major 21 states) aggregate gross value added (GVA) and percentage share in descending order for the last two survey periods (based on area frame)**

### 3.7 GVA per enterprise and GVA per worker

3.7.1 **Variation by enterprise type (all-India): Statement 12** gives the estimated annual gross value added per enterprise (GVAPE) and annual gross value added per worker (GVAPW) categorised by type of enterprise separately for rural, urban and combined sector. As expected, both GVAPE and GVAPW were substantially high for Establishments for all sectors. At all-India level, annual GVAPE in service sector was estimated at Rs. 1,48,247. For rural India, annual GVAPE for OAEs and Establishments were estimated as Rs. 25,276 and Rs. 1,63,515 respectively. The corresponding estimates for urban areas were Rs. 45,011 and Rs. 12, 10,703 respectively. Similarly the annual GVAPW in service sector for rural and urban areas and combined was estimated to be Rs. 2,06,40, Rs. 1,34,782 and Rs. 73,038 correspondingly. Annual GVAPW for OAEs and Establishments were estimated as Rs. 15,644 and Rs. 40,931 respectively for rural sector and Rs. 34,132 and Rs. 2,12,615 for OAEs and Establishments respectively for urban sector.

**Statement 12: GVA per enterprise and per worker categorised by enterprise type and sector during 2006 - 07. (combined frame)**

See Appendix Table 33 for more detail.

3.7.2 **Comparative estimates of GVAPE and GVAPW: Statement 13** gives comparative estimates of GVAPE and GVAPW for 63<sup>rd</sup> rounds and 57<sup>th</sup> rounds. GVAPE was Rs.1, 30,153 in 63<sup>rd</sup> round against Rs. 51,673 in 57<sup>th</sup> round. GVAPW was Rs. 70,358 in 63<sup>rd</sup> round against Rs. 28,160 in 57<sup>th</sup> round. Increase in respect of both GVAPE and GVAPW was much more significant for establishments than OAEs.

**Statement 13: GVA per enterprise and GVA per worker by enterprise type over the rounds**

enterprise type	GVA per enterprise (in Rs.)		GVA per worker (in Rs.)	
	57 <sup>th</sup> Round	63 <sup>rd</sup> Round*	57 <sup>th</sup> Round	63 <sup>rd</sup> Round*
(1)	(2)	(3)	(4)	(5)
OAE	25441	32177	19412	25246
Establishments	184429	667092	41086	133339
<b>all</b>	<b>51673</b>	<b>130153</b>	<b>28160</b>	<b>70358</b>

See Appendix Table 26 for detail. \* excluding financial intermediation

3.7.3 **GVA per enterprise type by activity category (all-India): Statement 14** gives activity category wise estimated annual GVAPE in thousand Rupees. It is seen that 'Hotels (H1)' had the highest GVAPE (Rs. 15,48,047) at all-India level. This was followed by 'Insurance and pension funding and auxiliary activities (J2)' (Rs. 13,26,820) and 'Storage and warehousing (I1)' (Rs. 5,71,529). 'Other community, social and personal service activities (O)' had the lowest GVAPE (Rs. 44,705). 'Storage

and warehousing (I1)' had the highest GVAPE in rural whereas 'Insurance and pension funding and auxiliary activities (J2)' had highest GVAPE in urban areas. 'Other community, social and personal service activities (O)' had the lowest GVAPE in both rural and urban areas. GVAPE was much higher in urban areas than rural areas across all activity categories. GVAPE for all OAEs in urban areas is 1.8 times the GVAPE of rural areas for OAE. The same ratio is about 7.4 for establishments. As expected, GVAPE was much higher in Establishments than OAEs both in rural and urban areas.

**Statement 14: Estimated annual gross value added per enterprise (in Rs.'000) by activity category (combined frame)**

See Appendix Table 14 for more detail

**3.7.4 State level estimates of GVA per enterprise: Statement 15 (based on area frame)** gives State wise (major 21 states) estimates of annual GVAPE by type of enterprise (OAEs and Establishments) for rural, urban and combined sector. As expected, estimated annual GVAPE for each state was higher for Establishments for all sectors. Again, GVAPE across all States was higher in urban areas than rural areas. Among the 21 major states (referred to in para 3.2), Karnataka had

the highest GVAPE followed by Maharashtra and Gujarat. Bihar had the lowest GVA per enterprise among the major states.

**Statement 15: Estimated annual gross value added per enterprise (in Rs. '000) for major States (based on area frame)**

3.7.5 **GVA per worker by activity category: Statement 16** gives activity category wise estimated annual GVA per worker (in Rs.'000) by type of enterprise. Average annual GVA per worker (GVAPW) was Rs. 73,038 considering all activity categories taken together. But there are wide variations in this average value over activity categories. Average GVA per worker (annual) was the lowest (Rs.27,485) for activity category O (Other community, social and personal service activities) and the highest (Rs. 85,920) for major activity category J (financial intermediation).

**Statement 16: Estimated annual gross value added per worker (in Rs.'000) by activity category (combined frame)**

3.7.6 **State level estimates of GVA per worker: Statement 17** (based on area frame) gives State wise estimates of annual GVA per worker (Rs.) by type of enterprise (OAEs and Establishments) for rural, urban and combined sector. Among the 21 major states, Karnataka had the highest GVAPW (Rs. 1, 12,097) while the lowest annual GVAPW (Rs. 11,678) was recorded for Orissa. GVAPW was higher in urban areas than rural areas across all States.

**Statement 17: Estimated annual gross value added per worker (in Rs. '000)  
for major States**

See Appendix Table 15 for more detail

**3.8 Fixed Assets:** The net book value or market value of owned fixed assets (depending on whether the data were collected from balance sheet or through oral enquiry) was collected in the survey. These covered all old and new goods that had a normal economic life of more than one year from the date of purchase. For obtaining the value of fixed assets, the net book value or the market value of owned fixed assets as on the last date of the reference year was considered.

**3.8.1 Statement 18** presents the estimated value of total fixed assets owned per enterprise and annual rent payable on hired assets per enterprise for different enterprise types. At all India level, the estimated market value of owned fixed assets per enterprise was estimated as Rs. 1, 78,102. The market value of owned fixed assets per enterprise in urban areas was about 5.5 times the corresponding value in rural areas. Per enterprise value of owned fixed assets for Establishments was about 22 times the same for OAEs.

**Statement 18: Estimated value (Rs.) of owned fixed assets and annual rent on hired assets per enterprise by enterprise type (combined frame)**

Sector	Value of owned fixed assets per enterprise (in Rs.)			annual rent payable on hired assets per enterprise (in Rs.)		
	OAE	Establishments	all	OAE	Establishments	all
(1)	(2)	(3)	(4)	(5)	(6)	(7)
rural	32,801	3,67,366	63,096	1,016	4,723	1,351
urban	63,194	13,09,118	3,50,325	4,063	55,958	16,023
<b>all</b>	<b>43,774</b>	<b>9,60,260</b>	<b>1,78,102</b>	<b>2,116</b>	<b>36,979</b>	<b>7,226</b>

See Appendix Table 18 for more detail.

**3.8.2 Statement 19** presents the estimated value of fixed assets owned per enterprise by type of assets. 'Land and building' constituted about 55% of total fixed assets owned per enterprise followed by 'transport equipment' (16%) and 'plant and machinery' (13%). However, the respective percentages were 54%, 13% and 16% for establishments.

**Statement 19: Estimated value (Rs.) of owned fixed assets per enterprise by enterprise type (combined frame)**

type of asset	Value of owned fixed assets per enterprise (in Rs.)		
	OAE	Establishments	all
(1)	(2)	(3)	(4)
land & building	25,500	5,14,855	97,224
plant & machinery	2,047	1,51,139	23,899
transport equipment	11,432	1,28,828	28,639
software & hardware	382	33,980	5,306
tools and other fixed assets	4,356	87,286	16,511
capital working progress	56	44,172	6,522
<b>total</b>	<b>43,774</b>	<b>9,60,260</b>	<b>1,78,102</b>

See Appendix Table 20 for more detail.

**3.8.3 Statement 20** presents the estimated value by enterprise types of total fixed assets owned per enterprise at the respective current prices over the last two survey periods. It is seen that value of fixed assets owned per enterprise for Establishments recorded very significant growth as compared to OAEs for the period from 2001-02 to 2006-07.

**Statement 20: Estimated value (Rs.) of owned fixed assets per enterprise by enterprise types in the last two survey periods. (Based on combined frame)**

enterprise type	Value of owned fixed assets per enterprise (Rs.)		% change from 57 <sup>th</sup> to 63 <sup>rd</sup>
	57 <sup>th</sup> round (2001-02)	63 <sup>rd</sup> round* (2006-07)	
(1)	(2)	(3)	(4)
OAE	34,090	46,995	38
Establishments	4,68,679	9,52,349	103
<b>all</b>	<b>1,05,796</b>	<b>1,86,703</b>	<b>76</b>

See Appendix Table 29 and Report 482 for more detail. \* excludes financial intermediation (J).

3.8.4 **Statement 21** presents the estimated value of total fixed assets owned per enterprise and annual rent payable on hired assets per enterprise for different activity categories. The activity 'Hotels(H1)' had the highest fixed assets owned per enterprise followed by the activities 'I1 (Storage and warehousing)' and K (real estate, renting and business activities). Industries under the activity 'H1 (Hotels)' paid the highest rent on hired assets closely followed by 'Insurance and pension funding and auxiliary activities (J2)'.

**Statement 21: Estimated value (Rs.) of owned fixed assets and annual rent on hired assets per enterprise by activity category (Based on combined frame)**

Description of NIC activity categories:

Hotels - H1, restaurants - H2, Hotels & restaurants - H; Storage and warehousing - I1, Mechanized road transport - I2, Non-mechanised motor transport, water transport and other related activities - I3, communication - I4, Transport, storage & communication - I; Non-banking financial intermediation except insurance and pension funding - J1, Insurance and pension funding and auxiliary activities - J2, Financial intermediation - J; Real estate, renting and business activities - K, Education - M, Health and social work - N, Other community, social and personal service activities - O

See Appendix Table 18 for more detail.

3.8.5 **Statement 22 (based on area frame)** presents the estimated value of total fixed assets owned per enterprise and annual rent payable on hired assets per enterprise for different States. Among the major States, Gujarat and Bihar had respectively the highest and the lowest fixed assets owned per enterprise. Also among the major states, the highest and lowest rent payable on hired assets per enterprise was recorded for Gujarat and Orissa respectively.

**Statement 22: Estimated value (Rs.) of owned fixed assets and annual rent on hired assets per enterprise for major States (Based on area frame)**

State	Value of owned fixed assets per enterprise (Rs.)			annual rent payable on hired assets per enterprise (Rs.)

See Appendix Table 19 for more detail.

**3.9 Financial Liability:** The data on financial liability as on the last date of the reference period and interest/dividend payable during the reference period were collected from each enterprise. Financial liabilities included capital deployed by the partners of an enterprise, share capital, reserve and surplus amount noted in the balance sheet, long-term loans and also all short-term commitments for payments like unpaid wages etc. Interest/dividend payable during the reference period for all liabilities of the enterprise was collected. This included interest/dividend payable to the partners of the enterprise also. The average amount of financial liability per enterprise and annual interest/dividend per enterprise is presented in **Statement 23** (based on combined frame) for each activity and enterprise type (OAE and establishment). It is seen that at all-India level, the financial liability of an enterprise amounted to Rs. 4, 41,133 while the annual interest/dividend payable per enterprise amounted to Rs. 19,235. The financial liability per enterprise for OAEs was Rs. 21,430 against Rs. 28, 84,961 for Establishments. Both for OAEs and Establishments, there was large variation in financial liability per enterprise across all service activities. For each of the activities, financial liability per Establishments was considerably higher than the same for OAEs.

**Statement 23: Financial liability and annual interest/dividend payable per enterprise (in Rs.) by activity category and enterprise type (Based on combined frame)**

See Appendix Table 24 for more detail.

3.9.1 **Statement 24 (based on area frame)** gives financial liability per enterprise as on the last date of the reference year for major States in descending order. It is seen that among the major states, Maharashtra had the highest financial liability per enterprise followed by Karnataka, Gujarat, Tamil Nadu and Kerala. However, lowest five major states in terms of financial liability per enterprise in ascending order were Bihar, Uttar Pradesh, Jharkhand, Haryana and Chhattisgarh. Average financial liability per enterprise in urban areas (Rs. 3,02,707) was about 7 times the same for rural areas (Rs. 42,110).

**Statement 24: Financial liability per enterprise (in Rs.) as on last date of reference year for major States (based on area frame)**

State	financial liability per enterprise (Rs.)		
	rural	urban	all (in descending order)

**3.10 Private NPIs in India:** Key characteristics of private NPIs engaged in different service sector activities are presented in **Statement 25** (For definition of NPI, please refer to para 2.33-2.33.1). Among the broad activities highest number of private NPIs were engaged in the activity 'financial intermediation (J)' while the least number were engaged in the activity 'real estate, renting and business activities (K)'. Correspondingly, these two activities accounted for the highest and lowest share of employment in private NPIs. The broad activity 'financial intermediation (J)' had also highest percentage (80%) of private NPIs registered under any act or authority while the percentage (29%) was the least among private NPIs engaged in the activity 'other community, social and personal service activities'. Private NPIs engaged in the activity 'insurance and pension funding and auxiliary activities (J2)' had paid the highest average emoluments per hired worker. The activity 'hotels and restaurants (H)' had the major share (39%) of fixed assets owned while 'financial intermediation (J)' had the least share (0.6%). The activity 'education (M)' accounted for the highest share (48.6%) of value added while 'Insurance and pension funding and auxiliary activities (J2)' had the lowest share (0.17%) of value added.

**Statement 25: Key characteristics of Private NPIs by activity category**

\* Includes distributive expenses

3.11 Details of owned vehicles operated by enterprises engaged in land transport are presented in **Statement 26**. It may be seen that category of enterprises engaged in 'transportation by other than motor vehicles' (NIC 60222 & 60232) had a higher share both among 'enterprises engaged in freight transport' and 'those engaged in passenger land transport'. Vehicle type 'Others' (code 243) and 'Rickshaw/Van' (code 248) had the dominant share in the estimated enterprises owning vehicles by type of vehicles in the respective cases mentioned above. For enterprises engaged in 'freight transport by motor vehicles' (NIC 60231), vehicle type 10-wheelers (code 237) accounted for the highest average number of vehicles owned per enterprise while 6-wheelers (code 238) covered the highest distance per month.

**Statement 26: Details of owned vehicles operated by enterprises engaged in land transport (based on combined frame) all-India**

NIC Code	no. of sample enterprises	estimated no. of enterprises	type of vehicle (code) *	estimated no. of enterprises owning the vehicle	average number of owned vehicles (0.00) per enterprise	percentage distribution of owned vehicles by age					average payload capacity per owned vehicle (in tonnes)	average distance covered in km.(0.0) per month per owned vehicle

3.12 **Precision of estimates:** Relative Standard Error (RSEs) of GVA per enterprise and GVA per worker categorised by activity/sector and state/sector are given in **Statements 27-28**. It may be seen that though RSE of estimate of GVA per enterprise for the activity Storage and Warehousing (I1) is 20% for rural area, the same is extremely high (44.8%) for urban areas, which, in turn, affected all-India RSE (40.8%) for the same activity (**vide Statement 27**). High RSEs in respect of estimates of GVA per enterprise for the activity category Storage and Warehousing (I1) might be due to very low sample size. It may be mentioned that majority of storage and warehousing units are covered under organized manufacturing segment through the Annual survey of industries (ASI). Hence, readers are advised to exercise due caution in using estimates in such cases. As regards other activity categories, RSEs are less than 20% in most of the cases while in three cases it is less than 30%.

**Statement 27: RSEs of Annual GVA (Rs.) per enterprise by activity category and sector**

Appendix B  
Coverage, Sample Design,  
Estimation Procedure

## Note on Sample Design and Estimation Procedure

### 1. Introduction:

1.1 The National Sample Survey (NSS), set up by the Government of India in 1950 to collect socio-economic data employing scientific sampling methods, started its sixty-third round from 1<sup>st</sup> July 2006.

1.2 The sixty-third round of NSS was earmarked for collection of data on economic and operational characteristics of enterprises in service sector (excluding trade) and also on household consumer expenditure. The field operations of the survey commenced on 1<sup>st</sup> July 2006 and continued up to 30<sup>th</sup> June 2007.

1.3 Last survey of service sector enterprises was conducted in the 57<sup>th</sup> round of NSS during July 2001 to June 2002.

The present survey was basically a repetition of the 57<sup>th</sup> round survey in terms of concepts and definitions. However, financial sector had been included in the coverage of this round.

### 2. Outline of Survey Programme

2.1 **Subject Coverage:** The 63rd round (July 2006 - June 2007) of NSS was earmarked for survey on service sector enterprises (excluding Trade). All service sector enterprises, which were not covered under the Annual Survey of Industries (ASI), were under coverage of the survey. Government and public sector undertakings were not under survey coverage. Usual annual survey on household consumer expenditure was also carried out during this round.

2.2 **Geographical coverage:** The survey covered the whole of the Indian Union *except* (i) Leh (Ladakh) and Kargil, Punch and Rajauri districts of Jammu & Kashmir (central sample), (ii) interior villages of Nagaland situated beyond five kilometres of the bus route and (iii) villages in Andaman and Nicobar Islands which remained inaccessible throughout the year.

2.3 **Period of survey and work programme:** The period of survey was of one year duration starting on 1<sup>st</sup> July 2006 and ending on 30<sup>th</sup> June 2007. The survey period of this round was divided into four sub-rounds of three months duration each as follows:

- sub-round 1 : July - September 2006
- sub-round 2 : October - December 2006
- sub-round 3 : January - March 2007
- sub-round 4 : April - June 2007

In each of these four sub-rounds, equal number of sample villages/ blocks (FSUs) were allotted for survey with a view to ensuring uniform spread of sample FSUs over the entire survey period. Attempt was made to survey each of the FSUs during the sub-round to which it had been allotted. *Because of the arduous field conditions, this restriction was not strictly enforced in Andaman and Nicobar Islands, Lakshadweep, rural areas of Arunachal Pradesh and Nagaland.*

**2.4 Schedules of enquiry:** During this round, the following schedules of enquiry were canvassed:

Schedule 0.0	: list of households and non-agricultural enterprises
Schedule 2.345	: service sector enterprises (excluding trade)
Schedule 1.0	: household consumer expenditure

**Participation of States:** In this round all the States and Union Territories except Andaman & Nicobar Islands, Dadra & Nagar Haveli, Chandigarh, Lakshadweep and Andhra Pradesh (for schedule 1.0) participated at least on an equal matching basis. The following was the matching pattern of the participating States/ UTs.

Nagaland (U)	: triple
U.P., J & K, Manipur	: double
Kerala, Goa, Maharashtra (U)	: one and half
Remaining States/ UTs	: equal

### 3. Sample Design

**3.1 Outline of sample design:** Two frames had been used for the 63<sup>rd</sup> round survey viz. List frame and Area frame.

**3.2 List frame:** A list of 998 service sector companies distributed all over India had been used as list frame. The list of financial sector enterprises had been supplied by RBI. For the other service sector enterprises the list had been supplied by the Ministry of Company Affairs.

For all the companies in the list frame, information was collected considering all the branch offices. A combined schedule 2.345 was filled up for the list frame companies covering all the branches.

All these companies in the list frame were surveyed. However, these companies and their branch offices were excluded from the coverage of the area frame survey to avoid duplication.

There was no sub-round restriction for the list frame units.

**All the enterprises in the list frame were common to both central and state samples.**

The list frame units were surveyed by the central agency only. It was decided that DPD would supply validated data regarding list frame units to the respective State agencies.

### 3.3 Area frame:

A stratified multi-stage design had been adopted for the 63<sup>rd</sup> round survey. The first stage units (FSU) were the 2001 census villages (Panchayat wards in case of Kerala) in the rural sector and Urban Frame Survey (UFS) blocks in the urban sector. In addition, for the newly declared towns and out growths (OGs) in census 2001 for which UFS had not been done, a separate list was prepared and this list had been used as a frame for such towns and OGs in urban sector. For these towns and OGs the whole town/ OG were considered as FSU. The ultimate stage units (USU) were service sector enterprises, in both the sectors. In the case of large villages/ towns/ blocks requiring hamlet-group (hg)/ sub-block (sb) formation, one intermediate stage was the selection of hgs/ sbs from each FSU.

The list of villages as per census 2001 had been used as frame for the rural sector.

In the urban sector, three kinds of frames had been used:

- (a) For the 27 towns with population 10 lakhs or more (as per Census 2001), EC-98 had been used as frame.
- (b) For other UFS towns, the latest available list of UFS blocks had been used as frame.
- (c) For non-UFS towns list of such towns/ OGs had been used as frame.

**3.4 Stratification:** Within each district of a State/ UT, two basic strata had been formed:

i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district. However, if there were one or more towns with population 10 lakhs or more as per population census 2001 in a district, each of them also formed a separate basic stratum and the remaining urban areas of the district were considered as another basic stratum. There were 27 towns with population 10 lakhs or more at all-India level as per census 2001.

### 3.5 Sub-stratification for area frame:

**3.5.1 Rural sector:** If 'r' be the sample size allocated for a rural stratum, the number of sub-strata formed was ' $r/2$ '. The villages within a district as per frame was first arranged in ascending order of population. Then sub-strata 1 to ' $r/2$ ' had been demarcated in such a way that each sub-stratum comprised a group of villages of the arranged frame and had more or less equal population.

#### 3.5.2 Urban sector:

- (a) For the 27 cities where EC-98 frame had been used: A number of sub-strata had been formed within each stratum based on EC-98 information as under:

sub-stratum 1: all FSUs having at least one establishment (i.e. enterprise with at least one hired worker) of Financial sector (NIC 2004 codes: 659, 66, 67) under coverage of survey.

sub-stratum 2: all FSUs, excluding those in the already formed sub-stratum 1, having at least one establishment under coverage of survey belonging to any of the NIC 2004 codes: 72, 73, 92.

sub-stratum 3: all FSUs, excluding those in the already formed sub-strata, having at least one establishment under coverage of survey belonging to any of the NIC 2004 codes: 61, 6302, 70, 71, 90, 9191, 9199.

sub-stratum 4: all FSUs, excluding those in the already formed sub-strata, having at least one establishment under coverage of survey belonging to any of the NIC 2004 codes: 602, 6301, 6303, 6304, 6309, 85.

sub-stratum 5: all FSUs, excluding those in the already formed sub-strata, having at least one establishment in any one of the Section H, I, J, K, M, N, O of NIC 2004 under coverage of survey.

sub-stratum 6: all FSUs, excluding those in the already formed sub-strata, having at least one own account enterprise (OAE) i.e. enterprise with no hired worker in any one of the Section H, I, J, K, M, N, O of NIC 2004 under coverage of survey.

sub-stratum 7: rest of FSUs of the stratum.

(b) For other cities and towns of urban stratum of a district: Three sub-strata were formed as follows:

sub-stratum 1: all UFS blocks (i.e. UFS blocks as per the latest UFS) identified as Industrial Area (IA) or Bazar Area (BA) or Hospital Area (HA) or Slum Area (SA).

sub-stratum 2: remaining UFS blocks.

sub-stratum 3: non-UFS towns/ OGs of Census 2001

**3.6 Total sample size:** 13322 FSUs for area frame and 998 service sector companies for list frame had been allocated at all-India level for central sample on the basis of investigator strength. For state sample, 16892 FSUs had been allocated for area frame.

**3.7 Allocation of total samples to States and UTs:** The total (all-India) sample FSUs had been allocated to the States and UTs in proportion to number of workers in service sector enterprises as per EC '98 engaged in the activities under coverage of the survey subject to the availability of investigators ensuring more or less uniform work-load per investigator. (Hereafter, "**workers**")

will mean **workers in service sector enterprises as per EC '98 engaged in the activities under coverage of this round**).

**3.8 Allocation of State/ UT level sample to Rural and Urban sectors:** State/UT level sample sizes had been allocated to rural and urban sectors in proportion to the total number of workers.

**3.9 Allocation to strata:** Within each sector of a State/UT, the respective sample size had been allocated to the different strata in proportion to the stratum population as per census 2001.

**3.10 Allocation to sub-strata:**

3.10.1 *Rural sector:* Allocation to each sub-stratum was 2 except in a few sub-strata.

3.10.2 *Urban sector:*

For 27 million plus cities in the urban sector, stratum allocations had been distributed over the sub-strata in proportion to the number of *workers*.

For other urban strata, maximum of 2 FSUs were allocated to sub-stratum 3. Rest of the stratum allocation were divided among the sub-strata 1 & 2 in proportion to number of FSUs in the sub-strata with double weightage to sub-stratum 1. Minimum sub-stratum allocation was 2 for sub-strata 1 & 2.

**3.11 Selection of FSUs:** Samples had been drawn in the form of two independent sub-samples in each stratum  $\times$  sub-stratum.

**Rural sector:** FSUs had been selected by PPSWR with size as 'other workers' (i.e. total workers – household industry workers – agricultural labourers – cultivators) as per census 2001.

**Urban sector:**

(a) For 27 million plus cities: FSUs had been selected by PPSWR with the number of workers as size.

(b) For other cities/towns: FSUs had been selected by SRSWOR.

**3.12 Selection of hamlet-groups/ sub-blocks / enterprises - important steps**

**3.12.1 Formation of segment 9:** All non-agricultural enterprises having 50 or more workers in the entire FSU and having operated at least one day during last 365 days preceding the day of survey (hereinafter to be called as 'big' enterprises for brevity) were listed and all the eligible units under coverage were surveyed. All the listed big units (whether under coverage or not) constituted segment 9. All eligible enterprises under coverage were surveyed in segment 9.

**3.12.2 Criterion for hamlet-group/ sub-block formation:** Having constituted segment 9 as stated above, it was determined whether listing was to be done in the whole sample FSU or not.

For this, approximate present population (P) and approximate total number of non-agricultural enterprises (E) for the whole FSU were ascertained first from knowledgeable persons. Depending upon the values of 'P' and 'E', it was divided into a suitable number (say, D) of 'hamlet-groups' in the rural sector and 'sub-blocks' in the urban sector as stated below.

population (P)	no. of hgs/ sbs to be formed	no. of non-agricultural enterprises (E)	no. of hgs/ sbs to be formed
less than 1200	1	less than 120	1
1200 - 1599	4	120 - 159	4
1600 - 1999	5	160 - 199	5
2000 - 2399	6	200 - 239	6
and so on	...	and so on	...

However, while considering enterprise criteria, segment 9 enterprises, if any, were excluded i.e. the value of 'E' above might have been adjusted in respect of the number of enterprises in segment 9. For rural areas of Himachal Pradesh, Sikkim and Poonch, Rajouri, Udhampur, Doda districts of Jammu and Kashmir and Idukki district of Kerala, the number of hamlet-groups were formed as follows.

approximate present population of the sample village	no. of hgs to be formed
less than 600 (no hamlet-groups)	1
600 to 799	4
800 to 999	5
1000 to 1199	6
.....and so on	

For enterprise criterion, procedure was not changed for the above areas.

The higher of the two values as per population and enterprise criteria was accepted as the number of hgs/ sbs actually formed.

**3.12.3 Formation of hamlet-groups/ sub-blocks:** In case hamlet-groups/ sub-blocks were formed in the sample FSU, the same was done by more or less equalizing population. However, it was ensured that the hamlet-groups/ sub-blocks formed were clearly identifiable in terms of physical landmarks.

**3.12.4 Formation of segments 1 and 2:** After formation of hg / sb in the large FSUs, three hg's/ sb's were selected for listing in the following manner – hg with maximum number of service sector enterprise under survey coverage, failing which, with maximum number of non-

agricultural enterprises, failing which, with maximum percentage share of population was always selected and termed as **Segment 1**; two more hgs/ sbs were selected with SRSWOR and combined to constitute **Segment 2**.

**3.12.5 Listing of households/ enterprises and formation of their frame:** Having determined the area(s) to be considered for listing, the next step was to list all the households and non-agricultural enterprises (NAEs) [including those found to be temporarily locked after ascertaining temporariness of locking of households/ NAEs through local enquiry]. Although all non-agricultural enterprises were to be listed, only the service sector enterprises as given in para 2.1 were covered for the survey. Thus, Govt. service sector enterprises / PSUs/ enterprises under the coverage of ASI frame (2004 – 05) were not considered for survey. Further, those service sector enterprises which operated for at least 30 days (15 days for seasonal enterprises) during the reference year (i.e. last 365 days preceding the date of survey) only qualified for survey. Such enterprises will hereafter be referred to as ‘**eligible enterprises**’.

Listing and selection of enterprises were done separately for segment 1 and segment 2. For segment 2, hg/sb with order of selection number 1 was listed first and that with order of selection number 2 was listed next but selection of enterprises was made from the combined list.

### **3.12.6 Formation of Second Stage Strata and allocation of enterprises for schedule 2.345:**

In each of the segments 1, 2 and 9 of the sample FSU, eligible enterprises under coverage were divided into **8** (eight) second stage strata (SSS) as follows:

(i) establishments:

- SSS 1 – financial intermediation excluding monetary intermediation but including money lending, self help group (SHG), co-operative credit society (659), insurance and pension funding except compulsory social security (66), activities auxiliary to financial intermediation (67);
- SSS 2 – storage and warehousing (6302), computer and related activities (72), research and development (73);
- SSS 3 – water transport (61), sewage and refuse disposal, sanitation (90), membership organizations (91);
- SSS 4 – hotels etc. (551), supporting and auxiliary transport activities, activities of travel agencies excluding storage and warehousing (6301, 6303, 6304, 6309), post and courier activities (641), real estate (701), architectural, engineering etc. (742), advertising (743), human health (851), motion pictures, radio, TV and other entertainment (921);
- SSS 5 – rest of the establishments;

(ii) OAEs:

- SSS 6 – financial intermediation excluding monetary intermediation but including money lending, self help group (SHG), co-operative credit society (659), insurance and pension funding, except compulsory social security (66), activities auxiliary to financial intermediation (67);
- SSS 7 – real state (70), computer and related activities (72), research and development (73),

other business activities (74);  
SSS 8 – rest of the OAEs.

The number of enterprises to be surveyed for schedules 2.345 in each FSU were as follows (excluding big enterprises in segment 9).

SSS no.	number of enterprises to be surveyed for schedule 2.345	
	without hg/ sb formation	with hg/ sb formation (for each segment)
1	2	1
2	2	1
3	2	1
4	4	2
5	4	2
6	2	1
7	4	2
8	4	2
total	24	12

From each SSS the sample enterprises for schedule 2.345 were selected by SRSWOR.

## 4. Estimation Procedure

### 4.1 Notations:

s = subscript for s-th stratum

t = subscript for t-th sub-stratum

m = subscript for sub-sample (m = 1, 2)

i = subscript for i-th FSU [village (panchayat ward) / block/ non-UFS town or OG]

d = subscript for a segment (d = 1, 2, 9)

j = subscript for j-th second stage stratum in an FSU/ segment (j = 1, 2, 3, 4, 5, 6, 7 or 8)

k = subscript for k-th sample enterprise under a particular second stage stratum within an FSU/ segment

l = subscript for l-th list frame company

D = total number of hamlet-groups/sub-blocks formed in the sample village (panchayat ward) / block

$D^* = 1$  if  $D = 1$

$= (D - 1) / 2$  for FSUs with  $D > 1$

N = total number of FSUs in any urban sub-stratum belonging to the strata other than million plus cities

Z = total size of a rural sub-stratum or urban sub-stratum of million plus cities (= sum of sizes for all the FSUs of a sub-stratum)

z = size of sample village/block used for selection.

n = number of sample village / block/ non-UFS town or OG surveyed including zero cases but excluding casualty for a particular sub-sample and sub-stratum.

E = total number of enterprises listed in a second-stage stratum of a village/block/ non-UFS town or OG /segment of sample FSU

e = number of enterprises surveyed in a second-stage stratum of a village/block/ non-UFS town or OG /segment of sample FSU

x, y = observed value of characteristics x, y under estimation

$\hat{X}$ ,  $\hat{Y}$  = estimate of population total X, Y for the characteristics x, y

Under the above symbols,

$y_{stmidjk}$  = observed value of the characteristic y for the k-th enterprise in the j-th second stage stratum of the d-th segment (d = 1, 2, 9) of the i-th FSU belonging to the m-th sub-sample for the t-th sub-stratum of s-th stratum;

However, for ease of understanding, a few symbols have been suppressed in following paragraphs where they are obvious.

#### 4.2A Formulae for estimation of aggregates for a particular sub-sample and stratum in rural / urban sector in case of Area Frame:

##### 4.2A.1 Schedules 2.345:

##### 4.2A.1.1 Rural:

Estimation formula for a sub-stratum:

(i) For enterprises selected in j-th second stage stratum:

$$\hat{Y}_j = \frac{Z}{n_j} \sum_{i=1}^{n_j} \frac{1}{z_i} \left[ \sum_{k=1}^{e_{i9j}} y_{i9jk} + \frac{E_{i1j}}{e_{i1j}} \sum_{k=1}^{e_{i1j}} y_{i1jk} + D_i^* \times \frac{E_{i2j}}{e_{i2j}} \sum_{k=1}^{e_{i2j}} y_{i2jk} \right]$$

(ii) For all selected enterprises:

$$\hat{Y} = \sum_j \hat{Y}_j$$

##### 4.2A.1.2 Urban:

(a) Estimation formula for a sub-stratum of million plus cities:

(i) For enterprises selected in j-th second stage stratum:

$$\hat{Y}_j = \frac{Z}{n_j} \sum_{i=1}^{n_j} \frac{1}{z_i} \left[ \sum_{k=1}^{e_{i9j}} y_{i9jk} + \frac{E_{i1j}}{e_{i1j}} \sum_{k=1}^{e_{i1j}} y_{i1jk} + D_i^* \times \frac{E_{i2j}}{e_{i2j}} \sum_{k=1}^{e_{i2j}} y_{i2jk} \right]$$

(ii) For all selected enterprises:

$$\hat{Y} = \sum_j \hat{Y}_j$$

(b) Estimation formula for a sub-stratum of other strata:

(i) For enterprises selected in j-th second stage stratum:

$$\hat{Y}_j = \frac{N}{n_j} \sum_{i=1}^{n_j} \left[ \sum_{k=1}^{e_{i9j}} y_{i9jk} + \frac{E_{i1j}}{e_{i1j}} \sum_{k=1}^{e_{i1j}} y_{i1jk} + D_i^* \times \frac{E_{i2j}}{e_{i2j}} \sum_{k=1}^{e_{i2j}} y_{i2jk} \right]$$

(ii) For all selected enterprises:

$$\hat{Y} = \sum_j \hat{Y}_j$$

Note: For segment 9, an adjustment may be necessary if  $E \neq e$  for a second-stage stratum due to casualty at the detailed enquiry stage. In that case, contribution of segment 9 (i.e.  $\sum_{k=1}^{e_{i9j}} y_{i9jk}$ ) in the

above formulae may be replaced by  $\frac{L_{i9j}}{e_{i9j}} \sum_{k=1}^{e_{i9j}} y_{i9jk}$ , where  $L_{i9j}$  = (number of enterprises of segment 9 with survey code 1) + (number of enterprises of segment 9 with survey code 3 and reason for casualty codes 4 & 9).

$L_{i9j} = e_{i9j}$  if there was no casualty or there was casualty but with reason for casualty code as 1/ 2/ 3/ 5.

#### 4.2A.2 Estimate for a stratum:

$$\hat{Y}_s = \sum_t \hat{Y}_{st}$$

#### 4.2A.3 Overall Estimate for Aggregates for Area Frame:

Overall estimate for aggregates for a stratum ( $\hat{Y}_s$ ) based on two sub-samples was obtained as:

$$\hat{Y}_s = \frac{1}{2} \sum_{m=1}^2 \hat{Y}_{sm}$$

#### 4.2A.4 Overall Area Frame Estimate of Aggregates at State/UT/all-India level:

The overall estimate  $\hat{Y}$  at the State/ UT/ all-India level was obtained by summing the area frame estimates ( $\hat{Y}_s$ ) of stratum over all strata belonging to the State/ UT/ all-India.

#### 4.2B Estimates from List Frame companies for Schedule 2.345 at all-India level:

$$Y = \frac{L}{L'} \sum_{l=1}^{L'} y_l,$$

where

$L$  = (number of list frame companies with survey code 1 in item 19, block 1, schedule 2.345) + (number of list frame companies with survey code 3 and reason for casualty codes 4 & 9 in item 20, block 1, schedule 2.345)

$L' = (\text{number of list frame companies with survey code 1 in item 19, block 1, schedule 2.345})$

L and L' was equal if there was no casualty or there was casualty but the reason for casualty code was 1/2/3/5 in item 20, block 1, schedule 2.345.

Estimates were generated for any NIC category, Division, Group etc., by restricting l, L, L' to that particular domain.

#### 4.2C Estimates for List Frame companies for Schedule 2.345 at *sector* $\times$ *State/UT* level:

Estimate were generated for rural/urban sector of State/UT by taking into account the information provided in block 7.1 for branches. Following procedure was adopted:

- (i) If a list frame company had no branch, then its *sector*  $\times$  *State/UT* was determined by the location given in the list frame of companies.
- (ii) If a list frame company had branches over different sectors and States/UTs, estimates of any aggregate (e.g. GVA etc.) for any *sector*  $\times$  *State/UT* were obtained **in a proportionate manner**. The proportion was the ratio of the number of workers of the company (taking into account all the branches) located in a particular *sector*  $\times$  *State/UT* (to be obtained from block 7.1) to the total number of workers of the company given in column (5) of block 7.1 against 'total' in the last row.

#### 4.3 Overall Estimate of Aggregates at State/UT/all-India level for schedule 2.345:

The overall estimate  $\hat{Y}$  at the State/ UT/ all-India level for the schedule 2.345 was obtained by summing the area frame estimates and list frame estimates of aggregates for the State/ UT/ all-India.

#### 4.4 Estimates of Ratios:

Let  $\hat{Y}$  and  $\hat{X}$  be the overall estimate of the aggregates Y and X (sum of area frame and list frame estimates) for two characteristics y and x respectively at the State/ UT/ all-India level.

Then the combined ratio estimate ( $\hat{R}$ ) of the ratio ( $R = \frac{Y}{X}$ ) was obtained as  $\hat{R} = \frac{\hat{Y}}{\hat{X}}$ .

**4.5 Estimates of Error:** There was no sampling for the list frame enterprises since it was the census of all units. The variance comprised only that due to area frame units. The estimated variances of the estimates were as follows:

##### 4.5.1 For aggregate $\hat{Y}$ :

$$V \hat{r}(\hat{Y}) = \sum_s V \hat{r}(\hat{Y}_s)$$

where  $V \hat{r}(\hat{Y}_s)$  are as given below.

4.5.1.1 For strata with PPSWR selection at first stage:

$$Var_{ppswr}(\hat{Y}_s) = \left[ \sum_t \frac{1}{n_{st}(n_{st}-1)} \sum_{i=1}^{n_{st}} \left( \frac{Z_{sti} \hat{Y}_{sti}}{Z_{sti}} - \hat{Y}_{st} \right)^2 \right],$$

where  $\hat{Y}_{sti} = \sum_j \hat{Y}_{stij}$  and

$$\hat{Y}_{stij} = \left[ \sum_{k=1}^{e_{sti9j}} y_{sti9jk} + \frac{E_{sti1j}}{e_{sti1j}} \sum_{k=1}^{e_{sti1j}} y_{sti1jk} + D_{sti}^* \times \frac{E_{sti2j}}{e_{sti2j}} \sum_{k=1}^{e_{sti2j}} y_{sti2jk} \right]$$

4.5.1.2 For strata with SRSWOR selection at first stage:

$$Var_{srswor}(\hat{Y}_s) = \sum_t \frac{1}{4} (\hat{Y}_{st1} - \hat{Y}_{st2})^2,$$

where  $\hat{Y}_{st1}$  and  $\hat{Y}_{st2}$  are the estimates for sub-sample 1 and sub-sample 2 respectively for stratum 's' and sub-stratum 't'.

4.5.2 For ratio  $\hat{R}$ :

$$M\hat{S}E(\hat{R}) = \frac{1}{(\hat{X})^2} \left[ \sum_s M\hat{S}E_s(\hat{R}) + \sum_{s'} M\hat{S}E_{s'}(\hat{R}) \right]$$

where s, s' indicate respectively the strata with PPSWR and SRSWOR selection at first stage.

4.5.2.1 For strata with PPSWR selection at first stage:

$$M\hat{S}E_s(\hat{R}) = \sum_t \frac{1}{n_{st}(n_{st}-1)} \sum_{i=1}^{n_{st}} \left[ \frac{Z_{sti}}{Z_{sti}} (\hat{Y}_{sti} - \hat{R} \hat{X}_{sti}) - (\hat{Y}_{st} - \hat{R} \hat{X}_{st}) \right]^2$$

where

$$\hat{Y}_{sti} = \sum_j \hat{Y}_{stij}, \quad \hat{X}_{sti} = \sum_j \hat{X}_{stij},$$

and

$$\hat{Y}_{stij} = \left[ \sum_{k=1}^{e_{sti9j}} y_{sti9jk} + \frac{E_{sti1j}}{e_{sti1j}} \sum_{k=1}^{e_{sti1j}} y_{sti1jk} + D_{sti}^* \times \frac{E_{sti2j}}{e_{sti2j}} \sum_{k=1}^{e_{sti2j}} y_{sti2jk} \right],$$

$$\hat{X}_{stij} = \left[ \sum_{k=1}^{e_{sti9j}} x_{sti9jk} + \frac{E_{sti1j}}{e_{sti1j}} \sum_{k=1}^{e_{sti1j}} x_{sti1jk} + D_{sti}^* \times \frac{E_{sti2j}}{e_{sti2j}} \sum_{k=1}^{e_{sti2j}} x_{sti2jk} \right].$$

4.5.2.2 For strata with SRSWOR selection at first stage:

$$M\hat{S}E_s(\hat{R}) = \sum_t \frac{1}{4} \left[ (\hat{Y}_{s't1} - \hat{Y}_{s't2})^2 + \hat{R}^2 (\hat{X}_{s't1} - \hat{X}_{s't2})^2 - 2\hat{R}(\hat{Y}_{s't1} - \hat{Y}_{s't2})(\hat{X}_{s't1} - \hat{X}_{s't2}) \right]$$

where  $\hat{Y}_{s't1}$  and  $\hat{Y}_{s't2}$  are the estimates for sub-sample 1 and sub-sample 2 respectively for stratum 's' and sub-stratum 't'.

4.6 Estimates of RSE:

$$R\hat{S}E(\hat{Y}) = \frac{\sqrt{\text{Var}(\hat{Y})}}{\hat{Y}} \times 100$$

$$R\hat{S}E(\hat{R}) = \frac{\sqrt{M\hat{S}E(\hat{R})}}{\hat{R}} \times 100$$

4.7 Multipliers for Area frame enterprises:

The formulae for multipliers for a sub-sample for Schedule 2.345 are given below:

sector	sub-stratum	formula for multipliers		
		segment 9	segment 1	segment 2
rural	all	$\frac{Z_{st}}{n_{stmj}} \times \frac{1}{z_{stmi}} \times \frac{L_{stmi9j}}{e_{stmi9j}}$	$\frac{Z_{st}}{n_{stmj}} \times \frac{1}{z_{stmi}} \times \frac{E_{stmi1j}}{e_{stmi1j}}$	$\frac{Z_{st}}{n_{stmj}} \times \frac{1}{z_{stmi}} \times D_{stmi}^* \times \frac{E_{stmi2j}}{e_{stmi2j}}$
urban	for million plus cities	$\frac{Z_{st}}{n_{stmj}} \times \frac{1}{z_{stmi}} \times \frac{L_{stmi9j}}{e_{stmi9j}}$	$\frac{Z_{st}}{n_{stmj}} \times \frac{1}{z_{stmi}} \times \frac{E_{stmi1j}}{e_{stmi1j}}$	$\frac{Z_{st}}{n_{stmj}} \times \frac{1}{z_{stmi}} \times D_{stmi}^* \times \frac{E_{stmi2j}}{e_{stmi2j}}$
	for other strata	$\frac{N_{st}}{n_{stmj}} \times \frac{L_{stmi9j}}{e_{stmi9j}}$	$\frac{N_{st}}{n_{stmj}} \times \frac{E_{stmi1j}}{e_{stmi1j}}$	$\frac{N_{st}}{n_{stmj}} \times D_{stmi}^* \times \frac{E_{stmi2j}}{e_{stmi2j}}$

Note: (i) For estimating any characteristic for any domain not specifically considered in sample design, indicator variable may have been used.

- (ii) Multipliers had to be computed on the basis of information available in the listing schedule irrespective of any misclassification observed between the listing schedule and detailed enquiry schedule.
- (iii) For estimating number of villages possessing a characteristic,  $D_{stmi}^* = 1$  in the relevant multipliers and there was only one multiplier for the village.

## 5. Treatment for zero cases, casualty cases etc.:

5.1 While counting the number of FSUs surveyed ( $n_{stmi}$ ) in a sub-stratum, all the FSUs with survey codes 1 to 6 in schedule 0.0 were considered. In addition, if no SSU was available in the frame for a particular schedule, then also that FSU was treated as surveyed in respect of that schedule. However, if the SSUs of a particular schedule type were available in the frame of the FSU but none of these could be surveyed then that FSU had to be treated as casualty and it was not treated as surveyed in respect of that schedule.

5.2 *Casualty cases*: FSUs with survey code 7 as per schedule 0.0 were treated as casualties. In addition to this, an FSU, although surveyed, might have been treated as casualty for a particular schedule type and a particular *second stage stratum* as given in the following para:

5.2.1 Similarly, FSUs with survey codes 1 and 4 as per schedule 0.0 having number of enterprises in the frame of j-th second stage stratum greater than 0 but number of enterprises surveyed according to data file, considering all three segments together, as nil (i.e.  $E_{i9j} + E_{i1j} + E_{i2j} > 0$  but  $e_{i9j} + e_{i1j} + e_{i2j} = 0$ ) were taken as casualties for j-th second stage stratum

*All the FSUs with survey codes 1 to 6 as per schedule 0.0 minus the number of casualties as identified above were taken as the number of surveyed FSUs ( $n_{stmi}$ ) for that sub-stratum  $\times$  second stage stratum.*

5.2.2 When casualty for j-th second stage stratum occurred for a particular segment but not for the other segment, the FSU was not treated as casualty but some adjustments in the value of E for the other segment were done as follows:

- (i) Suppose for segment 1,  $E_{i1j} > 0$  but  $e_{i1j} = 0$  while for segment 2,  $E_{i2j} > 0$  and  $e_{i2j} > 0$ . In that case  $D_i^* \times E_{i2j}$  will be replaced by  $(E_{i1j} + D_i^* \times E_{i2j})$  in the formula for multiplier of segment 2.
- (ii) Suppose for segment 1,  $E_{i1j} > 0$  and  $e_{i1j} > 0$  while for segment 2,  $E_{i2j} > 0$  but  $e_{i2j} = 0$ . In that case  $E_{i1j}$  will be replaced by  $(E_{i1j} + D_i^* \times E_{i2j})$  in the formula for multiplier of segment 1.

However, segment 9 need not be clubbed with segment 1 or segment 2 if segment 9 enterprises were surveyed but no enterprise could be surveyed from segments 1 / 2.

It may be noted that  $n_{stmi}$  would be same for segments 1 & 2 of an FSU.

## 6. Treatment in cases of void second-stage strata/sub-strata /strata/NSS region at FSU or enterprise level

6.1 A sub-stratum might be void because of the casualty of all the FSUs belonging to the sub-stratum. This might have occurred in one sub-sample or in both the sub-samples. If it related to only one sub-sample, then estimate for the void sub-stratum might have been replaced with the estimate as obtained from the other sub-sample for the same sub-stratum.

6.2 When a sub-stratum was void in both the sub-samples, the following procedure was recommended:

*Case(I): Sub-stratum void cases at FSU levels (i.e. all FSUs having survey code 7):*

- i) If one of the rural sub-strata 1, 2, 3, 4, etc. was void then it might be merged with a sub-stratum having the next higher population size class of villages within the same district. Sub-stratum 1 might be merged with sub-stratum 2, sub-stratum 2 with sub-stratum 3 and so on. If last sub-stratum was void, it was merged with the previous sub-stratum.
- (ii) In the case of urban million plus cities, if any of sub-stratum 1/2/3/4 cities was void then it might be merged with sub-stratum 5 of the same stratum. If sub-stratum 5 was void, it might be merged with sub-stratum 6 and vice versa. If sub-stratum 7 was void, it might be merged with sub-stratum 6.
- (iii) In the case of other urban strata, if sub-stratum 1 was void, it might be merged with sub-stratum 2 and vice versa. If sub-stratum 3 was void, instruction was issued to contact SDRD for necessary guidelines.
- (iv) If all the sub-strata in a district were void, it might have been excluded from the coverage of the survey. The state level estimates were based on the estimates of districts for which estimates were available and remarks to that effect were added in appropriate places.

*Case (II): Stratum void case at second stage stratum level (i.e. all the FSUs are casualties for a particular second stage stratum):*

An FSU might be a casualty for a particular *second stage stratum* although survey code is not 7. If all the FSUs of a sub-stratum became casualties in this manner for a particular *second stage stratum*, the sub-stratum became void. In such cases, sub-strata were merged with other sub-strata for all the second stage strata as in *Case (I) above*.

However, if whole district/stratum became void in this manner for a particular second stage stratum, adjustment for this type of stratum void case may have been done according to the following guidelines.

The adjustment was made involving other strata (within NSS region) of the State/U.T. Suppose A, B, C and D were the four strata in the State/UT/Region and stratum C was void for j-th *second stage stratum*. If  $\hat{Y}_{aj}$ ,  $\hat{Y}_{bj}$  and  $\hat{Y}_{dj}$  were the aggregate estimates for the strata A, B and D respectively, then the estimate  $\hat{Y}_{cj}$  for stratum C were obtained as  $\left( \frac{\hat{Y}_{aj} + \hat{Y}_{bj} + \hat{Y}_{dj}}{Z_a + Z_b + Z_d} \times Z_c \right)$  where  $Z_a$ ,  $Z_b$ ,  $Z_c$  and  $Z_d$  were the sizes of strata A, B, C and D respectively.

6.3 It may be noted that allocation of sample FSUs was not done according to sub-stratum  $\times$  sub-round. Hence all the sub-rounds were not represented in a sub-stratum. Sub-round wise estimates, therefore, cannot be generated without merging the sub-strata.

Schedule 2.345

RURAL	*
URBAN	

CENTRAL	*
STATE	

**GOVERNMENT OF INDIA**  
**NATIONAL SAMPLE SURVEY ORGANISATION**  
**SOCIO-ECONOMIC SURVEY**  
**SIXTY-THIRD ROUND: JULY 2006 – JUNE 2007**

**SCHEDULE 2.345: SERVICE SECTOR ENTERPRISES (EXCLUDING TRADE)**

[0] descriptive identification of sample enterprise	
1. state / u.t.:	6. ward /inv. unit / UFS block:
2. district:	7. name of owner:
3. tehsil / town*:	8. name of informant:
4. village name:	9. name and address of the enterprise:
5. serial no. of hamlet:	

[1] identification of sample enterprise								
item no.	item	code				item no.	item	code
1.	serial number of sample village/block (area frame) / company (list frame)					11.	sub – round	
						12.	sub – sample	
						13.	FOD sub-region <sup>#</sup>	
2.	frame used (list-1, area-2)					14.	segment number (1 / 2 / 9)	
3.	round number	6	3			15.	second stage stratum (code)	
4.	schedule number	2	3	4	5	16.	sample enterprise number	
5.	sample (central-1, state-2) (put '1' for list frame)					17.	informant code	
6.	sector (rural - 1, urban - 2)					18.	response code	
7.	state – region					19.	survey code	
8.	district					20.	if item 19 is 2 or 3 reason for casualty (list frame)/ substitution of original enterprise (area frame)	
9.	stratum							
10.	sub-stratum					21.	PSL no. as per ASI frame (for 'list frame' units only, if applicable)	

**CODES FOR BLOCK 1**

item 17 : **informant code** : owner/partner – 1, manager – 2, others working in the enterprise – 9

item 18 : **response code** (to be filled up after filling up the entire schedule):

informant : co-operative and capable – 1, co-operative but not capable – 2, busy – 3, reluctant – 4, others – 9

item 19 : **survey code**: original enterprise surveyed – 1, substitute surveyed – 2, casualty – 3

item 20 : **reason for**

**casualty (list frame)**: enterprise: Government/ PSU/under the coverage of ASI-1, non-operative/closed during the reference year-2, non-traceable-3, in operation during the reference year but data could not be collected-4, enterprise found to be outside survey coverage at detailed enquiry stage-5, others(specify)-9

**substitution of original enterprise (area frame)**: informant : busy – 1, not available – 2, non-cooperative – 3, enterprise found to be outside survey coverage at detailed enquiry stage-4, others – 9

\* Tick mark ( ✓ ) may be put in appropriate place.

<sup>#</sup> Not applicable for Arunachal Pradesh, Manipur, Mizoram and Tripura.

## CODES FOR BLOCK 2.1

<b>item 208: type of ownership</b>			
proprietary (male).....	1	co-operative society/ self-help group.....	5
proprietary (female).....	2	private limited company.....	6
partnership with members of the same household.....	3	public limited company.....	7
partnership between members not all from the same household...	4	others.....	9
<b>item 213: general educational level of the working owner</b>			
not literate.....	01	primary.....	04
diploma/ certificate course.....			08
literate without formal schooling	02	middle.....	05
graduate.....			10
literate but below primary.....	03	secondary.....	06
postgraduate or above.....			11
higher secondary....	07		
<b>item 217: whether accounts maintained</b>			
<b>Yes, usable books of accounts maintained,</b>			
<b>and</b> information was collected from books of accounts	1	<b>No</b> usable books of accounts maintained...	3
<b>but</b> information was collected orally.....	2		
<b>item 220: location of the enterprise</b>			
<b>within</b> household premises .....	1		
<b>outside household premises:</b>			
with fixed premises and with permanent structure.....	2	mobile market .....	5
with fixed premises and with temporary structure/kiosk/stall	3		
with fixed premises but without any structure .....	4	without fixed premises (street vendors, etc.)	6
<b>items 222 and 223: nature of problems faced, if any</b>			
non-availability of electricity connection .	01	non-availability of labour/ labour problems.....	07
power cut.....	02	fuel not available or available at exorbitant price..	08
shortage of capital.....	03	non-recovery of service charges/ fees/ credit ...	10
marketing of products/services.....	04	others .....	19
local problems/ harassment.....	05		
competition from larger units .....	06	no specific problem .....	11
<b>items 226 and 227: types of assistance received</b>			
financial loan (institutional) .....	1	marketing .....	6
financial loan (non-institutional) .....	2	procurement of raw material.....	7
subsidy.....	3	others .....	9
machinery/ equipment.....	4		
training .....	5	no assistance received from any source	8
<b>items 234 and 235: other Acts/ authorities of registration/recognition</b>			
municipal corporation, panchayat, local body..	01	directorate of education / AICTE /NCTE.....	11
Shops and establishments Act.....	02	Medical Practitioners Act.....	12
Sales Tax Act.....	03	Co-operative Societies Act.....	13

bar council .....	07	Factories Act, 1948.....	17
Chartered Accountants Act.....	08		
NASSCOM.....	10	other (please specify).....	19

## Blocks to be filled and reference period by major activity and source of data

Data will be recorded from books of accounts, if maintained by the enterprise.

Major Activity	Blocks to be filled	Reference period	
		Books of Accounts	oral
Financial	1, 2.1, 2.3 (for SHG & co-op credit society), 6 to 13	FY 2005-06, if ready or FY 2004-05	Reference month
Non-financial	1, 2.1, 2.2 (for transport), 3 to 5, 7 to 13		

Also fill block 7.1 for branch-wise data of list frame companies.

<b>[2.1] particulars of operation and background information</b>																	
was the enterprise pursuing mixed activity during reference year? ( <i>yes – 1, no – 2</i> )											201.						
description of major activity during the reference year:																	
5-digit code as per NIC 2004											202.						
if item 201 is '1' description of <i>most important minor activity</i> during the <b>reference period</b> :																	
5-digit code as per NIC 2004											203.						
nature of operation ( <i>perennial – 1, seasonal – 2, casual – 3</i> )											204.						
number of months (in whole number) operated during the reference year											205.						
number of <b>hours</b> the enterprise normally worked <b>in a day</b>											during the reference year			206.			
											during the reference month			207.			
type of ownership (code)											208.						
if item 208 is '1' to '4'	did the working owner (s) undertake any other economic activity during the reference year? ( <i>yes – 1, no – 2</i> )											209.					
	if item 209 is '1'	was the present enterprise the major source of annual income of the working owner (s)? ( <i>yes – 1, no – 2</i> )											210.				
		if item 210 is '2'	% of annual income of the working owner (s) derived from the enterprise under survey (in whole number)											211.			
	description of most important other activity (give 'X' if major income is from non-economic activity like pension, etc.)											212.					
	industry <b>section</b> (one of A to Q or X) as per NIC 2004																
	general educational level of working owner (code)											213.					
	social group of working owner ( <i>ST-1, SC-2, OBC-3, others-9</i> )											214.					
	total no. of EFPs of the working owner ( <i>EFP: enterprises with fixed premises</i> )											215.					
total no. of EFPs of the working owner <i>with same activity (same as item 202 at 2-digit level)</i>											216.						
whether accounts maintained (code)											217.						
data of blocks 3 to 5 (oral non. fin.)/7- 10 (B/S non. fin)/ 6-10 (fin.) collected for the period				<b>from</b>	D	D	M	M	Y	Y	<b>to</b>	D	D	M	M	Y	Y
				218.							219.						
location of the enterprise (code)											220.						
whether private non-profit institution? ( <i>yes-1,no -2</i> )											221.						
nature of problems faced, if any, during the reference year( <i>at most 2 codes in the order of code list</i> )											222.						
											223.						
did the enterprise undertake any work on contract basis? ( <i>yes – 1, no – 2</i> )											224.						
major destination agency for sale of output ( <i>households-1, government- 2, resident financial enterprises-3, resident non-financial enterprises-4,NPIs-5, non-residents-6</i> )											225.						
types of assistance received during the last five years (code) ( <i>at most 2 codes may be given in descending order of the importance of assistance</i> )											226.						
											227.						
enterprise type during the reference year (Own Account Enterprise-1, Establishment-2)											228.						
<b>following questions of block 2.1 may be enquired after filling data in blocks 2.2 to 11</b>																	
whether this enterprise registered/ recognised under any act/ authority? ( <i>yes – 1, no – 2</i> )											229.						
if item 229 is '1'	whether this enterprise registered under Companies Act, 1956? ( <i>yes – 1, no – 2</i> )											230.					
	if item 208 is '3' to '9'	Whether having a PAN for this enterprise? ( <i>yes – 1, no – 2</i> )											231.				
		Whether having a TAN for this enterprise? ( <i>yes – 1, no – 2</i> )											232.				
	Whether this enterprise is registered as a service tax assessee? ( <i>yes – 1, no – 2</i> )											233.					
other Acts/authorities of registration/ recognition of this enterprise( <i>at most 2 codes in the order of code list</i> ) if item 234/235 is 19, please specify the registration agency:											234.						
											235.						

<b>[2.2] details of vehicles operated (owned) during last 30 days/ last calendar month (applicable for Land Transport (NIC 2004 class 6021, 6022 and 6023))</b>							
type of vehicle	item no.	no. of vehicles				payload capacity (in tonnes, whole no.)	total distance covered (in km)
		total	of age				
			less than 5 years	5-9 years	10 years or more

consultation fees and charges for medicines	417.	
charges for operation theatre and other special procedures	418.	
charges for ward / cabin, pathological, radiological and other diagnostic tests, diet, nursing, physiotherapy and rehabilitation etc.	421.	
fees for training (nurses, paraprofessionals, etc.)	422.	
funding/ donations from individuals and non-govt. institutions ( <i>transfer of such capital receipts will be recorded in item 552, govt grants and subsidies will be recorded in items 446, 447 &amp; 551, not here</i> )	423.	
<b>total (items 401 to 423)</b>	<b>429.</b>	

No separate sub-block has been kept for other community, social and personal services (NIC-04 codes 90 to 93). All receipts of these enterprises are to be reported in blocks 4.1 and 5.

NSS Report No. 529: Service Sector Enterprises in India, 2006-07: Salient Features

<b>[4.1] other receipts during the reference period : all non-financial enterprises</b>		
(The overall receipts of the enterprise will be recorded here. If some items have already been covered under specific activities in block 4, they should not be reported here again. Items of earnings appearing in block 5 should not be recorded here)		
description	item no.	value (Rs.)
(1)	(2)	(3)
<b>manufacturing and trading</b>		
receipts from sale of goods manufactured or incidental to manufacturing ( <i>please check consistency with item 362</i> )	431.	
<i>(please check consistency with item 363)</i>	receipts from sale of goods traded	432.
	<b>closing</b> stock of trading goods	433.
	<b>opening</b> stock of trading goods	434.
	change in stock of trading goods (item 433 – item 434) [put (-) sign in case of negative value]	435.
<b>total (item 431+ item 432+ item 435)</b>	439.	
<b>other receipts</b>		
receipts from services provided to others including commission charges	441.	
value of own construction of building, furniture and fixtures including own and hired labour charges ( <i>please check consistency with item 343</i> )	442.	
value of consumption of goods/services produced or traded for own use of the owner or employees (at owner's cost) ( <i>please check consistency with items 801 to 804</i> )	443.	
rent receivable on fixed assets (other than land and building)	444.	
funding/ donations from individuals and non-govt. institutions <sup>&amp;</sup> ( <i>transfer of such capital receipts will be recorded in item 552, govt grants and subsidies will be recorded in items 446, 447 &amp; 551, not here</i> )	445.	
Govt. grants ( <i>excluding capital transfers like building fund, etc.</i> )	446.	
production subsidy/ interest subsidy	447.	
other receipts (e.g., royalty receipts <i>excluding</i> royalty receipts on land and subsoil assets like minerals, etc.)	448.	
<b>total (items 441 to 448)</b>	449.	

<sup>&</sup> funding/donations for education, health and social work activities reported in respective items of block 4 should not be repeated here. Donations against which the payee does not receive any service will be recorded in item 537, not in blocks 4 or 4.1.

<b>[4.2] calculation of gross value added for the reference period: all non-financial enterprises</b>		
description	item no.	value (Rs.)
(1)	(2)	(3)
total receipts [items (429+439+449)]	451.	
total operating expenses [items (339+369)]	452.	
distributive expenses, if any <sup>@</sup>	453.	
<b>gross value added (item 451 - item 452 – item 453)</b> [put (-) sign in case of negative value] <sup>#</sup>	<b>459.</b>	

<sup>#</sup> in case of negative value added give reason code (and explanation, for code 9) in **block 12** after deep probing.

<sup>@</sup> if value of receipts are reported at ex-factory value, distributive expenses will be zero.

[5] other receipts/expenditures during the reference period: all non-financial enterprises		
		(Rs. in whole number)
description	item no.	value (Rs.)
(1)	(2)	(3)
<b>expenditure and appropriations</b>		
interest payments	501.	
dividend payments	502.	
rent payments on land and building	503.	
royalties payments on land and subsoil assets like minerals, etc.	504.	
donations, <i>puja</i> expenses, etc.	505.	
loss on exchange	506.	
loss due to sale of investments (both fixed and financial assets)	507.	
taxes on production (e.g., land and building tax, municipal tax, water tax, registration fee and annual road tax for vehicles, license fees, cess charged by local bodies, etc. <i>excluding</i> excise duties and other indirect taxes)	508.	
provisions for income tax	511.	
written off and provisions for bad and doubtful debts	512.	
transfer to reserves	513.	
transfer to balance sheet	514.	
<b>total (items 501 to 514)</b>	<b>519.</b>	
transfer of capital expenses	521.	
<b>earnings</b>		
interest receipts	531.	
dividend receipts	532.	
rent receipts from land and building ( <i>for NIC division 70, i.e., real estate and renting activities, this will be recorded in item 412, not here</i> )	533.	
royalty receipts on land and subsoil assets like minerals, etc.	534.	
insurance claims	535.	
refund of income tax	536.	
donations, <i>puja</i> , etc.	537.	
gain on exchange	538.	
income due to sale of investments (both fixed and financial assets)	541.	
excess provision written back	542.	
transfers from reserves	543.	
balance brought forward from last account	544.	
<b>total (items 531 to 544)</b>	<b>549.</b>	
transfer of capital receipts	Govt.	551.
	others	552.
provisions for depreciation	553.	

*#Data from blocks 3 to 4.1 will not be duplicated in this block.*

*donation, puja: payments against which the payee does not receive any goods or services*

*transfer of capital expenses: non-compulsory donations paid by the enterprise for formation of assets*

*transfer of capital receipts: government grants and other non-compulsory donations received by the enterprise for formation of assets like building, furniture, laboratory equipment, etc.*

[6] gross value added during the reference period: all financial enterprises (NIC 2004 codes 659 and money lending from own source (65925), Self-Help Group (65994), co-operative credit societies (65995)), 66, 67
