Overview	
<b>Type</b>	Socio-Economic/ Social Consumption-Education
<b>Identification</b>	DDI-IND-MOSPI-NSSO-71st-Sch25dot2-2014
<b>Version</b>	Production Date: 2015-07-16 V1.0; Re-organised anonymised dataset for public distribution.
<b>Series</b>	NSS 71st (January 2014 - June 2014) round Schedule 25.2 is devoted to the subject of Social Consumption and earmarked for survey on 'Education'. The last survey on education was conducted during 64th round of NSS (July 2007 - June 2008).

### Abstract

This schedule is designed to collect the information on (a) participation of persons aged 5-29 years in the pursuit of education, (b) private expenditure incurred on the education of household members including those who are resident of Students' hostel at the time of survey, (c) examining the extent of educational wastage and their causes in terms of dropout and discontinuance and (d) IT literacy of persons aged 14 years and above. However, inclusions and exclusions, in a nutshell, are mentioned below.

#### Inclusions:

- I.School education commencing from class I to X or XII, as the case may be, irrespective of the recognition status of the educational institution,
- II.Higher secondary / Pre-university education leading to award of certificate/ diploma/ degree etc. including enrolment in private unrecognised institutions, which are authorised to sponsor students for public examinations as private or external candidates,
- III.General University education in Universities which are recognised by University Grant Commission(UGC),
- IV.Correspondence or distance learning courses conducted by Universities, Deemed Universities or Institutions, authorised by competent authorities for awarding regular degrees or diplomas or certificates,
- V.Technical or Professional courses, conducted by Universities, Deemed Universities or institutes like, National Institute of Fashion Technology, National School of Drama, Satyajit Ray Film and Television Institute, Film and Television Institute of India, Lok Nayak Jayaprakash Narayan National Institute of Criminology and Forensic Science, etc. or Institutions, authorised by competent authorities like All India Council of Technical Education (AICTE), Medical Council of India (MCI), The Institute of Chartered Accountants of India, The Institute of Cost and Works Accountants of India, The Institute of Company Secretaries of India, Actuarial Society of India, etc., leading to award of degree/diploma/certificates
- VI.All types of courses of duration three months or more, conducted by Institutions like Industrial Training Institute (ITI), National Vocational Training Institute, Regional Vocational Training Institutes, etc., authorised by competent authorities
- VII.Any course at primary level and above conducted by recognised educational institution not covered above.

#### Exclusions:

- I.Art, music and similar type of courses conducted by individuals in their houses or by unrecognised/ unaffiliated institutions,
- II.Classes taken by Private tutors,
- III.Education in nursery/Kindergartens/Preparatory levels except for their enrolment statuses and dropout / discontinuance statuses .
- IV.The non-formal system of education being implemented through various programmes by government or other agencies except for their enrolment statuses and discontinuance / dropout statuses.

Summary description of the schedule: In the present round, Schedule 25.2 on education and IT literacy consists of 10 blocks. The first three blocks, viz., Block 0, Block 1 and Block 2 have used for recording identification of sample households and particulars of field operations, as practised in previous rounds. The last two blocks, viz., Block 8 and Block 9 have used to record the remarks/comments of investigator and supervisory officer(s) respectively. Block 3 is used for recording the household characteristics like household size, principal industry and principal occupation of household, household type,

religion, social group, distance from nearest school having primary/upper primary/secondary level classes, whether the household has a computer/ any access to internet and household's usual consumer expenditure in a month etc. Block 4 is used for recording the demographic and other particulars of all the household members satisfying the modified definition of household. Particulars of IT literacy for household members aged 14 & above and the particulars of current educational attendance and current enrolment status for household member aged 5-29 years are also collected in Block 4. The education particulars of the household members, aged 5 years to 29 years, who are currently attending educational institutions at primary level and above are recorded in Block 5. In this block, information on course, level, class/grade/year, type of institution, medium of instruction, etc., are collected on basic course. Block 6 is designed to collect particulars of private expenditure on education of the household members, whose educational particulars are collected in block 5. Here, the break-up of expenditure of the basic course of each such member is collected in detail. Particulars of household members, aged 5 years to 29 years, who are currently not attending any educational institution, are collected in Block 7. In this block, information like whether ever enrolled, age at entry in school, age of discontinuation / dropping, etc. have also recorded.

## Scope & Coverage

### Scope

In the present round, Schedule 25.2 on education and IT literacy consists of 10 blocks. The first three blocks, viz., Block 0, Block 1 and Block 2 have used for recording identification of sample households and particulars of field operations, as practised in previous rounds. The last two blocks, viz., Block 8 and Block 9 have used to record the remarks/comments of investigator and supervisory officer(s) respectively. Block 3 is used for recording the household characteristics like household size, principal industry and principal occupation of household, household type, religion, social group, distance from nearest school having primary/upper primary/secondary level classes, whether the household has a computer/ any access to internet and household's usual consumer expenditure in a month etc. Block 4 is used for recording the demographic and other particulars of all the household members satisfying the modified definition of household. Particulars of IT literacy for household members aged 14 & above and the particulars of current educational attendance and current enrolment status for household member aged 5-29 years are also collected in Block 4. The education particulars of the household members, aged 5 years to 29 years, who are currently attending educational institutions at primary level and above are recorded in Block 5. In this block, information on course, level, class/grade/year, type of institution, medium of instruction, etc., are collected on basic course. Block 6 is designed to collect particulars of private expenditure on education of the household members, whose educational particulars are collected in block 5. Here, the break-up of expenditure of the basic course of each such member is collected in detail. Particulars of household members, aged 5 years to 29 years, who are currently not attending any educational institution, are collected in Block 7. In this block, information like whether ever enrolled, age at entry in school, age of discontinuation / dropping, etc. have also recorded.

<b>Sampling</b>
<p><b><u>Sampling Procedure</u></b></p> <p>Outline of sample design: A stratified multi-stage design has been adopted for the 71st round survey. The first stage units (FSU) are the census villages (Panchayat wards in case of Kerala) in the rural sector and Urban Frame Survey (UFS) blocks in the urban sector. The ultimate stage units (USU) are households in both the sectors. In case of large FSUs, one intermediate stage of sampling is the selection of two hamlet-groups (hgs)/ sub-blocks (sbs) from each rural/ urban FSU.</p> <p>Sampling Frame for First Stage Units: For the rural sector, the list of 2011 census villages (henceforth the term 'village' would mean Panchayat wards for Kerala) constitutes the sampling frame. In case of Kerala, due to the non-availability of Panchayat wards based on census 2011, the available list of Panchayat wards based on census 2001 is used as the rural frame. For the urban sector, the latest updated list of UFS blocks (phase 2007-12) is considered as the sampling frame.</p> <p>Stratification: Stratum has been formed at district level. Within each district of a State/UT, generally speaking, two basic strata have been formed: (i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district. However, within the urban areas of a district, if there are one or more towns with population 1 lakh or more as per Census 2011, each of them formed a separate basic stratum and the remaining urban areas of the district has been considered as another basic stratum.</p> <p>Special stratum in the rural sector: There are some villages in Nagaland and Andaman &amp; Nicobar Islands which remains difficult to access. As in earlier rounds, a special stratum has been formed at State/UT level comprising these villages in the two State/UTs.</p> <p>Sub-stratification:</p> <p>Rural sector: If 'r' be the sample size allocated for a rural stratum, the number of sub-strata formed was 'r/2'. The villages within a district as per frame have been first arranged in ascending order of population. Then sub-strata 1 to 'r/2' have been demarcated in such a way that each sub-stratum comprised a group of villages of the arranged frame and had more or less equal population.</p> <p>Urban sector: If 'u' be the sample size allocated for an urban stratum, the number of sub-strata formed was 'u/2'. For all strata, if <math>u/2 &gt; 1</math>, implying formation of 2 or more sub-strata, all the UFS blocks within the stratum have been first arranged in ascending order of total number of households in the UFS Blocks as per UFS phase 2007-12. Then sub-strata 1 to 'u/2' have been demarcated in such a way that each sub-stratum had more or less equal number of households.</p> <p>Total sample size (FSUs): 8300 FSUs have been allocated for the central sample at all-India level. For the state sample, there are 9274 FSUs allocated for all-India. State wise allocation of sample FSUs is given in Table 1.</p> <p>Allocation of total sample to States and UTs: The total number of sample FSUs have been allocated to the States and UTs in proportion to population as per Census 2011 subject to a minimum sample allocation to each State/ UT. While doing so, the resource availability in terms of number of field investigators has been kept in view.</p>

Allocation of State/ UT level sample to rural and urban sectors: State/UT level sample size has been allocated between two sectors in proportion to population as per Census 2011 with double weightage to urban sector subject to the restriction that urban sample size for bigger states like Maharashtra, Tamil Nadu etc. do not exceed the rural sample size. A minimum of 16 FSUs (minimum 8 each for rural and urban sector separately) is allocated to each State/ UT.

Allocation to strata: Within each sector of a State/ UT, the respective sample size has been allocated to the different strata in proportion to the population as per Census 2011. Stratum level allocation has been adjusted to multiples of 2 with a minimum sample size of 2.

For special strata in the rural areas of Nagaland and A & N Islands, 4 FSUs has been allocated to each.

Allocation to sub-strata: Allocation for each sub-stratum has been 2 in both rural and urban sectors.

Selection of FSUs:

For the rural sector, from each stratum/sub-stratum, required number of sample villages have been selected by Probability Proportional to Size With Replacement (PPSWR), size being the population of the village as per Census 2011.

For the urban sector, from each stratum/sub-stratum, FSUs have been selected by Probability Proportional to Size With Replacement (PPSWR), size being the number of households of the UFS Blocks.

Both rural and urban samples have been drawn in the form of two independent sub-samples and equal number of samples has been allocated among the two sub rounds.

Selection of hamlet-groups/ sub-blocks - important steps

Criterion for hamlet-group/ sub-block formation: After identification of the boundaries of the FSU, it is to be determined whether listing will be done in the whole sample FSU or not. In case the approximate present population of the selected FSU is found to be 1200 or more, it will be divided into a suitable number (say, D) of 'hamlet-groups' in the rural sector and 'sub-blocks' in the urban sector by more or less equalising the population as stated below.

approximate present population of the sample FSU no. of hg's/sb's to be formed

less than 1200	(no hamlet-groups/sub-blocks)	1
1200 to 1799		3
1800 to 2399		4
2400 to 2999		5
3000 to 3599		6
.....and so on -		

For rural areas of Himachal Pradesh, Sikkim, Uttarakhand (except four districts Dehradun, Nainital, Hardwar and Udham Singh Nagar), Poonch, Rajouri, Udampur, Reasi, Doda, Kistwar, Ramban, Leh (Ladakh), Kargil districts of Jammu and Kashmir and Idukki district of Kerala, the number of hamlet-groups will be formed as follows:

approximate present population of the sample village no. of hg's to be formed

less than 600	(no hamlet-groups)	1
600 to 899		3
900 to 1199		4
1200 to 1499		5
1500 to 1799		6
.....and so on -		

Formation and selection of hamlet-groups/ sub-blocks: In case hamlet-groups/ sub-blocks are to be formed in the sample FSU, the same should be done by more or less equalizing population. Note that while doing so, it is to be ensured that the hamlet-groups/ sub-blocks formed are clearly identifiable in terms of physical landmarks.

Two hamlet-groups (hg)/ sub-blocks (sb) will be selected from a large FSU wherever hamlet-groups/ sub-blocks have been formed in the following manner - one hg/ sb with maximum percentage share of population will always be selected and termed as hg/ sb 1; one more hg/ sb will be selected from the remaining hg's/ sb's by simple random sampling (SRS) and termed as hg/ sb 2. Listing and selection of the households will be done independently in the two selected hamlet-groups/ sub-blocks. The FSUs without hg/ sb formation will be treated as sample hg/ sb number 1.

#### **Deviations from Sample Design**

There was no deviation from the original sample deviation.

#### **Response Rate**

No. of first stage units (f.s.u's) is 8269 and No. of Second stage units (s.s.u's) is 65926

#### **Weighting**

For generating any estimate, one has to extract relevant portion of the data, and aggregate after applying the weights.

Weights (or multipliers) VARIABLES are given at the end of record of each dataset. The weights (multipliers) are WGT\_SS for Sub-sample-wise estimation and WGT\_Combined for combined subsample estimates.

All records of a household will have same weight figure. In case of those Blocks/Levels, where Item/Person SI.No. is not applicable the field is filled up with 00000.

Use of subsample-wise weights (multipliers)

For generating subsample-wise estimates based on data of all subrounds taken together, either Subsample-1 households or Subsample-2 households are to be considered at one time. Subsample code is available in the dataset For generating subsample-combined estimates based on data of all subrounds taken together all households are to be considered.

#### **Questionnaires**

The Questionnaire consists of the following blocks:

Block 0: Descriptive identification of sample household

Block 1: Identification of sample household

Block 2: Particulars of field operations.

Block 3: Household characteristics

Block 4: Demographic and other particulars of household members

Block 5: Education particulars on basic course of those aged 5-29 years who are currently attending at primary level and above

Block 6: Particulars of expenditure (₹) for those aged 5-29 years, who are currently attending at primary level and above

Block 7: Particulars of currently not attending persons in the age group 5-29 years

Block 8: Remarks by investigator (FI/ASO)

Block 9: Comments by supervisory officer(s)
