## India () Employment and Unemployment Survey: NSS 38th Round : 1983

Overview	
Type	Socio-Economic/Household Survey
Identification	DDI-IND-MOSPI-NSSO-38Rnd-Sch10-1983
Version	Production Date: 2012-03-15 V1.0; Re-organised anonymised dataset for public distribution.
Series	The NSSO carried out the first quinquennial survey on employment - unemployment in the 27th round (September 1972 - October 1973). This first survey made a marked departure from the earlier employment surveys of NSSO in procedure and content. The concepts and procedure followed in this survey were primarily based on the recommendations of the 'Expert Committee on Unemployment Estimates' (1970). The next successive quinquennial survey was conducted in 32nd (July 1977 - June 1978) more or less followed an identical approach in the measurement of employment and unemployment. Continuing in this series this was the third quinquennial survey conducted as 38th round from January 1983-December 1983.
<b>Abstract</b>	
<p>The National Sample Survey Organization (NSSO) carried out the first country wide quinquennial survey on Employment and Unemployment during its 27th round survey operation (September 1972-October 1975). This survey marked the beginning of the renewed efforts of the NSSO in the collection of comprehensive data on employment and unemployment taking into consideration all the basic recommendations of the 'Expert Committee on Unemployment Estimates'(1970). The 27th round survey apart from collecting the required data to throw up three different rates of employment and unemployment, i.e. the 'usual status' rates based on the activities pursued during a long period in the past, any one year, the 'current weekly status' rates based on the data on activities pursued during and reference period of seven days (one week) preceding the date of survey and the 'current day status' rates based on the activities pursued on each day of the same seven days' (one week) period of reference, also attempted to elicit information on the extent of under utilization of labour time of those classified as employed, unemployed, unemployed, students, house workers etc. through separate sets of probing questions put to the relevant respondents. In the households at the time of investigation. The above three rates cross classified by different correlates, such as, sex, age, education, industry, occupation, residence status etc. revealed the different facets of the multi-dimensional character of the employment-unemployment situation in the country, particularly in the rural sector. The answers forthcoming to the probing questions, helped in obtaining further insight into the activity situation of the population. The Employment and Unemployment surveys of National sample Survey (NSS) are primary sources of data on various indicators of labour force at National and State levels. These are used for planning, policy formulation, decision support and as input for further statistical exercises by various Government organizations, academicians, researchers and scholars. NSS surveys on employment and un-employment with large sample size of households have been conducted quinquennially from 27th. round(October'1972 - September'1973) onwards. Cotinuing in this series the third such all-india survey on the situation of employment and unemployment in India was carried out during the period january 1983 - december 1983 .</p>	
Kind of Data	Sample survey data [ssd]
Unit of Analysis	Randomly selected households based on sampling procedure and members of the household

### Scope & Coverage

#### Scope

The ten year work programme of the NSSO visualizes conduct of the employment-unemployment survey quinquennially. The third survey in the series, accordingly, was carried out during 1983 in the 38th round

survey operations of the NSSO. The Working Group in making their recommendations considered various suggestions received from the Planning Commission, Labour Bureau, Central Statistical Organization, Institute of Applied Man Power Research, Institute of Social Studies Trust etc. and also from different Expert users. It also carefully examined the recommendations made in the panel discussions of the IAMR Conference of the Data users and Producers (April 1981) and the deliberations of the Technical Seminar on Womens' Work and Employment (April 1982). The results of the earlier two surveys so far released were also looked into. The important recommendations of the Working Group on the 38th round survey on Employment and Unemployment were:

- (i) As the question of comparability of the 38th round survey results with those pertaining to the second quinquennial survey (32nd round) was considered very important, the conceptual frame work adopted for the NSS 32nd round survey should be retained, as far as practicable, in the 38th round survey also and, in the main, the 38th round survey design, compared to the 32nd round survey design, should be a no change model;
- (ii) The 'Employment - Unemployment' and 'Consumer Expenditure' surveys should be carried out in the same set of sample households;
- (iii) The data on 'indebtedness of rural labour households' might be collected in the same manner as in the 32nd round.
- (iv) Information on migration characteristics of population might be collected with a view to studying its linkage with the level of employment, unemployment and the level of living of the population.

The NSSO Governing Council approved the recommendations of the working Group and also the schedule of the enquiry in its 32nd and 34th meetings held respectively during 25-26, February 1982 and 2nd July 1982,

#### Summary description of the Schedule:

The Schedule on Employment and Unemployment (Schedule 10) framed for the 38th round survey consisted of 15 blocks. The identification particulars of the sample village/block and the sample village/block and the sample households in which the survey schedules recorded in block 1.

Block 2.1 was meant for recording the particulars of field operations and block 2.2 for recording the processing particulars at the NSSO data processing centres.

Certain characteristics of the sample household meant to be used as classificatory variables in the tabulation of data, and information as to whether the same household has made any migratory movement or not during the last 365 days, etc. recorded in block 3.

The demographic particulars such as, age, sex, marital status, educational standard etc. and the particulars or current weekly activity obtaining during the seven days preceding the date of survey of all the normally resident members of the household and also the information as to whether some or all of them are migrants or not were recorded in block 4.1.

For those, identified accordingly to the criterion specified, as migrants in block 4.1, the various migration characteristics such as, period since migrated, reason for migration type of the last place of residence etc. were recorded in block 4.2.

Block 5 was meant for recording detailed day-to-day disposition of labour time of those classified as in the labour force according to current weekly activity status i.e., information on the various activities pursued on different days of the reference week by household members reported as 'working' and 'seeking and/or available for work' and the intensity in the quantitative terms, namely, 'full' and 'half' on each such activity.

The particulars of usual activity of each normally resident members of the sample household, information on the subsidiary gainful activity status of those classified as working, particulars of temporary stay aways who remained absent from household for 4 weeks or more for work etc. collected in block 6.

Block 7 used for recording the particulars of the marginal gainful activities normally pursued by all those classified in block 6 as usually 'not working' (excepting those reported to be 'too young').

The follow up question (probing questions) pertaining to the availability for 'additional work/'work' meant to be put to those classified as 'working', 'students', 'persons engaged in domestic duties' and 'pensioners/rentiers etc. 'kept in block 8. The answers of these questions were ascertained from the relevant member of the household and recorded in this block.

For persons classified as 'engaged in domestic duties', some further follow up questions were formulated and listed in block 9 with a view to collecting some additional information which might explain as to whether their usual attachment to domestic duties in voluntary or involuntary.

Particulars regarding the household indebtedness such as, amount of loan, its nature, source of borrowing etc. collected in block 10 only for the rural labour households

Block 11 was meant for recording the number of reporting lines/columns of the various blocks 3-10 of the schedules. Any relevant remarks of the investigators were recorded in block 12 and the comments by the supervisory officers in block 13.

<b>Keywords</b>	Employment, Unemployment, Indebtedness of rural labour, Usual principal activity, Usual subsidiary activity, Time disposition during the week, Migration
<b>Topics</b>	Labor Markets
<b>Universe</b>	
The survey used the interview method of data collection from a sample of randomly selected households and members of the household	

<b>Producers &amp; Sponsors</b>	
<b>Primary Investigator(s)</b>	National Sample Survey Office, M/o Statistics and Programme Implementation(MOSPI),Government of India (GOI)
<b>Other Producer(s)</b>	Survey Design Research Division (SDRD) , National Sample Survey Office , Questionnaire Desgn, Sampling methodology,Survey Reports Field Operations Division (FOD) , National Sample Survey Office , Field Work Data Processing Division (DPD) , National Sample Survey Office , Data Processing Computer Centre (CC,MOSPI) , M/o Statistics and Programme Implementation(MOSPI),Government of India (GOI) , Tabulation and Dissemination
<b>Funding Agency/ies</b>	M/o Statistics & Programme Implementation, GOI (MOSPI)
<b>Other Acknowledgment(s)</b>	Governing council and Working Group , Finalisation of survey study and Questionnaire , GOI

<b>Sampling</b>
<b>Weighting</b>
Three different weights are provided in each record of files in the data set. Details are as follows:-
1. Weight at stratum level is stored in Variable name : Wgt1_Strm.
2. Weight for each sub-round (Sub-round wise weight) is stored in Variable name : Wgt2_SS
3. Weight for each subsample (Sub-sample wise weight) is stored in Variable name : Wgt3_SR.
4. Weight for all Subrounds pooled and combined subsample weight is stored in Variable name : Wgt4_Pooled

<b>Data Collection</b>	
<b>Data Collection Mode</b>	Face-to-face [f2f]
<b>Data Collection Notes</b>	

The survey period of one year was divided into four equal sub-rounds of roughly 3 month duration each

### Questionnaires

The Schedule on Employment and Unemployment (Schedule 10) framed for the 38th round survey consisted of 15 blocks as given below.

Block-1 : Identification particulars of the sample village/block and sample households

Block 2.1: particulars of field operations

Block 2.2: processing particulars

Block 3: household characteristics

Block 4.1 : demographic and current activity particulars during the week

Block 4.2: Migration particulars

Block 5 : time disposition during the reference week

Block 6 : usual activity particulars

Block 7 : particulars of usual subsidiary gainful activity

Block 8: follow-up questions for the persons usual activity status codes 01-93 & 96

Block 9 : Follow-up questions for persons classified as usually engaged in domestic chores

Block 10: Household indebtedness

Block 11 : particulars of entries made in different blocks of the schedule

Block 12 : remarks by investigation

Block 13 : comments by supervisory officer

Scanned copy of the questionnaire attached as external resource may be seen.

# Files Description

Dataset contains 9 file(s)

<b>Block-1-3-Household-records</b>	
<b># Cases</b>	120921
<b># Variable(s)</b>	42
<b>File Structure</b>	Type: relational Key(s): Hhold_key (Key to identify household)
<b>File Content</b> Block-1 contains the identification particular of the sample village and block respectively for rural and urban areas. Certain household characteristics which are intended to be used as classificatory characters in tabulation, particulars regarding the extent of the use of hired labour for work in household enterprises and certain household migration characteristics etc. were collected in block-3.	
<b>Producer</b> NSSO	

<b>Block-41-Persons-Demogrphic-weelyActivity-records</b>	
<b># Cases</b>	623494
<b># Variable(s)</b>	29
<b>File Content</b> This block contains the demographic and the current activity status particulars during the week of all the normal members of the household. Besides that, the information as to whether the household members to be considered migrants according to certain laid down criterion were also collected in this block.	
<b>Producer</b> NSSO	

<b>Block-42-Persons-migration-records</b>	
<b># Cases</b>	623494
<b># Variable(s)</b>	29
<b>File Content</b> This block filled in for all the household members reported to have the place of enumeration (i.e. the sample village/town where the survey is carried out) different from the last usual residence. For all such household members, information pertaining to their last usual residence, reasons for the movement, demographic and activity particulars prior to movement etc. would be ascertained and recorded.(i.e.Migration particulars)	
<b>Producer</b> NSSO	

<b>Block-5-Persons-DailyActivity-records</b>	
<b># Cases</b>	546198
<b># Variable(s)</b>	35
<b>File Content</b>	

The information on the detailed labour time disposition of the normal members of the sample household who were either reported as 'working' or as 'seeking and/or available for work' during the reference period, the wages of salaries received or receivable by wage and salary earners during the same week and the duration of the current spell of unemployment for those classified as unemployed on all the seven days, etc. were recorded in this block.

# Variables Description

Dataset contains 284 variable(s)

File Block-1-3-Household-records			
<b>#1 Hhold_key: Key to identify household</b>			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=120921 /-] [Invalid=0 /-]		
Recoding and Derivation	This variable is derived for uniquely identifying a household by combining Sector,state,Region, FSU and Household serial number		
<b>#2 Sample: Sample</b>			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=120846 /-] [Invalid=0 /-]		
Definition	The samples surveyed by the NSSO staff are termed as Central sample and the matched samples surveyed by State Government staff are termed as State sample.		
Literal question	Central or State sample?		
Interviewer's instructions	Record 1 or 2 depending on whether the selected sample village/block is central sample or state sample		
<b>Value</b>	<b>Label</b>	<b>Cases</b>	<b>Percentage</b>
1	Central sample	120725	99.9%
2	State sample	0	0.0%
3	Invalid	0	0.0%
9		121	0.1%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
<b>#3 Sector: Sector</b>			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=120921 /-] [Invalid=0 /-]		
Literal question	Sector code?		
Interviewer's instructions	Record 1 or 2 depending on whether the selected sample village/block is classified as Rural or Urban		
<b>Value</b>	<b>Label</b>	<b>Cases</b>	<b>Percentage</b>
1	Rural	78615	65.0%
2	Urban	42306	35.0%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
<b>#4 State: State</b>			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=120921 /-] [Invalid=0 /-]		
Literal question	State Code?		
Interviewer's instructions	State to which the sample village/block belongs to will be recorded here as per the code list		
<i>Frequency table not shown (31 Modalities)</i>			
<b>#5 Region: Region</b>			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=120921 /-] [Invalid=0 /-]		
Literal question	Region code?		

<b>File Block-1-3-Household-records</b>			
<b>#5 Region: Region</b>			
<b>Interviewer's instructions</b>	Code this item as per code list		
<b>Value</b>	<b>Label</b>	<b>Cases</b>	<b>Percentage</b>
1	Region-1	40958	33.9%
2	Region-2	34059	28.2%
3	Region-3	23314	19.3%
4	Region-4	15362	12.7%
5	Region-5	5128	4.2%
6	Region-6	1480	1.2%
7	Region-7	620	0.5%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
<b>#6 Stratum: Stratum</b>			
<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]		
<b>Statistics [NW/ W]</b>	[Valid=120921 /-] [Invalid=0 /-]		
<b>#7 Vill_Blk_No: Sample Vill/Block No</b>			
<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]		
<b>Statistics [NW/ W]</b>	[Valid=120896 /-] [Invalid=0 /-]		
<b>#8 Sub_Sample: Sub-Sample</b>			
<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]		
<b>Statistics [NW/ W]</b>	[Valid=120912 /-] [Invalid=0 /-]		
<b>Literal question</b>	Sub-Sample code		
<b>Value</b>	<b>Label</b>	<b>Cases</b>	<b>Percentage</b>
0	0	0	0.0%
1	Sub-sample-1	60756	50.2%
2	Sub-sample-2	60151	49.7%
9	Invalid	5	0.0%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
<b>#9 Sub_Round: Sub-Round</b>			
<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]		
<b>Statistics [NW/ W]</b>	[Valid=120921 /-] [Invalid=0 /-]		
<b>Literal question</b>	Sub-Round no.		
<b>Value</b>	<b>Label</b>	<b>Cases</b>	<b>Percentage</b>
1	Sub-round-1	30359	25.1%
2	Sub-round-2	30140	24.9%
3	Sub-round-3	30037	24.8%
4	Sub-round-4	30385	25.1%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
<b>#10 FSU_SIno: Village-Block SIno(FSU)</b>			
<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]		
<b>Statistics [NW/ W]</b>	[Valid=120921 /-] [Invalid=0 /-]		

## File Block-1-3-Household-records

### #11 Hhold\_Slno: Sample Household No.

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120921 /-] [Invalid=0 /-]
<b>Literal question</b>	Sample Household number

### #12 B1\_q18: Informant Code

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120797 /-] [Invalid=0 /-]
<b>Literal question</b>	Informant Code
<b>Interviewer's instructions</b>	If the informant is the head of the household himself, '1' will be recorded here. Any other member of household providing information will be assigned code 2. Sometimes a non-member guest or a visitor of a household may act as the informant. In such cases code 9 will be recorded here.

Value	Label	Cases	Percentage
1	Head of Household	90966	75.3%
2	Other member of Hhold	28318	23.4%
8	Invalid	42	0.0%
9	Others	1471	1.2%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #13 B1\_q19: Type of Informant Code

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120794 /-] [Invalid=0 /-]
<b>Literal question</b>	Type of Informant Code
<b>Interviewer's instructions</b>	This item is provided to assess the extent of cooperation of the informant and will be recorded in terms of code number

Value	Label	Cases	Percentage
1	Co-operative &capable	88502	73.3%
2	Co-operative but not capable	29218	24.2%
3	Busy	1566	1.3%
4	Reluctant	1335	1.1%
9	Others	173	0.1%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #14 B1\_q20: Survey Code

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120631 /-] [Invalid=0 /-]
<b>Literal question</b>	Survey Code?
<b>Interviewer's instructions</b>	This item is provided to ascertain whether the selected household is a substitute one or is a casualty for the survey. Information will be recorded in terms of code number.

Value	Label	Cases	Percentage
1	Original hhold surveyed	118427	98.2%
2	Substitute hhold surveyed	2140	1.8%
3	Casualty	37	0.0%
9	Invalid	27	0.0%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

<b>File Block-1-3-Household-records</b>			
<b>#15 B1_q21: Reason for casualty code</b>			
<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]		
<b>Statistics [NW/ W]</b>	[Valid=805 /-] [Invalid=0 /-]		
<b>Literal question</b>	Reason for casualty?( code)		
<b>Interviewer's instructions</b>	If the original household is substituted or is a casualty for the survey, the reason for substitution/casualty will be recorded in terms of code number		
<b>Value</b>	<b>Label</b>	<b>Cases</b>	<b>Percentage</b>
1	Informant busy	131	16.3%
2	Members away from home	417	51.8%
3	Informant non co-operative	83	10.3%
8	Invalid	144	17.9%
9	Others	30	3.7%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
<b>#16 B3_q1_hh_size: Household Size</b>			
<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 1-40] [Missing=*]		
<b>Statistics [NW/ W]</b>	[Valid=120885 /-] [Invalid=36 /-] [Mean=5.175 /-] [StdDev=2.747 /-]		
<b>Literal question</b>	Household Size?		
<b>Interviewer's instructions</b>	The number of normally resident members of a household is its size. It will include temporary stay-aways but exclude temporary visitors and guests. Even though the determination of the actual composition of a household will be left to the judgement of the head of the household.		
<b>#17 B3_q2: Principal Ind.occupationCode</b>			
<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]		
<b>Statistics [NW/ W]</b>	[Valid=115780 /-] [Invalid=0 /-]		
<b>Literal question</b>	Household Principal Industry and occupationCode		
<b>Interviewer's instructions</b>	The entry against this item will be recorded in terms of six digit code numbers of which the first three left hand digits will refer to the appropriate 'industry group' and the next three to the relevant 'occupation family' of the NIC, 1970 and NCO 1968 respectively.		
<b>#18 B3_q3: Household Type</b>			
<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]		
<b>Statistics [NW/ W]</b>	[Valid=120921 /-] [Invalid=0 /-]		
<b>Literal question</b>	Household Type code		
<b>Interviewer's instructions</b>	At the listing stage, for the rural areas, all the households will be categorized under three groups namely (i) households self-employed in non-agriculture, (ii) regular labour households and (iii) other households, depending on their means of livelihood. As regards the urban households, for recording the appropriate household type codes, the 'self-employment' codes assigned in column (5), block 6 of schedule 0.2 will be copied against item 3 for the respective sample households. The codes to be used are: self-employed households-1, other households-9		
<b>Value</b>	<b>Label</b>	<b>Cases</b>	<b>Percentage</b>
00	NR	12	0.0%
11	Self-employed in Non-agricultural occupations(rural)	8850	7.3%
12	Agricultural labour households(rural)	21861	18.1%
13	Other labour households(rural).	5407	4.5%
14	Agricultural occupations(rural)	34420	28.5%
19	Other households(rural)	8066	6.7%
21	Self employed households (urban area)	14877	12.3%

## File Block-1-3-Household-records

### #18 B3\_q3: Household Type

Value	Label	Cases	Percentage
29	Other households(urban area)	27428	22.7%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #19 B3\_q4\_relgn: Household Religion code

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120909 /-] [Invalid=0 /-]
<b>Literal question</b>	Household Religion code
<b>Interviewer's instructions</b>	The code of the particular religious faith which the head of the household follows, will be recorded here.

Value	Label	Cases	Percentage
1	Hinduism.	95196	78.7%
2	Islam.	14663	12.1%
3	Christianity	5987	5.0%
4	Sikhism.	2752	2.3%
5	Jainism.	433	0.4%
6	Buddhism.	988	0.8%
7	Zoroastrianism	30	0.0%
9	Others.	860	0.7%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #20 B3\_q5\_hh\_grup: Household Group Code

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120912 /-] [Invalid=0 /-]
<b>Literal question</b>	Household Group Code
<b>Interviewer's instructions</b>	For making entry against this item, it will have to be ascertained whether the household belongs to schedule tribe, scheduled caste or neo-Buddhist and accordingly the respective codes 1, 2 or 3 will be recorded.

Value	Label	Cases	Percentage
1	Scheduled tribe	12723	10.5%
2	Scheduled caste	18628	15.4%
3	Neo-Buddhist.	576	0.5%
9	Others.	88985	73.6%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #21 B3\_q6: Home-stead code

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120909 /-] [Invalid=0 /-]
<b>Literal question</b>	Home-stead type code
<b>Interviewer's instructions</b>	If the homestead (house and house site) is owned by the household, code '1' will be entered in the box space provided against this item. But, if that is not owned by otherwise possessed, code 2 will be recorded.

Value	Label	Cases	Percentage
1	Owned	92790	76.7%
9	Others	28119	23.3%

<b>File Block-1-3-Household-records</b>	
<b>#22 B3_q7: Land Owned(0.00 acres)</b>	
<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 0-9005.56] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120902 /-] [Invalid=19 /-] [Mean=3.285 /-] [StdDev=88.467 /-]
<b>Definition</b>	A piece of land is considered to be owned by the household if permanent heritable possession with or without the right to transfer the title is vested in a member or the members of the household. Land held in owner like possession say, under perpetual lease, hereditary tenure, long term leases for 30 years or more etc. will also be considered as land owned. For a piece of land under the possession of the household, if the household lacks title of ownership and also it does not have any lease agreement for the use of land transacted either verbally or in writing, such land will be considered as neither owned nor leased in. In collecting information regarding 'land possessed', the actual position as obtained on the date of survey will be considered.
<b>Literal question</b>	Land Owned(0.00 acres)
<b>Interviewer's instructions</b>	The area of land (in 0.00 acres) 'owned', 'leased in' in 'neither owned nor leased in' and 'leased out' by the household as on the date of survey will be ascertained and recorded against the items 7,8,9 and 10 respectively. The total land area possessed by the household will be worked out as items 7+8+9-10 and recorded the against item 11 in 2 places of decimal.
<b>#23 B3_q8: Land Leased in(0.00 acres)</b>

### #34 B3\_q19: Household mpce last month (Rs.0.00)

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 0-97200] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120600 /-] [Invalid=321 /-] [Mean=170.729 /-] [StdDev=1002.988 /-]
<b>Literal question</b>	Household monthly per capita expenditure last month (Rs.0.00)
<b>Interviewer's instructions</b>	The per capita expenditure (in rupees correct to two places of decimal) of the household incurred during the last 30 days preceding the date of survey, will be recorded against this item. Detailed information on total household consumption expenditure is being collected through the household consumer expenditure schedule 1.0 from all sample households in which schedule 10 are canvassed. The per capita expenditure is calculated and recorded against item 11, block 3.1 of schedule 1.0. This entry will be copied against item 30 of block 3 in schedule

### #35 B3\_q20: Hhold moved to village/Town of enumeration ?

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=120921 /-] [Invalid=0 /-]
<b>Literal question</b>	Whether the household moved to village/Town of enumeration ?
<b>Interviewer's instructions</b>	It is to be ascertained from each sample household whether the entire household has moved from a different place during the last 365 days preceding the date of survey, to the sample village/own of enumeration. If the answer is in the affirmative, code 1 will be recorded against this item. If the answer is in the negative, code 2 will be recorded. It may be noted that any movement irrespective of the reason will be considered for making entry against this item. In some cases, on member of the household might have moved first and the other members might have joined/him her later. Such a movement will also be considered as movement of the household for making entry against this item. It may so happen that in certain cases, some addition to the household by way of births, marriages etc. might have taken place after the movement. Even then the entered household would be considered to have moved to the place of enumeration.

Value	Label	Cases	Percentage
1	Yes	2561	2.1%
2	No	118360	97.9%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #36 B3\_q21: Type of last residence

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
--------------------	---

## File Block-1-3-Household-records

### #36 B3\_q21: Type of last residence

<b>Statistics [NW/ W]</b>	[Valid=2881 /-] [Invalid=0 /-]
<b>Literal question</b>	Type of last residence (place)
<b>Interviewer's instructions</b>	This item and the subsequent items 22 and 23 will be filled in only for those households which are reported to have moved to the village/town of enumeration from some other place during the last 365 days (i.e. for those households with entry 1 against item 20). For such a household the type of last place of residence (i.e.) the type of place of enumeration will be recorded in terms of the specified codes against item 21.

Value	Label	Cases	Percentage
0	NR	320	11.1%
1	Rural areas of the same district	950	33.0%
2	Urban areas of the same district	469	16.3%
3	Rural areas of other districts of the same state	354	12.3%
4	Urban areas of other districts of the same state	295	10.2%
5	Rural areas f other states	245	8.5%
6	Urban areas of other states	224	7.8%
7	Other countries	24	0.8%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #37 B3\_q22: Movement temporary or permanent

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=2881 /-] [Invalid=0 /-]
<b>Pre-question</b>	Is Q.20 = 1? Then ask.
<b>Literal question</b>	Whether the movement was temporary or permanent?
<b>Post-question</b>	If Q.20 not =1 skip
<b>Interviewer's instructions</b>	The information as to whether the present movement was a temporary one or a permanent one would be recorded against item 22. For this purpose, the movement would be considered permanent if the household either stayed or intended to stay for six months or more at the place of enumeration. For such households, code '3' will be recorded against this item. For the other households (i.e. those reporting the movement as not permanent but temporary), it has to be further ascertained whether the movement was a seasonal one or not. For those households reporting the movement as seasonal, code 1 and for the other code 2 will be entered.

Value	Label	Cases	Percentage
0	NR	320	11.1%
1	Seasonal	463	16.1%
2	Non-seasonal	639	22.2%
3	Permanent	1459	50.6%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #38 B3\_q23: Reason for movement?

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=2881 /-] [Invalid=0 /-]
<b>Pre-question</b>	Is Q.20 = 1? Then ask.
<b>Literal question</b>	Reason for movement?
<b>Post-question</b>	If Q.20 not =1 skip
<b>Interviewer's instructions</b>	For each household reporting movement, the reason for the movement will be recorded in terms of the specified codes against this item. The reason will relate to the main bread-winner of the household. If the movement is made to look for work or to take up work or to take up better work-in all these cases, code 1 will be recorded. If the movement is made in connection with the occupation pursued prior to movement, code 2 will be recorded. For all other reasons, code 9 will be entered.

## File Block-1-3-Household-records

### #16 B41\_q7: Marital Status

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #17 B41\_q8: General Education

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=623494 /-] [Invalid=0 /-]
<b>Literal question</b>	Educational standard code - General
<b>Interviewer's instructions</b>	Information regarding the general and technical education attained by the normal members of the household listed in col. (1) will be recorded in columns (8) and (9) respectively in terms of the specified code numbers. For the purpose of making entries in these columns only the course successfully completed will be considered. For instances, for a person who has studied up to say, first year B.A., his educational attainment will be considered only secondary (code number 5). Also, for a person who has studied up to 12th standard but has not sat for the final examination or has failed or ever passed in the examination, his educational attainment will be considered 'secondary' only. The relevant codes to be used for recording entries in these two columns.

Value	Label	Cases	Percentage
00	Not literate.	342838	55.0%
01	literate without formal Schooling	13945	2.2%
02	Literate but below primary.	85831	13.8%
03	Primary.	77513	12.4%
04	Middle	53125	8.5%
05	Secondary.	37362	6.0%
06	Graduate and above in: Agriculture.	845	0.1%
07	Graduate and above in: engineering/technology	509	0.1%
08	Graduate and above in: Medicine.	389	0.1%
09	Graduate and above in: Other subjects.	10228	1.6%
99	Invalid	909	0.1%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #18 B41\_q9: Technical Education

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=623494 /-] [Invalid=0 /-]
<b>Literal question</b>	Educational standard code - Technical
<b>Interviewer's instructions</b>	See Q.9 for details

Value	Label	Cases	Percentage
10	Additional diploma/certificate: agriculture.	133	0.0%
11	Additional diploma/certificate: Engineering/technology.	1474	0.2%
12	Additional diploma/certificate: Medicine.	593	0.1%

14	Additional diploma/certificate: Other subjects.	3602	0.6%
15	No technical education.	616871	98.9%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #19 B41\_q11: No. of years of formal Education

<b>Information</b>	[Type= continuous] [Format=numeric] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=623494 /-] [Invalid=0 /-]
<b>Literal question</b>	No. of years of formal Education
<b>Interviewer's instructions</b>	The number of years a person has to attend on educational institution to pass a class, level or grade of education - both general and technical - excluding the number of years spent in pre-primary education (below standard

## File Block-41-Persons-Demogrphic-weelyActivity-records

### #19 B41\_q11: No. of years of formal Education

one) will be recorded for each member rounded off to the nearest integer. Thus, for a person who is either studying in class XI has failed in class XI and has discontinued the education thereafter, the entry will be '10'. Similarly for a person studying say, in the second year of the degree course, the number of years to be recorded will be '13' (10+2+1) or for a person who has completed 9 months' technical education after passing class XII, the entry will be '13'. For those who pursued the old system of education, the number of years required would have to be worked out in the same manner. It may, however, be noted that the years spent for a person's attending some level or grade of education through correspondence course or through private study and passing out the level or grade as private or external candidate will not be counted for recording the 'number of years of formal education'. For example, if a person has passed class XII through attending an educational institution and then completed his graduation and post-graduation as a private candidate the 'number of years' to be recorded will only be 12.

### #20 B41\_q12: Education Institution Enrolment-etc. Code

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=619935 /-] [Invalid=0 /-]
<b>Literal question</b>	current enrolment in education institutions and course of study
<b>Interviewer's instructions</b>	For all persons listed in column (1), it will be first ascertained whether the person is currently enrolled in any educational institution or not. A person will be considered to be currently enrolled in an educational institution if he or she is in the rolls of an educational institution for any course of study which will lead to the person's obtaining a degree/diploma/certificate on successful completion of the course of study

Value	Label	Cases	Percentage
01	Currently not enrolled in any educational institution	501028	80.8%
02	Pre-primary.	20975	3.4%
03	Primary.	46272	7.5%
04	Middle.	25378	4.1%

<b>#14 Person_slno: Serial No. of person(B5_Q1)</b>			
<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]		
<b>Statistics [NW/ W]</b>	[Valid=546198 /-] [Invalid=0 /-]		
<b>Literal question</b>	Serial No. of person		
<b>Interviewer's instructions</b>	The serial numbers of the household members enumerated and assigned any of the 'status' codes 01-82 in col. 14 of block 4.1 will be entered in this column. For each such person, the detailed day-to-day labour time disposition and other related particulars will be collected in subsequent columns of this block. Since one working person may pursue more than one activity during the seven days of the reference week for each serial number recorded in column 1, four lines have been provided for making separate entries relevant for the reference intensities on different days.		
<b>#15 Activity_slno: Serial No. of current day Activity(B5_Q2)</b>			
<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]		
<b>Statistics [NW/ W]</b>	[Valid=546198 /-] [Invalid=0 /-]		
<b>Literal question</b>	Serial No. of current day Activity		
<b>Interviewer's instructions</b>	For each person listed in column 1, the different activities pursued by them during all the seven days of the reference week will be serially numbered and this serial number of activity will be recorded in column(2).		
<b>#16 B5_q3: Status code of current dayActivity</b>			
<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]		
<b>Statistics [NW/ W]</b>	[Valid=318676 /-] [Invalid=0 /-]		
<b>Literal question</b>	Status code of current dayActivity		
<b>Interviewer's instructions</b>	The current activity 'status' codes corresponding to the serial number of activity entered in column (2) will be recorded in this column. Although it may be theoretically possible that on a particular day of the reference week, a person may have any number of activities, the particulars relating to two activities need only be considered for making entries in this column. Thus on a day, a person may either have only one activity with 'full' intensity or two activities with 'half intensity for each. If the activity is pursued with intensity 'half' on a particular day, the entry will be 0.5 against that activity and if that is pursued with intensity more than half, 1.0 will be recorded against that activity in the relevant columns (6) - (12). The decision whether the intensity to be recorded for an activity will be 0.5 or 1.0 has to be taken by the investigating staff making careful probes into the actual situation obtaining for the person on a particular day.

<b>Literal question</b>	Wages and salary earnings (received or receivable) for the work done during th week- CASH
<b>Interviewer's instructions</b>	The wage and salary income (not total earnings) receivable for the wage/salaried work done during the reference week, separately for each of the relevant activities and the total for each person will be recorded in these columns. The relevant status codes for which wage & salary earnings are to be recorded are 31,41,51 and 71. The wages and salaries for the work done during the reference week may be already received or may be receivable in cash or in kind or partly in cash and partly in kind. The total wage or salary received or receivable for the week in cash will be recorded in column (14) and the value (evaluated at the current retail price) of salary or wages in kind received or receivable will be recorded in column (15). The total of columns (14) and (15) will be entered in column (16). The entries for all these columns will be made in 2 places of decimal. For recording the wages or salaries amount receivable as 'over time' for the additional work done beyond normal working time will be ignored. Bonus (expected or paid) and perquisites evaluated at retail prices duly apportioned for the reference week will be considered as wages and included for making entries in these columns. For the activity status '71', the amount receivable for the week will be worked out on the basis of the number of days reported under that activity during the week.

### #12 Person\_slno: Serial No. of person

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=623494 /-] [Invalid=0 /-]
<b>Literal question</b>	Serial No. of person
<b>Interviewer's instructions</b>	All he normally resident members of the household enumerated in block 4.1 will again be listed in this column in the same serial order as that of column (1) of block 4.1. In fact, the serial number assigned for each member in block 4.1 will be copied in this column in the same order as done earlier for block 4.1.

### #13 B6\_q2: Principal usual Activity status (UAS)Code

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=623494 /-] [Invalid=0 /-]
<b>Literal question</b>	Principal usual Activity status (UAS)Code
<b>Interviewer's instructions</b>	: For determining the principal usual activity status of a person, the reference period to be used will be the 365 days preceding the date of survey. As mentioned earlier, the broad activity status of the person will first be determined adopting the 'relatively of the three-broad activity status, such as 'working', 'seeking and/or available for work' and 'neither working long' or 'major time' criterion. Thus, the broad usual activity status of a person will be the one out nor available for work' on which relatively long period was spent by the person during the 365 days preceding the date of survey. After determining the broad status, the detailed activity status within the broad group will again be determined adopting again the 'relatively long' or 'major time' criterion. The detailed activity status, thus determined, will be the principal usual activity status of the person. The code corresponding to this activity status will be recorded

Value	Label	Cases	Percentage

### #15 B6\_q5: UAS- Industry (NIC)

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=224566 /-] [Invalid=0 /-]
<b>Literal question</b>	Principal Industry (NIC) code
<b>Interviewer's instructions</b>	For all those reported as working ( i.e. those with the status codes 01-51 in column (2) the description of the sector of activity i.e., the industry and the corresponding function of work i.e. the occupation in which the engaged, will be recorded in column (4). The relevant 3 digit industry group code (NIC, 1970) and the 3 digit industry group code (NIC, 1970) and the 3 digit occupation family code (NCO, 1968) will be respectively entered in columns (5) & (6).

## File Block-6-Persons-UsualActivity-records

### #16 B6\_q6: UAS-Occupation (NCO)

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=224326 /-] [Invalid=0 /-]
<b>Literal question</b>	Principial Occupation (NCO) code
<b>Interviewer's instructions</b>	See Q.5 for details

### #17 B6\_q7: Usual subsidiary activity-status

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=77607 /-] [Invalid=0 /-]
<b>Literal question</b>	If the person had any subsidiary gainful usual activity, Status code
<b>Interviewer's instructions</b>	It has to be ascertained, for all those with principal usual status 'working' ( i.e. those with the status codes 01-51 in column (2), whether or not they had any subsidiary gainful usual activity other than the one reported as the principal one.To illustrate, a person categories 'working' may be engaged in two or more gainful activities, say, 'self-employment' and 'casual wage labour' and relatively long time is spent on the latter. In this case, the principal usual activity will be the status of 'self-employment'. After-determining the subsidiary gainful usual activity status, the corresponding status code will be recorded in column (7). The industry division code relevant to the status recorded in column (7) will be recorded in column (8). The description of the industry-occupation combination relating to the subsidiary gainful activity will be recorded in column (9) and the corresponding 3 digit industry group code (NIC 1970) and the 3 digit occupation family code (NCO, 1968) will be respectively recorded in columns (10) and (11). It may be noted that if the principal usual activity status is other than those groups under 'working' ( i.e. status codes other than 01-51) for a person, columns (7)-(11) will not be filled in for his/her.

*Frequency table not shown (50 Modalities)*

## File Block-7-Persons-Notworking-subsiary-activity-record

### #13 B7\_q2: Principal usual Activity status (UAS)Code

**Interviewer's instructions** For each person enumerated in column (1), the usual activity status code as assigned to him or her in column (2) of block 6 will be copied in this column.

Value	Label	Cases	Percentage
81	Sought work.	7500	2.8%
82	Did not seek but was available for work.	0	0.0%
91	Attended education institution.	116267	42.7%
92	Attended domestic duties only.	74983	27.5%
93	Attended domestic duties and was also Engaged in free collection of good, sewing, tailoring, weaving etc. for household use	45821	16.8%
95	Old and disabled.	20118	7.4%
96	Rentiers, pensioners, remittance recipients etC.	2431	0.9%
97	Beggars, prostitutes, etc.	478	0.2%
98	Others.	4889	1.8%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #14 B7\_q3: Engaged in subsidiary work?

**Information** [Type= discrete] [Format=character] [Missing=\*]

**Statistics [NW/ W]** [Valid=272449 /-] [Invalid=0 /-]

**Literal question** Whether engaged on a regular basis in any gainful work in subsidiary capacity?

**Interviewer's instructions** For recording entries in this column, it will be ascertained whether or not the persons enumerated in column (1) were engaged in any gainful activity in their subsidiary capacity during the 365 days preceding the date of survey, or in other words whether or not they did some gainful work, more or less regularly even though intermittently, for a shorter duration of time during the reference period of 365 days preceding the date of survey. For person who pursued some gainful activities in their subsidiary capacity, code 1 will be recorded in this column. For others who did not have any subsidiary gainful activities during the period, code 2 will be recorded. It may be noted that engagement in gainful activities in the subsidiary capacity may arise out of two situations (i) a person may be engaged for relatively a long period during the last 365 days in non-gainful activity and for the remaining period engaged in gainful activities, (ii) a person may be pursuing non-gainful activities in the principal capacity throughout the year but only for a relatively shorter time. For the purpose of recording entries in this block, for both the situations illustrated above, the person will be considered to have pursued some subsidiary gainful activity, although according to the relatively long time criterion of determining the principal usual status, he/she has been categorized 'not working' in block 6.

Value	Label	Cases	Percentage
1	Yes	27376	10.0%
2	No	245073	90.0%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #15 B7\_q7: Usual subsidiary activity-status

**Information** [Type= discrete] [Format=character] [Missing=\*]

**Statistics [NW/ W]** [Valid=27378 /-] [Invalid=0 /-]

**Pre-question** If Q.3 =1 then ask

**Post-question** if Q5=1 skip

**Interviewer's instructions** For persons having code 1 in column (3), the 'status' codes of the gainful activities pursued by them in their subsidiary capacity will be recorded in column (4) and the corresponding 'industry division' codes will be recorded in column (5). In the situation 'when a person has been found to have pursued more than one gainful activity on which more time had been spent would be considered for recording the entries in these columns.

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=225224 /-] [Invalid=0 /-]
<b>Pre-question</b>	Ask this Question if activity status (Q.2) is 01:51 only
<b>Literal question</b>	Were you more or less fully engaged in work for the last 365 days?
<b>Interviewer's instructions</b>	The question-'were you more or less fully engaged in work during the last 365 days?' listed in item 4-will be put only to those categorized usually 'working' (i.e. those with status codes 01-51 recorded against item 2) with a view to finding out whether the person considers himself/herself as having enough work to keep himself/herself busy in that work almost throughout the year. If the answer to the question is in affirmative, code-1 and if in the negative, code-2 will be entered against this item.

Value	Label	Cases	Percentage
1	Yes	199162	88.4%
2	No	26056	11.6%
9	Invalid	6	0.0%

### #18 B8\_q5: Seeking or available for work for the firsttime ?

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=11323 /-] [Invalid=0 /-]
<b>Pre-question</b>	Ask this Question if activity status (Q.2) is 81 only
<b>Literal question</b>	Were you seeking or available for work for the first time?
<b>Interviewer's instructions</b>	The question- 'were you seeking or available for work for the first time?' listed against item 5- will be put to only those who have been classified as 'seeking and/or available for work' according to usual status (i.e. those with usual activity status code 81). The answer obtained will be recorded in code numbers (yes-1, no-2) against this item in the relevant box space.

## File Block-8-Persons-Addl-Questions-UsualActivity-records

### #18 B8\_q5: Seeking or available for work for the firsttime ?

Value	Label	Cases	Percentage
1	Yes	6292	55.6%
2	No	4945	43.7%
9	Invalid	86	0.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### #19 B8\_q6: Seeking or available for work/additional work

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=471768 /-] [Invalid=0 /-]
<b>Pre-question</b>	Do not ask if activity status is 81.
<b>Literal question</b>	Were you seeking or available for work/addition work?
<b>Interviewer's instructions</b>	It may be noted that the persons for whom this set of follow-up questions are meant can broadly be divided into two groups - (i) those who had some work during the reference year (i.e. persons with usual status codes 01-51 and 81-93 & 96 with some usual subsidiary gainful activity) and (ii) those who had no work during the reference year (i.e. persons with usual activity status codes 81-93 & 96 with no usual subsidiary gainful activity). It is expected that the first group, if at all willing, will normally opt for 'additional work' and to this group, therefore, the question to be put will be 'were your seeking of available for addition work?' To the second group, naturally, the question 'whether they were seeking of available for work' will be asked. Demanding on the answer obtained, the entry will be made against this item in terms of the code number '1' for 'yes' and '2' for 'no'. For persons categorized 'seeking and/or available for work' according to usual status (i.e. persons with status code 81, the question need not be asked again. For them code = 1 will simply be recorded.

Value	Label	Cases	Percentage
1	Yes	52276	11.1%
2	No	419492	88.9%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### #20 B8\_q7: Effort to get work/ Additional work-

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=52279 /-] [Invalid=0 /-]
<b>Literal question</b>	What effort did you make to get work/ Additional work?
<b>Interviewer's instructions</b>	For persons reporting as 'seeking or available for work/additional work', it will be ascertained what efforts they have made to get the work. If a person is found to have been on the live register of the employment exchange, code 1 will be recorded for the person against this item. Concurrently, if he or she has made some other efforts to get work, like contacting prospective employers, responding to advertisement etc., priority will be given to 'registration with employment exchange' and in such cases also, code 1 will be recorded. For a person who is currently not in the live register of the employment exchange but has made other efforts to get work, code 2 will be assigned. If no effort has been made, code 3 will be recorded.

Value	Label	Cases	Percentage
1	Currently in the live register of Employment exchange	3095	5.9%
2	Made other efforts	47874	91.6%
3	Made no efforts	1310	2.5%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### #21 B8\_q8: How long seeking for work/Additionalwork?

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=51834 /-] [Invalid=0 /-]
<b>Literal question</b>	How long seeking for work/Additionalwork?
<b>Interviewer's instructions</b>	For persons who have answered in the affirmative to the question listed against item 6, the information on the period for which they are seeking or available for work/additional work will be ascertained and recorded against item 8 in terms of appropriate code numbers

## File Block-8-Persons-Addl-Questions-UsualActivity-records

### #21 B8\_q8: How long seeking for work/Additionalwork?

Value	Label	Cases	Percentage

<b>Statistics [NW/ W]</b>	[Valid=15609 /-] [Invalid=0 /-]		
<b>Literal question</b>	Source of loan/Debt		
<b>Interviewer's instructions</b>	The information regarding the source of each loan will be recorded in this column in terms of code numbers.		
<b>Value</b>	<b>Label</b>	<b>Cases</b>	<b>Percentage</b>
0	NR	15	0.1%
1	Government.	514	3.3%
2	Co-operative society	1365	8.7%
3	Bank	1191	7.6%
4	Employer/landlord.	2477	15.9%
5	Agricultural/professional money lender	4084	26.2%

## File Block-10-Household-Loan-records

### #17 B10\_q4: Source of loan/Debt

Value	Label	Cases	Percentage
6	Shop-keeper/trader	2361	15.1%
7	Relatives/friends	2559	16.4%
9	Others	1043	6.7%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #18 B10\_q5: Purpose of Loan/Debt

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=15592 /-] [Invalid=0 /-]
<b>Literal question</b>	Purpose of Loan/Debt
<b>Interviewer's instructions</b>	The purpose for which the loan has been contracted by the household will be recorded in this column in terms of codes. If a particular loan is taken to meet more than one purpose, the purpose for which large part of the loan is intended to be utilized will be considered for recording entries against this column

Value	Label	Cases	Percentage
0	NR	1	0.0%
1	Medical expenses.	2124	13.6%
2	Educational expenses	112	0.7%
3	Legal expenses.	60	0.4%
4	Other consumption expenses .	6784	43.5%
5	Marriage and other are ceremonial occassions	2135	13.7%
6	Purchase of land and construction of buildings	844	5.4%
7	Productive purposes	2603	16.7%
8	Repayment of debt	136	0.9%
9	Others.	793	5.1%

*Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.*

### #19 Wgt1\_strm: Multiplier-1 (Stratum level)

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 20-42793] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=42853 /-] [Invalid=0 /-] [Mean=1390.081 /-] [StdDev=911.111 /-]

### #20 Wgt2\_SS: Multiplier-2 (Sub-Sample level)

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 31-85585] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=42853 /-] [Invalid=0 /-] [Mean=2776.54 /-] [StdDev=1817.684 /-]

### #21 Wgt3\_SR: Multiplier-3 (Sub-round level)

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 0-76643] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=42853 /-] [Invalid=0 /-] [Mean=5523.041 /-] [StdDev=3233.289 /-]

### #22 Wgt4\_pooled: Multiplier-4 (for combinedestimates)

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 20-42793] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=42853 /-] [Invalid=0 /-] [Mean=1390.081 /-] [StdDev=911.111 /-]
